Her comments included but were not limited to the following:

- Recognizes the City’s challenge to balance development and protect the existing neighbourhood;
The existing building has no historical value but the proposal will retain it;
The number of detached units was reduced to four units;
The application has had an evolution from 8 down to six; down to four units with the retention of the existing home;
The semis will have complementary architectural detail;
Overgrown vegetation currently hides the dwelling;
The proposal is to move the building forward to add to the streetscape;
Believes the proposal is compatible with the Hamilton Beach Neighbourhood Plan, 1992;
The area is already eclectic – this is a modest proposal for intensification.

The presentation by the agent was received.

Speakers
1. Kristen Ronald, 203 Beach Boulevard

Kristen Ronald addressed Committee and her comments included but were not limited to the following:

- If Committee approves this application, what’s going to stop other residents with the same size lot to do the same;
- It is going to snowball;
- She could also build behind her house;
- She was under the impression that their end of the beach would never be developed but would remain single family dwellings.

2. Joel Hughes, 267 Beach Boulevard

Joel Hughes addressed Committee and his comments included but were not limited to the following:

- The homes in the area are on 50 foot lots and some are on 60 foot lots;
- This proposal is over-intensification;
- It allows splitting a lot front to back;
- Almost all of the lots in the area could be developed in this style;
- Concerns with parking - can the public be forced to not park there, like the townhouses on Dynes?
3. Carol Hughes, 283 Beach Boulevard

Carol Hughes addressed Committee and submitted written comments which are part of the public record. A copy is available for viewing on the City’s website. Her comments included but were not limited to the following:

- She lives in a little bungalow next to the proposed development;
- Her property will have shadowing;
- She objects to the aesthetics;
- Concerned with impact on parking
- The proposal is for the builder to replace any trees that need to be removed, would he be required to plant mature trees?

4. Bill Smith, 129 Beach Boulevard

Bill Smith addressed Committee and his comments included but were not limited to the following:

- Born in 1942 on the beach strip;
- It’s a changing area;
- The condo issue is distasteful to the residents;
- The Dynes development isn’t bad but it’s distasteful to residents;
- The lot currently has a single residence and the proposal is for five residences on the same lot – don’t like that;
- This is a case of a big corporation looking to make a profit.

5. Michael Gagnon, 668 Beach Boulevard

Michael Gagnon addressed Committee and his comments included but were not limited to the following:

- He has been a resident on the beach strip for 42 years;
- He’s a longstanding member of the Beach Preservation Committee;
- He commends the thorough job done by staff;
- Most important part is to look at the plan – the historical section that’s there;
- Would like to bring history back;
- Hard fought battle to come to a compromise;
- Compromise is important;
- Balance what’s good for the public is to have access to beach and what’s good for the residents;

Council – June 8, 2016
• Single residences need to be maintained as single residences;
• This will be the beginning of more developers applying to increase density;
• Look at the Neighbourhood Plan again.

6. **Lorraine Hughes, 267 Beach Boulevard**

Lorraine Hughes addressed Committee and her comments included but were not limited to the following:

- She lives next to the proposed development;
- Concerned there isn’t enough parking spots;
- The existing townhouses have overflowed parking onto the side streets;
- The residents don’t have anywhere to park if the condo residents use side street
- The proposal is not complementary to the neighbourhood;
- The existing houses are single houses on nice lots with mature trees where families grow;
- Will look like a downtown development where there is no green space and a lot of concrete;
- There’s a beautiful tulip tree planted 10 years ago – the tulip tree will be ruined;
- The other condos were built on commercial properties;
- This would be first of its kind on a residential property;
- Will set precedence for other homeowners to do the same;
- This is a great neighbourhood for families;
- The beach strip is a community of people who know each other;
- This proposal will change the whole neighbourhood.

7. **Scott Howley, 16 Clare Avenue**

Scott Howley addressed Committee and his comments included but were not limited to the following:

- Lived on the beach strip all his life;
- Saw flooding, homes being torn down, etc.
- It’s a unique community where everyone knows each other and talks to each other on a constant basis;
- There needs to be a balance with the Neighbourhood Plan – where to put high density and where to maintain low density.
8. Jim Howlett, 1 Sierra Lane

Jim Howlett addressed Committee and his comments included but were not limited to the following:

- He is a long time resident and the president of the Community Council;
- He is a member of the Hamilton Beach Neighbourhood Plan Implementation Committee;
- We have a lot of work for the Plan; there’s lots of compromises;
- Still don’t have the Plan because the 174 lots owned by the City have not all been sold;
- Would like the Neighbourhood Plan to be implemented;
- The Province requires 25% of development to be affordable housing;
- A condo (actually five of them) sold for $960,000 recently;
- The Province and the City have not achieved affordable development;
- The developers are only interested in what is the most they can get out of this;
- The developer said his brother-in-law is BMOC (big man on campus) at the OMB;
- We enjoy the increase of interest in our area but the community is important;
- This is the first serious test, let’s not set a precedence.

The delegations were received.

The public meeting was closed.

The following motion CARRIED UNANIMOUSLY:

That the application be denied as the form of development being proposed is not consistent with the character of the neighbourhood and the numerous proposed variances are not consistent with the established Neighbourhood Plan and that legal staff retain outside legal or planning professional(s) to support Council’s decision should there be an OMB appeal and charge the costs to the Hamilton Beach Reserve.

For disposition of this matter refer to Item 2.

**Registered Speakers**

1. **Suzanne Mammel, Hamilton-Halton Home Builders’ Association**

Suzanne Mammel of the Hamilton-Halton Home Builders’ Association addressed Committee and her comments included but are not limited to the following:

- The word “shall” permit vs. the word “may” permit;
- She understands staff’s concern but the HHHBA made a suggestion that the first introduction in the Official Plan state that the following uses “shall” be permitted “subject” to the following conditions;
- This is a more effective way to resolve both issues
- Staff’s suggestion would force developers to justify the uses every time;
- The consultation process between the City and the industry fell by the wayside;
- The City advised last May that no discussion was required and the May meeting was cancelled – that was a missed opportunity;
- She requests that this report be deferred;
- Has issue with consultative effort;
- Doesn’t like the end result and did not like the way the consultative process ended;
• Staff should have met with the HHHBA to discuss their
decision to not use the suggestion of the HHHBA.

2. Brenda Khes, Local Professional Planners Advisory Group

Brenda Khes of the Local Professional Planners Advisory Group
addressed Committee and provided copies of two hand-outs
addressed to the Planning Committee. One is a letter of
introduction of the Local Professional Planners Advisory Group and
the other is a request from the Group to defer approval of the
amendments. Her comments included but are not limited to the
following:

• Members of the Local Professional Planners Advisory Group
  offer a voice as professional planners vs. developers;
• In the future, the Group wishes to be consulted on these
  matters;
• The word “may” in the by-law is not giving any level of
  certainty to an applicant;
• The “may” would be subject to the policies of the Plan and
  the Plan is big;
• For the principal use we need some level of comfort;
• It's not specific enough;
• We would need to justify the principal use of a significant
  designation;
• We understand the problem but we need more time to refine
  the wording a little further;
• Will be arranging to have meetings with staff.

The delegations were received.

The public meeting was closed.

The following motion was approved:

That Item 6.3 respecting Urban Hamilton Official Plan Housekeeping
Amendment (PED16060) be TABLED to the July 5, 2016 Planning
Committee meeting to allow for further consultation with members of the
industry.

Alan Whittle addressed Committee. His comments included but were not limited to:

- He wishes to address three areas:
  - Cultural Heritage – although the building is well maintained there are no original floor finishes, no original ceiling, and the wood is heavily painted;
  - The interior would need to be removed in order to readapt;
  - Even the original railing would need to be removed due to fire code;
  - It does not have a nice kitchen or bathroom;
  - Could be a family residence but the lane is busy and surrounded by highrises;
  - Could remain as an office for a non-profit – The Good Shepherd has out grown it
  - It needs new roof, etc. a charity wouldn’t invest it’s money for renovations;
  - Rehabilitation proposals are not feasible;
  - Zoning - this site is already zoned for multi-unit residential – even under the Official Plan
  - This community has critical shortage of affordable housing
    - Project meets many Provincial policy objectives - well situated near transit
    - The neighbourhood supports this;
    - Complies with OP and zoning
  - The church was designated 25 years ago, why did it not include the parsonage at that time?

The delegations were received.

The following motion was approved:
That the Hamilton Municipal Heritage Committee Report 16-005 be received and no action taken due to the need for affordable housing, the lack of support from the Stinson Neighbourhood Association for the designation, and the fact that the parsonage is located on an old native foot path.

Councillor Pearson indicated that she wished to be recorded as OPPOSED to this motion.

For disposition of this matter refer to Item 6.
