HERITAGE PERMIT DELEGATED AUTHORITY REPORT – HP2021-029
ADDRESS: 5 Mill Street South, Waterdown (HCD)

Owner: Locke Eady
Applicant / Agent: Kendra McCalla

Description of proposed alterations:

- Exterior sign installation on rear of building.

Reasons for proposed alterations:

- Retail store signage to match adjacent commercial buildings.

Documentation submitted with application:

- Images of proposed signage and location; and,
- Sign specifications.

Staff assessment:

Key factors in the evaluation of alterations affecting a heritage building or its setting are the consideration of:

- **“displacement effects”** (those adverse actions that result in the damage, loss or removal of valued heritage features); and,
- **“disruption effects”** (those actions that result in detrimental changes to the setting or character of a heritage feature).

In the consideration of any heritage permit application, staff must assess the impact of the displacement and disruption effects on the heritage resource, particularly in relation to the heritage attributes specified in the Heritage Conservation District (HCD) Plan, in this case By-law No. 96-34-H for the Mill Street Heritage Conservation District.

The applicant proposes to install an exterior 5'x 3' sign on the rear of the property. The sign includes the logo and brand and directs customers to enter at the front of the building, to avoid customers attempting to enter through the tenant doors that are located at the rear of the property. The sign will be located adjacent to several other signs to match those of the other commercial units in the row.

The HCD Plan states that the use of back-lit fluorescent sign boxes should be avoided as they may cause water damage to the building. The proposed sign is not back-lit or a box sign and is similar to other existing signs along the building. Staff are satisfied that the proposed sign will not cause additional water damage to the building if installed.

Minimal “disruption effects” are expected to the heritage context of the property. The sign will be located on the rear of the property, adjacent to similar existing signs, and will not be visible from any public right of way.

There will be minimal “displacement effects” to the subject property as a result of this work. The sign will be attached through four plugs into the exterior wall. Existing signs on the property attached through similar methods and of similar design have not caused visible signs of water damage to the built heritage resource.

Staff support the proposed alterations as they are in keeping with the character of the HCD and associated Plan.

Notice of Receipt: June 18, 2021

Sub-committee comments and advice:

The Sub-committee considered the application and passed the following motion:

(Spolnik / Burke)

That the Heritage Permit Review Sub-committee advises that Heritage Permit Application HP2021-029 be approved as submitted, subject to the following conditions:

- a) Any minor changes to the plans and elevations following approval shall be submitted, to the satisfaction and approval of the Director of Planning and Chief Planner, prior to submission as part of any application for a Building Permit and / or the commencement of any alterations; and,
- b) Installation of the alterations, in accordance with this approval, shall be completed no later than June 30, 2023. If the alterations are not completed by June 30, 2023, then this approval expires as of that date and no alterations shall be undertaken without a new approval issued by the City of Hamilton.

Use older photographs to establish appropriate sign styles and types. Avoid the use of back-lit fluorescent sign boxes against the fascia that project from the historic frame of the building. They are usually not properly flashed to prevent water penetration behind the sign that may lead to the deterioration of the building fabric.

HERITAGE PERMIT DELEGATED AUTHORITY REPORT – HP2021-031
ADDRESS: 46 James Street North, Hamilton

Owner/Applicant: Nancy Kinyua

Description of proposed alterations:

- Installation of exterior signage on main floor.

Reasons for proposed alterations:

- Signage for restaurant.

Documentation submitted with application:

- Proposed sign design; and,
- Attachment method diagrams.

Staff assessment:

Key factors in the evaluation of alterations affecting a heritage building or its setting are the consideration of:

- **“displacement effects”** (those adverse actions that result in the damage, loss or removal of valued heritage features); and,
- **“disruption effects”** (those actions that result in detrimental changes to the setting or character of a heritage feature).

In the consideration of any Heritage Permit application, staff must assess the impact of the displacement and disruption effects on the heritage resource, particularly in relation to the heritage attributes mentioned in the Designation By-law, in this case By-law No. 08-215.

The applicant proposes to install an exterior restaurant sign at the ground floor level of the subject built heritage resource. The surface will be painted black and there will be PVC white lettering and channel letters. LED lights will illuminate the channel letters and will be attached to the buildings through the concrete. The attachment methods include 32 threaded rods (2”) and 14 anchors (4”).

While the west elevation of the designation By-law No. 08-215 for the subject property is listed as a Heritage Attribute (protected feature), the description does not specify the modern concrete storefront. Rather, the focus is on original construction materials (stone and wood) and component architectural features and detailing, including the fenestration pattern and the decorative window surrounds.

Minimal “disruption effects” are expected to the heritage context of the property. The sign is proposed to be located where there was previously a “For Lease” sign and is a

portion of the built heritage resource that had been intentionally designed to showcase signs for commercial tenants.

There will be minimal “displacement effects” to the subject property as a result of this work. The sign will be installed on modern materials of the structure (concrete) and will not be impacting any of the original heritage features of the building. As such, staff support the proposed alterations.
