- Executive Summary
- Background
- Economic Impacts
- Due Diligence Review
- Establishing Canadian Best Practices
- Site examination / technical review
- Recommendations
Staff responded to questions from Committee.

The staff presentation was received.

**Added Registered Speakers:**

1. **Jamie Besner of Sussex Strategy Group, representing Clear Channel**

Jamie Besner addressed Committee. His comments included but were not limited to the following:

- Sussex Strategy Group is a government relations firm;
- He has been working with municipalities across the country on various procurement issues and has been representing Clear Channel for the last 14 years;
- The staff Report presents a great idea from a policy perspective;
- However, there are three issues being co-mingled – the proposed policy and updated by-law, the contract to allow visual billboards on the City’s property and Outfront’s sign variance applications on land owned by Outfront;
- They are in support of the policy;
- Their concern is that this is not a Request For Proposals (RFP);
- No other municipality would agree to a contract without an RFP;
- This is a $7 million, 15 year sole source contract;
- This is not a real estate transaction; it’s a rental agreement;
- Clear Channel is one of the world’s largest media firms;
- Companies in this industry compete;
- The City should test the market;
- Sending a general e-mail to the companies is not sufficient to solicit a response;
- Don’t confuse a public consultation process with an RFP process.

The delegation was received.

2. **Michael Binetti of Affleck Greene McMurtry LLP**

Michael Binetti addressed Committee. He displayed a copy of the City’s Procurement By-law from the City’s website. He indicated that he is representing Clear Channel. His comments included but were not limited to the following:
• Municipalities have no choice under the *Municipal Act* but to pass a Procurement Policy;
• The By-law provides that the City must receive the best value;
• The proposal is regarding a “revenue generating contract” as per the definition in the By-Law;
• There are two references in the staff Report that this is a contract;
• Only real estate sales are exempt;
• It was always required that an RFP be issued in this case.

The delegation was received.

3. **Stephen Gregor and George Jakgi of Outfront Media Canada**

Stephen Gregor and George Jakgi of Outfront Media Canada addressed Committee. Stephen Gregor’s comments included but were not limited to:

- They are in support of the staff report;
- They plan to remove some legal non-conforming signs they currently own;
- The process was not faulty despite the complaints received from the other operators;
- We are here for the long haul;
- 50% of our signs in this City are sold to local advertisers not national clients.

George Jakgi’s comments included but were not limited to:

- This is a digital project – 80% to 90% of the revenue will be from local businesses;
- They are committed to Hamilton;
- They have done a lot of work assessing the potential revenue generation per billboard and per project;
- Their proposal is above what the industry actually pays;
- They are the only company that has a local presence.

The delegations were received.

4. **Nick DiBona and Sid Catalano, Pattison Outdoor Advertising**

Nick DiBona addressed Committee and indicated that he is the Director of Leasing and Development for Pattison Outdoor Advertising. His comments included but were not limited to the following:
• They received a rendering from the City for a proposed revenue generator along the Lincoln Alexander Parkway (The Linc);
• Based on this, his Company submitted a proposal for six locations along The Linc;
• They were not given any indication until the publishing of this Report that other locations were available;
• If they had known, they could have submitted a more competitive proposal;
• Also, no consideration is being given to the resolution of the signs which is a major factor in visibility.

Sid Catalano, Director of Legislation for Pattison Outdoor Advertising, addressed Committee. He advised that they noted in the staff Report that there were two submissions, one of them being their proposal. Had they known the factors they would have submitted a different proposal. This is an unfair comparison.

The delegations were received.

For disposition of this matter refer to the Private and Confidential Section of this Report.
