- Specifying the large built form in the downtown area is too dangerous;
- The Design Review Panel is not Council approved but picked by staff;

- Wishes to caution Committee – these are not simply guidelines but an Official Plan Amendment;

The delegation from Sarah Knolls was received.

Mary Kiss, member of the Ainslie Wood Community Association was permitted to address Committee.

2. Mary Kiss, member of the Ainslie Wood Community Association

Mary Kiss addressed Committee and her comments included but were not limited to the following:

- The Ainslie Wood Community Association opposes the application because of the proposed increased density from the 5 storeys currently allowed to 6 storeys;
- The Association supports high density student housing on Main Street, encourages new infill housing, and mixed use commercial residential development to locate on major roads;
- This proposal is not along a major road and is in the middle of a neighbourhood and is incompatible with the surrounding single unit dwellings;
- It doesn’t serve the community well to allow sporadic ad hoc changes to the Secondary Plan;
- Concerned that if this proposal for an increased density is approved, it will set a precedence;
- The Association does not agree that this could be a residence for seniors – it will most likely be a student residence;
- The proposal will cause parking problems and will increase illicit activity;
- She opposed the increased density at this location and is happy to hear that someone is building something for students in the downtown area.

The delegation from Mary Kiss was received.

For disposition of this matter refer to Item 7.
(ii) Elevators in Multi-storey Residential Buildings (PED16045) (City Wide) (Outstanding Business List Item) (Item 8.2)

1. John Hawker (Item 4.1)

John Hawker addressed Committee and read from a prepared statement. A copy has been submitted for the public record and is available for viewing on the City’s website. His comments included but were not limited to the following:

- The motion to report back initiated due to concerns by a member of the Senior’s Advisory and Housing Committee following a strike by elevator maintenance workers;
- Doesn’t feel the recommendations go far enough;
- The current 19 days allowed for compliance under the Property Standards By-law is not acceptable;
- The Fire Code will not mandate immediate attention to elevators for buildings having six storeys or less;
- Building Code only addresses new construction;
- Residents requiring meals-on-wheels, health care, housekeeping services, pharmacy deliveries were disadvantaged;
- The Vital Services By-law requires landlords to provide utilities including electricity and heat;
- Consideration should be given to put the requirement to provide elevator services in the Vital Services By-law;
- A study of what other Cities are doing is also missing from the report.

Report PED16045 respecting Elevators in Multi-storey Residential Buildings was referred back to staff for approximately one month’s time in order for staff to investigate the feasibility of requiring two operating elevators in existing residential buildings and report back to Committee by March 22, 2016.
