I was planning on finishing the term, but I thought it ended in 2018 and would be finished in the next couple of months.

Now that I know that is not the case, I would like to resign now. I no longer have the time to effectively participate.

Thanks,

Clare

    - HSR will release smart phone app in mid-May for information alerts

- Members asked if GPS can be used to recognise bus stops and any apps or maps should have text to speech technology
- Does HSR management review complaints to find solutions? HSR supervisors do speak to drivers regarding complaints; passengers do get a call back with results of investigation if they requested this
- Members concerned that problems with HSR are more numerous (i.e. walkers not being folded-up, baby buggies blocking aisles, etc.); HSR plans to advertise pro-active messages regarding service
- Members noted concerns with recent cancellation of HSR service, especially during morning; Dennis explained increase in cancelled service due to shortage of bus operators; however, more operators have been hired to resolve this issue

#### b) Seatbelts

- Terri noted that some HSR buses have clips to secure wheelchair while other buses have seatbelt that goes around passenger
- Terri advised some drivers are not following policy and argue with passengers; she has contacted Debbie and is waiting for response
- Members agreed there is inconsistency from drivers on seatbelt policies and in some cases, it causes a delay in service which creates resentment from other passengers

- Members suggested incentives for passengers (i.e. rewards) for cancelling trips (in advance)

- a) Meeting – January 18, 2018
- Paula gave an overview of meeting which included concerns from a caregiver/passenger on the challenges they have experienced with DARTS vehicles having to deploy ramps over snow banks

- a) ATS Policies – no discussion
- b) DARTS Policies

# **A Guide to Finding Housing in Hamilton for People with Disabilities**

**Legend:**

<b>Housing</b>	<b>Frequently used terms</b>	<b>Equity and Inclusion</b>
----------------	------------------------------	-----------------------------

**Glossary of Terms to Help You Use this Guide**

<b>Abuse</b>	May be defined as the physical, psychological, social or financial mistreatment. Neglect is frequently associated with abuse.
<b>Ableism</b>	<p>It is a set of cultural, institutional and individual practices and beliefs that assign different values to persons who have various kinds of disabilities. It is a form of discrimination, prejudice and social exclusion based on a person's abilities, whether developmental, learning, physical, psychiatric or sensory, which devalues and disregards persons with disabilities.</p> <p>It is derived from the unconscious or conscious practice of setting the needs of persons without disabilities as the norm for the provision of programs, services and opportunities. It is coupled with a belief in the inherent superiority of those who do not have a disability. As a result of these beliefs and behaviours, facilities and programs may not be accessible to persons with disabilities.</p>

<p><b>Access or Accessible Buildings</b></p>	<p>A person with a disability is, without assistance, able to approach, enter, pass to and from, and make use of an area and its facilities. (BC Building Code, 1992)</p>
<p><b>Access</b></p>	<p>Ensuring that the basic needs of everyone is met through the removal of barriers to services, programs, opportunities, resources, information, and decision-making, which is essential to maintaining and improving their quality of life and sense of belonging.</p>
<p><b>Accessibility</b></p>	<p>When this term is used in relation to human rights concepts, it implies that all groups and individuals should be able to participate fully in all, programs, services and opportunities free of barriers and limitations.</p> <p>There are many kinds of disabilities such as physical, psychological, mental, learning disabilities and can be visible, non-visible, permanent, temporary, or occur only at certain times.</p> <p>It is often used with specific reference to the needs of persons with disabilities.</p>
<p><b>Accessibility for Ontarians with Disabilities Act (AODA)</b></p>	<p>The AODA was enacted in 2005. This legislation is intended to benefit all Ontarians by developing, implementing and enforcing accessibility standards in order to achieve accessibility for</p>

	<p>Ontarians with Disabilities, with respect to goods, services, facilities, accommodation, employment, buildings, structures and premises, and to ensure equal citizenship and full human rights.</p> <p>The Accessibility standards (Customer Service Standard, Integrated Accessibility Standards (Information &amp; Communications Standards, Employment Standards, Transportation Standards) and Built Environment Standards) set out requirements, to which municipalities, businesses and organizations are legally required to comply.</p>
<b>Accommodation (verb)</b>	<p>The act of accommodating. Housing is designed in a way to maximize the removal of barriers that may exist for persons with disabilities; and, housing services are provided in a way to maximize the inclusion of people with disabilities or in need of assistance.</p> <p>“Housing providers” includes landlords and other responsible parties, such as governments or agencies that provide housing-related services</p>
<b>Adaptable Housing</b>	<p>Housing that looks like traditional housing but has features designed and constructed for easy modification and adjustment to suit the needs of any occupant- seniors, children, people with disabilities.</p>

<b>Accountability</b>	<p>It means that people (elected officials, managers, staff, and contractors) are held responsible for carrying out a defined set of duties or tasks, and for conforming with policies, rules and standards that are applicable to their jobs and responsibilities.</p> <p>It is being responsible, liable, or answerable to the actions taken by an individual or organization.</p>
<b>Affordable Housing</b>	<p>Housing for lower and middle income households. A common measure of affordability is households pay no more than 30% of their household income for housing.</p>
<b>Ageing in place</b>	<p>Is coordination in the delivery of housing, healthcare and services in order to create and maintain livable communities that respond to the changing needs of people as they get older.</p>
<b>Ageism</b>	<p>Attitudes, labels and behaviours that make assumptions about persons and their abilities based on their age.</p> <p>Is a way of thinking of older people based on negative stereotypes about ageing, and structuring society as if everyone is young. (Ontario Human Rights Commission)</p>
<b>Amenity</b>	<p>Is a desirable or useful feature or facility of a building or place. Synonym: facility, service, convenience, resource, appliance, aid,</p>

	comfort, benefit, etc., such as bus stop, drug store, grocery store, library, schools, etc. (Thesaurus)
<b>Anti-Racism</b>	Beliefs, policies and practices that have been put together, designed, adopted or developed in order to identify, isolate and counteract the impacts of racism and to prevent or diminish the oppression of racialized communities, groups and individuals.
<b>Apartment (Apt.)</b>	A self-contained (kitchen, bathroom and living space) unit. It is in a building with a few or many other units.
<b>Appliances (Appl.)</b>	Include but are not limited to: washer and dryer, refrigerator, stove, dishwasher. Often most or some or all of the appliances are included in your rent. The most common appliances included in rents are refrigerators and stoves.
<b>Assistive Devices</b>	Compensatory equipment used to overcome a physical or sensory disability including hand held, electronic or prosthetic aids.
<b>Audism</b>	It is a negative or oppressive attitude towards persons who are deaf, deafened, or hard of hearing by hearing people and practiced in organizations. There is often a failure to accommodate persons who are deaf, deafened, or hard of hearing.

	It also conveys beliefs that a hearing person in appearance, communication and language use, and/or function, is more intelligent, qualified, well-developed, and successful than another individual who may be deaf or linguistically challenged and/or have a preference for the use of a sign language or a communication mode dissimilar to that used by hearing people.
<b>Bachelor (Bach.)</b>	A one room unit - living room, dining room and bedroom. The kitchen may either be in the main room or in a small separate room. The bathroom is usually a separate room.
<b>Barrier</b>	A barrier is defined as "anything that prevents a person with a disability from fully participating in all aspects of society because of their disability. It includes a physical barrier, an architectural barrier, an informational or communications barrier, an attitudinal barrier ... a policy or a practice barrier." (Ontarians with Disabilities Act, 2001).
<b>Attitudinal Barriers</b>	Are about our assumptions, beliefs, thoughts and fears. Attitudes can be shaped by our knowledge, previous experience, stereotypes and what we hear and see from media and others. Attitude can significantly impact how we view, interact and treat people with disabilities.
<b>Architectural or Structural Barriers</b>	May result from design elements of a building such as stairs, doorways, the width of hallways and room layout. Every day

	practices such as where we store boxes, if accessible pathways are obstructed, how we layout the office or a meeting room can also create barriers.
<b>Information or Communication Barriers</b>	Affect access to public information, opportunities to express oneself and access to essential services. Communication barriers interfere with the ability of people to participate in life and obtain services. Only providing material in small print, low colour contrast between text and background, or not facing the person when speaking- can make it difficult for a growing number of people to receive or convey information. Only accepting information in paper format, and not allowing or using electronic communication and information sharing can equally present barriers to people with a range of disabilities.
<b>Barriers (Related to Technology)</b>	Technological barriers can prevent people from accessing information. Common tools like computers, telephones and other aids can all present barriers if they are not set up or designed with accessibility in mind. Using only recorded messages, sending out documents or information as images or inaccessible pdf's, requiring people to use an online service but having an inaccessible website can all create barriers for people with disabilities.
<b>Barriers (Systemic)</b>	Arise when policies, practices and procedures support some groups without considering or understanding the needs of others.

	Having policies that treat everyone the same, regardless of circumstance can create barriers for some groups. For example, a policy that does not allow for people to obtain a copy of a document ahead of the actual meeting can create barriers for people with vision loss or learning disabilities who may not be given the opportunity to read or review the document. (Accessible Customer Service for Housing Co-ops © 2010-2011 PSN Performance Solutions Network Corp.)
<b>Bias</b>	An inclination with little or no justification towards or against an individual or group that affects the way one sees them.
<b>Bigotry</b>	Intolerant prejudice which tends to glorify one's own group while denigrating members of other groups.
<b>Built-environment</b>	Refers to more than just buildings. It includes sidewalks, streetscapes, outdoor areas and any space we make for people to use.
<b>Canadian Charter of Rights and Freedoms</b>	This legislation which falls under the Constitution Act of 1982 guarantees the rights and freedoms of all Canadians. In particular, it states that everyone is entitled to fundamental freedoms protects everyone's right to be treated fairly, without discrimination.

<b>Classism</b>	A system of beliefs and cultural attitudes that ranks people according to economic status, family lineage, job status, level of education, and other divisions.
