David Sa addressed Committee and indicated that he is an Insurance Broker. He sold this property to Mr. Veri, and arranged the insurance on the property. The property was not designated at the time and since then they discovered structural issues and the existence of mould. The insurance company will not insure the property as it is deemed uninsurable due to its condition.

3. Wayne Belcourt, Peto McCallum Limited, 45 Burford Road, Hamilton

Wayne Belcourt advised that he is an engineering consultant for Peto McCallum Limited, an engineering firm. His comments included but were not limited to the following:

- Victor Veri purchased the property in April 2014;
- He applied to demolish the porch and the garage;
- The City fast tracked the designation of the property and did not follow the normal procedures;
- The permit to demolish was denied based on the neighbours' complaints;
- The designation was approved without assessing the property;
- The house was built in 1935 as an experimental building;
- The builder obtained a patent for the design;
- He saw the flaws and did not build another one;
- A similar house was built at 19 Inglewood in 1936 with concrete not stucco (which was responsible for the mould);
- Mould testing results were ignored by the Hamilton Municipal Heritage Committee – the report was not even submitted to the Heritage Committee;
• The Committee Members thought the designation existed prior to the purchase – not true;
• The mould cannot be addressed;
• The building cannot be sold, repaired, rented, lived in or demolished;
• The cost to abate the mould would be at least $700,000;
• All heritage attributes would be eliminated through the process;
• The City needs to listen to the facts;
• These are unrealistic conditions.

The delegations were received.
