Council Chamber

Hamilton City Hall

71 Main Street West

Present: Mayor F. Eisenberger, Deputy Mayor – J. Partridge

Mayor Eisenberger called the meeting to order and recognized that Council is meeting on the traditional territories of the Erie, Neutral, HuronWendat, Haudenosaunee and Mississaugas. This land is covered by the Dish with One Spoon Wampum Belt Covenant, which was an agreement between the Haudenosaunee and Anishinaabek to share and care for the resources around the Great Lakes. It was further acknowledged that this land is covered by the Between the Lakes Purchase, 1792, between the Crown and the Mississaugas of the Credit First Nation. The City of Hamilton is home to many Indigenous people from across Turtle Island (North America) and it was recognized that we must do more to learn about the rich history of this land so that we can better understand our roles as residents, neighbours, partners and caretakers.

The Mayor called upon Heather Robinson, seminary student at Tyndale Seminary, to provide the invocation.

Re: Environmental Registry notice (019-0732) by the Ministry of Natural Resources and Forestry regarding proposal to amend three statutes and make a new regulation

Greetings,

The Ministry of Natural Resources and Forestry (MNRF) is proposing legislative changes to seven statutes and to make a new regulation under the *Lakes and Rivers Improvement Act*. The legislative changes are part of the proposed *Better for People, Smarter for Business Act, 2019*. If passed, these changes are intended to support the government's commitment to reduce unnecessary red tape and regulatory burden and modernize government to be simpler, faster and more cost-effective, while ensuring the sustainable use of natural resources and public health and safety are not compromised.

A proposal to amend the following three Acts and propose a new regulation is posted on the Environmental Registry.

1. *Crown Forest Sustainability Act, 1994*
2. *Oil, Gas and Salt Resources Act*
3. *Lakes and Rivers Improvement Act* and new Minister's regulation under the Act

The proposed amendments and new regulation are described below:

- Proposed amendments to the *Crown Forest Sustainability Act, 1994*, would if passed:
 - Enable the issuance of a "permit" to allow a person to remove forest resources from a Crown forest for non-forestry purposes.
 - Modernize the requirements for annual work schedules by removing the requirement for MNRF approval.
 - Enable the Minister to extend a Forest Management Plan.

- Proposed amendments to the *Oil, Gas and Salt Resources Act*, would if passed:
 - Allow future regulations to be made, where appropriate, to relieve existing activities from requirements that would apply to new activities.
 - Enable the use of a rules-in-regulation approach, or the mandatory issuance of approvals for more activities, subject to conditions and requirements that would be set out in regulation intended to streamline approvals for the specified activities.
 - Clarify the types of geological evaluation and testing activities captured by the definition of “well”.

- Proposed amendments to the *Lakes and Rivers Improvement Act*, would if passed:
 - Create a new Minister’s regulation-making authority in the Lakes and Rivers Improvement Act to allow the Minister to require some owners of electricity-producing dams to, where necessary, assess, monitor and report on methyl mercury related impacts to water and fish.
 - Amend an existing authority to incorporate guidelines by reference in the regulations.

Regulation Proposal

- If the proposed Lakes and Rivers Improvement Act legislative amendment is passed, the ministry proposes to develop a subsequent Minister’s regulation that if made, would require some dam owners of electricity-producing dams to, where necessary, assess, monitor and report on mercury levels in surface water and/or fish tissue. We are also seeking comments on this proposed regulation via this notice.

Owners of the twelve existing dams that currently have mercury assessment, monitoring and reporting requirements established through Ministry of Environment, Conservation and Parks issued Permits to Take Water, would, if the regulation is made, continue these requirements under the authority of the Lakes and Rivers Improvement Act and reporting would be to the Ministry of Natural Resources and Forestry. Each of these twelve Permits to Take Water were subject to consultation prior to their issuance.

New or significantly redeveloped electricity-producing dams may, if the regulation is made, require assessment, monitoring and reporting of mercury, where there is a new or expanded head pond area and/or where there are identified risks associated with human consumption of fish.

The Ministry of Environment, Conservation and Parks is concurrently consulting on a proposal to amend the Ontario Water Resources Act Permit to Take Water requirements for electricity-producing facilities. For more information, please visit <https://ero.ontario.ca> and enter 019-0545 in the search to view this Environmental Registry notice.

In addition, there are other administrative and housekeeping changes proposed for the *Crown Forest Sustainability Act, 1994* and the *Oil, Gas and Salt Resources Act*.

All proposed changes to MNRF statutes appear in the proposed *Better for People, Smarter for Business Act, 2019*, which can be found through the following link to the Bill on the Legislative Assembly, <https://www.ola.org/en/legislative-business/bills/parliament-42/session-1/bill-132> .

MNRF recognizes that this proposal may be of interest to you. To view the Environmental Registry notice, please visit <https://ero.ontario.ca> and enter 019-0732 in the search.

Proposed changes to the *Aggregate Resources Act* are also included in the proposed *Better for People, Smarter for Business Act, 2019* and are the subject of a separate registry proposal posting. For more information, please visit Environmental Registry of Ontario and enter 019-0556 in the search. Please note the posting related to proposed changes to the *Aggregate Resources Act* will close on November 4, 2019.

We invite you to contact Tigist Abebe at 416-314-0961 or SIPB@ontario.ca with any questions.

Sincerely,

The Honourable Fred Eisenberger
Mayor
City of Hamilton
71 Main Street West, 2nd Floor
Hamilton ON L8P 4Y5

Dear Mayor Eisenberger:

Thank you for your letter about conservation authorities (CAs).

CAs have a role in protecting residents and property from flooding and other natural hazards.

Over the years, CAs have expanded their roles and responsibilities into activities such as ziplining, maple syrup festivals, and photography and wedding permits. Due to the potential for more extreme weather events that could threaten our homes, businesses and infrastructure, it is important that CAs refocus on delivering their core mandate. At the same time, we must ensure we are using taxpayer dollars more efficiently.

Accordingly, our government passed Bill 108, *More Homes, More Choice Act, 2019*, which received Royal Assent on June 6, 2019. Our government will modernize the *Conservation Authorities Act* by clarifying the core mandate of CAs, updating how they use municipal levies and fees to pay for programs and services, and streamlining the role CAs play in municipal planning to make approvals faster and less costly. Our aim is to ensure that we improve overall governance, oversight and accountability of CAs.

We are giving municipalities greater control and the ability to enter into agreements with CAs to fund any programs and services outside of the core mandate, if they choose.

As I made clear in my August 16, 2019 letter to CAs, I will be reviewing all of the relevant legislation and regulations that govern Ontario's CAs with an eye to focusing their efforts on their core mandate.

Bringing CAs back to their core mandate will allow for municipalities to better manage CA budgets and programs. The legislative changes we have made ensure CAs focus on delivering core services and programs that protect communities from natural hazards and flooding while using taxpayer dollars efficiently and effectively.

The Honourable Fred Eisenberger
Page 2.

We have already begun consultations with conservation authorities and will continue to engage with municipalities, indigenous communities, and other interested parties that are involved with the stewardship of our lands to discuss how we best focus on core mandate.

Thank you again for sharing your concerns with me.

Jeff Yurek

In Canada the majority of hate crimes are motivated by race or ethnicity (45%), religion (35%), sexual orientation (11%).
- The population of Niagara is growing, as is the diversity of those coming to Niagara. According to the 2016 census, 8.9% of people in Niagara are a visible minority (38,810 individuals), up from 7.0% in 2011. There are 18,625 people (4.3%) in Niagara with North American Indigenous origins (First Nations, Inuit, or Métis). In 2011, there were 14,720 people (3.8%) with North American Indigenous origins.
- Recognizing the importance of attracting and retaining a diverse workforce for achieving economic prosperity, a Global Attractiveness project was undertaken under the previous Council Strategic Plan. The 2017 report outlined actions associated with three objectives (see Appendix 1):
 - Supporting community readiness
 - Marketing to migrants
 - Supporting retention programs

- A strategic marketing manager has been hired to address one of the objectives, however, work has not yet been able to progress for the other two objectives absent dedicated resources.
- There are 77 municipalities across Canada that have joined CIM, with 20 in Ontario, including City of Hamilton, City of London, and City of Windsor.
- Other municipalities that have supported CIM have resourced at least one FTE for developing and implementing an action plan, and/or up to one FTE support for advisory committees.

Financial Considerations

Based on the experiences of other municipalities in Canada, providing dedicated resources is crucial to realize Council-led action pursuant to joining CIM.

Dedicated resources are recommended for a two-year period in order to fulfill the requirements of joining the CIM. The annual operating impact is estimated at \$144,000, which includes one temporary non-union FTE dedicated for the duration of the project, student support, and funds for training, conferences, mileage and community engagement. We estimate a total project cost of \$288,000 over two years. If the recommendations in this report are approved, a business case will be submitted for consideration through the 2020 budget approval process. The financial implication of these resources would be equivalent to 0.04% of the levy.

This potential financial implication should be considered in context of new budget commitments previously endorsed by Council and new budget pressures outlined by staff, as summarized in the following table presented to Budget Review Committee to illustrate the potential levy impact estimated for the 2020 budget.

<i>Previously Identified Budget Commitments/Pressures</i>	Council Report	Levy Amount (M\$)	Levy Increase %

Analysis

Background

The Niagara Region Global Attractiveness Committee Report was submitted in February 2017, written by external consultants, Sarah Wayland and Huyen Dam, in conjunction with the internal Niagara Region Global Attractiveness Committee. The report outlined current immigration patterns, the attraction and retention factors in Niagara, and an action plan with three objectives:

1. To support community readiness to be a welcoming region through engagement and fostering collaboration with key stakeholders using tailored information and data.
2. To improve Niagara’s existing marketing and migrant/immigrant focused literature and create new marketing to attract primary and secondary migration from within Canada and internationally.
3. To support further implementation of concrete programs that will retain immigrants and international students.

The objectives were supported by six tactics, and short, medium, and long term actions (see Appendix 1). A Strategic Marketing Manager was hired to address the second objective, however, work has not yet progressed on the other two objectives due to a lack of dedicated resources. Although these objectives focus on Niagara being a welcoming community, able to retain immigrants, it was not focused specifically on addressing discrimination and racism as in the CIM ten common commitments.

The Canadian Coalition Against Racism and Discrimination (CCMARD) was launched in 2004 as part of the International Coalition of Inclusive and Sustainable Cities (ICCAR) supported by the United Nations Educational, Scientific, and Cultural Organization (UNESCO). The name changed to Coalition of Inclusive Municipalities in 2019. Joining the Coalition and working actively towards the 10 commitments is beneficial for municipalities to be able to build respectful, inclusive and diverse societies, for the whole region, and specifically for newcomers, immigrants, refugees, Indigenous peoples, visible minorities, people with disabilities, and the LGBTQ2S+ community.

Additional benefits of joining CIM include access to a network of municipalities across the world to share best practices and resources, strengthening community partnerships,

involving diverse community stakeholders to understand their realities, and working together to form an Action Plan. Joining CIM can lead to increased accountability to citizens around issues of racism and discrimination, and increased trust, loyalty and respect towards the municipality, as the government works towards equity, inclusion, and appreciation of diversity in the community.

Creating an inclusive and diverse workforce and municipality leads to greater economic innovation and increased profitability. A 2018 report by McKinsey & Company called *Delivering through Diversity* described research conducted with 1,000 companies in 12 countries.¹ The research found that companies in the top-quartile for gender diversity on executive teams were 21% more likely to outperform on profitability and 27% more likely to have superior value creation. Companies in the top-quartile for ethnic/cultural diversity on executive teams were 33% more likely to have industry-leading profitability.

Focus groups and interviews with community partners and residents of Niagara conducted while developing the Public Health & Emergency Services Health Equity Strategic Plan found that discrimination based on race, gender, religion, sexuality, and other characteristics is experienced by people in multiple locations across the region. This results in negative health, social, and justice impacts for individuals and groups of people.² These negative results include physical harm as well as social or emotional impacts.² Studies have shown that when services have been withheld from people from certain populations due to stereotypes and misconceptions, has led to negative social and health outcomes and reluctance to access services when issues arise in the future.³ This applies not only for that individual, but for other family members as well. There is an over-representation of Indigenous peoples and visible minorities in many social services, including Family and Children's Services, the justice system, and in the homeless shelters.

Joining the Coalition

There are six steps to join the Coalition:

1. Prepare the case
2. Adopt a resolution to join
3. Sign the Declaration
4. Inform the Canadian Commission for UNESCO
5. Announce your involvement to local partners and residents
6. Agree to develop or adapt a unique plan of action

A summary of the ten Common Commitments grouped under three categories are listed in Appendix 2 with examples of current internal and external facing work from across the Regional departments and potential opportunities.

Other Municipal Action

There are 77 municipalities across Canada that have joined CIM, and 20 within Ontario. Here are some of the activities and resources of other similar municipalities.

Municipality	Committee	Action Plan	Staff Resources
Region of Peel	Diversity, Equity, and Anti-Racism Committee Seven members		Office of Culture and Inclusion – seven staff
City of Hamilton	Hamilton Committee Against Racism	Equity, Diversity, and Inclusion Plan (announced 2019)	Human Rights, Diversity and Inclusion Office – eight staff
City of London		Diversity and Inclusion Strategy (2015-2019)	One staff member (Coordinator, Government & External Relations)
City of Windsor	Diversity Committee Nine members		One staff (Diversity & Accessibility Advisor) – Clerks Office
Region of Waterloo (Not part of CIM)	Grand River Accessibility Advisory Committee (GRAAC) 12 members	Diversity, Equity and Inclusion Plan (2018-2022)	One staff member

Based on the learnings and experiences of other municipalities in Canada, we recommend dedicated personnel and operating costs. Personnel would coordinate the governance structures with internal and external stakeholders, and draft a Diversity, Equity, and Inclusion Action Plan.

Drafting the Action Plan would include conducting literature reviews, community engagement, and an environmental scan of best practices across Canada and internationally, as well as identifying needs, best practices, resources, and areas of focus for advancing a more inclusive Niagara that supports the ten CIM commitments.

Alternatives Reviewed

Staff considered waiting until the 2021 budget cycle to request dedicated resources for this initiative. This is not recommended as there are no staff that can be reassigned in the meantime to support the proposed governance structures. This alternative would result in the work towards the commitments and action plan to progress slower, with an action plan not being created until 2021-2022.

A second alternative considered was for potential FTE support through the Community Safety and Well-Being (CSWB) Plan. There is potential alignment between the CSWB Plan and the CIM recommendations for some aspects of the two projects, however, this would require the community consultations to identify diversity, equity, and/or inclusion as a key issue. This option is dependent on many variable factors, and does not offer committed support for CIM.

A third alternative considered was to hire a consultant to conduct research and draft an Action Plan. However, this would still require FTE support in directing the consultant, and would not be able to provide sustainable support to the internal Task Force or the Advisory Committee. A consultant would also not be able to develop and sustain quality internal and external stakeholder relationships that are important for this work.

A final alternative considered was leveraging existing resources by repurposing a current position. This option is not recommended, as there are no staff available for reallocation without significant impact on core Region operations or other strategic priorities.

Relationship to Council Strategic Priorities

Supporting Business and Economic Growth, which works towards a coordinated approach to fostering economic growth in Niagara. Research has shown that culturally diverse regions are more innovative and economically prosperous.

Healthy and Vibrant Community, specifically with objective 2.1: Enhancing Community Wellbeing with the intended outcome to foster a safe and inclusive community. Council will contribute to creating a healthy and vibrant community through advancing the ten commitments, which include monitoring and taking action against racism and discrimination in the region, supporting people who experience racism and discrimination, as well as the police as they combat racism and discrimination.

Sustainable and Engaging Government, through committing to high quality, efficient, fiscally sustainable and coordinated services. Creating an inclusive, equitable, and diverse region will enhance Council's ability to provide customer focused services, demonstrates a value to continuous improvement, collaboration and innovation, and be inclusive through reaching and maximizing the assets of all members of the community.

11 November, 2019

Mayor Eisenberger and Members of Council,

We would like to thank Cetina Farrugia and the Corridor Management and Public Works Departments for their work in researching and preparing the report for our request to purchase the former alley abutting our lot at 263 East 21st Street and for their communication with all interested parties.

We also wish to thank Councillor Pauls for supporting the City's report and for her work mitigating the neighbours' issues with regards to the application.

Judging by the two adverse presentations at the Committee meeting November 4, 2019, there were misgivings about the details, but no longer opposition to the annexation of the property. We thank the Committee for the platform giving us the opportunity to allay those apprehensions and to reassure our neighbours that their concerns will be addressed.

I proposed to my wife in my backyard the first day we took ownership of our first home. The last thing I want is for it to be a cause of tensions, and I thank all involved for helping to ease any issues with the neighbours.

Respectfully,

Robert and Emilidh McQueen

To: Mayor and legislative Council
As per our meeting at City Hall on November 4, 2019.

There was so much more I wanted to say. As my neighbor, Calvin, had said, he wanted to repair his fence but needed a special machine to dig out the post. He asked the neighbour at 263 21st Avenue if he could get in the back. The neighbour did not comply. So Calvin added "this is not your property, it's a laneway". At this point, the neighbour was already using the laneway as a driveway for his vehicles. No city truck could get in to do the work for Calvin, anyways.

With knowledge that it was a laneway, the owner of 263 21st Avenue went to City Hall to buy the 12 foot section of the laneway, unbeknownst to his existing neighbours that had an interest as well.

After Robert @263 21st Ave applied, the City of Hamilton forwarded letters to all the interested residents on Brucedale Ave. The letter was asking us if we were a yay or nay for allowing the purchase to go through. We all, most definitely, opposed this and to my knowledge we all signed and returned the letters.

We were then advised last June 2018, that there would be a council meeting in the spring of April 2019, in regards to our possibility of being able to buy a portion of the laneway.

Councillor Esther Paul, visited all the neighbours on Brucedale. Looking in our backyards and adding, "Yes, it would be only fair to half it up", and added, if she lived here she would've wanted it as well.

While Brucedale neighbours were standing with Esther Paul, she had received a text from 263 21st Avenue stating, "Tell them to stop harassing him!" (Him being Robert at 263 21st ave). This gentleman was never harassed, we were all beside ourselves. Then, Esther Paul, said she would go meet with them and discuss the matter. Esther Paul returned within 20 minutes while we were all still outside on Brucedale. Esther Paul said, "Oh my God I know these people", and that she was great friends of their mom and had been to their wedding. Jokingly, I added, "I guess we know what side you're on". Not thinking that that may take precedence.

Weeks later we received a phone call from a woman at Public Works saying that there was nothing Brucedale residents could do because the fences had been there for however long and that there's a Hamilton by law stating such a thing. The woman spoke so fast I commented to her, "you speak so fast do you not take a break for breath because I don't understand all you're trying to say".

Amongst the neighbours, we immediately thought, that Robert could possibly know others working at City Hall, and/or Public Works. We also realized at this point we had not yet had our meeting with City Council. We couldn't understand why other people in other departments took it into their own hands, overriding our City Council meeting that

November 12, 2019

was supposed to be taking place in the spring of 2019.

Esther Paul continued to ask us if there was any way we could resolve this, and asked us what we would want? When the negativity on purchasing the laneway was running rampant, the other residents didn't pursue it, thinking it was a done deal.

Since Calvin, Lilly, and myself have yards backing onto 263 21st Avenue's property, Esther Paul concentrated on us and asked us what would make us happy. We started settling for a fence. Tim had gone on and there was no meeting held in April 2019. After the city Council meeting that took place on November 4th...it became increasingly unclear if this meeting was the one that was supposed to be held earlier in the spring, in regards to the Brucedale residents purchasing a portion of the laneway or was it to finalize the details about putting up a fence? The confusion for us came about because the father of Robert, had spoken about how he grew up in this neighbourhood and spoke about our existing fence and how long it had been there. Implying that there was no reason to be arguing about the laneway since a fence had been up for years.

I moved into my Brucedale house in October 2016. I am not from the area and was not aware of any bylaws that trump a homebuyer's intent to purchase land that is available to them regardless of how many years a fence has been there. I believe that as a new resident coming in to the area, I should be allowed to express interest in the laneway, along with my fellow neighbours. Which is why the neighbours and myself duly signed the necessary forms and returned them. My intent for that space is to ensure I get the fence I want in my own backyard. I have to look at the fence everyday and right now there is a short chain link fence. I can see everything that goes on in their yard and they can see everything in my yard. I would like to have a privacy fence go up to give each of us our own private spaces.

My stomach has been in knots ever since the meeting, it would keep me up at night.

I would have expressed all this at the meeting. The truth of the matter is, our petitioning had never been addressed. Our neighbours followed all the protocols and we still had no response and had no idea where we stood. Whatever the outcome could/would have been, it just would have settled easier hearing it fairly from City Council...

It's very difficult to accept that this problem with the laneway wasn't handled professionally or lawfully, in our eyes.

I hope you can understand how we could feel this way.

Thanking you in advance.

Sincerely,
Debbie Riddell

One more important issue to this matter is that, although, Brucedale Avenue residents do not have a portion of this laneway.....the residents residing on the other side have divided their yards up including the laneway.

Before you render a decision I'm hoping that, to make a proper decision someone could come and assess the lane.....and see exactly how it had been divided.

I also believe, that whatever decision is made, the laneway should be looked at carefully. If one person is buying, I believe it only fair that if one person pays their portion of the laneway that the other residents follow suit.

We should rectify this issue of the laneway.

Thanking you so much for your assistance in this matter.

Sincerely,
Debbie Riddell

Keep Hamilton Clean and Green Committee 2018-2022 Work Plan

Introduction

The role of the Keep Hamilton Clean and Green Committee is to encourage Hamilton residents, property owners and visitors to engage in neighbourhood and City initiatives that aim to beautify our community and prevent litter, illegal dumping, and graffiti as well as promoting desired behaviours in the community that support the Clean and Green Hamilton goals.

Throughout its existence, the Keep Hamilton Clean and Green Committee has supported the implementation of the City's Clean and Green Strategy. It was determined that their four-year work plan would include implementation of actions related to the theme areas with the existing strategy. In addition to this, it was recognized by the committee that the time has come to update the strategy.

Background

This work plan was developed by LURA Consulting in collaboration with the Keep Hamilton Clean and Green Committee, based on the current themes of the Clean and Green Strategy (Litter, Illegal Dumping, Graffiti, Beautification and Environmental Stewardship). The activities that informed the workplan included an ideation session, an online survey, and an implementation session, detailed below:

- **Ideation Session** – Committee members were asked to reflect on their motivations to join the committee and how their interests aligned with the theme areas within the current Clean and Green Strategy. Members were also asked to identify 3 goals they would like to achieve during their term on the Committee. Following this activity, LURA facilitated a discussion on what is being done within each area of focus, and by whom, to understand the current conditions and identify potential partners.
- **Online Survey** – following the first session, LURA staff synthesized the actions and asked committee members how they would like to implement the actions, who should be involved in implementation, and what they felt were the most important actions through an online survey.
- **Implementation Session** – LURA staff presented the results of the survey to the Committee and discussed any actions that required further clarification for implementation.

The Hamilton branch of Westinghouse Air Brake Company was founded in 1867 and was the first site of the company outside the United States. In 1903 they incorporated and the Canadian Westinghouse Company Limited was established.

Designed by the Hamilton architectural firm of Prack & Perrine, the new head office of the Canadian Westinghouse Company Limited was built in 1917 in the Classical Revival style. This beautiful five-storey office building was constructed across the street from the factory and included a bridge for easy movement between the office and the manufacturing buildings. In 1928, two additional floors were added.

Falling on tough economic times, these offices closed and the building sat vacant since the mid-80's. The was Designated in 1988, highlighting the original architectural features of all four exterior facades, including the brick masonry walls, stone trim and wood-framed, double hung windows.

It has only been in recent years that the property was purchased by Electric City Developments and the adaptive reuse of this landmark building has been undertaken to create modern office and event space that is sustainable and accessible.

RECOMMENDATION:

That the Library Board endorse the Government Relations Campaign on Accessing Digital Publications lead by the Canadian Urban Library Council (CULC).

That the Library Board direct the Chief Librarian/CEO to request the City of Hamilton endorse the campaign and send communication to appropriate elected officials and candidates.

FINANCIAL/STAFFING/LEGAL IMPLICATIONS:

CULC is seeking assistance in increasing government and stakeholder awareness of the barriers libraries face in acquiring digital content. Through the Government Relations Campaign on Accessing Digital Publications, launched in June 2019, CULC is working with governments on a solution that would benefit library users and Canadian authors. By participating in the campaign, the Board can continue to play a leadership role in digital content advocacy in order to support cost effectiveness and access to collections in support of lifelong learning and literacy.

BACKGROUND:

Hamilton Public Library as an active member of Canadian Urban Library Council has participated in both the #eContentForLibraries and eOne Read Canada campaigns this year.

Barriers to accessing digital content for libraries continue to grow due to licensing models which include embargoes [different release days for libraries] and exclusives [content not available to libraries]. The current barriers around digital content causing concern for libraries are:

1. Restrictive pricing models of eBooks and eAudio from the five largest multinational publishers; Hachette Book Group, HarperCollins, MacMillan, Penguin Random House and Simon & Schuster; and
2. The limited access Canadian libraries have to eAudio including eAudio by prominent Canadian authors.

CULC was incorporated in 2008 to improve library service in Canada's urban areas through research, advocacy and knowledge transfer. CULC members are made up of over forty large urban libraries in Canada. CULC members spend approximately \$100 million in public funds annually on library acquisitions; and increasingly struggle to obtain digital content [eBooks and eAudio] from multinational publishers.

On January 14, 2019 a social media campaign was launched by CULC to continue the efforts to lobby for equitable access and flexible, affordable pricing for eBooks and eAudio. Over 700 customers from Hamilton participated in the campaign. The campaign was a call to action to demand better access and terms from the five multinational publishers: Hachette Book Group, HarperCollins, MacMillan, Penguin Random House and Simon & Schuster.

CULC would like to secure government support to eliminate the barriers libraries face in accessing digital content. This campaign aims to raise awareness at the Federal level to this issue prior to the October election.

CULC will be reaching out to engage key policy makers in discussions as well as engaging all major party candidates during the Federal election campaign this Fall. CULC will be asking policy makers and candidates to participate in a social media campaign pledging their support for libraries to have the resources to build their collections;

CULC will be presenting a policy solution to the access issues to the Federal government immediately following the election in October, seeking a funding allocation in the 2020 budget for libraries including data that shows publishers that library cooperation supports book sales.

Additional Background Information

- Members of the Canadian Urban Libraries Council / Conseil des Bibliothèques Urbaines du Canada (CULC/CBUC) spend approximately \$112 million in public funds annually on library collections.
- The Hamilton Public Library spent \$3 million on physical collections and \$1 million on digital collections in 2018 –\$800K of which was spent specifically on eBooks and eAudiobooks
- Even with our significant expenditure, we increasingly struggle to obtain e-content from multinational publishers due to a combination of pricing issues and restrictive licensing models that are unique to eBooks and eAudiobooks.
- In order to properly serve our communities – including vulnerable groups like seniors, lower income individuals, and youth at risk– we need to ensure that all Canadians have timely access to digital content.
- Multinational publishers (collectively known as the “Big 5”), primarily headquartered outside Canada, are limiting Canadian libraries’ access to eContent. Even when a publication is made available, the “Big 5” are making it prohibitively expensive to acquire eContent. For example, Canadian author Louise Penny’s book, *A Better Man*, is available to libraries for \$22 in hard cover, for \$60 in eBook, and for \$81.50 in eAudio. The \$60 ebook cost allows the book to be checked out electronically 52 times or for 2 years – whichever happens first. A paper edition would be expected to last 3 to 4 years at just over a third of the cost.
- This has been an issue for many years, but recently the problem has worsened with publishers further limiting access and embargoing content for public libraries. The resulting business model is financially unsustainable for libraries and detrimental to free and equitable access to information for the public.
- Licensing restrictions and high costs make it difficult for libraries to provide invaluable services that contribute to thriving and engaged communities. Public libraries and the programs that they provide

Draft Letter to Federal Members of Parliament

Dear

I am writing on behalf of the public libraries in the City of Hamilton which provide an essential service and are essential parts of our communities.

Libraries and the early literacy programs that they run are integral to developing proficient readers and ensuring that kids succeed in school. More and more, digital literacy programs run by public libraries also help ensure that citizens can contribute to our digital world. Additionally, for many seniors, lower income families, youth, and new Canadians our public libraries provide access to information they may not otherwise be able to obtain.

Members of the Canadian Urban Libraries Council (CULC)/Conseil des Bibliothèques Urbaines du Canada (CBUC) spend approximately \$100 million in public funds annually on library acquisitions. In Hamilton we are spending \$3.2 million every year in our 22 library branches to ensure that we acquire publications and other resources in demand by library users.

Even with this significant expenditure, we increasingly struggle to obtain digital publications from multinational publishers, due to other cost pressures we face locally and because of the often strict licensing limitations applied to digital publications. By way of example, Canadian author Louise Penny's book Kingdom of the Blind is available to libraries for \$13 as a paperback, \$22 in hard cover and \$60 in digital form. The \$60 cost would allow the book to be checked out electronically 52 times or for 2 years - whichever happens first. A paper edition would be expected to last 3 to 4 years at a substantially reduced cost. The book is currently not available to Canadian libraries in any e-audio format.

The critical problem is that multinational publishers are limiting access to digital publications by Canadian libraries, and, even when a publication is made available, are making it prohibitively expensive to acquire most digital publications.

If we can not correctly serve library users and provide access to digital publications, our community will suffer. The lack of access to digital publications is a problem we feel governments need to be aware of and help us develop solutions for - especially as governments seek to identify community tools that can help vulnerable groups grow and reach their potential.

Along with other CULC/CBUC members across Canada, we are asking the Federal government to recognize the critical role that libraries play in serving priority groups in our communities. Libraries do this by providing access to materials that allow community members to learn and grow. The Federal government has a vital role to play in ensuring that Canadian libraries can meet the growing demand for digital publications. We ask you to prioritize finding a solution for the barriers that Canadian libraries face in accessing digital publications.

I would be happy to further discuss these concerns with you at your convenience.

Yours sincerely,

Paul Takala

NOW THEREFORE the Council of the City of Hamilton enacts as follows:

1. Sewer Charges are imposed upon the owners or occupants of land who benefit from the construction of the Sewer Works (the "Assessed Owners").
2. The Assessed Owner's lands and the respective Sewer Charges are more particularly described in Schedule "A", which Schedule is attached to and forms part of this By-law.
3. The Sewer Charges have been established using the approved method for cost apportionment per City of Hamilton Report TOE02005(b)/FCS02026(b)/PED07248 (Funding Methodologies for Municipal Infrastructure Extensions Review and Update), establishing a Flat Fee Sanitary Sewer Charge of \$7,745.00 attributable to each Assessed Owner of an existing residential lot, in addition to the actual cost of \$6,588.23 for each 150mm sanitary drain connection by A. DeSantis Developments Ltd.; \$6,455.67 for each 150mm sanitary drain connection by Marz Homes (Garner) Inc. and the actual cost of \$4,639.60 for a water service connection attributable to 954 Garner Road East.

The Flat Fee shall be annually adjusted to the current rate in the City's User Fees and Charges By-law. The Sanitary drain and water service connection charges shall be indexed in accordance with the percentage change in the composite Canadata Construction Cost Index (Ontario Series) commencing from the completion date of construction, July 2018, to the date of permit issuance.

4. The amount resulting from the application of the Sewer Charges (the "Indebtedness"), shall be collected at the time of permit issuance for any connection to the said Sewer Works, in addition to any applicable permit fees.
5. The Assessed Owners have the option of paying the Indebtedness by way of annual payments over a period of 15 years from the date of permit issuance for connection by entry on the tax roll, to be collected in like manner as municipal taxes. The interest rate utilized for the 15 year payment shall be the City of Hamilton's then-current 15 year borrowing rate (2019 rate-3.50%).
6. Notwithstanding Section 5, an Assessed Owner of a parcel described in Schedule "A" may pay the commuted value of the Indebtedness without penalty, but including interest, at any time.
7. Should an Assessed Owner sever or subdivide their parcel of land, the Sewer Charges owed to the City of Hamilton, whether the parcel of land is connected or not, and whether or not the Assessed Owner has previously exercised the repayment option set out in Section 5 above, shall be paid forthwith to the City of Hamilton in a lump sum as a condition of the severance or subdivision approval.
8. Unpaid Sewer Charges constitute a debt to the City and may be added to the tax roll and collected in the same manner as municipal taxes.
9. If any provision or requirement of this By-law, or the application of it to any person, shall to any extent be held to be invalid or unenforceable by any court of competent jurisdiction, the remainder of the By-law, or the application of it to all persons other than those in respect of whom it is held to be invalid or unenforceable, shall not be affected, and each provision and requirement of this By-law shall be separately valid and enforceable.
10. This By-law comes into force on the day following the date of its passing.
