4. DELEGATION REQUESTS

*4.2 Blair Shoniker, GHD, respecting Terrapure Stoney Creek Facility EA - Preliminary Draft Environment Assessment - Staff Comments (For today's meeting.) (item 5.1)

5. CONSENT ITEMS

5.1 Terrapure Stoney Creek Regional Facility EA - Preliminary Draft Environmental Assessment - Staff Comments to Proponent and MECP (PED16184(b)) (Ward 9)

*5.1.a Staff presentation

*5.1.b Delegation - Blair Shoniker, GHD, Terrapure Environmental, Stoney Creek - Approved September 18, 2018

5.3 Elfrida Growth Area Study - Update (PED18182) (Wards 9 and 11)

*5.3.a Written comments from Joel Farber, Fogler, Rubinoff LLP on behalf of the Twenty Road West Landowners Group

6. PUBLIC HEARINGS / DELEGATIONS

6.1 Application to Amend City of Hamilton Zoning By-law No. 05-200 for Lands Located at 5050 Harrison Road, Glanbrook (PED18204) (Ward 11)

*6.1.a Staff presentation
6.3 Application for Zoning By-law Amendment for Lands Located at 50 Green Mountain Road West (Stoney Creek) (PED18211) (Ward 9)

*6.3.a Written comments from Michael Auduong, Planner, Armstrong Planning & Project Management

*6.3.b Staff presentation

6.4 Application for Amendment to Zoning By-law No. 6593 for Lands Located at 567 Scenic Drive, Hamilton (PED18173) (Ward 8)

*6.4.a Written comments from Erin Shacklette, Hamilton

*6.4.b 54 form letters from the clients of the Family Medical Centre

*6.4.c Speaker - Ken Watson, 103 Upper Paradise

*6.4.d Staff presentation

*6.4.e Agent's presentation

6.5 Application for Approval of a Draft Plan of Condominium (Common Element) and Draft Plan of Subdivision for Lands Located at 1831 Rymal Road East (Stoney Creek) (PED18218) (Ward 9)

*6.5.a Staff presentation

6.6 Applications for an Amendment to the Urban Hamilton Official Plan and the City of Hamilton Zoning By-law No. 05-200 for Lands Located at 119-123 Princess Street, Hamilton (PED18186) (Ward 3)

*6.6.a Staff presentation

*6.6.b Written comments from Brenda Duke, 28 Fullerton Avenue

*6.6.c Speaker - Dr. Lynda Lukasik, Environment Hamilton

*6.6.d Kerry Leclair

6.7 Applications to Amend the Urban Hamilton Official Plan and the City of Stoney Creek Zoning By-law No. 3692-92 for Lands Located at 928 Queenston Road (PED18221) (Ward 9)

*6.7.a Staff presentation
8. DISCUSSION ITEMS

8.1 Non-Statutory Public Meeting for an Urban Hamilton Official Plan Amendment and Zoning By-law Amendment for Lands Located at 261 King Street East (Stoney Creek) (PED18209) (Ward 10)

*8.1.a Written comments from Peter and Theresa Farbotko 218
*8.1.b Written comments from Paul Martini 222
*8.1.c Speaker - Brenda Khes, GSP Group 228

8.2 Sign Variance Application SV-17-011 for the property known as 272-274 King Street West, Hamilton, Denied by the Director of Planning and Chief Planner, Planning Division, and Appealed by the Applicant (PED18225) (Wad 2)

8.2.a Appellant - Vincent R. Formosi, President & CEO Blackfish Investments Incorporated

*8.2.a.a Presentation by appellant's agent 248

8.3 Cartier Crescent Extension - Information Report (PED18206) (Ward 7)

*8.3.a Staff presentation - one slide 262
*8.3.c Delegation - Joe Pyiak, approved September 18, 2018 263

*8.8 Hamilton Municipal Heritage Committee Report 18-009 265

*8.8.a Written comments from Ted Valery President, Valery Homes Property 276

10. NOTICES OF MOTION

*10.1 To Extend Paid Parking at Meters on MacNab Street, Park Street and Vine Street to include Saturdays 278

*10.2 Cash In Lieu of Parking for 11-15 Cannon Street 279

*10.3 Review of C6 and C7 Zoning Regulations 280

*10.4 Future Growth Potential that is Planned for Lands in the Waterdown Urban Area 281
This is a follow up to the report presented to Planning Committee on April 18, 2017 regarding the latest step in the Terrapure Stoney Creek Regional Facility Environmental Assessment process.

Presented by: Tiffany Singh
Brief History

- **Prior to 1977** - Operating as Taro East Quarry since 1996 (a bedrock extraction quarry)

- **1996** - Taro Aggregates received the Environmental Compliance Approval ECA No. A181008 from the MOE and started the operation of the SCRF

- **2006** - The site was acquired by Newalta Corporation (“Newalta”)

- **2014** - Footprint Reconfiguration - MOE approved an amendment to the facility’s ECA reducing the size of the residual material footprint, with no change to the approved total disposal volume, effectively increasing the maximum crest height of the landfill by approximately 4.5 m. The setback distance between the limit of residual material and Green Mountain Rd. W. increased from 30 m to a minimum of 140 m

- **2015** – The site was acquired by Terrapure Environmental

- **Existing Approved Site Capacity:**
  - 6,320,000 m$^3$ of solid, non-hazardous residual material
  - 2,000,000 m$^3$ of industrial fill
  - Total capacity: 8,320,000 m$^3$
  - Max. annual volume of 750,000 tonnes of residual material
  - Operates weekdays from 7:00 am – 5:00 pm
  - Permitted to receive up to 250 vehicles per day
Purpose of EA

- To modify the SCRF site
- To increase:
  - The approved capacity of solid, non-hazardous industrial residual material SCRF by 3,680,000 m³ (from 6,320,000 m³ to 10,000,000 m³)
  - For a total site capacity to a range between 10,000,000 m³ to 12,000,000 m³ (depending on which alternative method is approved)
- Continue to service approved waste within the Province of Ontario
- No change to the maximum number of permitted vehicles to the site per day
- Sought changes require undertaking a 2-step EA process. An Individual Environmental Assessment (EA) approved by the Ministry of the Environment, Conservation and Parks (MECP) is required.
- The City of Hamilton is a commenting body, but does not have jurisdiction regarding denying or approving landfills. Comments are provided to the proponent and MECP for consideration.
Current Approved Footprint vs. Alternative No. 1 - Reconfiguration
Current Approved Footprint vs. Alternative No. 2 - Footprint Expansion
Current Approved Footprint vs. Alternative No. 4 - Reconfiguration & Footprint Expansion
Current Approved Footprint vs. Alternative No. 5 - Reconfiguration & Height Increase
Current Approved Footprint vs. Alternative No. 6 - Footprint Expansion & Height Increase

- **No Negative or Positive Net Effect**
- **Low Negative Net Effect**
- **Moderate Negative Net Effect**
- **High Negative Net Effect**

**Rationale:**
- Alternative Methods 1, 2, and 4 are all more preferred because there is either no proposed height increase or a relatively low height increase and the views can be minimized through screening. Alternative Method 5 includes a greater height increase and views can be minimized through screening. Alternative Methods 3 and 6 are less preferred because there is a relatively greater height increase and the views cannot be fully minimized through screening.
- Alternative Methods 3, 5, and 6 are all more preferred because they would yield the highest benefit to the City of Hamilton and local economy in terms of economic activity and jobs. Alternative Methods 1, 2, and 4 are less preferred because they all result in the lowest economic benefit to the City and local economy.
- All Alternative Methods are equally preferred from a Cultural Environment perspective because no cultural or heritage landscapes would be disturbed or displaced and the site has been previously excavated and disturbed for quarrying. Therefore, no archaeological resources would be adversely affected.
- All Alternative Methods are equally preferred from a groundwater quality and flow perspective because no adverse effects are expected. Alternative Methods 1, 3, and 5 are all more preferred because they maintain the site’s existing stormwater management ponds. Alternative Methods 2, 4, and 6 are all less preferred because the site’s existing stormwater management ponds would need to be relocated/redesigned to accommodate the proposed footprint.
- All Alternative Methods are equally preferred because they would all have a low potential for adverse effects to the terrestrial and aquatic ecosystems, which would be further minimized through the use of standard mitigation measures.

- Low Negative Net Effect
- Moderate Negative Net Effect
- High Negative Net Effect
Summary of Comments on Preliminary Draft EA

• The Land Use and Economic Detailed Impact Assessment Report have not been updated with analysis regarding tax and property valuation impacts.

• The Noise Impact Assessment Report has not been updated to confirm ambient sound level calculations stated.

• The Hydrogeological Impact Assessment Report should be updated with clay liner construction and testing details, off-site domestic water quality information (private wells), Reasonable Use Concept (RUC) calculation methodologies used in 1997 data, clay liner leachate compatibility testing, and clay liner hydraulic performance under the range of waste depths proposed.

• The Commitments and Monitoring Chapter does not specify exactly what type of screening feature or technique will be utilized at the various vantage points to mitigate visual impacts of the facility and operations.

• Should updates to the existing compensation agreements be made, the Commitments and Monitoring Chapter should be updated to reflect any pertinent changes.

THANK YOU FOR ATTENDING

THE CITY OF HAMILTON PLANNING COMMITTEE
Proposed Changes to the SCRF

• Terrapure is seeking approval to increase the capacity for solid, non-hazardous industrial residual material at the SCRF by 3,680,000m³.
• Currently, the SCRF is permitted to receive both industrial fill and residual material. Terrapure only accepts material that cannot otherwise be reasonably diverted.
EA Process

Key components of an EA include:
- Consultation with government agencies and the public
- Consideration and evaluation of options
- Management of potential environmental effects

The full Individual EA process is the most rigorous and comprehensive process available.
Preferred Option 5: Reconfiguration & Height Increase

Details

- Replaces industrial fill with residual material
- An additional 3.68 million m$^3$ of residual material
- Height increase of 2.5m
- Maintains current buffer area
Why is Option 5 Preferred?

- Technically feasible design
- Meets the proposed capacity increase being sought through the EA
- Height increase can be screened through variety of means including berms, tree plantings, fencing, etc.
- Effects to the natural environment and surrounding community are minimized by impact management measures
Studies during the EA

- In the EA, the following environmental components were assessed for the preferred option:

1. Geology and Hydrogeology
2. Surface Water
3. Natural Environment
4. Land Use
5. Economic
6. Atmospheric Environment (Noise, Odour, Air Quality)
7. Human Health
8. Transportation
9. Design and Operations

*Climate Change (mitigation/adaptation) and Cumulative Effects were also assessed

- In addition, an Independent Peer Review Process was completed by Dr. Kerry Rowe

Incorporating City Comments

- City provided comments at each key consultation milestone.
- Received comments from variety of Departments/Groups including: Real Estate, Planning, Source Water Protection, Public Health, Finance, Council.
- Terrapure responded with a formal letter and table outlining how comments received were considered/addressed.
- All comments received to-date have been addressed in the Draft SCRF EA.

<td>Add a figure identifying location of approved residential developments to the north, which must be included as a sensitive receptor.</td>
<td>A figure identifying the residential properties was added to identify as a sensitive receptor.</td>
</tr>
<tr>
<td>Request to add within the conclusion section of the Alternative Methods Report, the details for next steps which should include assessing impacts the SCRF EA will have on existing agreements with the City and Heritage Green Community Trust.</td>
<td>Terrapure has committed to meeting with the City to discuss the possibility of establishing a new host/compensation agreement in relation to the proposed undertaking.</td>
</tr>
</tbody>
</table>
What’s Next?

• After this 7-week draft EA period there will be at least two more opportunities for input into the EA. They include:
  – Reviewing and providing comment to the Ministry of the Environment Conservation, and Parks on the Final EA Report (7 weeks)
  – Reviewing and providing comment on the Ministry’s review of the Final EA Report (5 weeks)

Attention: Ida Bediou,
Legislative Coordinator

Dear Members:

Re: Elfrida Growth Area Study Update (PED18182) – Item 5.3
And Re: GRIDS 2 and Municipal Comprehensive Review

We are the solicitors for the Twenty Road West Landowners Group, owners of lands within the block bounded by Upper James, Glancaster, Twenty Road and Dickenson. As the Committee is aware, our clients have been active participants in the City’s growth management exercise for many years including both with respect to the Elfrida Growth Area Study and GRIDS2.

We also note that our clients have completed, at their own cost and expense, the required planning studies for consideration of their "whitebelt" lands within GRIDS2/MCR for the proposed new "Upper West Side" mixed use community. This includes a complete plan of industrial subdivision application to enable the Garth Street extension from Twenty Road to Dickenson.

As noted by staff in its report, the purpose of GRIDS2 is to identify urban boundary expansion areas required to accommodate additional growth to 2041. The GRIDS2/MCR planning process, including all of the required public consultation and technical justification, is the basis upon which the City’s growth management policies are to be informed and implemented.

We remind both City staff and City Council that there are no predetermined identified areas for urban boundary growth to 2041. That is the issue which GRIDS 2 is to study. To consider Elfrida or any other area as a predetermined or “preferred” place for growth is contrary to provincial law and policy, as confirmed by the Minister’s refusal to approve the UHOP Elfrida policies.
It is also important for us to point out that there is no lawfully permitted 2031 urban boundary expansion. The requirements of the Growth Plan require the MCR process to plan for the 2041 time horizon. We therefore question the basis upon which the staff report continues to reference a 2031 planning horizon which is no longer relevant.

Practically, no development of Elfrida could even be realized until 2031 or close to that time frame so we do not understand how this time horizon can reasonably be applied to justify the Elfrida expansion notwithstanding the legal requirement of the 2041 time horizon.

We also do not understand the basis upon which the City continues to move forward with the Elfrida Growth Area study considering that the lands have been designated as a Prime Agricultural Area. In this respect the Provincial Policy Statement specifically states growth cannot be allocated to a prime agricultural area unless there are no reasonable alternatives on lower priority agricultural lands. In early 2018, the Province released detailed agricultural mapping as part of its 2017 Growth Plan implementation exercise. According to this mapping, Elfrida and other “whitebelt” growth areas have been designated “Prime Agricultural”. The Twenty Road West lands are not encumbered by a Prime Agricultural designation and as an infill growth area surrounded by the urban area, prevailing Provincial Policy would direct growth to these lower priority agricultural lands through a properly conducted MCR process prior to consideration of prime agricultural lands.

We finally note that the staff report, which confirms that Elfrida can only proceed in the context of the 2041 MCR, suggests that there is some basis upon which the MCR process has any bearing on the outstanding UHOP appeals. We do not understand what staff means when it says:

*The updated LNA will provide input to address outstanding appeals to the OMB regarding the Elfrida policies in the Rural Hamilton Official Plan and the Urban Hamilton Official Plan, in addition to providing a City-wide detailed, comprehensive approach to residential intensification, urban land inventory and urban boundary expansion.*

We would appreciate further clarification of this statement. In the UHOP, the City attempted to identify Elfrida as a future urban growth area subject to a future urban boundary expansion and municipal comprehensive review, but that the Province rejected (and continues to oppose) that attempt. That is the issue in the UHOP appeal, so we have a great deal of difficulty trying to understand the cited statement in the staff report. There cannot be a 2031 MCR process or urban boundary expansion completed in the context of the UHOP appeals.

We trust that the City will proceed with GRIDS 2 and the municipal comprehensive review to consider urban expansion on the Twenty Road West block through an appropriate and principled planning process. The MCR must be completed in accordance with provincial policy using a 2041 planning horizon and consistent with the policies to protect prime agricultural areas. The MCR must also be completed on the basis of the Ministerial approved UHOP which eliminates any reference to Elfrida as a predetermined area for growth.

Based on this submission, we would ask the Committee to include in its resolution on this item, a direction to staff to report back on the status of other "whitebelt" lands in the City which can
accommodate future growth before consideration of prime agricultural areas. Without this important information, the City will not have the required information by which to make reasoned planning decisions on its future urban boundary expansions.

We are only just in the process of making our way through the attachments to the staff report, including the consultant report but have not been provided with sufficient opportunity to complete our review. Accordingly, we reserve the right to provide further submissions to staff and to Council/Committee on the matter.

Yours truly,

FOGLER, RUBINOFF LLP

PED18201 – (ZAR-18-023)

Application to Amend the City of Hamilton Zoning By-law No. 05-200 for Lands Located at 5050 Harrison Road, Glanbrook.

Presented by: Ryan Ferrari
The subject lands are located within the Binbrook Conservation Area and are Designated “Open Space” within the RHOP.
The Proposal will permit the operation of a Zip line Adventure Park within the hatched areas shown on the above plan.

Lake Niapenco
Site Plan depicting the Binbrook Conservation Area (development outlined in red)
Existing Parking Area on the Subject Lands
An existing picnic pavilion will be converted to accommodate the Park Entrance.
Area designated for the new entrance office and harness rental area (future development)
Partial layout of a proposed zip line course (see trees with blue ribbons)
Existing pathway which leads to proposed zip line course, paths will be roped off to prevent wandering
Outside the exit of the proposed zip-line area. 100 Trees will be planted in this area in an effort to expand the overall forest footprint.
Typical Roped off Pathway leading to zip line course (Brampton Location)
Trees are protected with “Tree Savers” Zip lines do not make contact with the tree (Brampton Location)
Children’s “Treewalk Village” Playground, Treehouses (Stouffville Location)
THANK YOU FOR ATTENDING
THE CITY OF HAMILTON PLANNING COMMITTEE
Treetop Trekking at Binbrook Conservation Area
Zoning By-Law Amendment
Public Meeting – September 18th, 2018
Binbrook Conservation Area

- Large, highly visited Conservation Area southwest of Binbrook
- Fishing, beach, splash pad, canoe rentals, hiking
- Treetop Trekking aerial course will offer an additional way to experience nature within the conservation area
Treetop Trekking

Treewalk Village

Aerial Courses
Wetlands

• All ground oriented infrastructure is outside the 15m Vegetation Protection Zone.
• No aerial courses cross the wetlands, only the wetland buffer area (VPZ)

Species at Risk

• Several SAR bats were found in the area
• No development near suitable bat cavities
• Construction outside of breeding bird and bat season only

MNRF, ESAIEG, NPCA has all review the EIS and proposed development, and are all satisfied
Tree Preservation Plan
• Tree removal will occur; some due to their condition, other due to being within the course area
• Trees removed will be compensated just west of the aerial courses to expand the footprint of the forest

Monitoring Plan
• 5 year monitoring plan carried out by the NPCA to assess any impacts on wildlife and vegetation
Zoning By-law Amendment

- To add the specific aerial course and treewalk village use
- To allow to proposed administrative building, to a maximum of 150 square metres
- No additional commercial recreational uses will be permitted
Agree with the Staff recommendation.

Respectfully request Planning Committee to support the recommendation as the proposal is:

✓ Consistent with the PPS (2014),
✓ Consistent with the Greenbelt Plan (2017),
✓ Conforms with the RHOP,
✓ Appropriate recreational use.

RE: Comments Pursuant to Staff Report PED18211
New Horizon Development Group - 50 Green Mountain Road West
Zoning Bylaw Amendment – ZAC-17-077

Mr. Zajac,

Further to our letter dated December 21st, 2017, we have not been able to meet with the applicant with respect to cost-sharing, despite efforts from our office and Empire representatives. The cost-sharing relates to works that Empire has front-ended which benefit the above-mentioned development proposal, including oversizing of sanitary and storm servicing infrastructure, urbanization of Green Mountain Road, and the stormwater management pond in Empire’s Victory Subdivision.

We have reviewed Staff Report PED18211, and agree with staff’s recommendation that the cost-sharing be resolved with Empire prior to Site Plan/Draft Plan of Subdivision approval. Should the Zoning Amendment be approved, we’d like to note on record that the applicant is not absolved of paying its proportionate share of infrastructure and servicing costs.

Please feel free to contact me at 416-444-3300 ext. 3002 with any questions or concerns.

Regards,

Michael Auduong, RPP
Planner

RE: File No. ZAC-17-030, Applications by MB1 Development Consulting on Behalf of 2434217 Ontario Inc. for a Zoning By-law Amendment for Lands Located at 567 Scenic Drive, Hamilton (Ward 8)

Dear Council and Planning Staff,

I am writing this letter to show my support for this proposed zoning amendment. As a patient of Dr. Sharma when she moved from the west mountain (close to Olympic Park) to the current location at Scenic and Upper Paradise, it made my commute to see her a lot shorter. The location across from the Chedoke stairs and beside the #34 bus stops allow for easy access to her clinic for those people who do not drive, either by choice or necessity. When I did obtain a vehicle myself, I never had a concern with finding parking on the property either.

The current building is in clear need of a tear down and rebuild. And we have a current owner who is looking to do just that. I have seen concepts of the proposed building, and the design of the building and the landscaping of the lot is far superior to what stands there today. Had the location been between two residential lots, I could understand having a clinic and pharmacy would not be appropriate for the location. However, this is on a corner lot that has always been used for commercial purposes despite its current zoning of Suburban Agriculture, Residential, for as long as I can recall (my recall only goes back to the late 1990s/early 2000s). It is on an existing bus route so both Scenic Road and Upper Paradise are well travelled especially by students and seniors. Thus, allowing for a legitimate mixed commercial use isn’t that far fetched of an idea. I kind of wished the convenience store had been maintained as part of the proposal. But, the applicant has made concessions to help appease the neighbour’s concerns.

The proposal is adding much needed residential stock to the City which can be used by seniors, singles, couples or students who attend McMaster or Mohawk College. The area may be residential, but it shouldn’t be exclusively single-family dwellings. A mixture of housing stock from duplexes, to semis to low rise apartment buildings and mixed use should be welcomed. It creates a more vibrant and inclusive community.

If there are concerns with parking, many young people today don’t drive, use car share or take transit. Since Hamilton is trying to promote alternative forms of transportation (ie LRT will help improve transit options on the mountain by releasing buses that will not be required on the LRT route), why can’t this be one of those mixed use locations where for once the pedestrian and transit user are prioritized over the car driver (and this is coming from a person who does drive).

I can assure you that female doctors are hard to come by in Hamilton and a shortage of doctors overall makes having a doctor in a stable location who offers late hours once a week, a much-needed commodity. Because the office is appointment based, yes, there will be a lot of coming and going but mostly during daytime hours when most people are away at work, and for short periods of time.
I trust that Hamilton will make the correct decision by granting this ZBA. This amendment is consistent with the Places to Grow Act (more housing), a great use of infill development (you can restrict the type of commercial use to what is being requested in order to prevent potential future conflicts from occurring) and I believe it meets the intent of both the Official Plan and the Zoning Bylaws, from what I have studied in recent past.

Kind regards,

Erin Shacklette

Subject: My support for the Scenic Dr. Family Neighborhood Medical Centre for Neighborhood.

Dear Council member,

I am a client of the Family Medical Centre at 567 Scenic Drive, Hamilton.

I am very pleased that my physician is located at this site and believes in this neighborhood and wishes to stay. In fact, they will improve this neighborhood with a new updated structure that respects the character of the neighborhood. The artists’ rendering of the new building shows a new building that is not excessively tall, uses exterior materials consistent with other homes recently updated along Scenic Drive and introduces more greening of the property. The scale of the new structure does not appear to be inconsistent with neighboring properties. Mix use with Residential component enhance safety and security as well. These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

I can speak personally on this issue. I know how extremely difficult is to find a good doctor and achieve accessibility to your doctor office. We know that now trends are that most of medical centres are located far away in commercial malls, out of town or away from bus routes. One of my key considerations when choosing health care specialists is accessibility.

Having excellent doctors and health care professionals with easy access has been a great pleasure and I hope they will continue to stay for many years to come.

In fact, I hope and believe that setting a good example in this way will encourage other doctors and medical professionals to remain within communities rather than in strip malls, off highways or the outskirts of towns. Encouraging clients to walk or take the bus is an excellent feature of health care facilities and something to be encouraged everywhere.

I am aware that an application for new permanent structure at the existing location is continuing through the review process with the City of Hamilton. It is my wish to endorse this request and I hope you, as a representative of the City of Hamilton will provide the support needed to ensure that this application is approved.

I look forward to this plan becoming a reality and hope I have helped achieve your support.

Feel free to contact me if you have questions or comments.

Thank you

Subject: My support for the Scenic Dr. Family Neighborhood Medical Centre for Neighborhood.  

Dear Council member,  

I am a client of the Family Medical Centre at 567 Scenic Drive, Hamilton.

I am very pleased that my physician is located at this site and believes in this neighborhood and wishes to stay. In fact, they will improve this neighborhood with a new updated structure that respects the character of the neighborhood. The artists’ rendering of the new building shows a new building that is not excessively tall, uses exterior materials consistent with other homes recently updated along Scenic Drive and introduces more greening of the property. The scale of the new structure does not appear to be inconsistent with neighboring properties. Mix use with Residential component enhance safety and security as well. These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

I can speak personally on this issue. I know how extremely difficult is to find a good doctor and achieve accessibility to your doctor office. We know that now trends are that most of medical centres are located far away in commercial malls, out of town or away from bus routes. One of my key considerations when choosing health care specialists is accessibility.

Having excellent doctors and health care professionals with easy access has been a great pleasure and I hope they will continue to stay for many years to come.

In fact, I hope and believe that setting a good example in this way will encourage other doctors and medical professionals to remain within communities rather than in strip malls, off highways or the outskirts of towns. Encouraging clients to walk or take the bus is an excellent feature of health care facilities and something to be encouraged everywhere.

I am aware that an application for new permanent structure at the existing location is continuing through the review process with the City of Hamilton. It is my wish to endorse this request and I hope you, as a representative of the City of Hamilton will provide the support needed to ensure that this application is approved.
I look forward to this plan becoming a reality and hope I have helped achieve your support.

Feel free to contact me if you have questions or comments.

Thank you

The scale of the new structure does not appear to be inconsistent with neighboring properties. Mix use with Residential component enhance safety and security as well. These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

I can speak personally on this issue. I know how extremely difficult is to find a good doctor and achieve accessibility to your doctor office. We know that now trends are that most of medical centres are located far away in commercial malls, out of town or away from bus routes. One of my key considerations when choosing health care specialists is accessibility.

Having excellent doctors and health care professionals with easy access has been a great pleasure and I hope they will continue to stay for many years to come.

In fact, I hope and believe that setting a good example in this way will encourage other doctors and medical professionals to remain within communities rather than in strip malls, off highways or the outskirts of towns. Encouraging clients to walk or take the bus is an excellent feature of health care facilities and something to be encouraged everywhere.

I am aware that an application for new permanent structure at the existing location is continuing through the review process with the City of Hamilton. It is my wish to endorse this request and I hope you, as a representative of the City of Hamilton will provide the support needed to ensure that this application is approved.

I look forward to this plan becoming a reality and hope I have helped achieve your support.

Feel free to contact me if you have questions or comments.

Thank you

Subject: My support for the Scenic Dr. Family Neighborhood Medical Centre for Neighborhood.

Dear Council member,

I am a client of the Family Medical Centre at 567 Scenic Drive, Hamilton.

I am very pleased that my physician is located at this site and believes in this neighborhood and wishes to stay. In fact, they will improve this neighborhood with a new updated structure that respects the character of the neighborhood. The artists’ rendering of the new building shows a new building that is not excessively tall, uses exterior materials consistent with other homes recently updated along Scenic Drive and introduces more greening of the property. The scale of the new structure does not appear to be inconsistent with neighboring properties. Mix use with Residential component enhance safety and security as well. These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

Subject: My support for the Scenic Dr. Family Neighborhood Medical Centre for Neighborhood.

Dear Council member,

I am a client of the Family Medical Centre at 567 Scenic Drive, Hamilton.

I am very pleased that my physician is located at this site and believes in this neighborhood and wishes to stay. In fact, they will improve this neighborhood with a new updated structure that respects the character of the neighborhood. The artists’ rendering of the new building shows a new building that is not excessively tall, uses exterior materials consistent with other homes recently updated along Scenic Drive and introduces more greening of the property. The scale of the new structure does not appear to be inconsistent with neighboring properties. Mix use with Residential component enhance safety and security as well. These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

I can speak personally on this issue. I know how extremely difficult is to find a good doctor and achieve accessibility to your doctor office. We know that now trends are that most of medical centres are located far away in commercial malls, out of town or away from bus routes. One of my key considerations when choosing health care specialists is accessibility.

Having excellent doctors and health care professionals with easy access has been a great pleasure and I hope they will continue to stay for many years to come.

In fact, I hope and believe that setting a good example in this way will encourage other doctors and medical professionals to remain within communities rather than in strip malls, off highways or the outskirts of towns. Encouraging clients to walk or take the bus is an excellent feature of health care facilities and something to be encouraged everywhere.

I am aware that an application for new permanent structure at the existing location is continuing through the review process with the City of Hamilton. It is my wish to endorse this request and I hope you, as a representative of the City of Hamilton will provide the support needed to ensure that this application is approved.

I look forward to this plan becoming a reality and hope I have helped achieve your support.

Feel free to contact me if you have questions or comments.

Thank you

These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

I can speak personally on this issue. I know how extremely difficult is to find a good doctor and achieve accessibility to your doctor office. We know that now trends are that most of medical centres are located far away in commercial malls, out of town or away from bus routes. One of my key considerations when choosing health care specialists is accessibility.

Having excellent doctors and health care professionals with easy access has been a great pleasure and I hope they will continue to stay for many years to come.

In fact, I hope and believe that setting a good example in this way will encourage other doctors and medical professionals to remain within communities rather than in strip malls, off highways or the outskirts of towns. Encouraging clients to walk or take the bus is an excellent feature of health care facilities and something to be encouraged everywhere.

I am aware that an application for new permanent structure at the existing location is continuing through the review process with the City of Hamilton. It is my wish to endorse this request and I hope you, as a representative of the City of Hamilton will provide the support needed to ensure that this application is approved.

I look forward to this plan becoming a reality and hope I have helped achieve your support.

Feel free to contact me if you have questions or comments.

Thank you

Subject: My support for the Scenic Dr. Family Neighborhood Medical Centre for Neighborhood.

Dear Council member,

I am a client of the Family Medical Centre at 567 Scenic Drive, Hamilton.

I am very pleased that my physician is located at this site and believes in this neighborhood and wishes to stay. In fact, they will improve this neighborhood with a new updated structure that respects the character of the neighborhood. The artists’ rendering of the new building shows a new building that is not excessively tall, uses exterior materials consistent with other homes recently updated along Scenic Drive and introduces more greening of the property. The scale of the new structure does not appear to be inconsistent with neighboring properties. Mix use with Residential component enhance safety and security as well. These are all good components of the design and show a respect for their neighbors.

As the community and in fact all communities age it’s important that accessibility to our family doctors is not onerous or in fact impossible without help from friends and family.

I can speak personally on this issue. I know how extremely difficult is to find a good doctor and achieve accessibility to your doctor office. 567 Scenic Drive
Proposed Mixed Use Building

City of Hamilton Planning Committee
September 18, 2018

Michael Barton
michael@mb1consulting.com
(905) 599-9973
Site Location
Site Context

- Primarily surrounded by single family residential dwellings
- Cliffview Park and its parking lot are situated to the northwest
- Accessible to public transit, with HSR Route 34 & 34A bus routes run along Upper Paradise Road and Scenic Drive, with stop locations adjacent to the site to the west
Site Context – Adjacent Dwellings
Site Context – Adjacent Dwellings
Site Context – Scenic Drive
Existing Site Conditions

- Currently occupied by a 1-storey building with medical office and pharmacy uses
- Balance of the site is used for surface parking area, including area adjacent to fence line along the easterly limits of the property and up to the sidewalk on Upper Paradise Road
- No existing landscaping on the property or buffer strips adjacent to neighbouring properties or the public realm
Existing Site Conditions
Key Site Context Notes

- Subject property has been used for commercial purposes since July 1950
- Owner of subject property is not aware of any complaints made to City related to parking matters
- Scenic Drive is designed and experiences moderate levels of traffic during peak periods due to its designation as a “Minor Arterial”
- No parking is permitted on Scenic Drive and no on-street parking has been observed during our site visits
- Cliffview Park attracts significant visitors to the stairs and experiences pressure on the available parking lot
- Areas currently used for parking in front of existing building would not be available under current zoning (legal non-conforming)
- Owner seeking to serve local community and patients that access the property on foot or by transit
Existing Planning Designations

• “Neighbourhoods” under Urban Hamilton Official Plan
• “B-1 Suburban Agriculture and Residential Etc” under Zoning By-Law 6593
• Scenic Drive is designated a *Minor Arterial* under UHOP Schedule C – Functional Road Classifications
• Upper Paradise Road is designated a *Collector* under UHOP Schedule C – Functional Road Classifications
Current Application

• To amend the former City of Hamilton Zoning By-law No.6593 by rezoning the subject lands from a “B1” (Suburban Agriculture and Residential Etc.) Zone to a site specific Commercial – Residential “CR 1” zone that will permit the proposed uses, development regulations and lot standards.
Application History

- Formal Consultation: December 14, 2016
- Notice of Complete Application: April 10, 2017
- First Community Meeting: May 16, 2017
- MB1 engaged in September 2017
- Revisions made to proposal based on comments from first Community Meeting
- Second Community Meeting: May 17, 2018
- Proposal finalized based on City staff requests and recommendations
- Draft Zoning By-Law documents and City staff report prepared recommending approval
3 commercial units with a total of 276 m$^2$ of gross floor area, intended to be medical office, pharmacy, and retail convenience store/cafe
3 residential units on the upper floors, with a total of 472.5 m$^2$ of gross floor area
10 on-site surface parking spaces, including one barrier free parking space
Outdoor patio for outdoor recreational space for residents and store/cafe patrons
Net residential density of approximately 30.7 dwelling units per hectare
Key Comments and Concerns

- Too much floor area/density
- Not enough landscaped area and open space
- Too many commercial and residential units (over-development)
- Building too large in scale; not compatible with community character
- High level of activity and customer turnover would be generated by convenience store use
- Outdoor cafe patio not appropriate or desirable
- Not enough parking to accommodate the proposed uses (HOWEVER, no thoughts provided on how much parking is appropriate)
- Too much traffic generation
• Reduction in lot coverage from 276 m² (28.2%) to 186.5 m² (19.1%)
• At-Grade Commercial Units:
  – Reduction in the number of units from 3 to 2; and
  – Reduction in floor area from 276 m² (2,971 ft²) to 186.5 m² (2,007 ft²);
• Above-Grade Residential Units:
  – Reduction in the number of units from 3 to 2;
  – Reduced floor area from 472.5 m² (5,086 ft²) to 308 m² (3,315 ft²); and
  – Reduced residential net density from 30.7 units/ha to 20.4 units/ha
• Increased parking supply from 10 spaces to 11 spaces
• Increase in easterly side yard abutting existing residential from 12.6 m to 18.8 m
• Accommodation of road widening on Scenic Drive and Upper Paradise Road
• Provision of landscaped buffers along limits of property per Zoning comments
• Removal of the proposed outdoor patio
• Elimination of the convenience store use
Revised Proposal

• The owner is seeking to build a facility of high quality architectural and site design that is compatible with the uses and built form in the community and also takes into consideration the provision of appropriate setbacks, landscape buffers, road widenings.

• This includes providing a reasonable amount of parking in conjunction with these other site considerations.
Revised Elevations
Merits of Revised Proposal

• Reduced number of residential and commercial units and floor area
• Reduction in intensity of development, including traffic and parking generation
• Greater site area for parking, landscaping and open space
• Landscaping buffers and greater setbacks provided
• Reduced building massing and potential for overlook
• Single detached dwelling character in keeping with community character
• Enhanced site quality and character
• IN GENERAL: a proposal consistent and compatible with the existing character of the neighbourhood
Provincial Policy Statement

- Revised development proposal is consistent with the applicable provisions of the Provincial Policy Statement, on the following basis:
  - Proposal provides for accommodation of residential population growth inside the existing urban boundary and built-up area;
  - The low density residential design is compatible and consistent with the character of the adjacent community and represents a reasonable intensification on the subject property;
  - The mixed use character will increase the diversity of the economic base in the community and provide services that will benefit local residents;
  - Development will make more efficient use of existing serviced land without adverse impacts to the quality of life and built form in the community;
  - No public investment is required in municipal services or infrastructure;
  - Proposal will contribute to the financial well-being of the City by increasing the property tax levy on the property and generating payment of development charges, planning application fees and building permit fees; and
  - Proposal will assist the City in achieving its goals for growth and intensification under Places to Grow and UHOP.
Places to Grow

• Revised proposal will be in conformity with the Growth Plan:
  – Proposal represents growth in the existing built-up area with uses and built form that will be compatible with the character and quality of the existing neighbourhood;
  – Proposal will increase the intensity of development, as well as people and jobs, situated along a route with frequent transit service;
  – Proposal will support existing transit infrastructure and aid investment in new and enhanced infrastructure; and
  – Proposal will increase the density of residential development on the subject property and for an expanded range of services available to the community.
Urban Hamilton Official Plan – Strategic Directions

• The proposal will directly support the 9 strategic directives:
  – Revised proposal represents infill intensification of a property inside the existing urban boundary and built-up area;
  – Proposal is an opportunity in increase the intensity of use on the property and to enhance the quality of the property in a manner that is consistent with the City’s urban design objectives and compatible with the existing community;
  – Reduction in number of residential and commercial units and floor area relative to the original proposal will allow for enhanced compatibility and reduced adverse impacts on the community while still achieving the stated objectives of UHOP for intensification and redevelopment.
Urban Hamilton Official Plan – Residential Intensification

• Proposal is consistent with section 2.4 policies related to Residential Intensification:
  – The proposal will increase the intensity of land use on the subject property and in the community in a manner that is consistent and compatible with surrounding built form, including building type, massing, scale and setbacks;
  – There will be no adverse impacts to the quality and character of the neighbourhood. This is particularly the case when the revisions that have been made to the proposal are taken into consideration;
  – The level of development proposed would not generate any significant transportation or servicing infrastructure impacts relative to existing conditions.
Urban Hamilton Official Plan - Communities

• Proposal is consistent with “Communities” policies outlined in Chapter B of UHOP:
  – The proposal will increase the diversity of services available to residents relative to existing conditions and uses currently located on the property;
  – The proposal will provide the opportunity for enhanced built form for users of the site and the surrounding community;
  – There will be an increase in available services and opportunities for residents and employees in the area, which will minimize the distance that must be travelled to obtain these services.
Urban Hamilton Official Plan - Neighbourhoods

• Proposal is consistent with the following “Neighbourhoods” policies:
  – Develop compact, mixed use, transit-supportive, and active transportation friendly neighbourhoods;
  – Plan and designate lands for a range of housing types and densities, taking into account affordable housing needs;
  – Promote and support design which enhances and respects the character of existing neighbourhoods while at the same time allowing their ongoing evolution; and
  – Promote and support residential intensification of appropriate scale and in appropriate locations throughout the neighbourhoods.
Urban Hamilton Official Plan - Neighbourhoods

• Our opinion is that the following policies are also satisfied through the revised proposal:
  – Section 3.2.4 indicates that “the existing character of established Neighbourhoods designated areas shall be maintained. Residential intensification within these areas shall enhance and be compatible with the scale and character of the existing residential neighbourhood.”
  – Section 3.3.2 stresses that “Development or redevelopment adjacent to areas of lower density shall ensure the height, massing, and arrangement of buildings and structures are compatible with existing and future uses in the surrounding area.”
Conclusions

• The revised proposal:
  – Is consistent with the policies of the Provincial Policy Statement, Places to Grow and Urban Hamilton Official Plan;
  – Is consistent and compatible with the existing uses and built form and will enhance the character and quality of the community without resulting in any adverse impacts relative to existing conditions;
  – Will enhance the quality of use and built form on the subject property;
  – Will update the Zoning to conform to the Urban Hamilton Official Plan.

RE: File # UHOPA – 17-034
    Metropolitan Consulting Inc./ADL Processing/Frost Mech Inc.

I would like to register my approval of this zoning change.

I have looked at the company information available on their web site, spoken with the owner and the consulting firm and attended the open houses held to engage the community. Subsequently, I was provided with minutes from those public meetings and am satisfied that they were able to address concerns raised by the residents and groups attending the sessions.

I am satisfied that this facility is an Electronics Recycling Plant and differs greatly from a waste management plant. I feel that that is part of the objection to it. These situations could possibly be avoided if the distinction was clearer.

As a resident of the immediate neighbourhood I have looked at the benefits this facility will provide.

1. An opportunity to recycle material as opposed to adding it to our land fill
2. An opportunity for local employment which is much needed in our area
3. An opportunity to engage a valuable community support for our area

Some of the objections raised include but are not limited to:

1. Truck traffic on Sherman Avenue
   The area is already a truck route for other area industries
   The proposed increase in traffic is minimal and operates during business hours

2. Proximity to residential neighbourhoods
   The area is and has been mixed industrial/residential for several years which is clearly known in the area and was evident when homes were purchased
   There are several other industries and business in the immediate area and specifically on Princess Street between Birch Avenue and Sherman Avenue
   There are car repair shops operating within a one block radius of the building
   Canadian National (CN) rail line runs behind the building in question
3. The allowable distance from residential areas
   As I understand it, the allowable distance is a guideline. The change is minimal and does not impact on a residential property.

4. Future Zoning Changes
   The zoning change applies to the specific property and does not provide blanket approval for acceptance of any and all waste processing and transfer facilities. Each building or proposed facility would have to apply on their own and be approved. The community would have the option of speaking to that specific situation.

I believe that ADL Processing will provide a valuable resource to the community by utilizing a vacant industrial space and building. My research shows that they are addressing community concerns and taking part in responsible stewardship of the environment.

Thank you for your attention to this matter. Please keep me informed on this matter.

THE CITY OF HAMILTON PLANNING COMMITTEE
Comments for Proposed Development 261 King Street East, Stoney Creek

Although intensification is being mandated by the province, it needs to be properly planned and implemented in order for it to be successful. Other cities are implementing this concept however this type of growth is taking place at the edge of urban centres. The proposed development of a 4 storey, 45 unit condominium, does not fit in this neighbourhood. The area is made up of single family homes. There are other areas within the City of Hamilton that could support this concept, such as areas along Highway #8, Barton Street and in the downtown area.

There are no positives to having this development in our neighbourhood, the only people that will benefit from this, is the City (more tax money) and the developer. There is no benefit to the residents of this neighbourhood.

This type of development will have a negative impact on our neighbourhood:

* No privacy – We go to our backyard to enjoy the view of the escarpment and to relax after a hard day’s work. Looking at a four storey condo unit from my backyard is not appealing.

* Increased traffic – King Street is already a busy street, how is it going to handle 96 additional cars coming out of this development? (on average each household has 2 cars x 48 units) A resident has
already had two of his vehicles totalled due to the traffic along King Street. Safety is an issue for all residents of this area. There are three schools within walking distance of this development. This proposed development is along a curve on the street. Going in and out of the development will be a challenge. There will be an increase in the number of accidents if this development is approved. Safety must be a priority!

*Parking is an issue – where are the residents and their visitors going to park? The development has only 51 parking spaces.

*Increased pollution – additional cars, garbage.

*Does the infrastructure support this development? Years ago, a development of townhomes was proposed however if was never developed because the sewer system could not support it. Will the sewer system be able to support a 45 unit condo? Who will pay for the damage to my property if the sewers back up? The City will be held accountable since they approved the development.

*Preservation of the trees – the trees around the property have been there for decades, it is a home for many animals such as blue jays, cardinals, turkey vultures, hawks, and many others. Several years ago, monarch butterflies settled in those trees when they were migrating south. Once digging begins, the
trees will most likely die and the inhabitants of the trees will be displaced.

Years ago, there was a proposed development of townhouses, this type of development would fit in the neighbourhood. It is the responsibility of the City and Planners to approve developments that fit in the area, a four storey, 45 condominium unit does not. This development can be constructed elsewhere and not among single family homes. Members of Council need to listen to the opinions of the residents, who have lived in the area for decades and not a developer whose main objective is financial gain. It is your responsibility to approve developments that work for the residents of the area and to set a precedent that developers can't just go into a residential area and change the landscape of the area.

Re: Planning Committee Meeting for 261 King St. E. Stoney Creek  
J.A.N. Group Inc. Files UHOPA-16-028  
ZAC-16-068  
Meeting September 18, 2018  

Please find attached, information in respect to my concerns in regards to building a 4 storey building next to my home.  
I am planning on attending the meeting, however due to serious health problems with our 2 year old grandson this may not be possible. He is battling Leukemia and spends a great deal of time as a patient at the McMaster Children’s hospital.  

Sincerely,  

Paul Martini
Information from Paul Martini – 267 King St. E. Stoney Creek, ON
Re: J.A.N. Group Inc. proposal to build a 4 storey multiple dwelling building at 261 King St. E.
Stoney Creek.

History:
My parents built our home situated at 267 King St. E. (east side of 261) in 1941. At the time, the area of mostly farm land and King street was a 2 lane road. I now own the property.
There was a home situated on the property at 261 King St. E. An addition to the home was added by Ivan Kontic when he and his family moved to the site.
Over the years prior to Mr. Kontic buying this property, several homes were built in the neighbourhood. Every new home resulted in those properties being built up to a height much higher than my parents home and the property at 261 King St. When a new survey was built to the rear of my family property concern was expressed that our property would be flooded. The municipality at the time built catch basins on the properties in the survey and added a small drain to my parents property. There was an understanding that they would be maintained by the municipality.
This was to compensate for the ditches on what was the farmland to the rear of these properties before the survey was built.
Now from what I have heard, the city of Hamilton will not maintain the drainage system. It’s up to the property owner behind us. Well good luck with that.
Additionally, Mr. Kontic who had drainage problems on his property at 261 King St. dug a trench to drain that property onto my property as I had a small drain. He did tell me about this after it was done. My backyard frequently is flooded when we have major rainfall and in the Spring Season.
261 King St. has been rented out since Mr. Kontic moved. In the Spring after a major storm with heavy rain a male person was observed digging a trench into my property. He left before I was able to confront him. My yard was flooded to the point that it came close to my garage and home. This is the first time that we actually had ducks in our yard.
My property is at the level the surrounding land was prior to them building and backfilling. Totally unfair, but allowed.

When Mr. Kontic first purchased the property at 261, he was planning on building 6 townhouses. Later he applied to build 12. At some point in the application it was found that the sewer system would not be sufficient to handle this many homes on the lot. Kontic would have to pay for sewer alterations. The sewer is divided in front of the property. My home, the sewage runs to the east and 261 runs to the West. This is what we were told.
When this came up at a meeting with JAN held by Maria Pierson, Maria denied this was the case. When myself and others argued the point in history, Maria said all of the documentation was destroyed in a city hall basement flood.
Ivan Kontic tried to tell me that this issue had been repaired and it was storm sewers. King Street was widened in 1992. Sidewalks were added and property on both sides of King street were purchased to eliminate the sharp curve in the street.
Prior to the construction, it was decided that taking the curve out was too costly as all hydro and telephone poles would have to be moved.
There has been no road construction or sewer construction since 1992. We were here. How could the sewer problem have been repaired when there was no construction?

Traffic on King Street has increased and there are many dangers with this curve. It is extremely difficult to pull out of our driveways. Vehicles speeding makes the situation worse and it’s especially bad when they speed up to catch a green light at Greens Rd.

Although parking is allowed I have never seen anyone park on the north side of King St. in the area of the curve. People on the south side do park on the street at times. A number of parked cars have been struck.

The hydro pole in front of my home has been struck several times. I have had to call hydro to check the damage. A month ago a Darts van hit the pole and destroyed it. It was immediately replaced and still the lower part of the old pole is there wrapped with caution tape and cones.

Our street is dangerous and can you imagine what a 4 storey apartment building with 45 units or more and insufficient parking is going to do? If vehicles parked near my driveway they would block a view of west bound traffic. Other main 4 lane roads do not allow parking, why is it allowed on King Street. With the construction of the LRT our part of King street will be even more heavily travelled. I suggested that city staff need to try pulling out of our driveways or turning into them in order to see the danger.

My life has been policing and public safety. I have experience in dealing with traffic concerns. In my opinion, there will be serious consequences with the number of vehicles coming and going from this apartment building and the situation will be greater with insufficient parking for tenants and visitors.

All homes in this area are detached single family homes. A 4 storey building is inappropriate for the area, especially with a building this size on a 1 acre lot.

As previously mentioned, I will be flooded out with a building this size taking up most of the lot. With insufficient sewers and drainage there will be problems.

The attitude of the people responsible for this building is, “you can appeal LPAT, but you won’t win. This is also the opinion of Maria Pearson.

Thank you for any assistance you might offer. So far we have had no advice or assistance from our councillor.

Mr. Michael Visca 6 Elvia Crt. Has a petition opposing the building of this apartment building that was signed by more that 140 local residents.

Yours truly,

Paul Martini

- Proxy site shows demand of 1.25 parking spaces per unit or 57 spaces.
- TTS Data shows auto ownership of apartments at 0.60 parking spaces per unit or 27 spaces.

261 King Street East
September 18, 2018
Transportation
Remedial Measures and Sight Distance

- Level of Service at study area intersections and proposed driveways is acceptable.
- No auxiliary turn lanes required on King Street at proposed driveways.
- TAC Geometric Design Guide recommends the minimum stopping sight distance be provided for driveways. Minimum stopping sight distance for 60km/h design speed is 85 metres.
  - Sight distance to the east is 85 metres
  - Sight distance to the west is 115 metres
- Sufficient sight distance in both directions.
- Recommend any vegetation in road allowance be maintained at 0.60 metres or less.
High vs Medium Density

High Density: UHOP Policy E.3.6.7 b

• “High profile multiple dwellings shall not generally be permitted immediately adjacent to low profile residential uses. A separation distance shall generally be required and may be in the form of a suitable intervening land use, such as a medium density residential uses. Where such separations cannot be achieved, transitional features such as effective screening and/or design features shall be incorporated into the design of the high density development to mitigate adverse impact on adjacent low profile residential uses.”

Medium Density: UHOP Policy E.3.5.9 b)

• Development shall be integrated with other lands in the Neighbourhoods designation with respect to density, design and physical and functional considerations.
Overall Response

• Density reduction from 123 to 115 units per hectare
• Unit reduction from 48 to 45 units (-3)
• Massing reduction – 4th floor building step-back and overall building articulation
• Parking increase from 53 to 58 spaces
Planning Rationale

Summary / Overview

• PPS/P2G Policy and UHOP support intensification
• Infrastructure / traffic capacity available to support density
• Increase housing choices – provides single level independent living options to an aging population
• Transit supportive density
• King Street = minor arterial road
• Close to amenities
• Meets intent of Urban Design Policies
• Appropriate intensification of the site

Sign Variance Application

IBI Group
Vincent Formosi (Blackfish Investment Inc.)
272-274 King Street West, Hamilton
September 18, 2018
**Location:** 272-274 King Street West, Hamilton

**Frontage:** 10.40m

**Lot Depth:** 16.45m

**Area:** 171.08m²

---

**Property Description**

Vincent Formosi (Blackfish Investment Inc.)

272-274 King Street West, Hamilton

September 18, 2018
Past Billboard Signage
Current static third party sign

Existing sign is 9.1m by 3.1m

Third party advertising since 2009

Proposed sign variance application to permit a 5.8m by 3.1m Digital third party sign
The following variances were requested and/or identified during the review of the application:

1. To permit a 5.8m by 3.1m Digital third party sign to be located on the roof top of the building;

2. To permit a Digital third party sign for the purposed of third party advertising;

3. To permit a Digital third party sign to be within 300m of a property zoned D2 which permits residential dwellings; and,

4. To permit a Digital third party sign to be setback 0m from the property line.
City of Hamilton Zoning By-law No. 05-200

- Digital third party sign is not located in required parking, landscape strip, maneuvering space, loading space, planting strip or access driveway

- **Staff Report Notes:** The proposed sign conforms to the City of Hamilton Zoning By-law No. 05-200
6.5 In considering an application for a sign variance, the Director shall have regard for:

a) Special circumstances or conditions applying to the land, building or use referred to in the application;

b) Whether strict application of the provisions of this By-law in the context of the special circumstances applying to the land, building or use, would result in practical difficulties or unnecessary and unusual hardship for the applicant, inconsistent with the general intent and purpose of this By-law;

c) Whether such special circumstances or conditions are pre-existing and not created by the sign owner or applicant; and

d) Whether the sign that is the subject of the variances will alter the essential character of the area in which the sign will be located.

NOTE: “shall have regard for” = consider, evaluate, not strictly adhere to
a) Special circumstances or conditions applying to the land, building or use referred to in the application;

- Sign is existing;
- Sign has been third party since 2009; and,
- New sign will be smaller - Reduction in image size from 9.1m x 3.1m to 5.8m x 3.1m
b) Whether strict application of the provisions of this By-law in the context of the special circumstances applying to the land, building or use, would result in practical difficulties or unnecessary and unusual hardship for the applicant, inconsistent with the general intent and purpose of this By-law;

• 100% vinyl sign is permitted;
• Vinyl is not conducive to quick change over; and,
• Digital sign provides opportunity for safer installations and is more environmentally sustainable.
c) Whether such special circumstances or conditions are pre-existing and not created by the sign owner or applicant; and

- Sign structure is existing;
- Vinyl coverage is supported; and,
- Third party advertising since 2009.

d) Whether the sign that is the subject of the variances will alter the essential character of the area in which the sign will be located.

- No different than a vinyl sign other than change over rate;
- Will not alter character, signage is already part of the character; and,
- No undesirable precedent will result.
Downtown Secondary Plan

Policy 6.1.5.18 – “New signage geared to fast-moving vehicular traffic such as billboards or permanent portable signs shall not be permitted”

• This is not a new sign;
• The sign is located at a signalized intersection;
• Not geared to “fast-moving” vehicular traffic;
• No flash or animation proposed; and,

• Not any different than…
Digital Billboard at Corner of King Street West & MacNab Street looking west

Digital Billboard at Main Street West just past Bay Street looking east

Digital Billboard at corner of Bay St. North & York Boulevard looking north

Digital Billboard at corner of Bay St. North & York Boulevard looking east
The Sign Variance will:

- Meet the intent and purpose of the Sign by-law;
- Has regard to the 4 variance tests;
- Will not result in an undesirable precedent.

We therefore respectfully request that the Staff report be received and that the Sign Variance Application SV-17-011 be approved as submitted.
Thank you!

Written Submission

To: The Chairperson and Planning Committee Members

Regarding: Issues Making Cartier Crescent a through street

Date of Submission:

Concerns Raised and Submitted here to the City of Hamilton:

There are many concerns in making Cartier Crescent a through street right now especially since it has never been a through street even before this neighbourhood was developed in 1993/1994.

I will only be speaking to some of the traffic concerns and related risks of making Cartier Crescent a through street right now.

- Traffic and Racing:

St. Jean de Brebeuf high school on Acadia Drive is a very large high school with over 1700 students plus teachers and staff bringing it close to 2000 persons that is planning on growing even more. Traffic on Acadia Drive is extreme during both the morning and the afternoon drop off and pickup times and the traffic is relatively constant and busy throughout the rest of the day, evening and after midnight hours.

Racing is a big problem on Acadia Drive in front of the school and I see and hear it 24/7. The Hamilton Police have been called numerous times in regards to racing by me, others and the school. During the day, evening hours and after midnight, and after activities at the school football field or the three soccer fields at Billy Sherring, all types of vehicles driven by all sexes, both teens and non-teens, have been racing down Acadia Drive in front of the school. They tend to race down Acadia Drive after coming down Upper Sherman or from the back of the school where they can loop their vehicles.

If Cartier Crescent was opened right now, it would open a loop around Acadia Drive and Cartier Crescent for extended racing providing a circular race track if you will as well as an alternate way out to race out of the area and escape any police intervention. The Cartier Crescent
extension would also come out directly at Billing Sherring Park and an entrance way making it unsafe for children, school teens, as well as patrons enjoying the football and track fields, the three soccer fields and the park itself. No post calming measures would work as they these drivers tend to disregard all safety concerns including a death child sign posted mid street on Acadia Drive.

In addition, as the proposed over high density development by Sonoma Homes at 1518, 1530 and 1540 Upper Sherman Avenue (the area was originally proposed for no higher than low density provide the agricultural/park zoning was approved for change by the city) is currently with LPAT (OMB) – this would dangerously flood the neighbourhood to an extreme density with the current St. Jean de Brebeuf high school, Billy Sherring Park, and users of the park and school by all of the Greater Hamilton area on top of all the other approved development including a 40,000 square foot retail space, a new church and the large Nora Francis public high school just a block away. Opening Cartier Crescent right now would place uncontrolled and potentially lethal risks into the neighbourhood.

- Traffic Visibility:

Another point of consideration is the visibility of the traffic coming from the potentially extended Cartier Crescent to Acadia Drive. As vehicles tend to drive quickly around the bend where Cartier would come out, and further visual restrictions if anything at all is built at the 1518/1530/1540, makes visibility an extreme risk not only for those racing but also for school and HSR (school) buses and anyone at all.

In Summary:

It really does not make logistical, infrastructural or safety sense to make Cartier Crescent a through street right now before it is known what development will be decided on at the 1518, 1530, 1540 Upper Sherman Avenue location (currently with the LPAT (OMB) with a preliminary hearing on Oct.23.2018).

THE HAMILTON MUNICIPAL HERITAGE COMMITTEE PRESENTS REPORT 18-009 AND RESPECTFULLY RECOMMENDS:

1. Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the Ontario Heritage Act (PED18214) (Ward 8) (Item 7.1)

   (a) That the designation of 828 Sanatorium Road, Hamilton, shown in Appendix “A” to Report PED18214, as a property of cultural heritage value pursuant to the provisions of Part IV of the Ontario Heritage Act, be approved;

   (b) That the Statement of Cultural Heritage Value or Interest and Description of Heritage Attributes, attached as Appendix “A” to 18-009, be approved;

   (c) That the City Clerk be directed to take appropriate action to designate 828 Sanatorium Road, Hamilton under Part IV of the Ontario Heritage Act, in accordance with the Notice of Intention to Designate, attached as Appendix “D” to Report PED18214
FOR INFORMATION:

(a) CHANGES TO THE AGENDA (Item 1)

The Clerk advised the Committee of the following changes:

1. ADDED DELEGATION REQUESTS (Item 4)
   
   4.1 Sergio Manchia, UrbanSolutions Planning & Land Development Consultants Inc., respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Item 7.1 on this agenda)

2. ADDED CEREMONIAL ACTIVITY (Item A)

Donna Reid, Hamilton Municipal Heritage Recognition Award for The Hamilton Store.

Anthony Wellenreiter, Hamilton Municipal Heritage Recognition Award for the property at 46 Forest Avenue, Hamilton.

The Agenda for the September 13, 2018 Hamilton Municipal Heritage Committee was approved, as amended.

(b) CEREMONIAL ACTIVITY (Added Item A)

Donna Reid, accepted a Hamilton Municipal Heritage Recognition Award for The Hamilton Store.

Anthony Wellenreiter accepted a Hamilton Municipal Heritage Recognition Award for the property at 46 Forest Avenue, Hamilton.

(c) DECLARATIONS OF INTEREST (Item 2)

There were no declarations of interest.

(d) APPROVAL OF MINUTES OF PREVIOUS MEETING (Item 3)

(i) August 16, 2018 (Item 3.1)

The Minutes of the August 16, 2018 meeting of the Hamilton Municipal Heritage Committee were approved, as presented.
(e) **DELEGATION REQUEST (Item 4)**

(i) **Sergio Manchia, UrbanSolutions Planning & Land Development Consultants Inc., respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (for today’s meeting) (Added Item 4.1)**

The delegation request from Sergio Manchia, UrbanSolutions Planning & Land Development Consultants Inc., respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton, was approved, for the September 13, 2018 meeting.

(f) **CONSENT ITEMS (Item 5)**

(i) **Inventory & Research Working Group Meeting Notes – July 23, 2018 (Item 5.1)**

The Inventory & Research Working Group Meeting Notes of July 23, 2018, were received.

(ii) **Heritage Permit Review Sub-Committee Minutes – August 21, 2018 (Item 5.2)**

The Heritage Permit Review Sub-Committee Minutes of August 21, 2018, were received.

(g) **STAFF PRESENTATIONS (Item 7)**

(i) **Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act* (PED18214) (Ward 8) (Item 7.1)**

Jeremy Parsons, Cultural Heritage Planner, addressed the Committee respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act* (PED18214) (Ward 8), with the aid of a PowerPoint presentation. A copy of the presentation has been included in the official record.

The presentation respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act* (PED18214) (Ward 8), be received.

Councillor Pearson wished to be recorded as OPPOSED to the Recommendation to Designate the Property Located at 828 Sanatorium Planning Committee – September 18, 2018.
Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act* (PED18214) (Ward 8).

(a) Staff were directed to determine if the Cross of Lorraine is situated on private property or escarpment lands, with a report back to the Hamilton Municipal Heritage Committee; and

(b) If the Cross of Lorraine is determined to be situated on private property, it should be removed from the Statement of Cultural Heritage Value of Interest, attached as Appendix “C” to Report PED18214 respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act*.

For further disposition of this matter, refer to Item 1.

The presentation is available at [www.hamilton.ca](http://www.hamilton.ca)

Sergio Manchia, UrbanSolutions Planning & Land Development Consultants Inc., addressed the Committee with concerns respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act* (PED18214) (Ward 8).

The delegation from Sergio Manchia, UrbanSolutions Planning & Land Development Consultants Inc., respecting the Recommendation to Designate the Property Located at 828 Sanatorium Road, Hamilton (Long & Bisby Building) Under Part IV of the *Ontario Heritage Act* (PED18214) (Ward 8), was received.

(h) GENERAL INFORMATION/OTHER BUSINESS (Item 11)

(i) Buildings and Landscapes (Item 11.1)

The following updates be received:

(a) Endangered Buildings and Landscapes (RED):

(i) **ADJOURNMENT (Item 13)**

There being no further business, the Hamilton Municipal Heritage Committee adjourned at 1:40 p.m.

Respectfully submitted,

Alissa Denham-Robinson, Chair
Hamilton Municipal Heritage Committee

Loren Kolar
Legislative Coordinator
Office of the City Clerk
Statement of Cultural Heritage Value or Interest

828 Sanatorium Road, Hamilton
(Mountain Sanatorium Brow Site)

Description of Historic Place

The former Mountain Sanatorium Brow Campus (later Chedoke Browlands) is located at the northern terminus of Sanatorium Road which bisects the property along Chedoke Creek. The property is bounded by the Niagara Escarpment to the north and Scenic Drive curving to the south, forming semi-circular layout. The property includes open space, a woodlot, creek bed, a curvilinear street arrangement, and a number of remnants of the former institution including the Long & Bisby Building and the Cross of Lorraine. The property is addressed 828 Sanatorium Road, Hamilton (alternatively 870 Scenic Drive).

Statement of Cultural Heritage Value or Interest

The property located at 828 Sanatorium Road, Hamilton has cultural heritage value as one of the campuses of the original Mountain Sanatorium (“the San”), Hamilton's tuberculosis hospital which originally opened in 1906. The San was Canada’s fourth sanatorium and, by 1932, one of the largest in the British Empire.

The Brow site was primarily purposed towards the treatment of First World War veterans who contracted tuberculosis while serving overseas. The property formerly contained six major buildings and a number of ancillary structures, most of which have been demolished. The only building that remains on site is the Long & Bisby Building (1920) which was built a residence for nurses. Built with funds bestowed by the original donors of the Sanatorium lands, W.D. Long and G.H. Bisby, the Long & Bisby Building is a representative example of Edwardian Classical architecture. The site later evolved to become part of Chedoke Hospital and was known locally as the “Chedoke Browlands”.

The property also has value as a cultural heritage landscape designed for the treatment of tuberculosis. These browlands were laid out as a purpose-built facility that capitalized on the natural landscape of the site for therapeutic purposes. The property contains a number of remnant features from its history as a hospital, including the Cross of Lorraine: a local landmark built in 1953 by well-known designer and advertiser E.L. Ruddy.

Heritage Attributes

The heritage attributes of the property at 828 Sanatorium Road, Hamilton that display its cultural heritage value include:

The Long & Bisby Building:
• Its location in an open, park-like setting and adjacent to a woodlot;
• All exterior elevations and additions;
• Roof profile and roofline;
• Entrance portico including:
  o Paired, Corinthian-inspired columns;
  o Simple cornice brackets; and,
  o Low metal railing.
• Decorative entrance including:
  o Doorway;
  o Webbed fanlight;
  o Sidelights; and,
  o Brick voussoir.
• Eight-bay buff brick façade with projecting ends;
• Brick parapet including:
  o Lower frieze board;
  o Stone finial accent; and,
  o Inset stone block.
• All windows, window openings, stone sills, and side trim brick headers.

Landscape Features:

• The park-like setting as a cultural heritage landscape with curvilinear street pattern and open spaces designed for therapeutic purposes;
• Significant views to, through, and from the former Mountain Sanatorium Brow Campus as well as significant views to and from the Niagara Escarpment;
• The Cross of Lorraine located along the edge of the Niagara Escarpment;
• The pedestrian bridge over the Chedoke Creek;
• The concrete stairs along the edge of the Niagara Escarpment; and,
• The stone vehicular bridge and associated stone wall/pillars located west of the Long & Bisby Building.
September 14, 2018

Via Email & Delivered

Honorable Mayor Fred Eisenberger;
Ward Councillor Terry Whitehead; and,
Members of City Council

Via Ms. Ida Bedioui,
Legislative Coordinator

City of Hamilton
71 Main Street West
Hamilton, ON L8P 4Y5

Greetings,

RE: September 18, 2018 Planning Committee
Hamilton Municipal Heritage Committee Report No. HMHC 18-009
Hamilton Municipal Heritage Committee Staff Report No. PED18214
828 Sanatorium Road, Hamilton

Valery (Chedoke Browlands) Developments Inc. (Valery Homes) is the owner of the subject lands. On September 13, 2018, the Hamilton Municipal Heritage Committee considered Staff Report No. PED18214 that recommended to designate the subject property under Part IV of the Ontario Heritage Act. The Heritage Committee endorsed this recommendation and it now appears as Item 7.1HMHC18-009, of the September 18, 2018 Planning Committee agenda.

On June 22, 2012, the Ontario Municipal Board (OMB) issued decision No. PL100691 approving 529 residential units on the subject lands via 25T-200712. While built-heritage matters where considered in the OMB decision, there was no requirement to designate the subject property under Part IV of the Ontario Heritage Act.

On February 14, 2018, Valery Homes participated in a Formal Consultation meeting with City of Hamilton staff wherein Formal Consultation Document for FC-18-004 was issued on March 1, 2018. A Cultural Heritage Impact Assessment was identified as a required supporting study for a complete application. Since this formal consultation meeting, Valery Homes has retained the necessary project team to compile the necessary supporting documents for a complete application that is targeted for submission in November, 2018.
This Planning Act review process will offer a thorough and comprehensive opportunity to further consider the cultural heritage matters pertaining to the subject lands. Further, the Planning Act process will provide the opportunity to incorporate any appropriate conditions of approval with regards to cultural heritage. Accordingly, Valery Homes respectfully requests the Planning Committee and Council defer its designation decision until after the application is complete.

Thank you for your consideration.

Regards,

Ted Valeri
President

CITY OF HAMILTON
NOTICE OF MOTION
Planning Committee: September 18, 2018

MOVED BY COUNCILLOR J. FARR.............................................................

To Extend Paid Parking at Meters on MacNab Street, Park Street and Vine Street to include Saturdays

WHEREAS, at its meeting on April 12, 2006 Council approved By-Law No. 06-101 which provides that parking fees are not imposed for on-street metered parking within the Community Improvement Plan Area on Saturdays;

WHEREAS, the Hamilton Farmer’s Market Board (HFMB) has officially endorsed paid Saturday parking at the parking meters along MacNab Street North and is also supportive of the addition of paid parking on Park Street and Vine Street;

WHEREAS, the implementation of paid parking is intended to help encourage parking turn-over and will provide for increased parking opportunities for Farmer’s Market customers; and

WHEREAS, paid parking is already in place on weekdays and can be extended to Saturdays with simple programming of meters and parking meter signage;

THEREFORE, BE IT RESOLVED:

(a) That Hamilton Municipal Parking Authority staff be directed to implement paid parking at existing meters on MacNab Street between York Boulevard and Cannon Street, Park Street between York Boulevard and Cannon Street and Vine Street between James Street and Park Street;

(b) That the changes outlined in subsection (a) take effect on, or prior to October 20, 2018.
CITY OF HAMILTON
NOTICE OF MOTION

Planning Committee: September 18, 2018

MOVED BY COUNCILLOR J. FARR............................... 

Cash in Lieu of Parking for 11-15 Cannon Street

WHEREAS, Section 40 (1) of Planning Act allows an owner or occupant to enter into an agreement exempting the owner or occupant, to the extent specified in the agreement, from the requirement of providing or maintain the parking facilities;

WHEREAS, the Committee of Adjustment, at a meeting held on October 25, 2017, approved Minor Variance Application HM/A-17:334 which established a condition that the Applicant enter into a Cash-in-Lieu of Parking Agreement with the City of Hamilton in lieu of providing eight required parking spaces on-site;

WHEREAS, the valuation for parking spaces located within a parking structure, based on the estimated current rates of construction and the estimated land cost determined by current market value of the property, will be finalized by the Planning and Economic Development Department, in accordance with the Cash-in-Lieu of Parking Policy; and,

WHEREAS, an Agreement between the owner or occupant and the City of Hamilton, payment of not less than 50% of the total cost of parking, registration of the Cash-in-Lieu of Parking Agreement on title, and issuance of Certificate by the City Clerk is required to give effect to the Cash-in-Lieu of Parking Agreement;

THEREFORE BE IT RESOLVED:

That the Mayor and City Clerk be authorized to approve the cash payment in lieu of 8 required parking spaces in accordance with the Committee of Adjustment decision in order to enter into a Cash-in-Lieu of Parking Agreement for 11-15 Cannon Street West, prepared in a form satisfactory to the City Solicitor.
CITY OF HAMILTON  
NOTICE OF MOTION  

Planning Committee: September 18, 2018  

MOVED BY COUNCILLOR J. PARTRIDGE..............................................  

Review of C6 and C7 Zoning Regulations  

WHEREAS the larger commercial sites in the City of Hamilton are zoned C6 and C7 Zone;  

WHEREAS these sites have the potential to accommodate development at a higher intensity of use in terms of building height; and  

WHEREAS the intensification of commercial sites is consistent with Provincial planning policy;  

THEREFORE BE IT RESOLVED:  

That Planning staff be directed to review the C6 and C7 zoning regulations and report back to Planning Committee on any proposed changes to the zoning by-law regulations, either as a general text amendment or on a site specific basis, identified through the review of the regulation.
CITY OF HAMILTON
NOTICE OF MOTION

Planning Committee: September 18, 2018

MOVED BY COUNCILLOR C. COLLINS.................................................................

Re: Future growth potential that is planned for lands in the Waterdown Urban Area

Whereas the residents of the City of Hamilton (and the former Region of Hamilton Wentworth) have invested substantial resources into servicing and developing lands in Waterdown (East Flamborough), and

Whereas the lands in Waterdown (East Flamborough) are part of the City of Hamilton’s future growth plan, in conformity with the Province of Ontario’s Growth Plan, Greenbelt Plan and Provincial Policy Statements; and

Whereas attempts by the City of Burlington to annex all, or a portion of Waterdown (East Flamborough), will have negative financial and growth implications for residents of the City of Hamilton;

Therefore be it resolved that staff provide to Council, through an Information Update, information related to the future growth potential that is planned for lands in the Waterdown Urban Area and the investment that the City of Hamilton has made in infrastructure in Waterdown to benefit both existing and future residents.
