5. Tiny Homes to be Included in the Laneway Housing Inventory (item 9.1)

(Green/Farr)
WHEREAS, the number of individuals estimated to use emergency shelters (annually): 5653 (2013) 20,000 Homes Campaign- People without permanent housing: 454 (April 2015) The Aboriginal Point-in-Time Count: 131 people without permanent housing (February 2015);

WHEREAS, at its meeting on March 1st, 2016, Planning Committee approved Ward 2 Councillor Jason Farr’s following motion:

“That staff prepare a report and presentation to Committee on the current inventory and policies related to ‘Laneway Housing’ in Hamilton.”

In report Laneway Housing Inventory (PED16200) (City Wide) now listed on (Outstanding Business List Item);

WHEREAS, a laneway home is typically a small, detached home located at the centre of the block and fronting a laneway. Laneway homes are a form of secondary suite typically created through the conversion of an existing accessory building or new construction separate from the principal dwelling. In most cases they are located on the same lot as the principal building, however in some examples they are located on a separate lot with frontage only onto the laneway;

WHEREAS, the Strong Communities Through Affordable Housing Act, 2011 amended the Planning Act, 1990 to improve the affordable housing system. Section 2 of the Planning Act, 1990 was amended to further identify affordable housing as a matter of provincial interest. The amendments also included enhanced provisions for garden suites and second units;
WHEREAS, as per the March 1st Report- Laneway housing would not be considered under the provisions of a garden suite, as by definition, the housing created through laneway units would be both permanent and within a structure that is not moveable. Secondary units are an additional separate dwelling unit on a property that would normally accommodate only one dwelling unit. Laneway homes are therefore instead considered a form of secondary unit, one that if pursued under a detailed policy framework, will require its own planning analysis and approval;

WHEREAS, the objective of the “Starting Human” proposal to assist the Houseless in Los Angeles, with Tiny House Shelters as an immediate bridge between the living in the rough and more permanent housing and are vital to the humane treatment and survival of the human beings in our communities who have lost their place of residence;

WHEREAS, Cass Community Social Services located in Detroit Michigan, is in the process of building 25 different Tiny Homes (250-400sf) on the north end of its campus between the Lodge service drive and Woodrow Wilson. Each home will be on its own lot (roughly 30 x 100 feet) and every one will be on a foundation. Most will have a front porch or rear deck to increase the living space. The residents will have a combination of experiences (formerly homeless people, senior citizens, college students and a few Cass staff members) but all will qualify as low-income. At first, the residents will rent the homes. Anyone who remains for seven years will be given the opportunity to own the home and property;

WHEREAS, the Second Winds Cottage located in Newfield New York provides an alternative to The Ithaca Rescue Mission which offers a dormitory-style living arrangement and shorter term housing. As an emergency shelter, they provide for a specific need. The goal of Second Wind is to provide an environment for men to have their lives restored and permanently changed. This can be a slow process, but they believe independent living, where each resident can have privacy, is the best way for this holistic transformation to happen. We want the residents to take pride in their own home and be able to adjust from homelessness at their own pace. Each occupant has his own private bedroom, kitchen and bathroom;

WHEREAS, Good Shepherd and the Social Housing and Research Council of Hamilton (SPRC) are planning an as-yet-unnamed project to offer up duplexes of tiny units for women in danger of homelessness;

WHEREAS, the Quito Implementation Plan for the United Nation’s New Urban Agenda identifies that SUSTAINABLE URBAN DEVELOPMENT FOR SOCIAL INCLUSION AND ENDING POVERTY (Appendix “A”) includes the following:

25. “We recognize that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an
indispensable requirement for sustainable development. We also recognize that the growing inequality and the persistence of multiple forms and dimensions of poverty, including the rising number of slum and informal settlement dwellers, is affecting both developed and developing countries, and that the spatial organization, accessibility, and design of urban space, as well as infrastructure and basic service provision, together with development policies, can promote or hinder social cohesion, equality, and inclusion.”

27. We reaffirm our pledge that no one will be left behind, and commit to promote equally shared opportunities and benefits that urbanization can offer, and enable all inhabitants, whether living in formal or informal settlements, to lead decent, dignified, and rewarding lives and to achieve their full human potential.

97. We will promote planned urban extensions, infill, prioritizing renewal, regeneration, and retrofitting of urban areas, as appropriate, including upgrading of slums and informal settlements, providing high-quality buildings and public spaces, promoting integrated and participatory approaches involving all relevant stakeholders and inhabitants, avoiding spatial and socio-economic segregation and gentrification, while preserving cultural heritage and preventing and containing urban sprawl.

107. We will encourage developing policies, tools, mechanisms, and financing models that promote access to a wide range of affordable, sustainable housing options including rental and other tenure options, as well as cooperative solutions such as co-housing, community land trust, and other forms of collective tenure, that would address the evolving needs of persons and communities, in order to improve the supply of housing, especially for low-income groups and to prevent segregation and arbitrary forced evictions and displacements, to provide dignified and adequate re-allocation. This will include support to incremental housing and self-build schemes, with special attention to slums and informal settlements upgrading programs.

109. We will consider increased allocation of financial and human resources, as appropriate, for the upgrading and, to the extent possible, the prevention of slums and informal settlements in the allocation of financial and human resources with strategies that go beyond physical and environmental improvements, to ensure that slums and informal settlements are integrated into the social, economic, cultural, and political dimensions of cities. These strategies should include, as applicable, access to sustainable, adequate, safe, and affordable housing; basic and social services; and safe, inclusive, accessible, green, and quality public spaces; and they should promote security of tenure and its regularization, as well as measures for conflict prevention and mediation.
AND WHEREAS, the Ontario Building Code requirements currently translate into a minimum unit size of 425 square feet without consideration for the elimination or reduction of kitchen/living room/dining room areas;

THEREFORE BE IT RESOLVED:

That staff be directed to include recommendations in the Laneway Housing Inventory follow-up report to PED16200, for stand-alone units under 425 square feet within the scope of ‘Tiny Homes’ for the purpose of detached, secured, serviced lots that could provide for future land tenure and individual ownership.

6. Expanding and Making Permanent the Mohawk College Co-op Student Program for Communities Around McMaster University (Item 9.2)

(A. Johnson/Farr)
WHEREAS, City Council meeting on December 14, 2016 directed staff to expand the current Mohawk College Co-op Student pilot program by hiring two additional students to enforce yard maintenance related by-laws in the McMaster neighbourhoods based on full cost recovery through Fee for Inspection charges for non-compliant properties;

WHEREAS, the Information Update sent to the Mayor and Members of Council on September 22, 2017, provided statistics from January 9 - August 31, 2017 that showed the program improved property yard maintenance conditions in communities surrounding McMaster University;

WHEREAS, the Inspection Fee for non-compliant properties has made the pilot program full cost recovery; and

WHEREAS, positive community feedback has been received from property owners and occupants in the area supports the continuation of the program;

THEREFORE, BE IT RESOLVED

(a) That the pilot program using Mohawk College Co-op students for enforcement of yard maintenance related by-laws be made permanent in communities around McMaster University; and

(b) That two (2) additional Mohawk College Co-op students be hired for enforcement of yard maintenance related by-laws for the McMaster Neighbourhood at full cost recovery from the Inspection Fees.
