4. Municipalities call on the Province for the “Right to Approve” Landfill Developments (Item 6.1)

WHEREAS municipal governments in Ontario do not have the right to approve landfill projects in their communities, but have authority for making decisions on all other types of development;

WHEREAS, this out-dated policy allows private landfill operators to consult with local residents and municipal Councils, but essentially ignore them;

WHEREAS, proposed Ontario legislation (Bill 139) will grant municipalities additional authority and autonomy to make decisions for their communities;

WHEREAS, municipalities already have exclusive rights for approving casinos and nuclear waste facilities within their communities, and the Province has recognized the value of municipal approval for the siting of power generation facilities;

WHEREAS, the recent report from Ontario’s Environmental Commissioner has found that Ontario has a garbage problem, particularly from Industrial, Commercial and Institutional (ICI) waste generated within the City of Toronto, where diversion rates are as low as 15% and, unless significant efforts are made to increase recycling and diversion rates, a new home for this Toronto garbage will need to be found, as landfill space is filling up quickly;

WHEREAS, municipalities across Ontario are quietly being identified and targeted as potential landfill sites for future Toronto garbage by private landfill operators;

WHEREAS, other communities should not be forced to take Toronto waste, as landfills can contaminate local watersheds, air quality, dramatically increase heavy truck traffic on community roads, and reduce the quality of life for local residents;

WHEREAS, municipalities should be considered experts in waste management, as they are responsible for this within their own communities, and often have decades’ worth of in-house expertise in managing waste, recycling, and diversion programs; and

WHEREAS, municipalities should have the exclusive right to approve or reject these projects, and assess whether the potential economic benefits are of sufficient value to offset any negative impacts and environmental concerns;

THEREFORE, BE IT RESOLVED:

(a) That the City of Hamilton calls upon the Government of Ontario, and all political parties, to formally grant municipalities the authority
to approve landfill projects in, or adjacent to their communities, prior to June 2018;

(b) That in the case of a two-tier municipality, the approval be required at both the upper-tier and affected lower-tier municipalities;

(c) That the City of Hamilton encourages all other municipalities in Ontario to consider this motion calling for immediate Provincial action.

(d) That copies of this resolution be forwarded to the Association of Municipalities of Ontario (AMO), the Ontario Good Roads Association and the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA).

WHEREAS, the City of Hamilton currently considers the Fire Underwriters Survey (FUS) as a standard formula to assess adequate fire flow for new developments;

WHEREAS, 141 Park Street North is identified as a site for expansion of the building floor area from 560 m² to 955.5 m² which increases the calculated FUS fire flow rate beyond that which is available at that location;

WHEREAS, the City of Hamilton currently has a programmed watermain replacement project to increase the watermain size from 150 mm to 300 mm scheduled for 2019 and this will improve fire flow availability in this area of Park Street North;

WHEREAS, adequate fire flow has been shown to be available at a location 150 metres away on the opposite south side of Cannon Street;
WHEREAS, the proposed building expansion will be required to meet the fire flow volumes calculated under the Ontario Building Code for Part 3 buildings (appendix A-3.2.5.7) Water Supply, at the time of Building Permit review; and

WHEREAS, the proposed development will be an improved hub for the community and provide positive music and cultural benefits to the Central Neighbourhood;

THEREFORE, BE IT RESOLVED:

That the development as currently proposed for 141 Park Street North be accepted, recognizing that fire flow protection may not meet the existing Fire Underwriters Survey (FUS) standard for fire flow evaluation, however, with the currently programmed 2019 watermain replacement, the likelihood of building completion at 141 Park St. North beforehand is slim.
