8. Provincial Plans Implementation - City of Hamilton Comments on July 2017 Draft Agricultural System Implementation Procedures and Mapping (PED15078(f)) (Wards 9, 11 to 15) (Item 7.2)

(a) That the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) and the Ministry of Municipal Affairs (MMA) be advised that The City of Hamilton cannot endorse the Provincial Land Evaluation Area Review (LEAR) methodology and mapping for the following reasons:

(i) The proposed changes are contrary to the 2011 Ontario Municipal Board approved settlement between the Province and the City respecting the Rural and Agricultural designations within the Rural Hamilton Official Plan (RHOP);

(ii) The proposed mapping will result in approximately 12,000 hectares of land being redesignated and rezoned from rural, open space, utility and mineral aggregate extraction to Prime Agricultural areas in the Rural Hamilton Official Plan and the comprehensive Zoning By-law, as shown on Appendix “A” attached to Report PED15078(f);

(iii) The proposed mapping changes undermine rural economic development in the City by removing 6,500 hectares of land zoned for rural purposes. These areas are to be used for agricultural related, resource based commercial/industrial, existing commercial/industrial and other uses supportive of rural communities (i.e. institutional). In addition, it undermines the stated goal of the Province to support agriculture though a robust agri-food network by removing lands that could be used for these purposes;

(iv) In 2015, the City completed an extensive and controversial public process to develop new zones for the rural area. The current zoning and RHOP mapping and policies conform to the intent of the revised Greenbelt Plan by creating an agricultural land base that protects prime agricultural lands and identifying other lands for larger agriculturally related and other rural type uses. The minor changes to the RHOP policies that are required to conform with the updated Greenbelt Plan can be undertaken without eliminating the planning work that has been done at the local level;

(v) There are a number of existing land uses within the rural area that are considered as non-agriculture uses (Conservation areas, golf courses, quarries) and redesignating these lands to Agriculture would not reflect the current land use, makes all the uses legal non-conforming;
(vi) The Draft Agricultural System should include a review of all agricultural lands, including those lands in the City of Hamilton designated Specialty Crop; and,

(vii) The Provincial LEAR has removed local decision making for the rural area by imposing land use designations the City would be required to implement even if the designations do not represent good land use planning and does not reflect the reality of the rural area.

(b) That as an alternative to the Province undertaking a LEAR study, the City requests the Province to remove the City of Hamilton from the agricultural land base mapping. The Province would use existing municipal data and designations and work with neighbouring Regions to ensure consistency in the identification and designation of the agricultural land base across municipal boundaries;

(c) That the Province be requested to remove the lands located on the North/West corner of Barton Street and Fifty Road from the Prime Agricultural/Specialty Crop designation;

(d) That the continued development of Agricultural System Portal by the Province as a useful mapping tool to support and promote the growth of the agriculture and agri-food sector in the Greater Golden Horseshoe be endorsed by Council;

(e) That technical comments on the Implementation Procedures for the Agricultural System in the Greater Golden Horseshoe, attached as Appendix “B” to Report PED15078(f) be adopted by Council; and,

(f) That Report PED15078(f) be forwarded to the Ministry of Agriculture, Food and Rural Affairs (OMAFRA) and the Ministry of Municipal Affairs (MMA). This Report is considered the City of Hamilton’s formal comments on EBR Posting #13-0968.

9. Provincial Plans Implementation – City of Hamilton Comments on July 2017 Growth Plan Natural Heritage System Mapping (PED15078(g)) (Wards 11, 12 and 13) (Item 7.3)

(a) That the Ministry of Natural Resources and Forestry and the Ministry of Municipal Affairs be advised that the City of Hamilton supports the intent of the Growth Plan Natural Heritage System, specifically:

(i) the overall objective of the Growth Plan Natural Heritage System “to maintain and restore the overall biodiversity and ecological functions over the long term”; and,
(ii) the identification of natural heritage Core Areas and the Linkages between them on a regional scale across the Greater Golden Horseshoe. The approach aligns with the City of Hamilton’s Natural Heritage System (NHS) which is identified on Schedule B in the Rural Hamilton Official Plan (RHOP) and the Urban Hamilton Official Plan (UHOP).

(b) That the Ministry of Natural Resources and Forestry and the Ministry of Municipal Affairs be advised that identifying the natural heritage system in areas subject to the Growth Plan for the Greater Golden Horseshoe should be the responsibility of the City of Hamilton and the City should not be required to use the provincial mapping or methodology for the following reasons:

(i) the recent technical document released by the Province “Development of the Proposed Regional Natural Heritage System for the Growth Plan for the Greater Golden Horseshoe: Technical Report on Criteria, Rationale, and Methods” and the associated mapping has introduced a third methodology to map natural heritage features which differs from the Greenbelt Plan and the Oak Ridges Moraine Conservation Plan, and adds unnecessary complexity;

(ii) the proposed mapping for the areas in Hamilton contain errors, as identified on Appendix “A” for four of six areas (Areas 1, 2, 3, and 5);

(iii) the methodology does not include all existing protected areas; and,

(iv) the City has more up-to-date, accurate mapping at the local level and has already mapped a NHS in the RHOP.

(c) That the City Clerks be requested to forward Report PED15078(g) to the Ministry of Natural Resources and Forestry (MNRF) and the Ministry of Municipal Affairs (MMA). This Report is considered the City of Hamilton’s formal comments on EBR Posting #13-1014.
