Tuesday February 15, 2021

To the Audit, Finance and Administration Committee,

Please accept this letter as my formal resignation from the Women & Gender Equity Committee. I have greatly appreciate the opportunity to serve on this committee and as chair. However, as a result of moving to Toronto, I will be resigning my position. I am proud of all the work that the committee has been able to accomplish over our term and I wish them continued success in the future.

Thank you,
Stephanie Bertolo

Subject: AF&A Meeting Deferral
Importance: High

Good afternoon Angela,

The Hamilton Waterfront Trust Board is appreciative of the opportunity to provide Audit, Finance, and Administration Committee with an update regarding the HWT's strategic plan and financial performance. While the HWT did forward on the Trust's 2020 audited financial statements in November 2021, the Board is in the midst of reviewing the HWT Strategic Plan. Consequently, the Board is requesting the opportunity to complete our strategic planning discussions, and provide AF&A an update in April or May of 2022. The Board has asked that HWT staff defer their presentation, before AF&A, until such time as more comprehensive information can be provided. We appreciate the Committee's patience to-date.

Regards,

Trent

COUNCIL DIRECTION

Council has directed Procurement to report on the use of Sections 4.10 and 4.11 of the Procurement Policy on a quarterly basis.

INFORMATION

This Report is issued quarterly in accordance with the Procurement Policy. The report details the procurement of goods and/or services during emergency situations and those detailed in Section 4.11 – Non-Competitive Procurements for the fourth quarter of 2021.

The Policy for Non-Competitive Procurements is used in narrowly defined circumstances where it is justified that the policies for the general acquisition process could not be followed. The “Emergency Procurement/Non-Competitive Procurement Form” is completed by the Client Department and approved by the General Manager.

Committee and Council are advised that procurements made under a Policy 10 due to COVID-19 have not been reported in this quarterly report. All COVID-19 related procurements will be reported separately by staff.

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

SUBJECT: 2021 Fourth Quarter Emergency and Non-competitive Procurements Report (FCS21009(c)) (City Wide) - Page 2 of 4

During the fourth quarter of 2021, there were 84 purchases totalling \$6,319,363.44 and 2 totalling \$63,326.46 in revenue, which were processed through the use of an approved Policy 10 or 11. These are summarized in Appendix "A" to Report FCS21009(c).

The breakdown are as follows:

- 3 purchases totalling \$860,014.60 were issued under Policy 10, as "Emergency" purchases, whereby goods and services were acquired by the most expedient and economical means. The following purchase represents the largest dollar amount in this category:
 - Purchase Order 98213 for \$779,541.81 was issued to Fairway Electrical Services Inc. for the generator rental, maintenance and generator fuel supply to keep operations going at the Materials Recycling Facility at 1579 Burlington Street East as a result of severe damage to the underground feed cables due to arcing/tracking. Due to the extent of the damage, a temporary generator was installed until the repairs were completed.
- 30 purchases totalling \$2,378,818.01 represent short-term "Extensions" of current contracts which have expired, and unforeseeable circumstances have caused a delay in awarding a new contract. The following purchases represent the largest dollar amounts in this category:
 - Purchase Order 98054 for \$1,250,000.00 was issued to Super Shine Janitorial Services Ltd. for the supply and delivery of corporate Janitorial Services at various Facilities locations. Procurement has been working with all stakeholders throughout the City to revise and update a new Request for Proposals document and ensure the new terms are compliant with the procurement process and health and safety standards. This extension was required to provide sufficient time to complete the procurement process and award a new contract.
 - Purchase Order 96798 for \$216,495.63 was issued to ServiceMaster Contract Services for the supply and delivery of corporate Janitorial Services at various Recreation locations. Procurement has been working with all stakeholders throughout the City to revise and update a new Request for Proposals document and ensure the new terms are compliant with the procurement process and health and safety standards. This extension was required to provide sufficient time to complete the procurement process and award a new contract.
 - Purchase Order 97988 for \$172,000.00 was issued to Wilcox Door Service Inc. for the supply and delivery of preventative maintenance, demand, emergency and repair services for Overhead Doors and Dock Levers. A Request for

Proposals was completed and the only submission received did not provide a technical proposal and failed to meet the benchmark. This extension was required to provide sufficient time to complete the procurement process and award a new contract.

- Purchase Order 95245 for \$130,120.00 was issued to Paragon Systems to provide sample testing and reports for Cured in Place Pipe (CIPP) samples from various rehabilitation projects during 2020-2021. A request for tender was supposed to be issued in 2021, however was delayed due to staffing shortages. This extension was required in order to complete sample testing for the remainder of 2021 and to provide enough time to complete the procurement process and award a new contract.
- 53 purchases totalling \$3,080,530.83 were identified as “Single Source” purchases whereby a particular vendor was recommended because it was more cost-effective or beneficial to the City. The following purchases represent the largest dollar amounts in this category:
 - Purchase Order 91268 for \$249,832.50 was issued to R V Anderson Associates (RVA) Ltd. for additional project management, contract administration and resident site inspection services for Kenilworth Reservoir (HDR01) Phase 2 construction activities as a result of contaminated soil being found at the site. RVA is currently designing the soil removal and replacement and East cell concrete repairs and is familiar with the scope and the additional services required during construction.
 - Purchase Order 85215 for \$195,000.00 was issued to DTAH to provide contract administration services for the Confederation Beach Park, Sports Park Phase 2-3 project. DTAH was awarded the consulting services assignment for all phases of the project in 2017 however, the funds for contract administration were used up in phase 1 and there are insufficient funds to complete the rest of the project. As a result, additional funds are required to have DTAH complete the work.
 - Purchase Order 94328 for \$179,950.00 was issued to R V Anderson Associates (RVA) Ltd. for professional engineering consultant services required for the Garner Road Water Pumping Station Upgrades. Additional engineering services are required to support a capital delivery initiative and undertake a pilot to engage pre-qualified general contractors to conduct a constructability review prior to issuing a Request for Tender and for investigative and design services for a temporary bypass system required to facilitate rehabilitation of the water pumping station. To maintain project continuity, keep on schedule and minimize additional costs, it is in the best interest of the City to have RVA continue providing consulting services for the additional scope.

- Purchase Order 98078 for \$169,531.58 was issued to the Ministry of Transportation (MTO) for the supply and delivery of City of Hamilton’s share of cost for the 2021 Transportation Tomorrow Survey (TTS). The City, MTO, Metrolinx, Toronto Transit Commission and other regional municipalities are partnering for undertaking the 2021 TTS which is conducted every five years by the MTO through a competitive bidding process. The MTO provides for fifty percent of the TTS cost and the rest is shared between partners.

- Purchase Order 98218 for \$165,000.00 was issued to Verto Inc. for the supply and delivery of a digital twin technology software to assist in the scheduling of COVID-19 vaccination appointments which is required due to the urgency of procuring a suitable software solution to support the mass immunization clinics in the City until the end of August 2022. Verto Inc. was previously vetted by the City of Hamilton and met both privacy and security requirements.

COUNCIL DIRECTION

Procurement Policy, Section 4.19, Item (3) requires a quarterly report be prepared and presented to Council to report the use of all Procurement Policy Non-Compliance Forms.

INFORMATION

This Report is issued quarterly in accordance with the Procurement Policy. This report details the use of all Procurement Policy Non-Compliance Forms for the fourth quarter of 2021.

Procurements that are non-compliant with the Procurement Policy can be identified at any time during the procurement process. Procurements are deemed to be non-compliant with the Procurement Policy when the applicable Policy (Policies) and published procedure(s) are not followed. Under Policy 19, the General Manager is responsible for reviewing each incident and determines the appropriate level of disciplinary action to be taken.

During the fourth quarter of 2021, there were sixteen (16) instances relating to the use of Policy 19, totalling \$290,237.70. The instances are summarized in Appendix "A" to Report FCS21010(c).

Corporate Services				
98350	\$15,025.00	Compugen Inc.	Information Technology	Contract C17-09-17 Supply and delivery of Compugen Installation and Deployment Services for HP Servers. The vendor provided professional services for the installation and deployment of servers. These services are not included in the scope of work within the current vendor agreement C17-09-17. The procurement of these services was made without the proper procurement authority (i.e. competitive process or an approved Policy 11).
No PO	\$479.99	Canada Computers and Electronics	Strategic Partnerships and Communications	Procurement of an ultra wide monitor was made from a retail store rather than through the approved corporate contract for End user Computing Devices C17-01-17. The procurement of this good was made without the proper procurement authority.
Healthy and Safe Communities				
93492	\$50,000.00	Maggas Medical Inc.	Hamilton Paramedic Service	Contract C5-21-15 Supply and Delivery of Medical Oxygen for Fire and Paramedics expired Sept. 30, 2021. Although these goods are required to ensure continuous operations, the procurement was made without a new contract in place or without the proper procurement authority. A new contract has been recently awarded.
96279	\$30,000.00	S.T.O.P. Restaurant Supply	Lodges/Procurement	Current Policy #11 for the procurement of disposable products and kitchen supplies and equipment expired. Although these goods are required to ensure continuous operations at the Lodges, the procurement was made without a new contract in place or without the proper procurement authority.
98504	\$4,865.00	Hamilton Physiotherapy Clinic	Lodges	Contract C5-21-14 Supply and Delivery of Onsite Physiotherapy Services for Macassa Lodge expired and Policy 11s were issued to extend the contract through the pandemic. Although these services were required to ensure continuous service to Lodge residents, the procurement was made without a new contract in place or without the proper procurement authority. Council approval is now in place to continue with these services.
98503	\$2,884.00	Hamilton Physiotherapy Clinic	Lodges	Contract C5-21-14 Supply and Delivery of Onsite Physiotherapy Services for Wentworth Lodge expired and Policy 11s were issued to extend the contract through the pandemic. Although these services were required to ensure continuous service to the Lodge residents, the procurement was made without a new contract in place or without the proper procurement authority. Council approval is now in place to continue with these services.
98178	\$800.09	Stericycle, ULC	Hamilton Fire Department	The total cost of services to provide the supply, delivery and pick-up of biohazard waste containers and bags exceeded the amount allowable for Low Dollar Valued Procurements. Although these services were required to ensure continuous safe operations, the procurement of this service was made without a new contract or without the proper procurement authority. A new contract is now in place for this service.

Planning and Economic Development				
98151	\$52,700.00	ASI Group Ltd.	Tourism and Culture	The provision of Engineering Services at 240 Burlington Street East, including the procurement of radar monitoring services, had been provided by this vendor for a number of years and the cumulative value spent to 2020 exceeded the allowable amount for a Policy #11 Non-competitive Procurement single source (\$250,000). These services were conducted from May to October 2021 and were procured without a contract in place or without the proper procurement authority.
98063	\$18,700.00	East Mountain Animal Hospital	Licensing and By-law Services	Contract for the supply and delivery of after hours veterinary services. Due to shortages of veterinarians on duty with the City's current vendor, Animal Services officers have had to resort to procuring after hour veterinary services for injured and distressed domestic animals from other veterinary vendors. Although these animal services are regulated and must be provided to injured animals, the procurement of the services were made without a new contract in place or without the proper procurement authority. Animal Services Management is working with Procurement regarding the vendor's performance and considering alternatives.
97629	\$15,000.00	Sustainability Solutions Group Workers	Planning	The original scope of services to provide an update of the City's Net Zero Greenhouse Gas (GHG) Emissions model to reflect different growth options as part of the GRIDS 2 Project was amended to include additional services. The procurement of these additional services were made without the proper procurement authority.
Public Works				
No PO	\$32,400.00	Finesse Contracting Ltd.	Energy, Fleet and Facilities Management	Supply and delivery of concrete works at King Forest Golf Course #1. Expansion of the original scope of work was made prior to without the proper procurement authority.
98562	\$22,555.52	Merlo Electric Inc.	Environmental Services	Provision of power supply work for new LED Lighting at Mohawk Sports Park Diamond No. 3. The corporate contract for electrical services expired. These electrical services required for this project were procured without a new contract in place or without the proper procurement authority.
98266	\$15,760.00	KQM Manufacturing Inc. o/a TM Steel	Energy, Fleet and Facilities Management	Supply and installation of a new handrail at the Fire Training Centre Complex. A request for quotations was issued and awarded without utilizing the City's templated RFQ document as required under the Procurement Policy.
97975	\$13,026.00	Crozier Enterprises Ltd.	Energy, Fleet and Facilities Management	Supply and delivery of new water fountains at Kinsmen Park and the Rail Trail Beach Hut. The supply and installation of wall mounted fountains were procured through a single source and without the proper procurement authority.
97977	\$12,642.10	Anco Chemicals Inc.	Energy, Fleet and Facilities Management	Supply and delivery of glycol to First Ontario Centre. The total cost for the supply and delivery of glycol for use at the First Ontario Centre ice plant exceeded the amount allowable for Low Dollar Valued Procurements. Although this good was required for the ice plant to be operational, the purchase of this good was made without a contract or without the proper procurement authority.
No PO	\$3,400.00	Finesse Contracting Ltd.	Energy, Fleet and Facilities Management	Supply and delivery of concrete works at King Forest Golf Course #2. The processing of invoices for work completed was incorrectly processed as a Low Dollar Value Procurement rather than an expansion of the original scope of work. Payment for the work was made without the proper procurement authority.

INFORMATION

Property taxation is the main source of revenue for municipalities to fund their operations. The City of Hamilton (City) must ensure that this primary source of revenue is protected and monitored closely. This Report focusses on the level of annual property tax arrears over the last five years and the resulting collection efforts employed by Taxation staff. The information in this Report is as of December 31, 2021, and therefore is inclusive of any impacts the ongoing pandemic may have had on property tax arrears.

The total arrears have continued to decrease over the last two years. The 2021 arrears are approximately \$3.7 million lower than 2020. This is in addition to the \$2 million reductions in 2020 when compared to 2019. The continued decrease in arrears experienced in 2021 was because Council approved Property Tax Assistance Program (which waived penalties, interest and administrative fees in response to the pandemic) was only applicable for a limited time in 2020, with no similar relief provided in 2021. One factor that may be contributing to the lower total arrears is the increase in the number of ownership changes that have occurred in the past two years. In 2021, there were approximately 14,500 ownership changes, compared to 10,000, 10,500 and 12,000 in 2018, 2019 and 2020 respectively. Despite this, the decline in total arrears, unfortunately, does not translate into fewer properties in arrears. The number of reminder notices, as well as water arrears charges added to the tax roll, continues to be high.

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

Municipal Average³ of comparator Municipalities across Canada.

As identified in Table 1 above, 2021 saw a decrease in total arrears of approximately \$3.7 million, compared to 2020. The percentage of total arrears to current taxes levied of 6.14% in 2021 is the lowest in the last five years.

One of the reasons for the decrease in total arrears can be attributed to the record amount of property sales in the City of Hamilton over the last two years. Ownership changes in the tax software in 2021 of 14,499 is over 2,500 higher than 2020 (11,973) and almost 4,000 higher than 2019 (10,503). These are significant increases compared to what was seen previously. For example, the increase seen in 2019 was 550 more ownership changes than the year prior. property is that the property taxes must be paid in full on the closing of the sale, it is expected that the increase in sales over the last few years would have a dramatic impact on the overall decrease of outstanding tax arrears across the City as a whole. How this project in future years, is difficult to predict currently.

When looking at the results of the Municipal Benchmarking Network Canada (MBNC), although the City of Hamilton continues to be above the average of the comparator municipalities, the gap between Hamilton and the average is narrowing.

It should be noted that the total arrears on the tax roll are not exclusively for property taxes, but also includes penalty and interest charges, as well as other charges added to the tax roll (i.e. water arrears charges, property standards charges, development charges, POA charges, etc.). Where allowable under the *Municipal Act*, charges are added to the tax roll and collected in the same manner as property taxes. Although this practice simply transfers the arrears to the tax roll, it is an efficient and effective method of collecting non-property tax arrears. Charges added to the tax roll continue to increase even though the overall arrears have decreased.

Table 2 identifies the total amount of charges added to the tax roll on an annual basis. This amount increases every year, except for 2020, which was primarily due to the waiving of fees as approved by Council in response to the pandemic (Property Tax Assistance Measures (FCS20038)). The waiving of fees was not extended into 2021, and as such, charges added to the tax roll continued to increase in 2021.

It should be noted that water arrears continue to be the most significant charge added to the tax roll. Over the last five years (2017-2021), on average, water arrears attribute to 69% of the total annual charges added to the tax roll. In 2021 alone, water arrears made up 73% of the total charges added. Water arrears are transferred to the tax roll weekly. In 2021, an average of 450 water arrear charges were added weekly to the tax roll.

Table 3 provides a breakdown of the annual Taxes Receivable by major property class and the respective share to the overall total Taxes Receivable. Tax Receivable¹ is inclusive of supplementary/omitted billings levied but not due as of December 31st of each respective year and exclusive of credit balances or balances under \$5 as of December 31st of each respective year.

As shown in Table 3 above, the decrease in Taxes Receivable is primarily driven by the Residential property class. However, the reduction in the taxes receivable from 2020 to 2021 did not translate into a similar reduction in the number of properties with an amount owing. The number of properties increased compared to 2020. For Residential properties, although this class continues to account for approximately 89% of the total

number of properties with a balance owing, the total amount owing has declined, with 2021 taxes receivable of \$46.2 million, being the lowest in the last five years.

It should be noted that Table 3 identifies all properties with a tax receivable of greater than \$5.00, therefore it is not an indication of the severity of a property's arrears. Some of the properties identified may be due to an unpaid charge added to the tax roll, unpaid penalty and interest as a result of a late payment or simply one missed instalment. For example, of the 19,605 properties with a balance at the end of 2021:

- 6,436, or 33% of these properties have a balance owing between \$5 and \$100;
- 1,955, or 10% of these properties have a balance owing between \$100 and \$250;
- 1,454, or 7% of these properties have a balance owing between \$250 and \$500;
- 866, or 4% of these properties have a balance owing between \$500 and \$750;
- 660, or 3% of these properties have a balance owing between \$750 and \$1,000;

Approximately 58% of the 19,605 properties with a balance owing at the end of 2021 had a balance owing of \$1,000 or less. With the 2021 average Residential tax bill of \$4,358, this could translate into simply one missed instalment.

Table 4 shows that although all wards have properties in significant arrears, the number of properties in significant arrears as of January 2022 have decreased across all the wards. Total properties in three years arrears has decreased roughly 19% from 1,764 properties in January 2021 to 1,427 properties in January 2022. The average percentage of properties in arrears has also seen a decrease from 0.94% in 2021 to 0.76% in 2022. This is the lowest percentage since we have been reporting these figures, which averaged 1.00% in 2019.

Like prior years, Ward 3 continues to have the highest percentage of properties in 3 years arrears at 1.60% as of January 2022, while Wards 10 and 14 have the lowest at 0.57%. Over the four-year period:

- All wards have seen a reduction in properties in arrears from 2021
- Ward 15 saw the highest reduction from 2021 to 2022 at 0.31%
- Ward 3 had the highest percentage overall at 1.60%, however, the Ward also witnessed the second-highest decrease from 2021 to 2022 at 0.29%
- Wards 4 and 10 have seen a consistent yearly reduction since 2019

As of January 2022, the percentage of properties in 3 years arrears by ward ranged between 0.57% and 1.60% of the total number of properties in each ward, an improvement from January 2021 where the average ranged between 0.71% and 1.89% of the total number of properties in each ward.

Of the 1,427 properties identified in Table 4 above, approximately 175 properties have a lien already registered on title, with the remainder being at risk of a lien being registered in 2022, should the arrears not be adequately addressed. Approximately 89% of these properties are Residential or Residential with a Commercial component.

As far as demographics are concerned, staff do not have a “profile” of a taxpayer in arrears. Based on discussions with taxpayers, the reasons for being in arrears vary, however some common reasons include:

- Estate issues whereby the family is in the process of dealing with the estate or it is currently occupied by a surviving family member that is simply not addressing the property taxes or not expediting the settling of the estate promptly.
- Rental properties (i.e. single-family homes/condos not owner-occupied) where the property owner is assuming the tenant is paying the property taxes
- Charges added to the tax roll (i.e. water arrears, property standards charges, provincial offences fines, development charges, etc.)
- Taxpayers in financial hardship (i.e. due to job loss, divorce, illness or the death of one of the owners or family, etc.). These cases are referred to the Compassionate Appeal process, requiring taxpayers to apply annually by the application deadline and provide the required financial records and/or attending physician’s statement
- Taxpayers making incorrect/misinformed assumptions (i.e. assuming they are paying their property taxes through their mortgage, assuming they are in good standing on their monthly pre-authorized payment plan, assuming another family member/partner is paying the property taxes, etc.)
- Opting to pay just the minimum required to discharge the lien or to avoid the City registering a lien. As such, these taxpayers are always in arrears and continue to incur significant penalties and interest charges monthly.

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

- Remnant parcels, non-buildable lots, vacant properties.
- Pending assessment appeal (i.e. choosing not to fully pay the taxes levied by assuming a successful outcome to their appeal that will eventually clear the arrears once processed).
- Opting to enter into a 2-year extension agreement once they are registered.

Residential Tax Assistance Programs

Unfortunately, there is a limited number of programs to assist taxpayers falling into arrears due to lower ability to pay. For the most part, the onus is on the taxpayer to contact the City to discuss options and available programs. Information is available on the City's website, as well as included in the tax information brochure mailed out with both the Interim and Final tax bills. The programs available to residential property owners include:

Seniors (65+) Tax Rebate – the 2021, rebate was \$200, requiring income of \$36,900 or lower and an assessed residential property value of \$495,800 or lower. Prior year taxes must be paid in full. In 2021 there were approximately 3,000 seniors that received the rebate.

Deferral of Tax Increase for Low-Income Senior or Low-Income Persons with Disability – the deferral requires an income of \$36,900 or lower and prior year taxes paid/deferred in full. In 2021 8 applications were approved to defer the property tax increase. As of December 31, 2021, there were 35 taxpayers with a deferral. Some taxpayers apply every year to defer the annual increase, while others have only applied once or applied periodically. Repayment of the deferral typically occurs on the sale of the property.

Full Deferral for Low-Income Senior or Low-Income Persons with Disability – the program allows for the deferral of the full property taxes, however requires an income of \$36,900 or lower and prior year taxes paid/deferred in full. In 2021 18 applicants deferred their 2021 property taxes. This number has remained relatively steady, except for 2018, being the first year of this program, with only 4 applicants. Of the 18 applicants in 2021, 3 new deferrals had not applied to defer their property taxes in the past. In 2021, 4 applicants repaid their full deferral amount. As of December 31, 2021, there are 22 taxpayers with a full deferral.

Compassionate Appeals for Extreme Poverty or Sickness – in 2021, the City received 25 applications. Of the 25 applications received, only four were awarded relief (ranging from 54% to 100% relief of their 2020 total property taxes), with the remaining (21 applications) being dismissed or withdrawn, either due to failure to appear or the income was too high. The average age of the applicants is 54 years old. Concerning

the four applicants that were awarded relief, these applicants were from Wards 3, 4, 6 and 13.

The above relief programs have been available for many years, however, except for the Seniors Tax Rebate, there is minimal take-up.

Penalty and Interest Analysis

Table 5 identifies the penalty and interest charges applied to the tax roll accounts for amounts not paid by the due dates. In adherence to By-law 13-136 "A By-law to Set Penalty and Interest Rates", taxpayers are charged a penalty of 1.25% on the first day of default, then the interest of 1.25% per month (15% per year) thereafter, to all property taxes (inclusive of other charges added to the tax roll) past due, until paid in full. Penalty and interest charges are added the on first of the month, for the full month. The penalty and interest rate charged is the maximum allowable under the *Municipal Act* and is consistent with what most Ontario Municipalities charge. The high-interest rate acts as a deterrent for most taxpayers to avoid paying late or accumulating arrears, however, some taxpayers continue to pay late or allow the arrears to grow, regardless of the penalty and interest charges incurred.

As identified in Table 5 below, over the last five years, penalty and interest revenue have averaged approximately \$11.6M per year. The 2020 penalty and interest charges of \$11.5M were approximately \$550,000 less than the amount charged in 2019, yet still comparable to penalty and interest charges added to the tax roll in 2017 and 2018. The reduction experience in 2020 was primarily due to the Council-approved waiving of penalty and interest charges as per staff report Property Tax Assistance and Other Measures (FCS20038). The 2021 penalty and interest charges, where there was no further waiving of penalty and interest charges, reverted to 2019 levels.

generated through penalty and interest charges for late payments. This is a cost borne exclusively by taxpayers who do not pay by the due dates. The City's collection efforts ultimately have an impact on this revenue. The more aggressive the City's collection efforts are, the less revenue in penalty and interest.

Tax Collection Efforts

The following identifies the steps taken by Taxation staff to ensure the protection and collection of property tax arrears, while adhering to requirements under the *Municipal Act, 2001*. There are several steps taken to ensure the City's taxes receivable are protected and ultimately collected:

- Arrears are indicated on both tax billings (Interim tax bill mailed out in early February and Final tax bill mailed out in early June)
- Setting the penalty and interest rate at the maximum allowable under the *Municipal Act* (1.25% per month / 15% per year) – this rate is identified on all tax bills and reminder notices, so taxpayers are aware of the cost of falling into arrears
- From 2015 - 2019, the City's practise was to issue four reminder notices per year (in March, May, July and October, being the months following each instalment due date). Staff report "Strategies to Reduce Property Tax Arrears (FCS19077)" approved by Council recommended increasing the frequency from the existing four reminder notices per year to seven reminder notices per year effective January 1, 2020. The additional three mailings are in August, November and December. The additional reminders do appear to have a positive effect on collections.
- An annual letter is sent in January to all properties in 3+ years in arrears, advising the taxpayer a lien will be registered should the arrears not be dealt with. Taxpayers are made aware that should a lien be registered, any interested parties registered on title, such as a mortgage company, will be notified of the arrears.
- For taxpayers who ignore the 3+ years in arrears letters, liens are registered on title and notices are sent to anyone on the title, including mortgage holders. The approved user fee to cover the City's costs for the registration of delinquent accounts is also added to the tax roll account. Tax staff monitor all properties in 3+ years in arrears, registering liens in order of largest arrears. Due to the pandemic, there was a freeze in registrations for a large part of 2020. Staff

resumed registration of liens in September 2020. In 2021, registration volumes returned to pre-covid levels.

- On average, the City runs two tax sales per year. This is the last step in the collection of property tax arrears. For the most part, arrears are settled before the tax sale, by either the property owner or their mortgage company. For properties that do go to tax sale, the arrears are paid by the proceeds of the successful bidder. Due to the pandemic, no tax sales were held in 2020 or 2021.

When analysing arrears and arriving at an acceptable level of collection, the level of arrears compared to the assessed value of the property will be considered to minimize all risk of eventually collecting the arrears, should the City need to proceed to tax sale. For the most part, a property's assessed value far exceeds their property tax arrears.

Table 6 identifies the number of reminder notices mailed out in March, May, July and October and commencing in 2020 also in August, November and December, as well as, the number of properties in arrears as of year-end.

advantage of the waiving of penalty and interest and did not pay by the due date. Reminder notices are mailed to all taxpayers with a balance of \$50 or greater.

There is typically an increase in reminder notices mailed out in May and October, due to taxpayers forgetting the second instalment of their Interim or Final property tax bill. A newspaper ad is also published in the local paper to remind taxpayers of the upcoming instalment due date. Regardless of this collection effort, some taxpayers will continue to misplace or lose their tax bills, sell/purchase property and pay on their previous roll number in error, or simply ignore the reminder notices until they risk being registered with a tax lien.

As shown in Table 6, the additional reminders have assisted in collections, as the number of reminder notice mailed out during these months were significantly lower than the other months. By the end of 2021, approximately 10.7% of the total number of properties billed had not paid their property taxes in full, a slight increase from 2020, however an improvement from 2019 where 12.3% of the properties had not paid their property taxes in full.

Tax Registration

Table 7 on the following page breaks down the number of properties yearly, that is in arrears three years or more. The annual 3+ years in arrears letters (typically mailed out mid to late January), elicit several responses ranging from promises to pay, payment arrangements, payment of the minimum amount required to discharge the lien (third year in arrears) and payment in full. Unfortunately, some taxpayers simply ignore the City's letter.

Taxation staff sorts and monitors these arrears into different categories (i.e. properties with payment arrangements, properties that will pay in full, properties that can only settle the third year, properties that have not contacted the City, etc.). Staff then begin to register liens on those who have ignored their arrears and our letter, starting with the properties with the largest arrears. Staff also monitor arrears of taxpayers who have made promises and move them into the registration process if those promises are not kept. It has been the practice of Taxation staff to show compassion for taxpayers in financial difficulty and will work with the taxpayer to allow them some time, within reason, to sort out their financial affairs.

The tax registration and sale of properties are regulated under Part XI of the *Municipal Act, 2001*. Once a property is eligible to be registered, an extensive title check is required to determine who is registered on the title. Once the lien is registered, Taxation staff must send notices within 60 days to all parties registered on title. The full cost of this process is added to the tax roll account, as per the annual Council approved user fee by-law. In many cases, Mortgage companies will act to protect their interest and work with the taxpayer on the arrears or use their Power of Sale legislation.

If the tax arrears are not addressed on receiving the Notice of Registration, then Final Notices must be sent after 280 days of registering a lien. A tax sale cannot take place before one year (365 days) has passed since the registration of the lien.

In 2020, there was a freeze in registrations under Ontario Regulation 73/20. All deadlines about the Municipal Act and Municipal Tax Sale rules were suspended from March 16, 2020, to September 11, 2020. Taxation staff resumed registering liens once the 180-day suspension period expired.

Table 7 identifies how many properties, per year, receive 3+ years in arrears letters versus how many are registered.

3+ years in Arrears letters¹ mailed out in January of each respective year. Properties in receipt of a letter exclude properties that recently were issued a supplementary/omitted tax bill (which may include billing for prior 2 years), properties with a tax lien already registered on title, properties on the arrears pre-authorized payment plan, properties with arrears less than \$250 and properties on an approved payment plan which will clear their 3rd year arrears amount prior to the end of Q3 in the current year.

As reflected in Table 7 above, over the last five years, Taxation staff typically register approximately 310 to 450 liens per year. Due to the pandemic, the registration of 210 liens in 2020 was the City's lowest over the last five years. This was due to the freeze in registering liens under Ontario Regulation 73/20. Although the number of 3+ Years in Arrears letters sent in 2021 was the lowest over the last five-year period, staff still registered over 400 liens, with the percentage of liens registered to be the second-highest over this period at 35.4%. Staff on average have registered liens on 28.60% of the letters issued over the last five-year period.

Although the *Municipal Act* was amended in 2017 to allow the registration of liens for properties in 2+ years arrears, staff are not recommending doing so at this time. Doing so would increase the number of properties that could potentially be registered by over 2.5 times. Based on existing resources, Taxation staff will continue to register at three years in arrears. As the City has priority lien status and ultimately can collect the

property taxes levied, any proposed change to the status quo would need to balance the expected resulting reduction in total tax arrears with the added costs for additional staff resources required, potential loss of penalty and interest revenue and impacts to taxpayers in financial difficulty.

Tax Sale of Properties

The actual tax sale of a property is the final step of the process and one with serious consequences. When a property goes to tax sale, several of the properties generally get rectified by the owners and pulled from the tax sale. Every effort possible is made to allow property owners to keep their properties by settling the arrears themselves. For many of the properties that go to tax sale, properties may also have large property standard charges and/or water arrears added to the tax roll, as well as Federal and/or Provincial liens. The City must also deal with estate issues where no will exists. A further issue is where slivers of properties have been created and have been over-valued, and where the only means to rectify the problem is through the tax sale process.

Of the properties that end up going through to the final bidding process of a tax sale, there are three potential results:

1. They sell for at least the minimum bid (taxes owing including all charges and fees added to the tax roll) and the City recovers all that is owed.
2. They do not sell (no acceptable bids are received) and the property is not vested to the City due to liability concerns. These properties are then dealt with by the City's process for potentially contaminated properties or re-evaluated by the Municipal Property Assessment Corporation (MPAC) to a reasonable value for unbuildable land and left in the current owner's name.
3. They do not sell (no acceptable bids are received) and the property is vested to the City. City Real Estate staff would then attempt to sell the properties vested, at which time a report goes to Council to write-off any difference between what it sold for and the property taxes owing.

Table 8 confirms that most property tax arrears are eventually settled, with relatively very few properties required to proceed to tax sale. As shown below, no tax sales were held in 2020 or 2021 due to the pandemic. It is expected that tax sales may resume in 2022.

As shown in Table 8 above, most arrears are rectified by the taxpayer even after the property is advertised for tax sale. The actual number of properties that eventually are sold at a tax sale to collect the arrears ranges from just 3 to 4 properties per year over the last 3 years where the City held tax sales. This represents less than 0.002% of the total number of properties.

INFORMATION

Introduction

This staff report is intended to keep Council apprised of the trends in assessment appeals over the last five years. The information in this Report is as of December 31, 2021, and therefore is inclusive of any impacts the current covid-19 pandemic may have had on the City of Hamilton (City's) supplementary/omitted tax revenues or on appeals. It should also be noted that the appeals processed in 2021 would have commenced well before the City started taking a more active role in appeals. The appeals in which the City is now actively participating in are in the early stages of the appeals process.

At a high level, the pandemic did not appear to have a negative impact on the Municipal Property Assessment Corporation (MPAC)'s ability to capture growth or on the Assessment Review Board (ARB)'s ability to proceed through the appeal process. The City, MPAC and the ARB were able to successfully adjust work processes to continue required tasks and avoid significant delays, while still adhering to Public Health guidelines. However, the pandemic does appear to have some impact on appeals being filed (where the property owner is seeking relief due to covid) and supplementary / omitted revenues (projects taking longer to complete due to the lack of readily available materials and labour).

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

Assessment Base Growth

Assessment growth is the change in the assessment base due to the addition of new developments, as well as changes in the assessment of existing properties.

Table 1 below shows the positive gains over the last five years due to supplementary/omitted billing revenues. Under the *Assessment and Municipal Acts*, assessments and property taxes can be retroactively billed after the final roll is returned for the current year (referred to as supplementary taxes) and the prior two years (referred to as omitted taxes).

Table 1

*Exclusive of City Housing properties exemption from property taxes in 2017 (Municipal Capital Facility by-law)

The five-year average for supplementary/omitted municipal property tax revenue is approximately \$11.2 million. This revenue is contingent on the volume of new development, the type of development, the length of construction, and ultimately MPAC's ability to timely reflect the new development on the assessment roll. As shown above, the 2020 supplementary/omitted revenues of \$13.1 million are the highest over the last five years. The supplementary/omitted revenues in 2021 of \$10.8 million were significantly lower than 2020, and more in line with revenues recognized in 2017-2019.

Typically, Residential assessment growth accounts for most of the overall revenue, however, that was not the case in 2021. Had it not been for a few large non-residential developments captured by MPAC in late 2021, the 2021 supplementary/ omitted revenues would have been the lowest in the last five years. The ongoing pandemic could be seen as an influencing factor. Staff report 2021 Assessment Growth (FCS22014) (February 25, 2022, General Issues Committee), cited the following for the lower growth seen in the Residential property class for 2021: "*Construction activity, not only in Hamilton but across the country, has been affected by the COVID-19 pandemic resulting in a lack of readily available materials (reduced output, delays in deliveries) and labour (required social distancing, reduced workforce) which has led to project delays of several weeks.*"

To further impact the overall net 2021 position, was a significant number of large appeals processed in 2021. The above table shows that in 2017-2020, the City's

supplementary and omitted tax revenues has resulted in a net positive increase in municipal property taxes when considering the offsetting losses due to appeals. However, that was not the case in 2021, which, on the contrary, resulted in a net loss of \$5 million. The significant amount of appeals processed in 2021 far exceeded the revenue from supplementary and omitted billings in the same year.

Assessment Base Erosion

Assessment base erosion is the depletion of the assessment base due to assessment appeals, requests for reconsideration and *Municipal Act* tax applications.

The figures reflected in Table 2 are municipal property tax reductions from the following processes: Assessment Review Board (ARB) appeals, MPAC Request for Reconsideration (RfR), Post Roll Amended Notices (PRAN) and *Municipal Act* tax applications (under section 357/358 of the *Municipal Act*).

Appeals on a property's value is a constant risk to the City's assessment base. As such, through the budget process, the City recognizes that assessments will be challenged and lost. The expected loss of property tax revenue due to the reduction of assessment values is budgeted annually (2021 budget = \$7.3 million), with additional allowances set aside for more significant, multi-year appeals. The five-year average municipal property tax revenue loss due to the combined impacts of Assessment

Review Board (ARB) appeals, MPAC Request for Reconsideration (RfR), Post Roll Amended Notices (PRAN) and *Municipal Act* tax applications (under section 357/358 of the *Municipal Act*) equates to approximately \$8.1 million, or just over 0.8% of the 2021 Municipal tax levy. This 5-year average municipal property tax revenue loss takes into account the higher-than-normal amount of appeals processed in 2021 and is exclusive of the anomalies noted in Table 2 (being the City Housing exemptions processed in 2017, the Flamboro Downs positive settlement processed in 2018 and the retirement of the roll for the large development fully offset by supplementary/omitted tax revenue in 2020). The 5-year average before 2021 (for 2016-2020) was significantly lower, at \$6.9 million.

As can be seen from Table 2, the actual loss in Municipal property tax dollars can vary widely from year to year and by property class. As such, it is difficult to predict annual losses, as the loss would depend on when the appeal/request for reconsideration is ultimately resolved. As appeals are typically filed for the same property every tax year, an increase in the municipal property tax revenue loss is typically experienced in the year in which significant multi-year appeals are settled.

The 2021 loss of \$15.8 million is the highest in the last five years, after adjusting the 2017 appeals to exclude the City Housing Exemption. Not only is 2021 the highest, but it is significantly higher than the prior four years (two to three times the loss in previous years). This reflects a large number of appeals resolved in 2021 with high assessed values and/or multiple assessment cycles, resulting in a larger impact on municipal tax revenue.

Some of the more significant ARB appeals resolved in 2021 include ArcelorMittal Dofasco (for taxation years 2017-2021); Centre Mall on Barton (for taxation years 2013-2021); SmartCentres Hamilton Southeast (Walmart) (for taxation years 2009-2021); Fortinos (Rymal Rd) (for taxation years 2009-2016 and 2018-2021); Mountain Shopping Plaza (for taxation years 2017-2020); Home Depot, Best Buy, Michaels etc (Stone Church Rd) (for taxation years 2017-2021); Eastgate Mall (for taxation years 2017-2020); Canada Bread (for Taxation years 2018-2021); South Hamilton Square (for taxation years 2013-2020) and Jackson Square (portion) (for taxation years 2017-2020). These 10 appeals alone (both due to the assessed value and/or the number of years that were settled) account for 55% of the total \$15.8 million municipal tax loss experienced in 2021. It should be noted that although the City is now more actively involved in appeals, the appeals process in 2021 commenced prior to the City's more active involvement. These would be the type of appeals the City would participate in moving forward.

The new Rules of Practice and Procedure ("Rules") introduced by the ARB in 2017, coupled with further changes to expedite appeals filed prior to 2017 (by adapting a new shortened 18-week timeline for the Schedule of Events ("SOE") to ensure most of the

older “Legacy” appeals were dealt with by 2021) may be one reason for the higher volume of appeals processed in 2021. In addition, the ARB implemented further revisions to the Rules and effective April 1, 2021, the SOE for appeals within the General stream, which consists of non-residential properties, was further reduced from 66 to 40 weeks which is also likely contributed to the closure of many outstanding appeals in 2021.

The extent to which the ongoing pandemic may result in the significant increase of successful appeals is unknown at this time, however, MPAC has publicly stated that any Request for Reconsideration received for the 2020 and 2021 taxation years that specifically sites Covid-19 as the reason for a reduction in the property’s value, would be rejected. The rationale is that any influence the Covid-19 pandemic may have on property values were not in effect on January 1, 2016, being the current valuation date. On the City’s part, numerous Municipal Act Appeals citing covid were received in 2021 and subsequently denied. Some of these have proceeded to appeal to the City’s rejection of the ARB. These appeals are pending.

In 2019, City Council approved By-law 19-098 “Delegation of Authority to the Treasurer and Deputy Treasurers with Respect to the Adjustment of Taxes and Payments In lieu of Taxes” which delegated authority to staff to hold meetings, provide notice and make decisions for the adjustment of property taxes about Municipal Act Appeals (Section 357 and 358 of the Municipal Act) and Apportionments (Section 356 of the Municipal Act). Due to the pandemic, City staff were able to proceed with these meetings virtually.

Municipal Act Appeals (Section 357 and 358):

In 2021, staff held six virtual meetings, resulting in the processing of 215 tax applications under section 357/358 of the *Municipal Act*. These applications resulted in a total loss of \$918,800, of which \$636,100 was the municipal portion. This \$636,100 reduction in municipal taxes is included in the 2021 appeal loss of \$15.8 million in Table 2 of this Report. It is important to note that some of the assessment reductions under section 357/358 of the *Municipal Act* may in turn lead to assessment growth. Where a property’s assessment is reduced due to a fire or demolition, assessment subsequently may increase due to a renovation or new development ultimately leading to an increase in property taxes. Some of these losses also pertain to City acquired properties changing from taxable to exempt.

In 2021, 27 Municipal Act Appeal applications were received citing covid under “Damaged by Demolition or otherwise - 357(1) (d) (ii)”. Consistent with the documentation received by MPAC and the Province, all these applications were denied by the City. The rationale is that damage due to covid is not physical, which is the intent of the relevant section of the Municipal Act. Some of the applications denied have proceeded to appeal the City’s decision to the ARB. These appeals are pending however the City will be actively participating in these appeals.

Apportionments (Section 356):

Current assessment, and therefore the resulting property taxes levied, may not recognize that a property has been subject to a land severance. The apportionment of land taxes levied for a particular year(s) may need to be apportioned amongst newly created parcels of land. Section 356 of the *Municipal Act, (2001)* permits such an apportionment. When original blocks of land are severed into newly created lots, there is no overall financial impact or property tax loss to the City, as taxes owing against the original parcel of land are transferred to the new parcels. MPAC produces severance information forms for the assessment originally levied on the original parcels of land and identifies the split of assessment amongst the newly created lots.

In 2021, staff held three virtual meetings for the approval of tax apportionments, resulting in the processing of 11 tax apportionments into 39 newly created rolls (inclusive of the originating roll). Although there is no financial impact to the City, following this process, property taxes often increase for the newly created parcels resulting from an increase in the property's assessment due to new construction or development that has occurred. The volume of tax apportionments processed in 2021 was significantly lower than 2020, as the large volume in 2020 was due to the clean-up of prior years' backlog.

Portions of properties that become public roadways are processed under the apportionment process as Land, not Assessed. These have a minimum dollar impact. Apportionments processed as Land not Assessed in 2021 resulted in a minimal \$14,500 municipal tax loss.

Current State of Assessment Appeals at the City

Assessment appeals are not unique to the City of Hamilton. The issue of the loss of commercial and industrial assessments is province-wide. As the Municipal Property Assessment Corporation (MPAC) is responsible for the property assessment, municipal property tax revenues hinge on how well their assessment holds up when challenged by taxpayers and highly trained assessment consultants. It is a common practice for assessment consultants to automatically file appeals on business properties, regardless of the assessment returned by MPAC. As the assessment of business properties is complex, with multiple variables, assessment consultants simply need to prove the inaccuracy of one of these variables which, in most cases, may ultimately warrant some type of reduction in the assessed value.

Table 3 below shows the number of properties with outstanding ARB appeals by CVA (Current Value Assessment) Cycle:

Table 3 highlights the magnitude of the number of current outstanding appeals for properties within the City of Hamilton. The assessment values in Table 3 are the cumulative property values under appeal. Since the same property can be appealed every year, it also includes the assessed value of the same property for every year an appeal is filed (i.e. 4 times in the 4-year assessment cycle). Some of these appeals will be withdrawn or settled for no reduction, while others may be settled anywhere from a loss of 1% to 30% of the assessment, leading to a loss in municipal property tax dollars.

Due to the significant amount of appeals processed in 2021, these figures have declined significantly compared to prior years. Currently, the largest appeals pertain to retail properties, shopping centres/plazas and industrial properties.

Due to the Province postponing the reassessment, current property values are still based on a valuation date of January 1, 2016. This has facilitated settled appeals carrying the settled (lower) value onward to future years and therefore, for the most part, subsequent appeals are not filed. This will change once the next reassessment occurs, as it is expected most large non-residential properties would file an appeal, regardless of the outcome of the appeal on the 2016 value. To date, the Province has not announced when the next reassessment will occur or the valuation date in which properties will be valued.

Proactive Assessment Base Management Program

As approved by Council, the City is more actively participating in appeals. This unfortunately does not mitigate appeals already settled or commenced, however will hopefully mitigate future impacts. The City commenced a more active role in the appeal process for significant appeals where Statement of Issues was received in early 2021.

The roster of assessment professionals, as per approved recommendations in the staff report "Use of External Services for Tax Assessment & Appeals (FCS20005)", was established in June 2021, with the first assignment issued in late 2021. This roster will be used to help manage the City's assessment base in conjunction with existing Taxation staffing resources. The external costs incurred in 2021 were minimal (\$3,100)

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

simply due to the late start. It is expected these costs will increase significantly in 2022. Staff will continue to report on the external costs incurred, resulting from the City's more active participation, in the annual assessment appeals report.

As reflected on Appendix "A" to Report FCS22010 ("Listing"), effective January 1, 2021, the City is actively participating in Assessment Act appeals for 26 properties, representing a total estimated potential municipal tax loss of \$15,836,000. The City's more active participation in these appeals is intended to mitigate this potential municipal tax loss as much as possible, and in some cases, where the City is, in turn, seeking an increase to the value returned by MPAC, a potential gain. As shown in Appendix "A", these appeals are primarily for commercial and industrial properties. Two of the appeals were withdrawn and closed in 2021, thereby mitigating 100% (or \$456,000) of their respective estimated potential municipal tax loss.

In addition, Appendix "A" to Report FCS22010 ("Listing") also identifies four Assessment Act appeals that the City was actively participating in prior to January 1, 2021, two of which were resolved through settlement, thereby mitigating the estimated potential municipal tax loss by \$1,385,000. Included in this list is the Assessment Act appeal for the Stelco property which was initiated by the City in early 2018. This appeal progressed to a full hearing in February 2022. It is anticipated that the ARB will release its decision for the Stelco appeal in the latter half of 2022.

Actively participating in appeals is just one component of protecting and growing the assessment base. Once fully developed, the Proactive Assessment Base Management Program will also include, but is not limited to, the following activities:

- Work with MPAC on proactively managing assessment base
- Analysis of the assessment roll with specific attention to exempt properties, annual changes, under-assessed properties, and property tax classifications
- Review of supplementary and omitted assessment
- Study of assessment to sale ratio
- Analysis of vacant land value and property tax classification to zoning
- Tracking of building permits, draft plans of subdivision, condo plans and severances
- Review of City-owned properties
- Initiate appeals to the ARB for issues that cannot be addressed by other means

COUNCIL DIRECTION:

At its meeting on August 13, 2021, Council approved the following motion:

That the Director of Government Relations and Community Engagement be directed to work with local leaders of the National Council of Canadian Muslims to determine what dedicated local funding may be required to fulfil community-based anti-Islamophobia initiatives and report back to the Audit, Finance and Administration Committee, to undertake NCCM Recommendation 56:

56. Municipalities provide dedicated funding for local community-based anti-Islamophobia initiatives.
 - (d) That the Director of Government Relations and Community Engagement be directed to report back to the Audit, Finance and Administration Committee on local anti-Islamophobic public awareness campaigns and

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

options respecting a potential program(s) for training young Muslim leaders for the future, to undertake NCCM Recommendations 58 and 61:

- 58. Municipalities dedicate specific funding for anti-Islamophobia public awareness campaigns.
- 61. Develop models for training young Muslim leaders for the future such as Youth Fellowship program in Toronto.

INFORMATION:

The City of Hamilton recognizes the rise of hate crimes, including those focused on the Muslim community, both within the municipality and across Canada. This includes a recent Islamophobic attack in the City of Hamilton, allegedly by a Cambridge man, on the wife and daughter of Imam Kamal Gurgi of Hamilton's downtown mosque.

Hamilton City Council was requested to respond to recommendations respecting the municipal portion of the National Canadian Council of Muslims (NCCM) National Action Summit on Islamophobia. These were brought forward by a contingent of Hamilton's Muslim leaders brought forward to Council on July 19, 2021. Muslim leaders in Hamilton requested Council's endorsement and commitment to several of the municipal recommendations in the NCCM's report.

Following the August 13, 2021 Council motion, City staff and officials engaged with the NCCM and Muslim leaders across Hamilton to discuss opportunities to address the recommendations outlined in the NCCM's July 19, 2021 report as per Council's directive. To that end, City staff and officials met with the Hamilton Team Leader for NCCM throughout September, and most recently November 10, 2021 to discuss collaborative opportunities.

The Mayor's Office and City staff held the first meeting to strike the Mayor's Anti-Islamophobia Advisory Group with a wide cross section of members of the Muslim community across Hamilton on September 28, 2021. This included NCCM's Advocacy Officer and the Hamilton Team Leader. Staff are currently working with national and local members of NCCM to ensure that subsequent meetings are fully representative of the Muslim community.

City staff also provided recommendations to NCCM about potential provincial and federal funding streams that may assist in supporting the delivery of this programming and potential events.

Subsequently, the Mayor's office and City staff met with NCCM staff on November 10, 2021 to discuss upcoming actions and steps with the Mayor's Anti-Islamophobia

Advisory Group. Further meetings with NCCM and local leaders are being planned for 2022.

NCCM Recommendations 56 and 58

With regards to NCCM recommendation 56 and 58, currently the City of Hamilton provides funding support to many community-based organizations and more recently, funding provided to the Hamilton Anti-Racism Resource Centre (HARRC), both of which have a focus on addressing hate and encouraging participation and civic engagement in Hamilton by reducing systemic barriers faced by racialized communities. Many community partners that access City funds have held programs and events aimed at encouraging civic engagement, and have run programs geared towards the Muslim and the broader BIPOC (Black, Indigenous, People of Colour) community in Hamilton, including the Hamilton Civic Leadership Program and the Black Youth Mentorship Program.

A variety of current funding opportunities exist for local organizations to launch campaigns that raise awareness and work to prevent Islamophobia, including the City of Hamilton's City Enrichment Fund. Additionally, there are several recently launched funding opportunities, provincially and federally, including the Ontario Anti-Racism Anti-Hate Grant Program and the Government of Canada's Anti-Racism Action Program. As of 2022, the City Enrichment Fund is currently under review to determine a means to track Equity, Diversity and Inclusionary (EDI) elements of applicants and programs submitted for consideration in order to ensure the program is administered and funds distributed in a more equitable manner.

In 2017, at the suggestion of the Mayor's office, the Hamilton Immigration Partnership Council (HIPC), in partnership with the Hamilton Centre for Civic Inclusion (HCCI) and the Ontario Council of Agencies Serving Immigrants (OCASI) launched #HamiltonforAll. The campaign's goal of making the City more hospitable to immigrants and refugees, and encouraging community members to engage with newcomers, was based on a similar program in Toronto called Toronto for All.

More recently, in February 2022, the local community coalition No Hate in the Hammer, which includes representatives from the City of Hamilton among others, hosted a discussion on Islamophobia as part of their speaker series, *Creating a Community Response to Hate: A Virtual Speaker Series*.

NCCM recommendation 61

Pertaining to NCCM recommendation 61, the City of Hamilton's Human Resources department does not currently have a specific program or campaign designed to recruit individuals of a particular religious faith. The department does, however, engage with

Page 4 of 5

more than 50 community partners and organizations to circulate recruitment opportunities within various communities. Additionally, the City does hire and place several hundred students and youth in employment opportunities throughout the City each year through several programs, including the Summer Student Program, the Public Health Post-Secondary Student Placement Program, the High School Co-op Student Program, and lastly the Post-Secondary Student Placement Program. There are opportunities to better engage with and encourage Muslim youth to apply for these positions.

Moreover, *CityLab*, a partnership between the City of Hamilton and local post-secondary educational institutions, provides opportunities for City leaders and staff to work with students and academics from local universities and colleges on various projects. Over 2000 students have engaged in the program with over 100 projects across Hamilton. Additionally, the non-profit *Model City Hall Hamilton* has hosted events and conferences in Hamilton for youth, dedicated to encouraging youth participation in local politics. The City of Hamilton has acted as a partner in the past, and several City Councillors contributed their time in supporting the conference. Two conferences have taken place with approximately 80 participants at each. Again, there are opportunities here to directly target Muslim participants.

The City of Hamilton's Youth Strategy presents further opportunities. The Strategy has previously engaged with Muslim youth, as in 2018 when they ran a targeted engagement at the Hamilton Mosque that was co-facilitated with the Youth Strategy's steering committee. In addition, they have a strong connection with local Mosques and organizations including Empowerment Squared, the Newcomer Youth Centre, and several other groups serving Muslims in Hamilton. The strategy has been very successful in engaging with youth in Hamilton, and they have indicated they are open to supporting any department within the City of Hamilton with a desire to connect with Muslim youth in Hamilton.

The City of Hamilton's Hate Prevention, Mitigation and Community Initiatives Action Plan

Approved by Council in December 2021, the City of Hamilton's Hate Prevention, Mitigation and Community Initiatives Action Plan outlines a number of steps the City of Hamilton is undertaking to address issues of hate within the city, including Islamophobia. This includes that staff be directed to engage with local organizations that are culturally-specific and serve equity-deserving groups or groups disadvantaged by discrimination, to determine opportunities for City staff to coordinate and accelerate existing initiatives, in response to the hate prevention and mitigation recommendations. This comprises a number of items, including the City's internal human resources Equity Diversity and Inclusion (EDI) workplan, and partner organizations such as the Hamilton Anti-Racism Resource Centre, the Hamilton Centre for Civic Inclusion, and the No Hate

OUR Vision: To be the best place to raise a child and age successfully.

in the Hammer Coalition in order to ensure that City policies and programming are informed by the hate prevention and mitigation recommendations presented by Sage Solutions and endorsed by Council in August 2021.

Further, through Council's Equity, Diversity and Inclusion Term of Council Priority, the City commits to creating and nurturing environment that is welcoming and inclusive, where equity-deserving communities feel safe, supported and have an enhanced sense of belonging through strengthened community capacity, City responsiveness, and inclusive engagement opportunities.

Further, the Hamilton Community Safety and Well-Being Plan is currently being implemented. Approved by Council in July 2021, the plan names hate incidents as one of its six local priorities. These include goals to reduce individual and organizational incidents of Islamophobia, anti-Black and anti-Indigenous racism, xenophobia, anti-Semitism, transphobia, homophobia, and other forms of discrimination.
