

City of Hamilton

CITY COUNCIL ADDENDUM

Wednesday, February 28, 2018, 5:00 P.M.

Council Chambers, Hamilton City Hall

71 Main Street West

5. COMMUNICATIONS

- *5.16 Correspondence from Karen Armstrong, Deputy CAO & Secretary-Treasurer, Grand River Conservation Authority respecting the Grand River Conservation Authority 2018 Municipal Levy & Budget.

Recommendation: Be received and referred to the General Manager of Corporate Services for appropriate action.

- *5.17 Correspondence from Sarit Chandaria, President, Tibro Group respecting their concerns with the Development Charge Rebate Program.

Recommendation: Be received and referred to the consideration of Item 8.4.

8. NOTICES OF MOTIONS

- *8.1 Conservation Authority Levies (FCS18029) (City Wide)

- *8.2 Hamilton Summit

- *8.3 Temporary Asphalt Repairs

- *8.4 Amendment to Item 1 of Emergency & Community Services Committee Report 18-002 respecting the Development Charge Rebate Program Expression of Interest (CES18011)

- *8.5 Introduction of a Climate Change Lense on All City of Hamilton Departmental Reports

10. PRIVATE AND CONFIDENTIAL

*10.2 Citizen Appointment - Boards and Commissions

Pursuant to Section 8.1, Sub-section (b) of the City's Procedural By-law 14-300, and Section 239(2), Sub-section (b) of the *Ontario Municipal Act*, 2001, as amended, as the subject matters pertain to personal matters about an identifiable individual, including City employees.

Pilon, Janet

Subject: 2018 Municipal Levy & Budget - Grand River Conservation Authority

Subject: 2018 Municipal Levy & Budget - Grand River Conservation Authority

Importance: High

Good afternoon Grand River watershed member municipality:

By letter dated January 22, 2018 you were advised that a meeting of the General Membership of the Grand River Conservation Authority would be held on February 23, 2018 to consider the 2018 Budget and General Levy. At that meeting, the following resolution was passed:

"THAT the 2018 Budget of Grand River Conservation Authority of \$34,347,987 be approved;

AND THAT the member municipalities be assessed for payment of:

Matching Levy: \$871,073

Non-Matching Levy: \$9,430,927

Capital Levy: \$1,050,000

Total General Levy: \$11,352,000

AND THAT each member municipality's share of the 2018 General Levy be calculated using "Modified Current Value Assessment"."

The 2018 general levy will not include an adjustment for the City of Hamilton, which has been the practice in prior years. This change in levy apportionment is due to an order issued December 21, 2017 by the Mining and Lands Commissioner.

The impact of not making an adjustment for Hamilton is that Hamilton's share of the total levy increases from 2.4% to 12.6% and the amount apportioned to all other participating municipalities has decreased by a proportional amount.

The first draft of the budget was presented to the board at the General Meeting held September 23, 2017 and included the "Summary of Municipal Levy – Budget 2018" based on 'modified current value assessment, with an adjustment for Hamilton". This board report is available on-line or may be requested.

The City of Hamilton has advised GRCA that they have applied for a Judicial Review of the Mining and Lands Commissioner's decision. At this point, it is not possible to predict whether that request will be granted and if there is potential for adjustments to the 2018 levy apportionment at a later date. In the event of a subsequent adjustment, we will advise you of the revised apportionment as applicable. A number of members of our Board of Directors have suggested that participating municipalities may want to consider setting funds aside based on the original levy apportionment calculation as outlined in the budget report referenced above.

Attached are a summary of the 2018 municipal levies, and the complete 2018 budget package. A hard copy of the 2018 budget package or a printable PDF **is available upon request.**

Please contact Karen Armstrong, Deputy CAO & Secretary Treasurer, or Sonja Radoja, Manager of Corporate Services, if you have any questions.

On behalf of,
Karen Armstrong
Deputy CAO & Secretary-Treasurer

Kind regards,

Eowyn Spencer | Executive Assistant | Grand River Conservation Authority

GRCA 2018 Budget Highlights

The Grand River Conservation Authority is a successful partnership of municipalities, working together to promote and undertake wise management of the water and natural resources of the Grand River watershed.

The Grand River stretches 300 kilometres from Dundalk in Dufferin County to Port Maitland on Lake Erie. It takes in one of the fastest growing regions in the province, with a population of almost 1,000,000. The Grand River watershed is also home to some of the most intensively farmed land in the nation.

The prospect of high growth and the impact on water and natural resources and the quality of life present an enormous challenge to the GRCA, municipalities and all watershed residents. It creates an urgent need to work co-operatively to care wisely for the Grand River and its resources.

The work of the GRCA is divided into seven business areas:

- Reducing flood damages
- Improving water quality
- Maintaining reliable water supply
- Protecting natural areas and biodiversity
- Watershed planning
- Environmental education
- Outdoor recreation

In order to carry out these functions, the GRCA draws revenues from a variety of sources:

- User fees, such as park admissions, nature centre programs, planning fees and others which are set to offset most, if not all, the cost of these services
- Revenues from property rentals and hydro generation at our dams
- Municipal levies, which are applied primarily to watershed management programs
- Municipal grants dedicated to specific programs, such as the Rural Water Quality Program and Water Quality Monitoring
- Provincial transfer payments for water management operating expenses
- Provincial grants for specific purposes, such as studies on Source Water Protection and Capital Projects related to water management
- Donations from the Grand River Conservation Foundation for programs such as outdoor education, tree nursery operations and various special projects
- Federal grants and other miscellaneous sources of revenue

The GRCA continues to work on the development and implementation of a Drinking Water Source Protection Plan for each of the four watersheds in the Lake Erie Source Protection Region, including the Grand River watershed, as part of the provincial Source Protection Program under the *Clean Water Act, 2006*. All four Source Protection Plans are approved and in effect. Besides supporting municipalities and other agencies in implementing the plans, the focus in 2018 is on updates to the Grand River Source Protection Plan, including water quantity risk assessment studies, development of water quantity policies, updating water quality vulnerability assessments, and the development of an annual progress reporting framework.

The Water Management Plan was endorsed in 2014 as an update to the 1982 Grand River Basin Study that charts a course of actions to reduce flood damages, ensure water supplies, improve water quality and build resilience to deal with a changing climate. The third annual progress report – A Report on Actions was published in 2017. Municipal, provincial and federal government and Six Nations Water Managers meet quarterly to report on the progress of the commitments they made in the Plan. Annual progress reporting is projected through to 2019. Technical work will started in 2018 on a state of the resource report, it is planned to be completed in 2019

During 2018 GRCA will continue to address impacts of Emerald Ash Borer on GRCA lands and will seek financial resources to manage this infestation.

At the end of 2014 GRCA received approval for four years of funding for a volunteer coordination program. This program became fully operational during 2015 and will continue through 2018.

Major water control capital projects planned for 2018 include upgrades to backup generators and fuel systems at Guelph and Woolwich dams, refurbishment of the gates at Woolwich Dam, a gate failure modes analysis of the Conestogo Dam gates, installation of new stoplog gains and stoplogs at Caledonia Dam, and continued design and rehabilitation of portions of the Brantford, Bridgeport, Cambridge and New Hamburg dykes. Design of the repair of a portion of the Cambridge riverwall is being coordinated with a City of Cambridge project to build a river level walkway at the base of the floodwall.

1. Watershed Management and Monitoring

Watershed management and monitoring programs protect watershed residents from flooding and provide the information required to develop appropriate resource management strategies and to identify priority actions to maintain a healthy watershed. Activities include operation of flood and erosion control structures such as dikes and dams; flood forecasting and warning; water quality monitoring; natural heritage restoration and rehabilitation projects; water quantity assessment; watershed and subwatershed studies.

Operating Expenditures:

Water Resources Planning and Environment	\$2,221,800	(Table 1)
Flood Forecasting and Warning	\$ 800,400	(Table 2)
Water Control Structures	\$1,725,700	(Table 3)

Capital Expenditures: **\$1,800,000** (Section B)

Total Expenditures: **\$6,547,900**

Revenue sources: Municipal levies and provincial grants.

2. Planning

Program areas:

- a) Natural Hazard Regulations
The administration of conservation authority regulations related to development in the floodplain, and other natural hazards e.g. wetlands, slopes, shorelines and watercourses.
- b) Plan Input and Review
Planning and technical review of municipal planning documents and recommending environmental policies for floodplains, wetlands and other environmentally significant areas; providing advice and information to municipal councils on development proposals and severances; review of environmental assessments; and providing outside consulting services on a fee-for-service basis to other conservation authorities and agencies.

Operating Expenditures: **\$1,977,900** (Table 4)

Capital Expenditures: **NIL**

Revenue sources: Permit fees, enquiry fees, plan review fees, provincial grants and municipal levy

3. Watershed stewardship

The watershed stewardship program includes those activities associated with providing service and/or assistance to private and public landowners and community groups on sound water and environmental practices that will enhance, restore or protect their properties. Some activities are reforestation through the Burford Tree Nursery and tree planting programs, the Rural Water Quality Program, restoration and rehabilitation projects, providing conservation information through brochures, publications, the web site and media contacts.

Operating Expenditures:

Forestry & Conservation Land Taxes	\$ 1,376,500 (Table 5)
Conservation Services	\$ 861,000 (Table 6)
Communications and Foundation	\$ 714,900 (Table 7)

Capital Expenditures: **NIL**

Total Expenditures: **\$2,952,400**

Revenue sources:

Municipal levies and grants, provincial grants, tree sales, landowner contributions, donations from the Grand River Conservation Foundation and other donations.

4. Conservation Land Management

This includes expenses and revenues associated with the acquisition and management of land owned or managed by the GRCA including woodlots, provincially significant wetlands (e.g. Luther Marsh, Dunnville Marsh), passive conservation areas, rail-trails and a number of rental properties. Activities include forest management, woodlot thinning, and hydro production at our dams.

Operating Expenditures:

Conservation Lands, Rentals, Misc	\$3,612,400 (Table 10-Conservation Lands)
Hydro Production	\$ 200,000 (Table 10-Hydro Production)

Capital Expenditures: NIL

Total Expenditures: \$3,812,400

Revenue sources:

Property rentals, hydro production, timber sales, conservation land income, donations from the Grand River Conservation Foundation

5. Education

The GRCA operates six nature centres, which provide curriculum-based programs to about 50,000 students from six school boards and independent schools throughout the watershed. In addition, about 16,000 members of the public attend day camps and weekend family and community events.

Operating Expenditures: \$1,346,400 (Table 8)

Capital Expenditures: NIL

Revenue sources: School boards, nature centre user fees, community event fees, donations from the Grand River Conservation Foundation and municipal general levy.

6. Recreation

This includes the costs and revenues associated with operating the GRCA's 11 active conservation areas. The GRCA offers camping, hiking, fishing, swimming, skiing and other activities at its parks. It provides 2,500 campsites, making it the second-largest provider of camping accommodation in Ontario. About 1 million people visit GRCA parks each year. The parks are financially self-sufficient.

Operating Expenditures: \$7,410,000 (Table 10)

Capital Expenditures: \$1,820,000 (Section B)

Total Expenditures: \$9,230,000

Revenue sources:

Conservation Area user fees, government grants and donations.

7. Corporate services

This includes the cost of head office functions such as accounting and human resources, as well as the cost of facilities, insurance, consulting and legal fees and expenses relating to the General Membership.

Operating Expenditures: \$3,469,987 (Table 9)

Capital Expenditures: \$ 290,000 (Section B)

Total Expenditures: \$3,759,987

Revenue sources: Municipal levies and provincial grants.

BASE PROGRAMS – OPERATING

SECTION A - Operating Budget

GRAND RIVER CONSERVATION AUTHORITY

Budget 2018 vs Budget 2017

	Actual 2017	Budget 2017	Budget 2018	Incr/(Decr)	%age change
EXPENDITURES					
OPERATING EXPENSES	26,002,979	24,822,105	25,716,987	894,882	3.61%
Total Expenses	26,002,979	24,822,105	25,716,987	894,882	3.61%
SOURCES OF FUNDING					
MUNICIPAL GENERAL LEVY (NOTE)	9,586,312	10,025,000	10,302,000	277,000	2.76%
MUNICIPAL SPECIAL LEVY	35,200	50,000	50,000	-	0.00%
OTHER GOVT FUNDING	925,704	938,573	938,573	-	0.00%
SELF-GENERATED	14,352,119	13,168,700	13,840,100	671,400	5.10%
RESERVES	787,812	324,000	174,000	(150,000)	-46.30%
SURPLUS CARRYFORWARD	315,832	315,832	412,314	96,482	30.55%
Total BASE Funding	26,002,979	24,822,105	25,716,987	894,882	3.61%

NOTE: See "Summary of Revenue, Expenditures and Changes in Municipal Levy" for details of \$277,000 levy increase.

TABLE 1

(a) Watershed Studies

This category includes watershed and subwatershed studies. These studies provide the strategic framework for understanding water resources and ecosystem form, functions and linkages. These allow for assessment of the impacts of changes in watershed resources and land use. Watershed studies also identify activities and actions that are needed to minimize the adverse impacts of change. This program supports other plans and programs that promote healthy watersheds.

Specific Activities:

- Carry out or partner with municipalities and other stakeholders on integrated subwatershed plans for streams and tributaries. Subwatershed Plans are technical reports which provide comprehensive background on how surface water, groundwater, terrestrial and aquatic ecosystems function in a subwatershed. The plans recommend how planned changes such as urbanization can take place in a sustainable manner.

(b) Water Resources Planning and Environment and Support

This category includes the collection and analysis of environmental data and the development of management plans for protection and management of water resources and natural heritage systems. These programs assist with implementation of monitoring water and natural resources and assessment of changes in watershed health and priority management areas.

Specific Activities:

- operate 8 continuous river water quality monitoring stations, 73 stream flow monitoring stations, 27 groundwater monitoring stations, and 37 water quality monitoring stations in conjunction with MOE, apply state-of-the-art water quality assimilation model to determine optimum sewage treatment options in the central Grand, and provide technical input to municipal water quality issues
- analyze and report on water quality conditions in the Grand River watershed
- maintain a water budget to support sustainable water use in the watershed, and maintain a drought response program
- analyze water use data for the watershed and provide recommendations for water conservation approaches
- provide advice to Provincial Ministries regarding water use permits to ensure that significant environmental concerns are identified so that potential impacts can be addressed.

(c) Resource Management Division Support

Provides support services to the Engineering and Resource Management Divisions including support for Flood Forecasting and Warning and Water Control Structures.

Specific Spending:

- administrative services
- travel, communication, staff development and computer
- insurance

(d) Natural Heritage Management

The natural heritage management program includes those activities associated with providing service and/or assistance to municipalities, private and public landowners and community groups on sound environmental practices that will enhance, restore or protect the aquatic and terrestrial ecosystems. The program includes watershed scale natural heritage assessments and implements restoration activities on GRCA land..

Specific Activities:

- maintain and promote the ‘Grand River Fisheries Management Plan’.
- implement “best bets” for protection and enhancement of fisheries, work with outside agencies, non-government organizations and the public to improve fish habitat through stream rehabilitation projects including the implementation of the recommendations of the watershed studies.
- maintain and implement the Forest Management Plan for the Grand River watershed and develop and implement components of the watershed Emerald Ash Borer strategy
- carry out restoration and rehabilitation projects for aquatic and terrestrial ecosystems e.g. species at risk and ecological monitoring on GRCA lands, and prescribed burn activities and community events such as tree planting and stream restoration
- provide technical input and review services for applications that may affect the watershed ecosystems.

Net incr/(decr) to Municipal Levy				40,500

TABLE 2

Flood Forecasting and Warning

The flood warning system includes the direct costs associated with monitoring the streams, and rivers in order to effectively provide warnings and guidance to municipalities and watershed residents during flood emergencies.

Overall, flood protection services provide watershed residents with an effective and efficient system that will reduce their exposure to the threat of flood damage and loss of life. It is estimated that the existing flood protection in the Grand River watershed saves an average of over \$5.0 million annually in property damage.

Specific Activities:

- maintain a 'state of the art' computerized flood forecasting and warning system.
- operate a 24 hour, year-round, on-call duty officer system to respond to flooding matters.
- collect and manage data on rainfall, water quantity, reservoir conditions, water levels from 56 stream flow gauges, 24 rainfall gauges, and 12 snow courses.
- use data radio and Voice Alert system to continuously, monitor river conditions and detect warning levels, assist municipalities with emergency planning, and respond to thousands of inquiries each year.
- Assist municipalities with municipal emergency planning and participate in municipal emergency planning exercises when requested.

TABLE 2
GRAND RIVER CONSERVATION AUTHORITY
Flood Forecasting & Warning

OPERATING	Actual 2017	Budget 2017	Budget 2018	Budget change
Expenses:				incr/(decr)
Salary and Benefits	373,875	449,700	463,200	13,500

Net incr/(decr) to Municipal Levy				20,100

TABLE 3

Water Control Structures

This category includes costs associated with the capital and maintenance of structures, the primary purpose of which is to provide protection to life and property. These structures include dams, dykes, berms and channels etc. Also included in this category are non-flood control dams and weirs, which maintain upstream water levels.

Overall, flood protection services provide watershed residents with an effective and efficient system that will reduce their exposure to the threat of flood damage and loss of life. It is estimated that the existing flood protection in the Grand River watershed saves an average of over \$5.0 million annually in property damage.

Specific Activities:

- operate and maintain 7 major multi-purpose reservoirs, which provide flood protection and flow augmentation, and 25 kilometres of dykes in 5 major dyke systems (Kitchener-Bridgeport, Cambridge-Galt, Brantford, Drayton and New Hamburg)
- ensure structural integrity of flood protection infrastructure through dam safety reviews, inspections and monitoring, reconstruction of deteriorating sections of floodwalls and refurbishing of major components of dams
- carry out capital upgrades to the flood control structures in order to meet Provincial standards
- operate and maintain 22 non-flood control dams, which are primarily for aesthetic, recreational, or municipal water supply intake purposes
- develop and implement plans to decommission failing or obsolete dams
- ice management activities to prevent or respond to flooding resulting from ice jams
- develop and implement public safety plans for structures

Net incr/(decr) to Municipal Levy				46,800

TABLE 4

(a) PLANNING - Regulations

This category includes costs and revenues associated with administering the *Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation* made under the *Conservation Authorities Act*. This includes permit review, inspections, permit issuance, enforcement and follow-up, which may include defending appeals.

Specific Activities:

- Process over 800 permits each year related to development, alteration or activities that may interfere with the following types of lands:
 - ravines, valleys, steep slopes
 - wetlands including swamps, marshes, bogs, and fens
 - any watercourse, river, creek, floodplain or valley land
 - the Lake Erie shoreline
- The regulation applies to the development activities listed below in the areas listed above:
 - the construction, reconstruction, erection or placing of a building or structure of any kind,
 - any change to a building or structure that would have the effect of altering the use or potential use of the building or structure, increasing the size of the building or structure or increasing the number of dwelling units in the building or structure
 - site grading
 - the temporary or permanent placing, dumping or removal of any material originating on the site or elsewhere.
- maintain policies and guidelines to assist in the protection of sensitive environmental lands (i.e. Policies for the Administration of the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation)
- enforcement of the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation and maintain compliance policies and procedures
- update and maintain flood line mapping; develop natural hazards mapping in digital format to be integrated into municipal planning documents and Geographic Information Systems

(b) PLANNING - Municipal Plan Input and Review

This program includes costs and revenues associated with reviewing Official Plans, Secondary and Community Plans, Zoning Bylaws, Environmental Assessments, development applications and other proposals, in accordance with Conservation Authority and provincial or municipal agreements. It also includes watershed management consulting outside of the Grand River watershed, which is done from time-to-time on a fee-for-service basis.

Specific Activities:

- review municipal planning and master plan documents and recommend environmental policies and designations for floodplains, wetlands, natural heritage areas, fisheries habitat, hazard lands and shorelines, which support GRCA regulations and complement provincial polices and federal regulations
- provide advice to municipalities regarding environmental assessments, and other proposals such as aggregate and municipal drain applications to ensure that all environmental concerns are adequately identified and that any adverse impacts are minimized or mitigated
- provide information and technical advice to Municipal Councils and Committees and Land Division Committees regarding development applications to assist in making wise land use decisions regarding protection of people and property from natural hazard areas such as flood plains and erosion areas and protection and enhancement of wetlands, fish and wildlife habitat and natural heritage systems

TABLE 5

Forestry & Property Taxes

The forestry program includes those activities associated with providing service and/or assistance to private and public landowners and community groups on sound environmental practices that will enhance, restore or protect their properties.

This category includes direct delivery of remediation programs including tree planting/reforestation.

General Municipal Levy funds the property tax for GRCA owned natural areas/passive lands.

Specific Activities:

- plant trees on private lands (cost recovery from landowner)
- operate Burford Tree Nursery to grow and supply native and threatened species
- carry out tree planting and other forest management programs on over 7,000 hectares of managed forests on GRCA owned lands
- manage Emerald Ash Borer infestation

TABLE 6

Conservation Services

The conservation service program includes those activities associated with providing service and/or assistance to private and public landowners and community groups on sound environmental practices that will enhance, restore or protect their properties.

This category includes the Rural Quality program and Forestry extension services.

Specific Activities:

- Co-ordinate the Rural Water Quality Program. This involves landowner contact, promotion/education and providing grants to assist farmers with capital improvements to address manure containment, livestock fencing, soil conservation, and other rural non-point sources of river water pollution. Funding for this important initiative comes from watershed municipalities and other government grants.
- Carry out tree planting, restoration and rehabilitation projects with private landowners
- Co-ordinate community events e.g. children's water festivals and agricultural and rural landowner workshops to promote water and environmental initiatives
- Co-ordinate GRCA Volunteer Program to enable public participation in community and GRCA environmental activities

TABLE 6

TABLE 7

Communications & Foundation

The Communications department provides a wide range of services and support for the GRCA, the Grand River Conservation Foundation, as well as Lake Erie Region Source Protection Program. This category includes watershed-wide communication and promotion of conservation issues to watershed residents, municipalities and other agencies.

The Grand River Conservation Foundation provides private sector funding for GRCA projects with limited or no other sources of revenue. This category includes operational costs related to fundraising.

Specific Activities:

- Media relations
- Public relations and awareness building
- Online communications
- Issues management and crisis communications
- Community engagement and public consultation
- Corporate brand management

- Solicit donors for financial support

- Orient and train volunteers to assist with fundraising

- Provide site tours and other events to stakeholders

TABLE 7

TABLE 8

Environmental Education

This category includes costs and revenues associated with outdoor education facilities, which provide education and information about conservation, the environment and the Conservation Authority's programs to 50,000 students in 6 school boards and 16,000 members of the general public annually. The majority of funding for this program comes from school boards, the Grand River Conservation Foundation and public program fees.

Specific Activities:

- operate 6 outdoor education centres under contract with watershed school boards, providing hands-on, curriculum-based, outdoor education (App's Mills near Brantford, Taquanyah near Cayuga, Guelph Lake, Laurel Creek in Waterloo, Shade's Mills in Cambridge and Rockwood)
- offer curriculum support materials and workshops to watershed school boards
- offer conservation day camps to watershed children and interpretive community programs to the public (user fees apply)

TABLE 9

CORPORATE SERVICES

This category includes the costs for goods and services, as listed below, that are provided corporately. A small portion of these costs is recovered from provincial grants, namely from source protection program funding and from the MNR operating grant.

Specific Activities:

This category includes the following departments:

- Office of the Chief Administrative Officer and the Assistant Chief Administrative Officer/Secretary-Treasurer
- Finance
- Human Resources
- Payroll
- Health & Safety
- Office Services

In addition, this category includes expenses relating to:

- The General Membership
- Head Office Building
- Office Supplies, Postage, Bank fees
- Head Office Communication systems
- Insurance
- Audit fees
- Consulting, Legal, Labour Relations fees
- Health and Safety Equipment, Inspections, Training
- Conservation Ontario fees
- Corporate Professional Development
- General expenses

TABLE 10 (a)

Conservation Lands, Rental Properties, Forestry & Misc

The Conservation Land Management Program includes all expenses and revenues associated with acquisition and management of land owned/managed by the Authority. This includes protection of *Provincially Significant Conservation Lands*, woodlot management, rental/lease agreements and other revenues generated from managing lands and facilities. These expenses do not include those associated with recreation and education programs on GRCA lands.

Specific Activities:

- acquire and manage significant wetlands and floodplain lands, e.g. the Luther Marsh Wildlife Management Area, the Keldon Source Area, the Bannister-Wrigley Complex, and the Dunnville Marsh
- operate “passive” conservation areas in order to conserve forests and wildlife habitat. Some are managed by municipalities or private organizations (Chicopee Ski Club in Kitchener, Scott Park in New Hamburg, etc.)
- develop and maintain extensive trail network on former rail lines owned by GRCA and municipalities (much of this is part of the Trans-Canada Trail network). Necessary funding is raised by The Grand River Conservation Foundation
- rent 733 cottage lots at Belwood Lake and Conestogo Lake; hold leases on over 1200 hectares of agricultural land and 19 residential units, and over 50 other agreements for use of GRCA lands. Income from these rentals aids in the financing of other GRCA programs
- host controlled hunts at various locations including Luther Marsh Wildlife Management Area and Conestogo Lake
- carry out forestry disease control, woodlot thinning and selective harvesting on GRCA lands in accordance with the Forest Management Plan while generating income from sale of timber. Income generated helps pay for future forest management activities
- where appropriate, dispose of lands that have been declared surplus and continue to identify and plan for disposition of other surplus lands. Proceeds from future dispositions will be used for acquisition of “Environmentally Significant Conservation Lands” and for other core programs
- payment of non-insured losses and deductibles for vandalism, loss or theft; miscellaneous amounts recovered from insurance settlements

- investment income arising from reserves and funds received in advance of program expenses

TABLE 10 (b)

HYDRO PRODUCTION

This program generates revenue from ‘hydro production’.

Specific Activities:

- generate hydro from turbines in 2 large dams, Shand and Conestogo; the income is used to fund GRCA programs and repay reserves accordingly for the cost of building/repairing turbines.

TABLE 10 (c)

CONSERVATION AREAS

These programs include costs and revenues associated with delivering recreational programs on GRCA lands and include the costs and revenues associated with day-use, camping, concessions and other activities at GRCA active Conservation Areas.

Specific Activities:

- operate 11 “active” Conservation Areas (8 camping and 3 exclusively day-use) that are enjoyed by over 1 million visitors annually. It is estimated that these visitors also help generate significant revenues for the local tourism industry
- offer camping, hiking, fishing, swimming, boating, picnicking, skiing and related facilities
- provide 2,500 campsites – second only to the provincial park system as a provider of camping accommodation in Ontario

OTHER INFORMATION

1. INFORMATION SYSTEMS & TECHNOLOGY - COMPUTER CHARGES

A computer charge is allocated to the individual programs based on the number of users and the nature of system usage. Effectively, computer costs are included under administrative costs on Tables 1 to 10.

Computer charges include costs associated with implementing and operating corporate information technology.

Specific Activities:

- Develop and implement the GRCA's long-term information technology and telecommunications plan. Create and maintain standards for the development and use of corporate data
- Manage and support the GRCA's server, network and personal computer infrastructure for geographic information systems (GIS); flood forecasting and warning, including real-time data collection and dissemination of water quantity and quality monitoring station information; database and applications development; website hosting; electronic mail; internet access; personal computing applications; and administration systems, including finance and human resources
- Develop, and implement the GRCA's Geographic Information Systems (GIS) technology and spatial data infrastructure
- Acquire and/or develop business and scientific applications for use at the GRCA
- Operate on-line campsite reservation and day-use systems with computers in 10 Conservation Areas. Provide computers for use at outdoor education centres
- Develop and operate a wide area network connecting 14 sites and campus style wireless point-to-multipoint networks at Head Office and Conservation Areas
- Develop and operate an integrated Voice over IP Telephone network covering nine sites and 220 handsets
- Support and manage mobile phones, smart phones, and pagers

2. VEHICLE, EQUIPMENT – MOTOR POOL CHARGES

Motor Pool charges are allocated to the individual sections based on usage of motor pool equipment. Effectively, motor pool charges are included with administrative costs or other operating expenses, as applicable, on Tables 1 to 10.

Specific Activities:

- Maintain a fleet of vehicles and equipment to support all GRCA programs.
- Purchases of new vehicles and/or equipment.
- Disposal of used equipment.
- Lease certain equipment.

SECTION B

BASE PROGRAMS – CAPITAL

SECTION B – CAPITAL BUDGET

Capital Spending in 2018 includes spending in the following program areas:

- Water Resources Planning
- Flood Forecasting and Warning
- Water Control Structures
- Conservation Areas

Water Resources Planning expenditures will be for water quality monitoring equipment.

Flood forecasting and warning expenditures will be for software systems and gauge equipment.

Water Control Structures expenditures will include the following projects:

- Conestogo Dam – Complete a gate failure modes analysis and install a third independent method of monitoring high reservoir levels. Initiate detailed design of concrete repairs to concrete control structure.
- Guelph Dam - Design and fabricate bulkhead to isolate the discharge valve to allow repair. Replace or repair discharge valve. Complete backup generator and fuel system upgrades to meet current code requirements.
- Luther Dam – Purchase and install new stoplogs.
- Laurel Dam – Repair and refurbish automatic flashboard system.
- Woolwich Dam - Refurbish gates 1 and 2 repaint and change seals. Complete backup generator and fuel system upgrades to meet current code requirements.
- Caledonia Dam – Install second set of stoplog gains and stoplogs.
- Dunnville Dam – Initiate redesign of repair to fish ladder.
- Wellesley Dam – Engineering assessment of embankment, gate and crest repairs. Develop plan to implement repairs, prepared detailed designs initiate agency approvals.
- Wellington Street dam – Finalized engineering assessment and 20 year capital forecast of maintenance costs. Hold discussions with local municipality.
- Bridgeport Dyke – Design repair to mitigate seepage through dyke.
- Brantford Dyke - Complete toe repairs of concrete slab.
- Cambridge Dyke – design repair to a section of the river wall along the east bank of the river downstream of Main Street. Integrate riverwall repair with municipal river level walkway and stair way access project.
- New Hamburg Dyke – Continue investigations and maintenance of the dyke in New Hamburg to confirm integrity and compliance with original dyke design.

Conservation Area capital spending includes expenditures as part of the regular maintenance program as well as spending on major repairs and new construction. In 2018, major capital projects within the Conservation Areas will include:

- Elora Gorge – sanitary servicing upgrade
- Elora Gorge – Pines campground expansion
- Rockwood – bridge replacement
- Byng – washroom
- Byng – playground
- Guelph Lake – playground
- Laurel Creek – automatic gate installation

Corporate Services capital spending represents the portion of overall Information Services and Motor Pool expenses that are funded by the Information Technology (IT) and Motor Pool (MP) reserve. See “Other Information” above for spending descriptions for IT and MP.

SECTION C

SPECIAL PROJECTS

SECTION C – SPECIAL PROJECTS

This category of activity represents projects that the GRCA undertakes where special one time and/or multi-year funding is applicable. The duration of these projects is typically one year although in some instances projects may extend over a number years, such as Source Protection Planning. External funding is received to undertake these projects.

The main project in this category is the provincial Source Protection Planning program under the *Clean Water Act, 2006*. Plan development work commenced in 2004, with plan implementation starting in 2015. Work includes research and studies related to the development of a Drinking Water Source Protection Plan for each of the four watersheds in the Lake Erie Source Protection Region. All four Source Protection Plans are approved and in effect. The focus in 2018 is on updates to the Grand River Source Protection Plan, including water quantity risk assessment studies, development of water quantity policies, updating water quality vulnerability assessments, and the development of an annual progress reporting framework.

Other special projects in the area of watershed stewardship include the “Rural Water Quality Program” grants, Emerald Ash borer infestation management, floodplain mapping projects, Upper Blair subwatershed study, waste water optimization project, water festivals, the Mill Creek Ranger stream restoration project and numerous ecological restoration projects on both GRCA lands and private lands in the watershed.

Date: February 27, 2018

Dear Mayor Eisenberger and Members of Council,

As a developer in the downtown Hamilton area with two purpose built rental projects and close to 200 units going into the development stages, we would like to express our concerns about the Development Charge Rebate Program. We believe it is important that the City seriously consider increasing the eligibility requirements from 150% to 175% of average market rents, based on the Province of Ontario's website.

The City of Hamilton needs new purpose-built rentals due the very low vacancy rates. As a developer that believes in purpose-built rentals, we must make these projects financially feasible in order to encourage new development. The only way we can do this is by getting incentives on the Development Charges from the City so that we can aim to provide reasonable rental rates for tenants. The current average 1 bedroom rent for Hamilton is listed at \$850/month – this is far below the actual market rent and very far below rents to make new developments feasible. In fact, we believe the rents are as much as double that rate in certain areas of Hamilton.

It is important to incentivize developers to build purpose-built rentals in Hamilton so that we can keep vacancy rates higher and thus provide longer term reasonable rents for tenants. Again, the only way to do this is through credits on Development Charges with the City to bring development costs down.

Developers like us take a very large risk in today's market when constructing new rental housing – project returns have reduced significantly due to increased land prices. By creating incentives like the waiving of Development Charges, it helps ensure the long-term feasibility of new purpose built rental development projects that are necessary in today's and our future's housing markets.

Please feel free to contact me as I would be happy to discuss this topic further with you.

Sincerely,

Sarit Chaudharia

CITY OF HAMILTON

NOTICE OF MOTION

Council: February 28, 2018

MOVED BY COUNCILLOR T. JACKSON.....

Conservation Authority Levies (FCS18029) (City Wide)

- (a) That staff be authorized to appeal any apportionment levied by a conservation authority against the City which staff determines does not comply with the *Conservation Authorities Act* and Ontario Regulation 670/00, in the discretion of the General Manager of Finance and Corporate Services and City Solicitor; and,
- (b) That any levy payment which the City is required to make pursuant to the *Conservation Authorities Act* pending the appeals shall be made under protest.

CITY OF HAMILTON

NOTICE OF MOTION

Council: February 28, 2018

MOVED BY COUNCILLOR S. MERULLA.....

Hamilton Summit

WHEREAS, the City of Hamilton residential taxpayer pays almost 50% of their taxes for services that are of limited City control;

WHEREAS, the total average residential tax bill in 2017 is \$3,928;

WHEREAS, about 13% or \$514 pays for provincially shared services such as paramedics, public health, social housing and social services;

WHEREAS, about 20% or \$811 pays for Boards and Agencies of limited City control such as Police Services and Conservation Authorities;

WHEREAS, about 14% or \$564 pays for Education, which is exclusively controlled by the Province;

WHEREAS, this leaves only 52% or \$2,039 of the \$3,928 tax bill contributing directly to City controlled services;

WHEREAS, many of the provincially shared services and Boards and Agency costs are increasing well beyond the rate of inflation;

WHEREAS, some of the provincially shared services are in dire service and financial circumstances including Paramedics, where recent code zero instances continue to peak; and, Social Housing, where wait lists continue to grow and capital requirements far exceed funding capabilities; and,

WHEREAS, existing Federal and Provincial funding initiatives do not adequately address the aforementioned concerns;

THEREFORE BE IT RESOLVED:

- (a) That the City Manager be directed to plan and execute a Hamilton Summit that involves local MPP's, provincial Ministers, local and provincial candidates, community leaders, business leaders and Hamilton taxpayer's to educate and

solicit solutions to the growing issue of provincial downloading and its impact on the City of Hamilton, to be held no later than April 30, 2018;

- (b) That the topics of the Hamilton Summit include: Local Healthcare - Impact on Emergency Medical Services, Social and Affordable Housing, Infrastructure and Tax Policies;
- (c) That the format of the Hamilton Summit be in a format to be determined by the City Manager; and,
- (d) That staff be directed to report to the General Issues Committee with a summary of the Hamilton Summit, along with recommendations for a longer term Engagement Strategy with the Federal and Provincial governments, by May 16, 2018.

NOTICE OF MOTION

Council: February 28, 2018

MOVED BY COUNCILLOR A. JOHNSON.....

Temporary Asphalt Repairs

WHEREAS, Main Street West between Cootes Drive and approximately Dalewood School (West Section) was originally constructed in 1969 and has received only one remedial intervention since; that action being a “shave and pave” in 2005;

WHEREAS, Main Street West between Dalewood School and Highway 403 (East Section) was fully reconstructed in 1992 and has not received a remedial intervention since then;

WHEREAS, Main Street West between Cootes Drive and Highway 403 experiences approximately 55,000 vehicle trips per day making it one of the most heavily travelled roads in Hamilton;

WHEREAS, modern winters are trending toward a higher frequency of freeze/thaw cycles with more extremes in temperature and therefore increasing the adverse affects on pavement structures;

WHEREAS, this section of roadway is the gateway to one of our premiere and prominent institutions being McMaster University and McMaster Children’s Hospital; and,

WHEREAS, there exists significant risk that these sections of roadway may fail before their next programmed capital replacement;

THEREFORE BE IT RESOLVED:

- (a) That Public Works staff be directed to take immediate action, as per the City’s Procurement Bylaw Policy #10, to undertake all necessary, temporary asphalt repairs in the form of “asphalt shave and pave” on Main Street West between Cootes Drive and Macklin Avenue (eastbound and westbound lanes), as determined by the General Manager of Public Works, to a maximum of \$1.4 Million and funded accordingly, \$700,000 from the Ward 1 Minor Maintenance Capital Project 4031611601 and \$700,000 from the Unallocated Capital Reserve 108020;
- (b) That the General Manager of Public Works Department be authorized and directed to negotiate, enter into and execute a Contract(s) and any ancillary documents required to give effect to all necessary, temporary asphalt repairs in the form of “asphalt shave and pave” on Main Street West between Cootes Drive and Macklin

Avenue (eastbound and westbound lanes), as determined by the General Manager of Public Works, in a form satisfactory to the City Solicitor; and,

- (c) That the General Manager of the Public Works Department be directed to submit an Information Update to Council, reporting on the Policy #10 – Emergency Procurement, as required.

NOTICE OF MOTION

Council: February 28, 2018

MOVED BY COUNCILLOR S. MERULLA.....

Amendment to Item 1 of Emergency & Community Services Committee Report 18-002 respecting Development Charge Rebate Program Expression of Interest (CES18011)

That sub-section (f) of Item 1 of Emergency & Community Services Committee Report 18-002 respecting Development Charge Rebate Program Expression of Interest (CES18011) ***be amended*** as follows:

1. **Development Charge Rebate Program Expression of Interest (CES18011) (City Wide) (Item 5.1)**
 - (a) That staff be directed to submit an expression of interest to the Minister of Housing indicating the City of Hamilton's interest in participating in the Ontario Development Charges Rebate Program;
 - (b) That the General Manager of the Community and Emergency Services Department or his designate be authorized and directed to deliver and administer the Development Charges Rebate Program;
 - (c) That the Mayor and City Clerk be authorized and directed to execute the "Transfer Payment Agreement" for the Development Charges Rebate Program with content acceptable to the General Manager of the Community and Emergency Services Department or his designate and in a form satisfactory to the City Solicitor;
 - (d) That the General Manager of Community and Emergency Services or his designate be authorized and directed to execute all agreements as may be required to deliver the Development Charges Rebate Program, in a form satisfactory to the City Solicitor;
 - (e) That a letter be sent to the Minister of Housing requesting that the existing Development Charge waivers that the City has on affordable housing be included for consideration within the application process; and,
 - (f) That staff be directed to include as a condition of the Development Charge Rebate Program on new apartment developments, that the unit rental rates be capped at no more than ~~150% of the present market rent~~ **175% of the present market rent for the Province of Ontario** for a minimum of ten years after occupation.

CITY OF HAMILTON

NOTICE OF MOTION

Council: February 28, 2018

MOVED BY COUNCILLOR M. GREEN.....

Introduction of a Climate Change Lense on All City of Hamilton Departmental Reports

WHEREAS, current research forecasts we are on track for an average of 1.5 metres of sea level rise this century, i.e., within the lifetime of today’s toddlers;

WHEREAS, without protective measures, this amount of sea level rise would submerge land currently home to 153 million people. And it is now plausible that today’s toddlers could experience a staggering 2.4 metre sea level rise during their lifetimes;

WHEREAS, the storm surges that already put millions of people at risk of catastrophic floods, would inundate coastal cities, ports and nuclear plants around the globe; and

WHEREAS, Climate Change must be “a central part of all government decision-making, investing and regulating”.

THEREFORE BE IT RESOLVED:

- (a) That staff report back on the feasibility of the addition of a section on specific to climate change implications across all departmental reports; and
- (b) And that a procurement process for knowing the GHG footprint of everything the city purchases be designed, implemented, and be given significant weight in awarding procurement decisions.
