Subject: Enbridge Gas – new company, new opportunities to collaborate

Dear Mayor Eisenberger and Members of City Council,

In January of this year, Enbridge Gas Distribution and Union Gas combined to form one new company, Enbridge Gas. Separately, we have valued our longstanding relationships with municipalities in Ontario – having provided safe, reliable and affordable natural gas to residents, businesses institutions and governments for over 170 years. Together, we look forward to building upon these relationships by supporting municipalities like the City of Hamilton with your climate and/or energy related initiatives in an effort to reduce greenhouse gas (GHG) emissions in Ontario.

I am reaching out to discuss how Enbridge Gas Inc. can help the City of Hamilton, its residents, businesses and institutions reduce carbon emissions and save money.

We recognize there is a transition occurring towards a lower carbon economy and that this has created opportunities for collaboration and true leadership in addressing climate change in ways that are innovative, economic and effective. Here are a few ways we can and already do work together:

- **Climate and Energy Planning:** Whether it is through the sharing of data and/or participation on local steering committees to share our expertise, we are involved and contributing to municipal climate and energy planning across the province, and are here to support you as well.
- **Renewable Natural Gas (RNG):** RNG provides an opportunity to harness locally produced fuel from landfills, wastewater treatment plants or curbside organic programs that has a positive impact on the environment and can provide economic benefits. It is already happening in municipalities in Ontario.
- **Compressed Natural Gas (CNG) for Transit Fleets and Municipal Vehicles:** Since 1985, CNG has been proven to be a safe and reliable fuel option in Ontario. It is widely used in vehicles today ranging from ice resurfacers to light, medium and heavy truck fleets, garbage trucks and transit buses. CNG reduces greenhouse gas by up to 25% vs. diesel, along with lower NOx and VOCs and nearly zero particulates. The switch to CNG as a vehicle fuel can also save up to 50% on transportation fuel costs. We have a variety of programs to help you make the switch to CNG.
- **Energy Efficiency Programs:** The conservation programs designed and delivered by Enbridge Gas have saved residential, commercial and industrial customers about 20 billion cubic meters of natural gas and reduced CO2 emissions by about 40 million tonnes, lowering energy costs at the same time. MEMORANDUM

RC 01 - 2019

Subject: Niagara Region's Representation on the NPCA Board of Directors

Date: July 18, 2019

To: Regional Council

From: Jim Bradley, Regional Chair

Councillors,

At the May 16 Special Meeting of Council, a motion was passed that directed the Regional Chair to enter into negotiations with Hamilton and Haldimand regarding the composition of the NPCA Board of Directors. As a direct result of this motion, talks were held on June 10 with representatives from the three municipalities at which time I committed to determining Council's preference regarding board composition.

At our June 20 meeting of Regional Council, an informal survey of council's membership was taken that indicated the will of Council was to increase Niagara Region's membership on the NPCA Board of Directors from 12 members to 15. Based on the discussion that occurred regarding this poll, as well as the debate that arose from CL-C 46-2019, it appears that Regional Council is eager to both increase Niagara's membership on the Board and make the necessary appointments as soon as possible.

In listening to the June 20 discussion, it was also suggested that Niagara's three additional members would be Regional Councillors to ensure an appropriate mix of elected representatives and citizen appointments.

To this end, I propose that Regional Councillors consider approving the following two actions this evening:

1. That the Regional Chair **BE DIRECTED** to inform the Mayors of Hamilton and Haldimand that Niagara Region will be increasing their NPCA Board of Directors membership from 12 to 15 in order to ensure an appropriate mix of elected representatives on the Board; and
2. That Niagara Regional Council **APPOINT** three Regional Councillors to the NPCA Board of Directors effective immediately.

Should council approve these motions, the intent is that the selection of the three Regional Councillors would occur this evening.

The legacy issues surrounding the NPCA and the membership of the Board have rightfully been of a keen interest to this term of Council. Based on the significant debate that has transpired at Council, as well as numerous conversations I have had with members of Council, I believe it is in the best interest of Council to move forward these two actions this evening.

Sincerely,

THE CORPORATION OF THE CITY OF STRATFORD

Resolution: Opposition to Changes in 2019 Provincial Budget and Planning Act

WHEREAS on April 11, 2019, the Provincial government tabled a new budget, some of which represents a significant shift in priorities, with direct implications to the City of Stratford and municipalities across Ontario;

AND WHEREAS this shift in priorities will put disproportionate pressure on municipal governments to either fully fund Provincially discontinued programs or partially supplement programs and services at current service levels;

AND WHEREAS the City of Stratford recognizes that the Government of Ontario announced in May 2019 that it will reverse mid-year cuts to critical services of public health, childcare and ambulance services and requests an opportunity to work collaboratively to find solutions that will work for all partners and protect services prior to drafting 2020 budgets;

AND WHEREAS previous legislation that abolished the OMB and replaced it with LPAT received unanimous – all party support as all parties recognized that local governments should have the authority to uphold their provincially approved Official Plans and community driven planning;

AND WHEREAS in the spirit of working together for the benefit of all Ontario residents, Stratford City Council opposes the upcoming changes to the Planning Act as municipalities were not consulted and afforded an opportunity to provide feedback;

AND REQUESTS a meeting with MPP Pettapiece, the Minister of Municipal Affairs and other related ministries on the effects of downloading onto municipal governments;

AND THAT this resolution be forwarded to all municipalities in Ontario and to AMO.

Dear Head of Council:

RE: Provincial Policy Statement Review – Draft Policies

I am writing today to announce that my ministry is launching a consultation on proposed policy changes to the **Provincial Policy Statement (PPS)**. The PPS is an important part of Ontario’s land use planning system, setting out the provincial land use policy direction.

Municipalities play a key role in implementing these policies through local official plans, zoning by-laws and other planning decisions. The Planning Act requires that decisions on land use planning matters be “consistent with” the Provincial Policy Statement policies.

The government is consulting on draft policy changes to:

- Encourage the development of an increased mix and supply of housing
- Protect the environment and public safety
- Reduce barriers and costs for development and provide greater predictability
- Support rural, northern and Indigenous communities
- Support the economy and job creation

The proposed PPS policy changes support the implementation of [More Homes, More Choice: Ontario’s Housing Supply Action Plan](#). The Action Plan includes a series of distinct but coordinated initiatives to address housing supply, including a review of the Provincial Policy Statement. The proposed PPS changes work together with other recent changes to the land use planning system – including to the Planning Act through [Bill 108, More Homes, More Choice Act, 2019](#) (once proclaimed) and [A Place to Grow: Growth Plan for the Greater Golden Horseshoe](#).

For more information about the consultation, please visit <http://www.mah.gov.on.ca/Page215.aspx> where you will find:

- A link to the posting on the Environment Registry of Ontario (ERO #019-0279), including the proposed Provincial Policy Statement and questions to consider
- Information on how to provide comments

The consultation is open for 90 days and closes on October 21, 2019.

I look forward to hearing your ideas on the proposed changes to the Provincial Policy Statement.

If you have any questions about the consultation, please contact the ministry at planningconsultation@ontario.ca or by calling 1-877-711-8208.

Priority to Ambulance Service not Fire

The column by Teri Pecoskie in the Spectator July 6/19 was an excellent look into our Emergency services.

I believe it shows the way our Emergency Services operate, is long overdue for change. The 30 million dollar fire department expansion proposed is mostly unnecessary and would be better spent for us taxpayers on the medical, ambulance service.

Cut back on fire department responding to so many medical calls when ambulance response is adequate.

The ambulance service can be trained to respond as fast as the fire department from the same stations

Response times are no longer the end all for fire departments in the Province.

After amalgamation, Hamilton Fire Department added 12 additional fire stations to an already large department.

The part time firefighters response time in our area we know is 12 to 15 minutes and have no problem with it.

Our fire insurance rates are the same as in the old city which have a 3 to 4 minute response time. Bottom line fire calls are not increasing much, if at all, these days prevention and the building codes are the key.

We have plenty of Fire stations and Fire Crews. Our aging population is and will continue to increase medical calls, its the ambulance service and crews that must be increased and given priority for our tax dollars in these changing times.

Dear Sir / Madam:

2019 is a very special year for CN as it marks our 100th anniversary. From the start, on June 6, 1919, safety has always been a core value at CN.

We are on a journey to become the safest railroad in North America. In addition to reinforcing a strong safety culture among our 25,000 employees, we collaborate with communities and local authorities to help prevent accidents and injuries at rail crossings, and ensure everyone's safety on and around railroad infrastructure.

This year, **Rail Safety Week** will be held in Canada from **September 23-29**. Hand in hand with *Operation Lifesaver*, CN Police Service officers and other CN employees will be in communities conducting hundreds of safety initiatives throughout the week. As proud partners, our commitment is to keep communities safe by raising rail safety awareness year-round.

Safety is a shared responsibility

Rail safety is everyone's responsibility. By looking out for each other and working together, we can help keep our communities safe and prevent fatalities and injuries on or near railway property.

Your council can be a powerful ally in this effort to save lives by adopting the enclosed draft resolution. Please send a copy of your resolution by mail or by e-mail to sandra.orsini@cn.ca and let us know how you will be promoting rail safety in your community this year.

For additional information about Rail Safety Week 2019, please consult www.cn.ca/railsafety or www.operationlifesaver.ca.

Yours sincerely,

Stephen Covey

Dear Premier Ford,

Re: MUNICIPAL AMALGAMATION

Please be advised that at its regular meeting held, Monday July 15, 2019 the Council of the Township of McKellar passed the following resolution:

- 19-355 **WHEREAS** there are 444 municipalities in Ontario that are very efficient and well-governed, and who respond quickly to ratepayer's needs;
- AND WHEREAS** in the 1990's the Conservative Government forced many municipalities to amalgamate on the guise they would become more efficient, effective, save money, lower taxes and ultimately reduce the provincial deficit;
- AND WHEREAS** there has never been a valid evidence-based study that supported these outcomes;
- AND WHEREAS** forced amalgamation actually accomplished just the opposite: ill feelings, increased animosity and mistrust, job losses, rise in local taxes and an increase in the provincial deficit;
- AND WHEREAS** there are many positive examples of small rural and northern municipalities working together in a collaborate and cooperative manner via shared agreements that responds to local needs without amalgamation and provincial interference;
- AND WHEREAS** the Provincial Government has a large deficit due to their own decision-making;
- AND WHEREAS** recently the same Conservative Government recently reduced one large regional municipal government by 50%, without "consultation";
- AND WHEREAS** this same Conservative Government is presently reviewing other provincial regional governments through a purported "consultative" approach with a view to reduce or eliminate them;

AND WHEREAS the Provincial Government should investigate all other internal ways of reducing their deficit and becoming more fiscally responsible over time rather than downloading to the one level of government that is the most efficient, has the lowest cost and is closest to the electorate which will not put a dent in the provincial deficit;

AND WHEREAS the Province could look at what other provinces have done to reduce the debt with one singular education system, organizing unorganized municipalities, controlling OPP costs, substantially increase fines, and find a way to collect millions and millions of dollars in unpaid fines and instead, invest in the north to create jobs and stimulate and enhance economic development;

NOW THEREFORE BE IT RESOLVED that before the Provincial Government forces amalgamation in any of the 444 municipalities in Ontario, our AMO organization go beyond requesting “consultation” and “demand” that the Provincial Government do the following:

- 1) Hold a local referendum letting the citizens decide to amalgamate or not
- 2) Conduct an evidence-based study to show that amalgamation actually saves costs, jobs, lowers taxes and reduce the provincial deficit
- 3) Allow those municipalities to work out their own local collaborative agreement that best suit their local needs and to be permitted to do so on their own time line and volition
- 4) To ensure that there is absolutely no conflict of interest in this consultative process
- 5) To emphasize the political reality of forcing amalgamation on the many rural and northern municipalities across Ontario

AND FURTHER that a copy of this resolution be sent to Doug Ford, Premier of Ontario; Christine Elliott, Deputy Premier; Steve Clark, Minister of Municipal Affairs; Andrea Horwath, Leader of the New Democratic Party; and all MPPs in the Province of Ontario;

AND FURTHER that a copy of this resolution be sent to the Association of Municipalities of Ontario (AMO), the Northwestern Ontario Municipal Association (NOMA), Rural Ontario Municipalities Association (ROMA), Federation of Northern Ontario Municipalities (FONOM), the District of Parry Sound Municipal Association (DPSMA) and all Ontario municipalities for their consideration.

Subject: Open Letter to Council on Ending Hate and Citizen Safety

August 14, 2019

Dear Councillors and Mayor,

It's time.

Time to address the growing threat in our community.

Time to stand together and to speak with a united voice against hate.

Time to ensure residents are protected as they stand up against hate in our community, whether in the forecourt of City Hall, or anywhere else in our city.

Despite the great turnout this past Saturday in the City Hall forecourt, including many community leaders, people who were there to stand against hate, some with their children, felt threatened.

They felt threatened when police allowed a bus to drive up onto the sidewalk where adults and children were standing. It was a brazen act of intimidation. Police then negotiated with the driver of the bus for over half an hour, resulting in them letting him drive the "Hate Bus" away and park it at the rear of City Hall before he joined the Yellow Vests. The driver faced no consequence. The video of the crowd calling for the "Hate Bus" to leave has been viewed almost 8,000 times. The nation is watching how we deal with this threat.

They felt threatened when the driver of the bus posted a video on YouTube where he claimed he planned to return to a future rally and once again park his bus on the sidewalk in front of City Hall!

They felt threatened when police decided to arrest a known anti-hate protestor, resulting in all officers leaving the scene to escort the lone protestor to the rear of City Hall, leaving anti-hate protestors unprotected. A video has been posted showing the Yellow Vest group celebrating the police arresting the anti-hate protestor.

Now, people are expressing concern about bringing their children to a unity rally this Saturday in broad daylight on the forecourt of our City Hall. They are now afraid to bring their kids to our Hamilton sign where kids routinely play! Our city's front porch is considered a threatening environment.

Our inertia has allowed this threat to grow.

Yes, it's time.

It's time to show up and to speak up. Not just as individuals, as some have done already, but also as our Council. Your primary responsibility is keeping Hamiltonians safe.

In response to this serious threat, we respectfully request:

1. As many councillors and city staff as possible show up Saturday between 10 - 2 to send a message of unity and repudiation of hate. A few minutes will not suffice as the hate groups waited for the crowd to thin out last week and felt emboldened when it did.
2. A clear, equitable and unambiguous strategy communicated by Police before Saturday that commits to them attending the event, protecting all residents and enforcing the law on any illegal activity.
3. Ensure the City's new consultant, hired to deal with hate, report directly to the City Manager so the community is reassured that this role is of critical importance to the City and not merely a public relations exercise. No other reporting structure will suffice.

The threat is not just about a small group promoting hate at our City Hall. According to Statistics Canada Hamilton has the most reported incidents of hate crimes in Canada. Our citizens deserve to live in a safe, inclusive, united community.

It's time.

Sincerely,

Laura Babcock & Graham Crawford

THEREFORE BE IT RESOLVED:

That the section of George Street between Queen Street South and Caroline Street South be named Marion Tucker Way, with the cost of \$700 to install four (4) signs be funded from the Ward 2 Area Rating Capital Reserve Fund (#108052).

10. 292 Dundas Street East (Maple Lawn), Waterdown (Added Item 12.1)

WHEREAS, there is concern that 292 Dundas Street East, Waterdown, will be placed on the market for the purpose of redevelopment;

WHEREAS, 292 Dundas Street East, Waterdown, is listed on the City's Heritage Inventory, but is not currently recognized through registration or protected through designation under the *Ontario Heritage Act*;

WHEREAS, a preliminary evaluation of Cultural Heritage Value or Interest conducted as part of the Waterdown Village Built Heritage Inventory found that 292 Dundas Street East, Waterdown meets the criteria specified in *Ontario Regulation 9/06* including, but not limited to:

- Historical Associations – The property is located on an early transportation route known as “The Governor’s Road” that stretched from Mississauga to London and has been in use since the late 1700s. The property is associated with potentially significant people in Waterdown’s history, including George Allison and Harold Greene. George Allison, believed to be the first owner of the house, was a recognized character in the early development of the Village. He served the local community as a juror and magistrate. Harold Greene was the first publisher of the Waterdown Review. He lived in the house with his family in the late 1910s and a few of the early issues are believed to have been produced in a carriage house located on the property. Additionally, the property has the potential to yield information that contributes to the understanding of the community through additional research.
- Physical and Architectural Design – The property is a representative example of vernacular residence constructed in the Victoria period and influenced by Gothic Revival and Italianate architectural styles. The two-storey house of stretcher bond brick construction (now painted) sits on a rubble and brick foundation. The house is defined by its Gothic-style high-gabled roof three bay façade and bay window with Italianate detailing, all displaying a high degree of craftsmanship. Victorian style influences include the wide front verandah, decorative bargeboard, and other decorative flourishes. Over all, the design of

the building does not appear to have changed significantly since its construction circa mid-to-late 20th century.

- Contextual Value – The property is important in defining the historic character of the area and maintaining the historic fabric of Dundas Street East. In addition to the property’s location along a historic transport route, the property is physically, visually, and historically linked to its surroundings. The 19th-century single-detached building helps define the early residential character at the west end of Dundas Street in the Village of Waterdown along with the other prominent estate homes including the Smith-Carson House at no. 289, the Crooker House at no. 299 and Chestnut Grove at no. 315. The property may be considered a local landmark.

THEREFORE BE IT RESOLVED:

- (a) That 292 Dundas Street East, Waterdown, be added to the City’s Municipal Heritage Register as a non-designated property, after consultation with the Hamilton Municipal Heritage Committee; and,
- (b) That Council direct staff to add 292 Dundas Street East (Maple Lawn), Waterdown, to staff’s designation work plan and be assigned immediate priority for Heritage Designation in Q4.

<u>Police Reserves</u>						
104056	Investigative Services Division (ISD) Reserve	152,797	0	N/A	N/A	This one-time reserve was established through year end police budget surpluses to act as a funding source for the ISD Building. Construction on the ISD building is well underway and the reserve has been fully utilized, with all funds transferred to the ISD project ID. Given the one-time reserve has served its purpose, it is recommended for closure.

John Ballantine, Manager
Municipal Finance Policy Branch
Municipal Affairs and Housing
13th Floor, 777 Bay Street
Toronto, ON MSG 2E5

Dear Mr. Ballantine:

Subject: City of Hamilton Submission on Proposed changes to O. Reg. 82/98 under the Development Charges Act related to Schedule 3 of the *More Homes, More Choice Act, 2019*

Thank you for the opportunity to provide comments on the above-referenced proposal (the Proposal) under the *Development Charges Act* related to Bill 108 - *More Homes, More Choice Act, 2019* (the Act). Please accept the following comments for consideration.

First and foremost, the City requests the Province to release the full draft regulations for consultation. The proposed changes to O. Reg. 82/98 posted on the Environmental Registry have been provided in general terms and the full impact of the Proposal is not capable of being fully understood and assessed without the official language that will appear as written in the regulation. The City of Hamilton's (the City's) comments have been prepared based on a general interpretation of the Proposal. The City requests that once any draft regulations are completed they be posted and be subject to comments from all stakeholders.

Among all of the City's comments and requests below, there is one request so significant that the City implores the Province to review the risk to municipalities and work on a strategy to eliminate the risk. The risk being referred to is the risk of a development being sold between building permit issuance and the final DC instalment payment. The Province has not provided municipalities with a tool to ensure that an instrument can be registered on title notifying property purchasers that development on a property was subject to DCs payable through instalments and that instalments remain outstanding. Without such a tool, municipalities will face challenges related to any DC or instalments of a DC due after a sale.

For ease of review, the City's comments respond to the same five categories set out in the Proposal.

Letter to Municipal Affairs and Housing

1. Transition

The Proposal provides that the prescribed date by which a municipality must adopt a community benefits charges (CBC) by-law will be January 1, 2021, after which point, a development charge (DC) for soft services may no longer be imposed. However, despite content in Schedule 12 of the Act which indicates a municipality will be required to prepare a strategy before passing a CBC by-law pursuant to prescribed requirements, no such requirements have been described in the Proposal or in the description of the regulation pertaining to the community benefits authority under the Planning Act (ERO Number 019-0183).

The City comments that without a full understanding of what is required in a CBC By-law the timeline proposed may be unachievable. For example, the City commenced the 2019 DC Background Study in January 2018 and it was adopted 17 months later in June 2019. If a similar calculation process is required, or a calculation process is proposed for which existing data is not readily available, there is a concern that the proposed timeline will not be achievable. Municipalities that have recently dedicated resources to a soft service DC calculation will again be required to dedicate resources to the CBC calculation. The cost of undertaking studies and the use of consultants (if necessary) are passed through the DCs, or presumably the CBC and thus, act counter to the Province’s goals of reducing costs of development.

The City requests that the prescribed date be set at January 1, 2024 to recognize the cost and efforts spent on recently updated DC studies and allow municipalities to plan for the cost and effort of a CBC calculation at a time that would somewhat align with the next scheduled cycle of DC By-law updates.

2. Scope of Types of Development Subject to Development Charges Deferral

The Proposal contains definitions for non-profit housing, institutional development, industrial development and commercial development.

Non-Profit Housing

The Proposal appears to be attempting to align the payments of DCs for non-profit housing developments with affordable housing programs but currently there appear to be significant gaps that expose municipalities to risk.

The definition and *Development Charges Act, 1997*, S.O. c1997 c.27 (DC Act) do not appear to contemplate dwellings developed and then sold by non-profit corporations. In other words, what happens if the development is sold by the non-profit corporation prior to the payment of all DC instalments?

Letter to Municipal Affairs and Housing

August 19, 2019

There is no ability to register an instrument on title in order to notify and bind future purchasers in respect of unpaid DC instalments or restrict the sale of a property until unpaid DC instalments are paid.

It is unclear who is legally obligated to pay the DC, the developer or the purchaser? Subsections 26.1(1), (2), (3) as added by the Act to the DC Act do not refer to an identified person as having to pay, rather, they provide that the DC is payable in instalments for certain developments. Section 2 of the DC Act imposes the DC on the land and not a person. So, the question becomes who is the “person” legally obligated to pay the DC? If the DC applies to the land, then the ability to register an instrument on title providing notice of DCs payable by instalments should be provided to municipalities.

In the above case of a dwelling developed and sold by a non-profit, if the non-profit corporation is responsible for the instalments then there is a risk of non-payment without any security as the asset is no longer owned. Through the Act, any unpaid instalments shall be added to the tax roll which suggests that the current owner of the property is responsible for instalments. However, under the Act, the DC Act, and the Proposal, an owner is under no obligation to notify the City of a sale or a purchaser of remaining DC instalments. If the current owner is responsible for the instalments, then a purchaser may be required to pay DC instalments without previous notice.

As stated above, the Act does not provide for any type of DC notice to be registered on the property. There is a risk that a purchaser could be unaware of DCs deferred and not have budgeted accordingly. This situation could be counter to the goal of increasing the affordability of housing as it will be a payment required in addition to a mortgage and property taxes at an interest rate that the individual purchaser was not able to negotiate, for a term that may be less than their mortgage term.

The City requests the Province define “person”, e.g. the person required to pay a DC and the person required to provide notice of occupancy.

The City requests the Province provide a tool to allow municipalities to register notice of deferred DCs on title, prior to issuance of the building permit and require full payment of any unpaid DCs, including interest, prior to any sale.

The City requests the Province to further define non-profit housing to apply only to developments that are receiving construction or on-going operating funding through a government housing affordability program.

Institutional Development

The Proposal has defined institutional development with terms that require further definition.

Letter to Municipal Affairs and Housing

August 19, 2019

Long-term Care Homes

The City requests that the Province define “long-term care home” as “a long-term care home as defined in the *Long-Term Care Homes Act, 2007*, S.O. 2007, c.8”.

Retirement Homes

The City comments that there is a wide spectrum of developments that can fall under this general term and it can sometimes include 55+ buildings that essentially are just luxury condos for a specific age group but function and have impacts just like any other condo building. An example from downtown Burlington can be reviewed at the following link: <https://www.pearlandpineretirement.com/>.

The City requests that the Province define “retirement home” as “a retirement home as defined in the *Retirement Homes Act, 2010*, S.O. 2010, c. 11”.

Universities and Colleges

The Proposal includes “universities and colleges” as “Institutional Development”.

The City comments that “universities and colleges” appears to be a broad category without any guidance provided as to the scope of the intent of the meaning of “universities and colleges”. Are the following included within the meaning of “universities and colleges”: privately funded colleges and universities, developments which are public-private partnerships, i.e., university / college partnerships with private developers, developments owned by others but used by a university or college? Is the meaning of “universities and colleges” restricted to certain types of development such as academic facilities, research facilities, student residences or facilities which have mix of the foregoing?

The City comments that the courts have confirmed that colleges established under the *Ministry of Colleges and Universities Act, R.S.O. 1990, c. M.19* are crown agents and unless explicitly stated in legislation, they are not bound by it. The Planning Act and the amendments thereto found in the Act do not appear to expressly bind colleges, the Crown or any Crown agents and therefore, colleges would not be obligated to pay a DC. Accordingly, it is unclear why colleges are listed as exempt.

The City requests that the Province define “universities and colleges” and that it only apply to developments solely owned by such organizations for the specific uses that the Act intends to include.

Letter to Municipal Affairs and Housing

August 19, 2019

Memorial Homes, Clubhouses or Athletic Grounds of the Royal Canadian Legion

The City comments that it is unclear if memorial home and clubhouses by groups other than the Royal Canadian Legion are intended to be included in the definition. It is unclear what a memorial home or clubhouse is.

The City requests that the Province define and provide clarity for “memorial homes, clubhouses, or athletic grounds of the Royal Canadian Legion”.

Hospices

The City requests that the Province define “hospice”.

Industrial Development

The City comments that the definition of industrial development differs from the existing definition of “existing industrial building” contained within O. Reg. 82/98. Two definitions related to industrial within the same Act may be confusing to the development community and municipalities. The definition of industrial development within the Proposal excludes storage and distribution compared to the existing definition of “existing industrial building” contained within O. Reg. 82/98. The City is supportive of storage and distribution buildings being excluded from the definition.

The City requests that the definition of “existing industrial building” contained within O. Reg. 82/98 be updated to align with the proposed definition of “Industrial development”.

Commercial Development

The Proposal has defined commercial development to include only office buildings and shopping centres as defined in specific sections of O. Reg 282/98 under the *Assessment Act*.

The City comments that the office building class and the shopping centre class of O. Reg 282/98 under the *Assessment Act* only apply to the portion of a building in excess of 25,000 square feet but the proposed change to O. Reg 82/98 appears to refer to the entire building.

The City comments that shopping centres follow the population, meaning that once there is sufficient population to support the business, shopping centres will be constructed. Shopping centres do not require DCs to be deferred.

The City requests the Province to edit the definition of office development within the definition of “commercial development” to only include the portion of an office building in excess of 25,000 square feet.

Letter to Municipal Affairs and Housing

August 19, 2019

The City requests the Province remove shopping centres from the definition of commercial development.

Rental Housing

The Proposal has not defined rental housing which is another use that the Act requires DCs to be paid through six annual instalments.

The City comments that a definition is required to determine if condominium buildings wherein all units are owned by one entity or related entities and which are built for rental purposes would fall into the definition of rental housing. This situation is common with new rental construction and allows the owner to easily sell off units or convert the building to ownership with little control from the City.

The City comments that where a project may be converted to a condominium occurs after building permit issuance, meaning that a developer may proceed with a “rental” project and effectively defer DCs until a condominium conversion occurs.

The City requests the Province to define “rental housing” to exclude any project which is subject of an application for approval of a condominium, or that is registered as a condominium, and to provide a punitive tool for developments that identified themselves as rentals and later register as a condominium.

Other Comments Related to Instalment Payments

The City comments that the provision for the payment of DCs by instalments for each of industrial, institutional and commercial development has not appeared to contemplate developments that are sold between building permit issuance and the final DC instalment due date.

The City comments that the administration of DC instalments plans will be an additional function and cost that will be required of municipalities. This cost will need to be covered by existing taxpayers since general administration is an ineligible cost under the DC Act. This additional cost through property taxes is inconsistent with the goal of increasing housing affordability.

The City requests the Province define “person”, e.g. the person required to pay a DC and the person required to provide notice of occupancy.

The City requests the Province provide a tool to allow municipalities to register notice of deferred DCs on title, prior to issuance of the building permit and require full payment of any unpaid DCs, including interest, prior to any sale of the building.

Letter to Municipal Affairs and Housing

August 19, 2019

3. Period of Time for Which the Development Charge Freeze Would be in Place

The Proposal provides that DCs would be frozen at the later of site plan or zoning application date for two years after the approval of said application.

The City comments that the majority of proposed developments within the City move from approval to building permit in under a year. In order to meet the goal of encouraging developments to proceed to building permit stage faster than they are currently developing, the time period that the rates are frozen must be less than the time period currently experienced.

The City comments that the time between site plan or zoning application and approval of that application is not entirely within the control of municipalities. A municipality's tools are limited in respect of enforcing developers to proceed in a timely manner to the approval stage. This creates a risk for municipalities. An applicant may rush submitting their application pre-maturely in order to “lock in” the DC rate, despite not being ready to finalize their plans and proceed to building. There is then no impetus on the applicant to move quickly to satisfy any conditions of approval. In fact, it may be in the applicant's best interest to delay approval, so that the two-year post-approval clock does not start ticking.

For example, a developer may know they want to build something in five years, so they apply for a zoning now and that sets the DC at today's rate. As the City requests information or additional studies in order to be in a position to approve the zoning application, a developer could be non-responsive for a couple of years because they don't actually want approval yet. Municipalities will be faced with a choice of allowing this to continue indefinitely or proceeding with a refusal to Council in order to protect the City's financial interests and such refusal would be appealable to LPAT.

To address this concern, the City requests a number of changes.

The City requests that the Province define the application date for site plan and zoning amendment as the date that the application is deemed a complete application.

The City requests that the Province prescribe the period that DC rates would be frozen as nine months from site plan or zoning approval to encourage developments to move through the building permit state faster while providing the predictability of costs.

The City comments that the concept of holding provisions, site plan amendments and minor variances in relation to the approval date has not been addressed in the Proposal. The City requests that the Province clarify that the approval date is the first date of approval and that the lifting of holding provisions, site plan amendments or minor variance requests have no impact on the approval date.

The City requests the Province to close the loop-hole that could promote application for site plan or zoning years before a project is realistically ready to proceed through the development process by either amending the DC Act or by the Planning Act. For example,

Letter to Municipal Affairs and Housing

August 19, 2019

prescribe a maximum period of time (one year) that can elapse between site plan / zoning application date and Building Permit approval before triggering an adjustment to the DC rate or provide for the expiration of applications if they are not finalized within a prescribed period of time.

4. Interest Rate During Deferral and Freeze of Development Charges

The Proposal specifies that no maximum interest rate will be prescribed.

The City comments that the flexibility to establish an appropriate interest rate is a reasonable and desired approach.

5. Additional Dwelling Units

The Proposal provides that the “exception relating to the creation of additional dwelling units” in O. Reg 82/98 be amended:

- so that units could also be created within ancillary structures to these existing dwellings without triggering a development charge (subject to the same rules / restrictions).
- so that one additional unit in a new single-detached dwelling, semi-detached dwelling and row dwelling, including in a structure ancillary to one of these dwellings, would be exempt from development charges.
- so that within other existing residential buildings, the creation of additional units comprising 1% of existing units would be exempt from development charges.

The City comments that previously, through the comments to Schedule 3 of the Act, the City requested that the regulation expressly:

- (1) limit the number and size of additional / secondary dwelling units; and
- (2) limit the classes of housing types that they can be located in; and
- (3) prevent unintended units from qualifying (e.g. ensuring that stacked townhouses continue to be charged per dwelling and are not captured in the “one additional dwelling per row dwelling” statutory exemption category). Without the full draft regulation, the City is not assured that this request has been met.

The City comments that additional statutory exemptions do not reduce the costs necessary to provide infrastructure. If municipalities are not able to collect for DC eligible growth infrastructure on a “growth pay for growth” basis, the cost that cannot be collected through the DC will be added to property taxes or service levels will decrease. An increase in property taxes is counter to the goal of increasing housing affordability.

The City requests the Province to release the full draft Regulation for consultation.

The City requests the Province permit a DC to be charged when a lot is severed after having received a DC exemption for a dwelling unit ancillary to another dwelling. This

Letter to Municipal Affairs and Housing

August 19, 2019

request is to address the risk that a lot which is developed with two dwellings which will ultimately be on their own lots is not able to benefit from the statutory additional dwellings exemption.

The City requests the Province to clarify how stacked townhouses and back-to-back townhouses will be dealt with in the regulation regarding additional dwelling units.

The City requests the Province to permit statutory exemptions to be adjusted for through the calculation of the per-unit DC.

Notwithstanding the above and to reiterate the City’s opening comment, the Province has not yet released full draft regulations. The City’s comments have been prepared based on limited interpretations of the proposed regulation content. The full impact of the Proposal cannot be understood and assessed without the official language that will appear as written in the regulation. The City requests further consultation to provide feedback on the full draft regulations.

The City remains concerned with changes imposed by the Act and submits that at this point, absent the release of the draft regulations, the Act and Proposal do not ensure the promise of revenue neutrality. The changes are a significant departure from the current legislative framework and undermine an effective tool for creating vibrant communities. Reducing development charges will not make housing more affordable. Restricting cost recovery tools does not guarantee lower house prices. House prices are set by the market. The changes through the Act will require extensive administration, delay cash flow needed to install infrastructure and expose municipalities to collection risks. If more municipal operating revenues are needed to cover the cost of growth, it will be at the expense of maintaining existing capital assets, levels of services or current property tax rates.

For greater emphasis, the City submits that purchase price is only one element of affordability. Property tax rates factor into the carrying costs of a property and hence, its affordability. The changes proposed by the Province may result in increased property taxes, making it less affordable for residents to live in their homes or for businesses / industries to stay in their locations or expand their operations.

Thank you again for the opportunity to provide meaningful input into this review. The City looks forward to further review and consultation towards the development of the final Regulations. City of Hamilton staff would be pleased to meet with you to discuss these comments in greater detail.

Dear Mr. Ballantine:

Subject: City of Hamilton Submission on Proposed New Regulation Pertaining to the Community Benefits Authority under the Planning Act

Thank you for the opportunity to provide comments on the above-referenced proposal (the Proposal) relating to the *More Homes, More Choice Act, 2019* (the Act). Please accept the following comments for consideration.

First and foremost, the City requests the Province to release the full draft Regulation for consultation. The Proposal is a description provided in general terms. The full impact of the Proposal is not capable of being understood or assessed without the official language that will appear as written in the Regulation. The City of Hamilton's (the City's) comments have been prepared based on a general interpretation of the Proposal. The City requests that once any draft regulations are completed, they be posted and be subject to comments from all stakeholders.

For ease of review, the City's comments respond to the same eight categories set out in Proposal.

1. Transition

The Proposal provides that the prescribed date by which a municipality must adopt a community benefits charges (CBC) by-law by will be January 1, 2021, after which point, a development charge (DC) for soft services may no longer be imposed.

Letter to Municipal Affairs and Housing

August 19, 2019

The City comments that, without a full understanding of what is required in a CBC By-law, the prescribed date by which one has to be passed may be unachievable. For example, the City commenced the 2019 DC Background Study in January 2018 and it was adopted 17 months later in June 2019. If a similar calculation process is required, or a calculation process is proposed for which existing data is not readily available, there is a concern that the proposed timeline will not be achievable. Municipalities that have recently dedicated resources to a soft service DC calculation will again be required to dedicate resources to the CBC calculation. The cost of undertaking studies and the use of consultants (if necessary) are passed through the DCs, or presumably the CBC, thus acting counter to the Provincial goals of reducing costs of development. Furthermore, other Bills, such as Bill 6, are already requiring substantial municipal resources which are limited.

The City requests that the prescribed date be set at January 1, 2024 to recognize the cost and efforts spent on recently updated DC studies and allow municipalities to plan for the cost and effort of a CBC calculation at a time that would somewhat align with the next scheduled cycle of DC by-law updates.

2. Reporting on Community Benefits

The Proposal provides that annual reporting requirements would be similar to the existing reporting requirements for development charges and parkland under section 42 of the *Planning Act*.

The City comments that annual reporting of detail as described is appropriate and is consistent with the City's priorities and culture statements embedded in the City's 2016-2025 Strategic Plan.

The City comments, that since a draft regulation has not been released, a complete and detailed comment on this portion of the Proposal cannot be made.

The City requests the Province to release the full draft regulation for consultation and comment.

3. Reporting on Parkland

The Proposal provides that annual reporting requirements would be prescribed for municipalities with parkland special accounts.

The City comments that annual reporting of detail as described is appropriate and is consistent with the City's priorities and culture statements embedded in the City's 2016-2025 Strategic Plan.

The City comments, that since a draft regulation has not been released, a complete and detailed comment on this portion of the Proposal cannot be made.

Letter to Municipal Affairs and Housing

August 19, 2019

The City requests the Province to release the full regulation for consultation and comment.

4. Exemptions from Community Benefits

The Proposal has identified six forms of development that would be exempt from community benefits charges.

The City comments that the Province has listed types of development without clear definitions of the terms. The lack of the provision of definitions raises a number of general concerns including:

- (a) the scope and breath of the interpretation of the categories;
- (b) if left undefined, disputes are likely to arise as to their interpretation; and
- (c) if they are defined in the forthcoming regulations the City will not have been provided the opportunity to comment on the definitions.

More specifically, the proposed exemptions include “universities and colleges”. This appears to be a broad category without any guidance provided as to the scope of the intent of the meaning of “universities and colleges”. Are the following included within the meaning of “universities and colleges”: privately funded colleges and universities, developments which are public-private partnerships i.e. university / college partnerships with private developers, developments owned by others but used by a university or college? Is the meaning of “universities and colleges” restricted to certain types of development such as academic facilities, research facilities, student residences or facilities which have mix of the foregoing?

The courts have confirmed that colleges established under the *Ministry of Colleges and Universities Act*, R.S.O. 1990, c. M.19 are crown agents and unless explicitly stated in legislation, they are not bound by it. The *Planning Act* and the amendments thereto found in the Act do not appear to expressly bind colleges, the Crown or any Crown agents and therefore, colleges would not be obligated to pay a DC. Accordingly, it is unclear why colleges are listed as exempt.

It is unclear if memorial home and clubhouses by groups other than the Royal Canadian Legion are intended to be included in the definition. It is unclear what a memorial home or clubhouse is.

The City requests the Province definition each use and to release the full Regulation for consultation.

The City requests that the Province define “long-term care home” as “a long-term care home as defined in the *Long-Term Care Homes Act, 2007*, S.O. 2007, c.8”.

The City requests that the Province define “retirement home” as “a retirement home as defined in the *Retirement Homes Act, 2010*, S.O. 2010, c. 11”.

Letter to Municipal Affairs and Housing

August 19, 2019

The City requests that the Province define “universities and colleges” and that it only apply to developments solely owned by such organizations for the specific uses that the Act intends to include.

The City requests that the Province define and provide clarity for “memorial homes, clubhouses or athletic grounds of the Royal Canadian Legion”.

The City requests that the Province define “hospice”.

The City requests the Province to define “non-profit housing” to apply only to developments that are receiving construction or on-going operating funding through a government housing affordability program.

5. Community Benefits Formula

The Proposal has requested input on varying percentages to use for land values to maintain the historical municipal revenues. The Proposal has also provided that further consultation will occur later this summer.

The City comments that land values vary significantly across the Province and within each municipality which is presumably part of the reason varying percentages are being considered. Construction values, however, vary less across the Province than land values. This concern was included in the City’s comments respecting Bill 108 and the same concern was echoed by the submission of other municipalities in regard to Bill 108. The City understands that the intent of a CBC is to cover the costs of growth-related projects such as parks, recreation facilities, libraries, etc. All of these have a land purchase component and a construction component when being undertaken by a municipality. A CBC calculation methodology should reflect both components.

The City comments that there may be cases where a municipality may experience a need for additional ‘soft services’ in a specific section of the City and a CBC calculation methodology should permit municipalities to factor this need in to the calculation by permitting area-specific calculations of CBCs.

The Proposal only seeks for input on percentages of land value. While the City has undertaken some analysis to provide input, the City is not supportive of a methodology based on land values due to a disconnection between land values and the services that would be funded with a CBC. Services are provided based on population which is reflected in the current DC methodology.

There can be significant differences in land values due to location, density, land size and land use. Within the City, the value per acre is between \$400,000 per acre to \$12,000,000 per acre when adjusting for each of the factors. This variance still exists, but to a lesser extent, if the land use is taken into consideration:

Letter to Municipal Affairs and Housing

August 19, 2019

Residential* - \$750,000 to \$12,000,000 per acre

- Low density residential - \$750,000 to \$1,200,000 per acre
- Medium density residential - \$800,000 to \$3,000,000 per acre
- High density residential, downtown – \$4,000,000 to \$12,000,000 per acre
- High density residential, not downtown - \$1,250,000 to \$7,000,000 per acre

Industrial - \$400,000 to \$1,500,000 per acre

Commercial - \$750,000 to \$3,000,000 per acre

** Excludes single-detached dwelling building lots, which can vary from \$5,000 to \$11,000 per front foot*

The City comments that based on a review of sample projects, the parkland dedication cash-in-lieu and soft service DCs made up between 9% - 75% of the percentage of land value. This is based on a limited sample and the City will be undertaking further analysis to contribute to additional consultation.

The City comments that, while the methodology of cap based on land value is flawed, the flaw is even more pronounced when considering expansions of existing developments and redevelopment of land. The land value encompasses the entire site and may discourage expansions of existing non-residential developments or redevelopments of residential land if the existing and former uses are not factored into the calculation and cap. These outcomes are counter to the goals of increasing housing supply and would encourage sprawl over redevelopment of underutilized lands. In order to encourage redevelopment, the existing land use needs to be considered in a CBC calculation and cap.

The City requests the Province consider different land use categories, residential densities and land sizes when exploring options for establishing the cap of a CBC as a percentage of land value during the consultation this summer explicitly.

The City requests the Province consider a two-step CBC calculation methodology. The first being a land-based component and the second being a construction-based component. A two-step calculation would reflect the notion of construction costs being relatively stable across the province while land values can vary significantly.

The City requests the Province allow for area-specific CBC calculations within a municipality.

The City requests the Province establish a CBC calculation and cap that adjusts for any existing, legally established, use of the land.

The City requests the Province establish a CBC calculation methodology that connects the services being funded from a CBC to the development that is driving the need for increases in those services. The existing DC methodology, without the 10% statutory deduction and adjusted for the uses that the Province is mandating as exempt, is one option to consider.

Letter to Municipal Affairs and Housing

August 19, 2019

The City is not making any specific percentage requests related to this matter, at this time, due to the limited information provided through the Proposal and will look forward to further consultation this summer.

6. Appraisals for Community Benefits

The Proposal describes a process by which a community benefit charge can be challenged and which involves up to three land appraisals.

The City comments that the current cost of an appraisal is estimated at a minimum \$6,000 per appraisal. The proposed process will be administratively onerous and expensive for the developer and the municipality. It is unclear whether the costs appraisals can be recovered through the CBC calculation.

The City comments that not all developments utilize the land at the highest and best use. A land valuation considers the highest and best use. An express statement should be provided that appraisals, through the payment in protest process, are to consider the highest and best use, not the specific development being constructed.

The City comments that the Province has not provided a clear indication of when each time period starts. For appraisals required after the initial appraisal, will the prescribed time period commence from the CBC payment date or from the date of receipt of the preceding appraisal?

The City requests the Province to provide that municipal appraisal costs can be included in the determination of a CBC and also requests clarity on the date that each prescribed amount of time is measured from.

The City requests the Province to provide an express statement that appraisals, through the payment in protest process, are to consider the highest and best use of the land, not the specific development being constructed.

7. Excluded Services for Community Benefits

The Proposal provides that several services be excluded from community benefits. The excluded services align with the excluded services list in the *Development Charges Act, 1997, S.O. 1997, c.27 (DC Act)* as amended by the Act.

The City comments that the effort to retain the ability to collect for the same services collected for under the existing DC Act and parkland dedication tool is appreciated. However, there are services that municipalities are not able to collect for through the existing DC Act which are the services listed as being excluded from a community benefits charge.

Letter to Municipal Affairs and Housing

August 19, 2019

The City comments that the DC Act explicitly listed library collection materials as eligible. Library collection materials are not specifically identified in the Proposal.

The City comments that all costs associated with servicing future growth should be eligible for consideration in a community benefit charge calculation. There should not be any excluded services unless it can be demonstrated that there are environmental benefits or other “greater-good” benefits to excluding such service. The City agrees that landfill sites and services and facilities for the treatment of waste is reasonable to be excluded from a community benefits charges.

The City requests the Province to only list “landfill sites and services” and “facilities for the treatment of waste” in the list of services excluded for community benefits.

The City requests the Province to clarify that library collection materials are eligible for funding from a CBC.

8. Community Planning Permit System

The Proposal provides that a community benefits charges by-law would not be available for use in areas within a municipality where a community planning permit system is in effect.

The City comments that the intent to prevent a doubling up of fees between a community planning permit system and a CBC is noted.

The City comments that while community planning permit systems are not currently in use, the option of a community planning permit system for future growth is being considered.

The City comments that without understanding how a CBC is to be calculated, it is unclear whether revenue neutrality can be achieved when comparing value obtained through a community planning permit system with the value collected through a CBC.

The City requests the Province release the full CBC calculation methodology and full regulations for comment.

Notwithstanding the above, and to reiterate the City’s opening comment, the Province has not yet released full draft regulations. The City’s comments have been prepared based on general interpretations of the Proposal. The full impact of the Proposal cannot be determined without disclosure of the actual draft regulation. The City requests further consultation to provide feedback on the complete draft regulations.

The City remains concerned with changes imposed by the Act and submits that at this point, absent the release of the draft regulations, the Act and Proposal do not ensure the promise of revenue neutrality. The changes are a significant departure from the current legislative framework and undermine an effective tool for creating vibrant communities.

Letter to Municipal Affairs and Housing

August 19, 2019

Reducing development charges will not make housing more affordable. Restricting cost recovery tools does not guarantee lower house prices. House prices are set by the market.

The changes through the Act will require extensive administration, delay cash flow needed to install infrastructure and expose municipalities to collection risks. If more municipal operating revenues are needed to cover the cost of growth, it will be at the expense of maintaining existing capital assets, levels of services, or current property tax rates. For greater emphasis, the City submits that purchase price is only one element of affordability. Property taxation rates factor into the carrying costs of a property and hence its affordability. The changes proposed by the Province may result in increased property taxes making it less affordable for residents to live in their homes or for businesses / industries to stay in their locations or expand their operations.

Thank you again for the opportunity to provide meaningful input into this review. The City looks forward to further review and consultation towards the development of the final Regulations. City of Hamilton staff would be pleased to meet with you to discuss these comments in greater detail.

RE: Request for 50% Exemption of the Development Charges for St. Joseph's Villa (170 Ogilvie St. , Dundas) Hospice Project -- SPA-17-205; Building Permit Application # 18-137811-00R3

Dear Ms. Pilon,

St. Joseph's Villa, in planning for the upcoming 10-bed hospice, ensured that the design and program focused on how to sustain the highest quality of life for our patients, their families and those that support them. The planning process cleared every level of review from the City and all conditions have been satisfied and approved. All that remains outstanding, prior to issuing a building permit, is payment of the Development Charges in the amount per below:

City Development Charges	\$237,350.20	
Go Transit	\$820.00	
Public School	\$13,901.27	
Separate School	\$11,911.11	
Total	\$263,982.58	50% = \$131,991.29

Our application for building permit for this project was submitted on September 28, 2018 which included payment of the \$67,642 application fee. All correspondence regarding the Development Charges for the Hospice occurred with City staff well before the new By-laws 19 -142 and 11-174 came into effect on June 13, 2019. In addition, conversations with the Mayor and our Councillor on this matter began almost 18 months ago.

We were fully expecting to receive a 50% exemption, per By-law 14-153 in effect at the time and this was worked into the costing for this project. Given the date that the application was filed, the Development charges at the 50% exemption rate should be applied to this project per the previous By-law.

Over 90% of the funding for this project is coming from the donations of generous Hamiltonians and the need for the exemption by the City for this very important and special project for the citizens of Hamilton is very much needed.

St. Joseph's Villa is responding to a shortage of hospice and palliative respite beds within the region and we are asking for your help in making this a success. Please let us know if you require any additional information.

Respectfully,

The Hospice will operate as a registered charity and a not-for-profit organization.
