Regrets:** Councillor T. Whitehead – Personal

---

### THE FOLLOWING ITEMS WERE REFERRED TO COUNCIL FOR CONSIDERATION:

1. **Communication from the Association of Local Public Health Agencies (aLPHa) respecting Public Health Resilience in Ontario (Item 5.1)**

**(Wilson/Jackson)**

That the Communication from the Association of Local Public Health Agencies (aLPHa) respecting Public Health Resilience in Ontario, be endorsed.

**Result: Motion CARRIED by a vote of 14 to 0, as follows:**

YES	-	Mayor Fred Eisenberger
YES	-	Ward 1 Councillor Maureen Wilson
YES	-	Ward 2 Councillor Jason Farr
YES	-	Ward 3 Councillor Ninder Nann
YES	-	Ward 4 Councillor Sam Merulla
YES	-	Ward 5 Councillor Russ Powers
YES	-	Ward 6 Councillor Tom Jackson
YES	-	Ward 7 Councillor Esther Pauls
YES	-	Ward 8 Councillor J. P. Danko
YES	-	Ward 9 Councillor Brad Clark
YES	-	Ward 10 Councillor Maria Pearson
ABSENT	-	Ward 11 Councillor Brenda Johnson
YES	-	Ward 12 Councillor Lloyd Ferguson
YES	-	Ward 13 Councillor Arlene VanderBeek
ABSENT	-	Ward 14 Councillor Terry Whitehead
YES	-	Ward 15 Councillor Judy Partridge

**2. Annual Service Plan & Budget 2022 (BOH22003) (City Wide) (Item 10.1)**

**(Jackson/Powers)**

- (a) That the Board of Health authorize and direct the Medical Officer of Health to submit the 2022 Annual Service Plan and Budget to the Ministry of Health in keeping with what is outlined in this report;
- (b) That the Board of Health reiterate their call to the Ministry of Health to fully fund the provincial portion, at least 70%, of the total costs of the mandatory public health programs and services provided under the Ontario Public Health Standards;
- (c) That the Board of Health reiterate their call to the Ministry of Health to fully fund the added costs resulting from the expanded mandate under the Ontario Public Health Standards through a base funding increase in the amount of \$355,770; and;
- (d) That the Board of Health authorize and direct the Medical Officer of Health to report the outcomes of the 2022 Annual Service Plan and Budget submission and any additional FTEs required if the Base Funding Shortfall one-time request and Ontario Seniors Dental Care Program additional operational funding request is approved.

**Result: Motion CARRIED by a vote of 13 to 0, as follows:**

YES	-	Mayor Fred Eisenberger
ABSENT	-	Ward 1 Councillor Maureen Wilson
YES	-	Ward 2 Councillor Jason Farr
YES	-	Ward 3 Councillor Nrinder Nann
YES	-	Ward 4 Councillor Sam Merulla
YES	-	Ward 5 Councillor Russ Powers
YES	-	Ward 6 Councillor Tom Jackson
YES	-	Ward 7 Councillor Esther Pauls
YES	-	Ward 8 Councillor J. P. Danko
YES	-	Ward 9 Councillor Brad Clark
YES	-	Ward 10 Councillor Maria Pearson
YES	-	Ward 11 Councillor Brenda Johnson
ABSENT	-	Ward 12 Councillor Lloyd Ferguson
YES	-	Ward 13 Councillor Arlene VanderBeek
ABSENT	-	Ward 14 Councillor Terry Whitehead
YES	-	Ward 15 Councillor Judy Partridge

3. **Physician Recruitment & Retention Steering Committee Report 22-001 – February 11, 2022 (Added Item 10.2)**

**(VanderBeek/Farr)**

- (i) Appointment of Chair and Vice-Chair (Item 1)
  - (a) That Marie Nash be appointed as Chair of the Physician Recruitment and Retention Steering Committee for the balance of the 2018-2022 term of Council; and
  - (b) That Councillor Merulla be appointed as Vice-Chair of the Physician Recruitment and Retention Steering Committee for the balance of the 2018-2022 term of Council.
- (ii) Proposed Contract Revisions – Physician Recruitment Specialist (Item 14.2)
  - (a) That the Terms and Conditions of Employment for the Physician Recruitment Specialist, be approved; and
  - (b) That the Terms and Conditions of Employment for the Physician Recruitment Specialist contract remain confidential.

**Result: Motion CARRIED by a vote of 13 to 0, as follows:**

YES	-	Mayor Fred Eisenberger
ABSENT	-	Ward 1 Councillor Maureen Wilson
YES	-	Ward 2 Councillor Jason Farr
YES	-	Ward 3 Councillor Nrinder Nann
YES	-	Ward 4 Councillor Sam Merulla
YES	-	Ward 5 Councillor Russ Powers
YES	-	Ward 6 Councillor Tom Jackson
YES	-	Ward 7 Councillor Esther Pauls
YES	-	Ward 8 Councillor J. P. Danko
YES	-	Ward 9 Councillor Brad Clark
YES	-	Ward 10 Councillor Maria Pearson
YES	-	Ward 11 Councillor Brenda Johnson
ABSENT	-	Ward 12 Councillor Lloyd Ferguson
YES	-	Ward 13 Councillor Arlene VanderBeek
ABSENT	-	Ward 14 Councillor Terry Whitehead
YES	-	Ward 15 Councillor Judy Partridge

**FOR INFORMATION:**

**(a) CEREMONIAL ACTIVITIES (Item 1)**

There were no ceremonial activities.

**(b) CHANGES TO THE AGENDA (Item 2)**

The Committee Clerk advised the Board of the following changes to the agenda:

**10. DISCUSSION ITEMS**

- 10.2 Physician Recruitment & Retention Steering Committee Report 22-001 – February 11, 2022 (Added Item 10.2)

That the agenda for the February 14, 2022 Board of Health be approved, as amended.

**Result: Motion CARRIED by a vote of 14 to 0, as follows:**

YES	-	Mayor Fred Eisenberger
YES	-	Ward 1 Councillor Maureen Wilson
YES	-	Ward 2 Councillor Jason Farr
ABSENT	-	Ward 3 Councillor Nrinder Nann
YES	-	Ward 4 Councillor Sam Merulla
YES	-	Ward 5 Councillor Russ Powers
YES	-	Ward 6 Councillor Tom Jackson
YES	-	Ward 7 Councillor Esther Pauls
YES	-	Ward 8 Councillor J. P. Danko
YES	-	Ward 9 Councillor Brad Clark
YES	-	Ward 10 Councillor Maria Pearson
YES	-	Ward 11 Councillor Brenda Johnson
YES	-	Ward 12 Councillor Lloyd Ferguson
YES	-	Ward 13 Councillor Arlene VanderBeek
ABSENT	-	Ward 14 Councillor Terry Whitehead
YES	-	Ward 15 Councillor Judy Partridge

**(c) DECLARATIONS OF INTEREST (Item 3)**

None

**(d) APPROVAL OF MINUTES OF PREVIOUS MEETING (Item 4)**

**(i) January 10, 2022 (Item 4.1)**

**(Partridge/VanderBeek)**

That the Minutes of January 10, 2022 be approved, as presented.

**Result: Motion CARRIED by a vote of 13 to 0, as follows:**

YES	-	Mayor Fred Eisenberger
YES	-	Ward 1 Councillor Maureen Wilson
YES	-	Ward 2 Councillor Jason Farr
ABSENT	-	Ward 3 Councillor Nrinder Nann
YES	-	Ward 4 Councillor Sam Merulla
YES	-	Ward 5 Councillor Russ Powers
YES	-	Ward 6 Councillor Tom Jackson
YES	-	Ward 7 Councillor Esther Pauls
YES	-	Ward 8 Councillor J. P. Danko
YES	-	Ward 9 Councillor Brad Clark
YES	-	Ward 10 Councillor Maria Pearson
ABSENT	-	Ward 11 Councillor Brenda Johnson
YES	-	Ward 12 Councillor Lloyd Ferguson
YES	-	Ward 13 Councillor Arlene VanderBeek
ABSENT	-	Ward 14 Councillor Terry Whitehead
YES	-	Ward 15 Councillor Judy Partridge

**(e) STAFF PRESENTATIONS (Item 8)**

**(i) Overview of COVID-19 Activity in the City of Hamilton 11 Mar 2020 to Present (Item 8.2)**

VIA ELECTRONIC MAIL

Dr. Paul Roumeliotis  
President  
Association of Local Public Health Agencies  
480 University Avenue, Suite 300  
Toronto, ON M5G 1V2

Dear Dr. Roumeliotis:

**Re: Health and Racial Equity: Denouncing Acts and Symbols of Hate**

At its meeting on February 17, 2022, the Board of Health for Public Health Sudbury & Districts carried the following resolution #08-22:

*WHEREAS the reduction of health inequities is a goal of Ontario's public health programs and services as set out in the Ontario Public Health Standards (OPHS), health equity is a Foundational Standard of the OPHS, and programs and services must be implemented in accordance with the Health Equity Guideline which includes the requirement to apply anti racist, anti-oppressive, and culturally safe approaches to public health practice; and*

*WHEREAS the Vision of the Board of Health for Public Health Sudbury & Districts, Healthier communities for all, is further guided by its Mission and Strategic Plan, both of which prioritize action in support of health equity; and*

*WHEREAS the Board of Health for Public Health Sudbury & Districts is a leader among Ontario local public health agencies in their longstanding commitment to health and racial equity, including notably, the September 2019 endorsement of the Racial Equity Action Framework for Improved Health Equity; and*

*WHEREAS recent events in Ontario have included public displays of racism, anti-Semitism and discrimination, all detrimental to optimal health for all and prompting the Ontario Public Health Association (OPHA) on January 31, 2022, to issue the following statement:*

*While the right to protest is a fundamental element of our democracy, OPHA is disturbed by the hate filled racist and white supremacist symbols and messages flowing from the demonstrations in Ottawa. We denounce all forms of hate, bigotry, racism, antisemitism, and discrimination. Acts and*

*symbols of hate are unwelcome and should not be tolerated. Silence is not acceptable. We urge political leaders from all levels & parties to speak out against such hate and racism, and to promote the importance of vaccines and other public health measures that are protecting all of us, especially the most vulnerable, against illness, hospitalization, & death. Change can only happen when we stand up and speak out. Let's work together to build a society that values diversity, inclusion, and optimal health for all.*

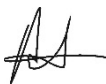

*THEREFORE, BE IT RESOLVED THAT the Board of Health for Public Health Sudbury & Districts endorse the January 31, 2022, statement of the OPHA; and*

*FURTHER THAT the Board of Health encourage other Ontario boards of health and the Association of Local Public Health Agencies to do the same; and*

*FURTHER THAT that this resolution be shared with all boards of health, the Association of Local Public Health Agencies, area Honorable Members of Parliament and Provincial Parliament, the Ontario Public Health Association, the Association Municipalities of Ontario (AMO), among other stakeholders.*

A reduction of health inequities is a goal of Ontario's public health programs and services as set out in the OPHS. Both ALPHA and local Boards of Health have a long-standing history of supporting various health equity measures (e.g., food security, Truth and Reconciliation Commission calls to action, living wage, low-income dental, use of a health equity lens, national pharmacare, extending the Ontario Pregnancy and Breastfeeding Nutritional Allowance). Thanks to efforts like these, public health addresses the social determinants of health and promotes health equity. There is still work to be done. Recent events in Ontario have included public displays of racism, anti-Semitism and discrimination, all detrimental to optimal health for all. In supporting health for all, it is important that public health not remain silent and instead state that acts and symbols of hate are unwelcome and should not be tolerated. Thank you for your consideration of this important matter.

Sincerely,

Penny Sutcliffe, MD, MHSc, FRCPC  
Medical Officer of Health and Chief Executive Officer

---

Dear Mayor & Council,

Generally Information Reports are to receive and not discussed. We trust Council will make an exception in this case.

To begin with, we've previously pointed out that Hamilton doesn't have only 7 public beaches. It has 8; granted the 8<sup>th</sup> one in Ward 10 is mostly under water in the Spring and prior to new developments was a little hidden gem. With the developments between Green Rd and Millen, this public beach is now however well used. Just this past summer there was a lot of inquiries about whether the water quality was okay due to some residents noticing the postings at Confed but further east, it wasn't until a few days later signs were posted at Fifty Conservation. In the middle of the 2 beaches, there's another public beach which NEVER gets tested and attempts to get it tested or find out why it isn't tested have fallen on deaf ears. (see pic below for location).

Hence, we are formally requesting Board of Health direct that our community beach be added to the list of beaches to be tested.

Secondly, not all of us who walk (with and without our dogs usually first thing in the morning) and not all of our children who head to the beaches (#8 and at Confed) have access or will think to check the city's website on ***a daily basis***

Respectfully, in our opinion it is the city's responsibility to ensure everyone's health is your top priority & that anyone about to go for a dip or let their dog drink the water know at the time whether it's safe or not.

As such, we are asking for the Postings at our beaches to continue in the same manner as previous years.

Kindest regards,

Viv / Anna/ Nancy  
Lakewood Beach Community Council

<b>SIGNATURE:</b>	

## COUNCIL DIRECTION

Not Applicable.

## INFORMATION

The Ontario Public Health Standards (OPHS) specify the public health programs and services local Boards of Health must deliver. Program and topic-specific protocols under the OPHS further define the minimum responsibilities every Board of Health in Ontario is accountable to provide. To assist in the prevention and reduction of water-borne illness and injury related to recreational water use at a public beach, Boards of Health are directed by the Recreational Water Protocol (2019) and the Operational Approaches for Recreational Water Guideline (2018). Both documents guide the delivery of the local Beach Water Quality Monitoring Program in Hamilton. The seven monitored beaches in Hamilton are Beach Boulevard, Van Wagner's and Confederation Park Beaches along Lake Ontario; Binbrook, Christie and Valens Conservation Area beaches, and Pier 4 Park Beach in Hamilton Harbour.

The Recreational Beach Water Protocol (2019) requires Public Health Services staff conduct weekly routine beach water quality monitor of all public beaches. Beach water samples with a geometric mean concentration  $\leq 200$  E. coli per 100 mL for E.coli bacteria and/or a single-sample maximum concentration  $\leq 400$  E. coli / 100 mL is considered unsafe for swimming. Samples above the thresholds are posted immediately

---

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

online and on-site signage is posted or “flipped” by stakeholders from “Safe for Swimming” to “Unsafe for Swimming” as directed by Public Health Services staff. On-site signage remains in place until water resample results are below the thresholds then are “flipped” back to “Safe for Swimming”. These signs direct the public to the City of Hamilton website [www.hamilton.ca/beaches](http://www.hamilton.ca/beaches) or Safe Water Hotline at (905) 546-2189 regarding current water quality status (see Appendix “A” to Report BOH22004: Current Beach Sign).

It has been identified by Public Health Services staff, as well as internal and external stakeholders, that changing or “flipping” on-site signs is not required under the Protocol and impacts internal/external staff resources and creates an unfavourable image of City of Hamilton public beaches. Current on-site signage lacks information regarding possible beach conditions that can cause bacteria levels to rise between weekly routine water samples. There are also no surrounding Public Health Units in Central West Ontario that “flip” signs from “Safe” to “Unsafe” for swimming. Surrounding Public Health Units post permanent signage at public beaches informing the public of conditions that can increase bacteria levels and direct the public to their websites for up-to-date beach status information.

Public Health Services has redesigned on-site signage (see Appendix “B” to Report BOH22004: Redesigned Permanent Beach Sign) that will include information regarding possible beach conditions that can cause bacteria levels to rise between weekly routine water samples, direct the public to the City of Hamilton website and/or Safe Water Hotline and align with neighbouring health unit permanent signs for consistent messaging to the public (see Appendix “C” to Report BOH22004: Example Niagara Permanent Beach Sign).

The redesigned permanent beach sign will be installed at all seven Public Health Services monitored beaches replacing twenty-eight signs in total prior to the 2022 beach monitoring season and communicate this operational change to the public and internal/external stakeholders via a comprehensive communications plan.

#### **APPENDICES AND SCHEDULES ATTACHED**

- Appendix “A” to Report BOH22004: Current Beach Signage
- Appendix “B” to Report BOH22004: Redesigned Permanent Beach Sign
- Appendix “C” to Report BOH22004: Example Niagara Permanent Beach Sign

Current Beach Signage (2022)

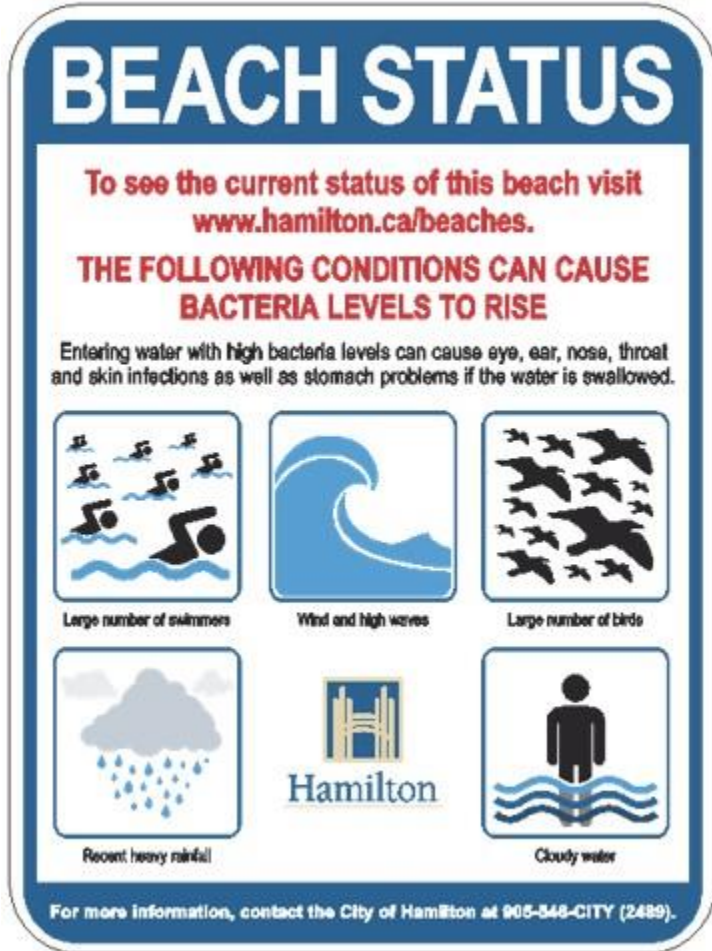

“Safe for Swimming Sign”

“Unsafe for Swimming Signs”

### Redesigned Permanent Beach Sign

**BEACH STATUS**

To see the current status of this beach visit  
[www.hamilton.ca/beaches](http://www.hamilton.ca/beaches).

**THE FOLLOWING CONDITIONS CAN CAUSE BACTERIA LEVELS TO RISE**

Entering water with high bacteria levels can cause eye, ear, nose, throat and skin infections as well as stomach problems if the water is swallowed.

		
Large number of swimmers	Wind and high waves	Large number of birds
		
Recent heavy rainfall		Cloudy water

For more information, contact the City of Hamilton at 905-546-CITY (2489).

# INFORMATION REPORT

<b>TO:</b>	Mayor and Members Board of Health
<b>COMMITTEE DATE:</b>	March 21, 2022
<b>SUBJECT/REPORT NO:</b>	Letter of Instructions for Infection Prevention and Control Measures for High-Rise Apartment Buildings and High-Rise Condominiums with 12 or More Storeys (BOH21007(a)) (City Wide)
<b>WARD(S) AFFECTED:</b>	City Wide
<b>PREPARED BY:</b>	Dr. Ninh Tran (905) 546-2424 Ext. 7113 Jordan Walker (905) 546-2424 Ext. 7365
<b>SUBMITTED BY:</b>	Dr. Ninh Tran, MD, MSc, CCFP, FRCPC Acting Medical Officer of Health On behalf of Dr. Elizabeth Richardson, MD, MHSc, FRCPC Medical Officer of Health Public Health Services
<b>SIGNATURE:</b>	

## COUNCIL DIRECTION

At its June 14, 2021 meeting, the Board of Health directed staff to report back on the implementation of the following COVID-19 related requirements regarding Multiple Residential Apartment Buildings – Highrise 1 and 2 Buildings:

- Proper personal protective equipment (PPE) given to building staff while working in the building;
- Signage in common areas encouraging social distancing and handwashing;
- Placement of hand sanitizer in common areas;
- Disinfection of high contact surfaces twice a day;
- Posting a cleaning schedule;
- Regular updates to tenants on COVID-19 measures; and,
- Provide free PPE in common areas.

Following this, and as endorsed by the Board of Health at its July 9, 2021 meeting, the Medical Officer of Health issued a Letter of Instruction (LOI) requiring all persons responsible for high-rise apartment buildings and high-rise condominium buildings, with

---

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

**SUBJECT: Letter of Instructions for Infection Prevention and Control Measures for High-Rise Apartment Buildings and High-Rise Condominiums with 12 or More Storeys (BOH21007(a)) (City Wide) - Page 2 of 3**

---

12 or more storeys in the City of Hamilton to adhere to outlined COVID-19 safety requirements to reduce the spread of COVID-19.

**INFORMATION**

The Letter of Instruction pursuant to the *Reopening Ontario (A Flexible Response to COVID-19) Act, 2020, S.O. 2020, c.17* (the “*Reopening Ontario Act*”) and its regulations issued July 9, 2021 (effective July 12, 2021) required that persons responsible for high-rise apartment and condominium buildings adopt certain COVID-19 safety requirements that, at the time, were also mandated provincially for other settings throughout Ontario.

In response to key public health and health care indicators showing signs of improvement, the Government of Ontario eased COVID-19 public health measures effective March 1, 2022, at 12:01 a.m. With the revised *Ontario Regulation 364/20: Rules for Areas at Step 3 and at the Roadmap Exit Step*, the direction provided in the Letter of Instruction, effective July 12, 2021, no longer aligns with provincial public health measures mandated for other settings. Specific direction and restrictions have been lifted for other businesses, organizations and community settings, including active screening, physical distancing, and cleaning and disinfection. Direction on masking in the Letter of Instruction is redundant with direction provided in the *Reopening Ontario Act* and City of Hamilton By-law 20-155.

Under the revisions to *Ontario Regulation 364/20* existing Letters of Instruction issued under the *Reopening Ontario Act* prior to February 25, 2022 are still in effect but cannot be amended. Further instructions under the *Reopening Ontario Act* can only be issued by the Office of the Chief Medical Officer of Health for the province of Ontario.

COVID-19 severity indicators continue to be lower than they have been during this wave, indicating Hamilton is now in the post-peak phase of the Omicron wave. Given the current epidemiology, and as Ontario enters the Province’s *Roadmap Exit Step of the Reopening Ontario Act*, current public health measures in Hamilton related to high-rise apartment and condominium buildings should align with provincial measures. The Letter of Instruction is therefore no longer necessary and shall be revoked by Hamilton’s Medical Officer of Health, effective March 21, 2022. There will be no additional requirements for persons responsible for high-rise apartment buildings and high-rise condominium buildings beyond the provincial regulations. The City of Hamilton continues to align itself with the direction of the provincial government. We will continue to monitor our situation to determine if additional measures are required based on local context.

**SUBJECT: Letter of Instructions for Infection Prevention and Control Measures for High-Rise Apartment Buildings and High-Rise Condominiums with 12 or More Storeys (BOH21007(a)) (City Wide) - Page 3 of 3**

# COVID-19 Situation Report & Organizational Update

Board of Health

March 21, 2022

# Overview

1. Overall Status
2. Transition Overview
3. COVID-19 Situation Report
4. Scarsin Forecast
5. COVID-19 Vaccine Update
6. Organizational Update

# Overall Status

- COVID-19 expected to continue to circulate in Hamilton at a manageable level
  - Case numbers, while underestimates due to testing eligibility, have seen a small increase since February 2022
  - Local hospital capacity improving.
  - COVID-19 related hospitalization/intensive care unit admissions had been decreasing since the peak of the Omicron wave and since levelled off

# COVID-19 Wastewater Testing in Hamilton

- Hamilton participating in Ontario's Wastewater Surveillance Initiative Sampling led by University of Ottawa since July 2020
- Woodward wastewater sampled 4 times a week, results shared following week
- Hamilton Public Health Services' Associate Medical Officer of Health participated in meetings Fall 2020 – Fall 2021
- Results showed general consistency with numbers of cases
- Continually assessed in relation to other metrics e.g. case numbers, percent positivity, hospitalizations
- Hamilton Public Health Services continuing to work with Ottawa University and Ministry of Environment Conservation & Parks to understand the data
- Continues to be under evaluation – no provincial guidance on use for surveillance or disease control
- Hamilton Public Health Services' approach supported by Chief Medical Officer of Health for Ontario

# Overall Status

- Vaccination Status (As of March 17, 2022):
  - 90.3% of 12yrs+ with one dose, 88.0% with two doses
  - 52.8% of 5-11yrs with one dose, 34.3% with two doses
  - 56.7% of 18yrs+ with 3<sup>rd</sup> dose
- Vaccine clinics ongoing
  - Opportunities across community
  - Integration with catch-up for other routine grade 7/8 vaccines

# Overall Status

In this transition phase, public health measures shifted from requirements to guidance (again)

- In addition to disease control and vaccination, Public Health Services supporting people/organizations in assessing risk and use of public health measures such as masking, physical distancing, vaccination, hand washing, and related policies
- Will take time, patience and understanding across the community as people and organizations move forward
- New variants or waning immunity may drive up case numbers and/or severity significantly and impact health system, requiring return to more stringent measures

# Transition Overview

- Public health measures have shifted from ‘mandate’ to ‘recommendation’
  - Can be challenging transition for some as adjust emotionally and psychologically especially given overall impacts of pandemic
  - Future COVID-19 wavelets and waves necessitate ongoing individual, organizational and societal monitoring and adjustments
- Public Health Services will remain agile & flexible, utilizing the right tool at the right time
  - Need to strike a balance across impacts of the pandemic
  - Use least restrictive tools necessary

# Transition Overview

- Changes Specific to Hamilton
  - Medical Officer of Health's Letter of Recommendation for Establishing a COVID-19 Workplace Vaccination Policy (Invalid under ROA Feb 25, 2022)
  - Medical Officer of Health's Letter of Instruction on Requirements to Reduce the Spread of COVID-19 in High-rise Apartment Buildings and High-rise Condominium Buildings
  - By-law 20-155 "A By-law to Require the Wearing of Face Coverings Within Enclosed Public Spaces"
  - By-law 20-164, "A By-law to Promote and Regulate Physical Distancing in the City of Hamilton"
- Changes/recommendations aligned with provincial recommendations

# Transition Overview

- Continue to support individuals and organizations to:
  - Understand health impacts of different choices
  - Practice safer behaviours for self and others
  - Minimize risk
- Risk assessment an important tool
- Respectful of individuals choices
- Relationship and community cohesion important determinants of health

# COVID-19: PROTECT YOURSELF AND THOSE AROUND YOU

ASSESS YOUR OWN PERSONAL RISK LEVEL. CONSIDER YOUR AGE, HEALTH STATUS & THE SETTING.

Get vaccinated & boosted

Stay home if you have COVID-19 symptoms

Wash your hands often with soap & water

Consider wearing & mask in certain settings

Increase ventilation by opening doors & windows

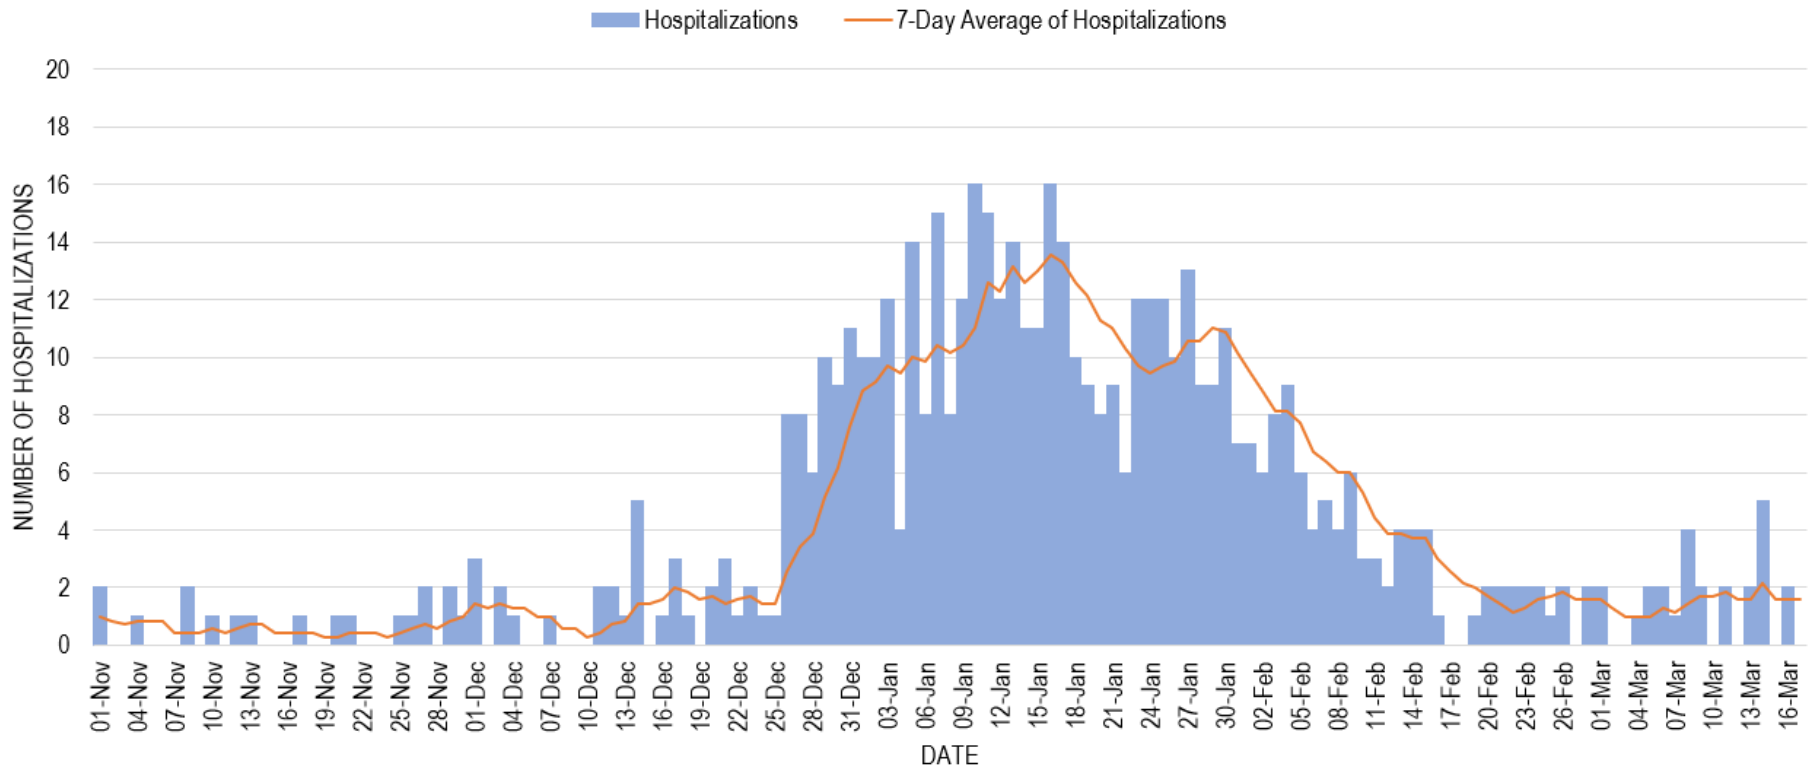

Do activities or gather outdoors, or indoors at less busy times

# SITUATION REPORT

Erin Rodenburg, Epidemiologist

# Hospitalizations

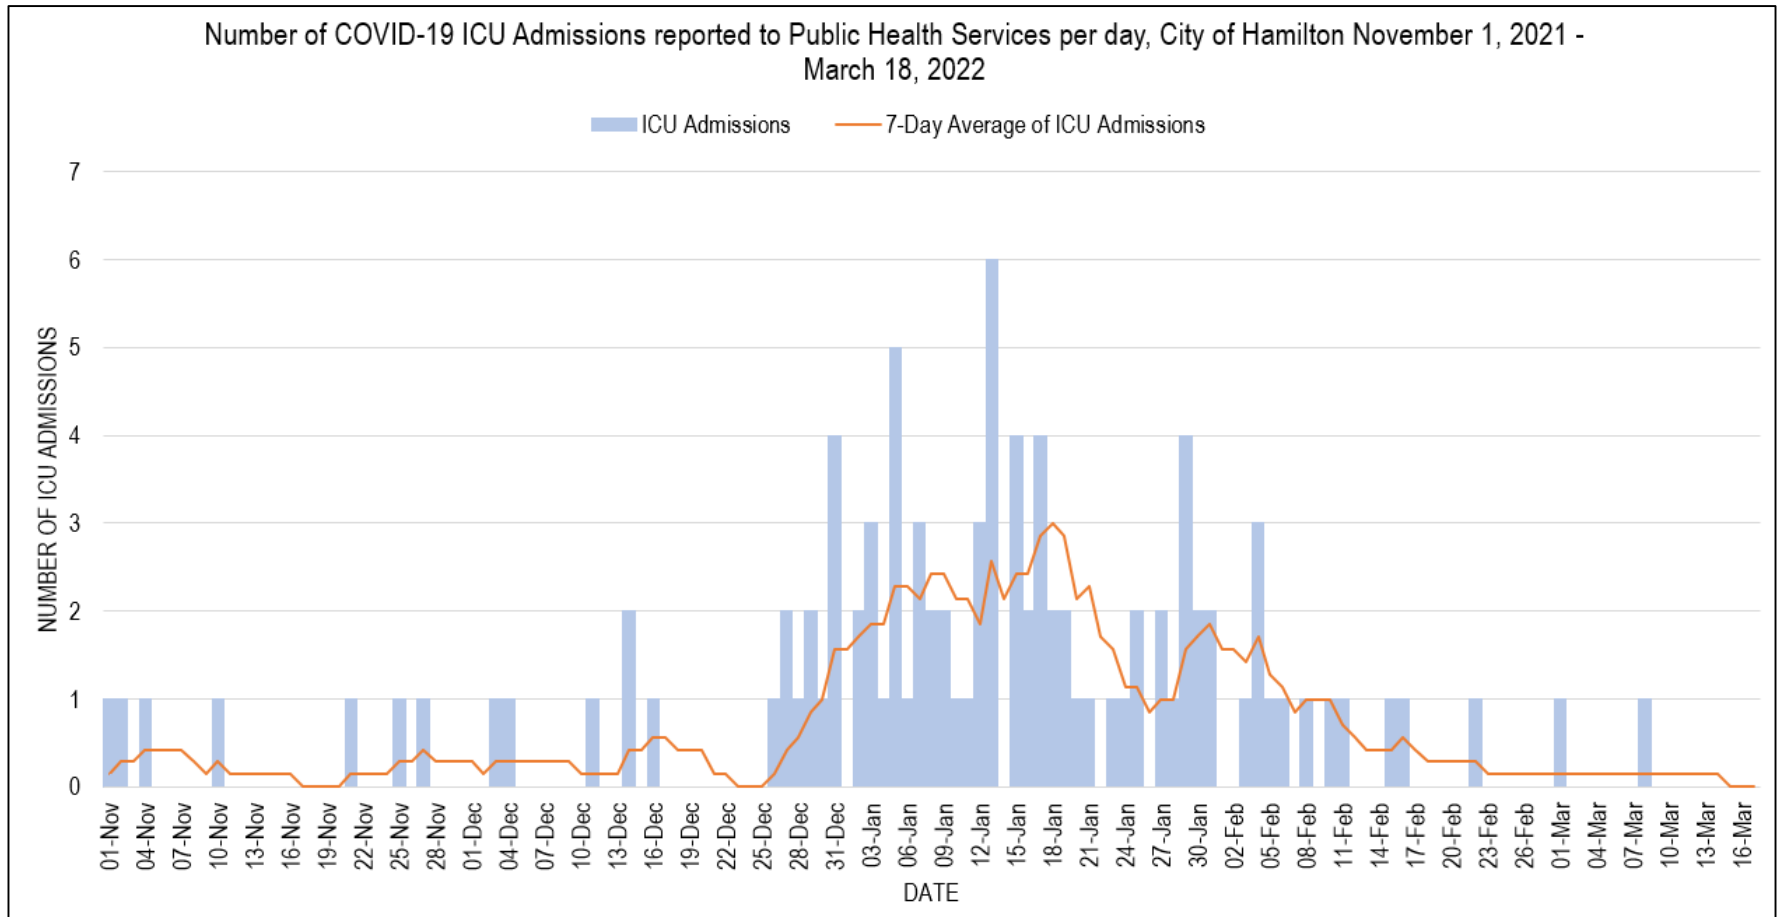

Number of COVID-19 Hospitalizations reported to Public Health Services per day, City of Hamilton November 1, 2021 - March 18, 2022

## Key Messages

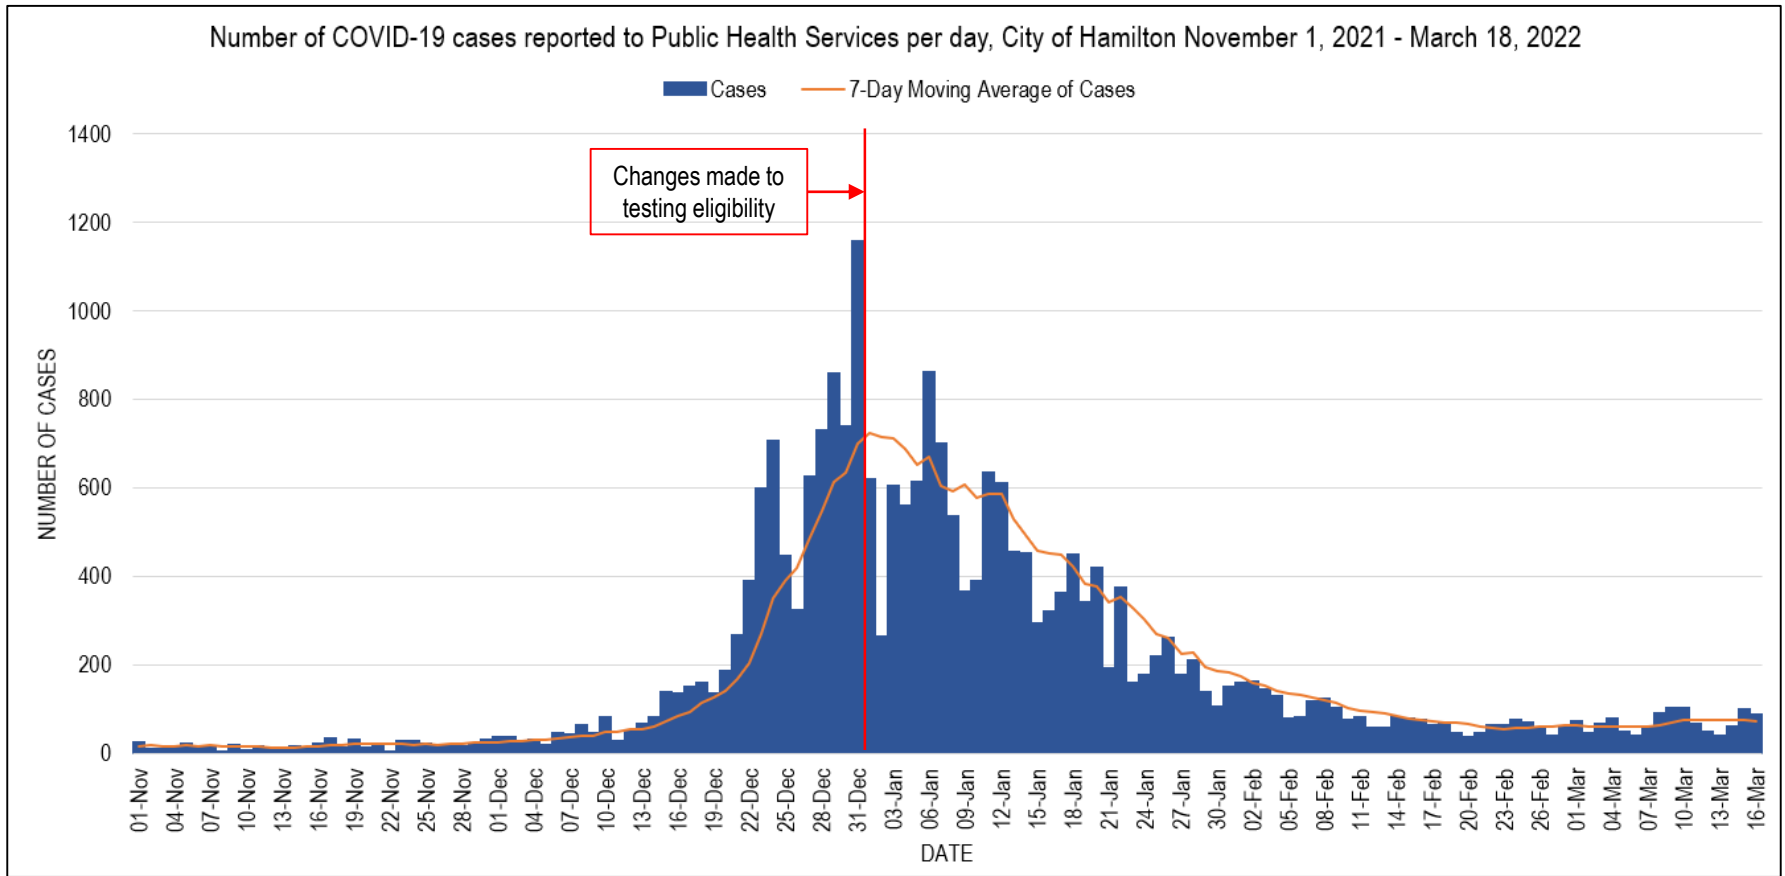

- COVID-19 Hospitalizations had been decreasing since the peak of the Omicron wave and have since levelled off
- As of March 18, 2022, there were approximately **1.6** new COVID-19 hospitalizations per day reported to Hamilton Public Health. This 7-day average has been approximately **1-2** since February 19, 2022

# Intensive Care Unit Admissions

## Key Messages

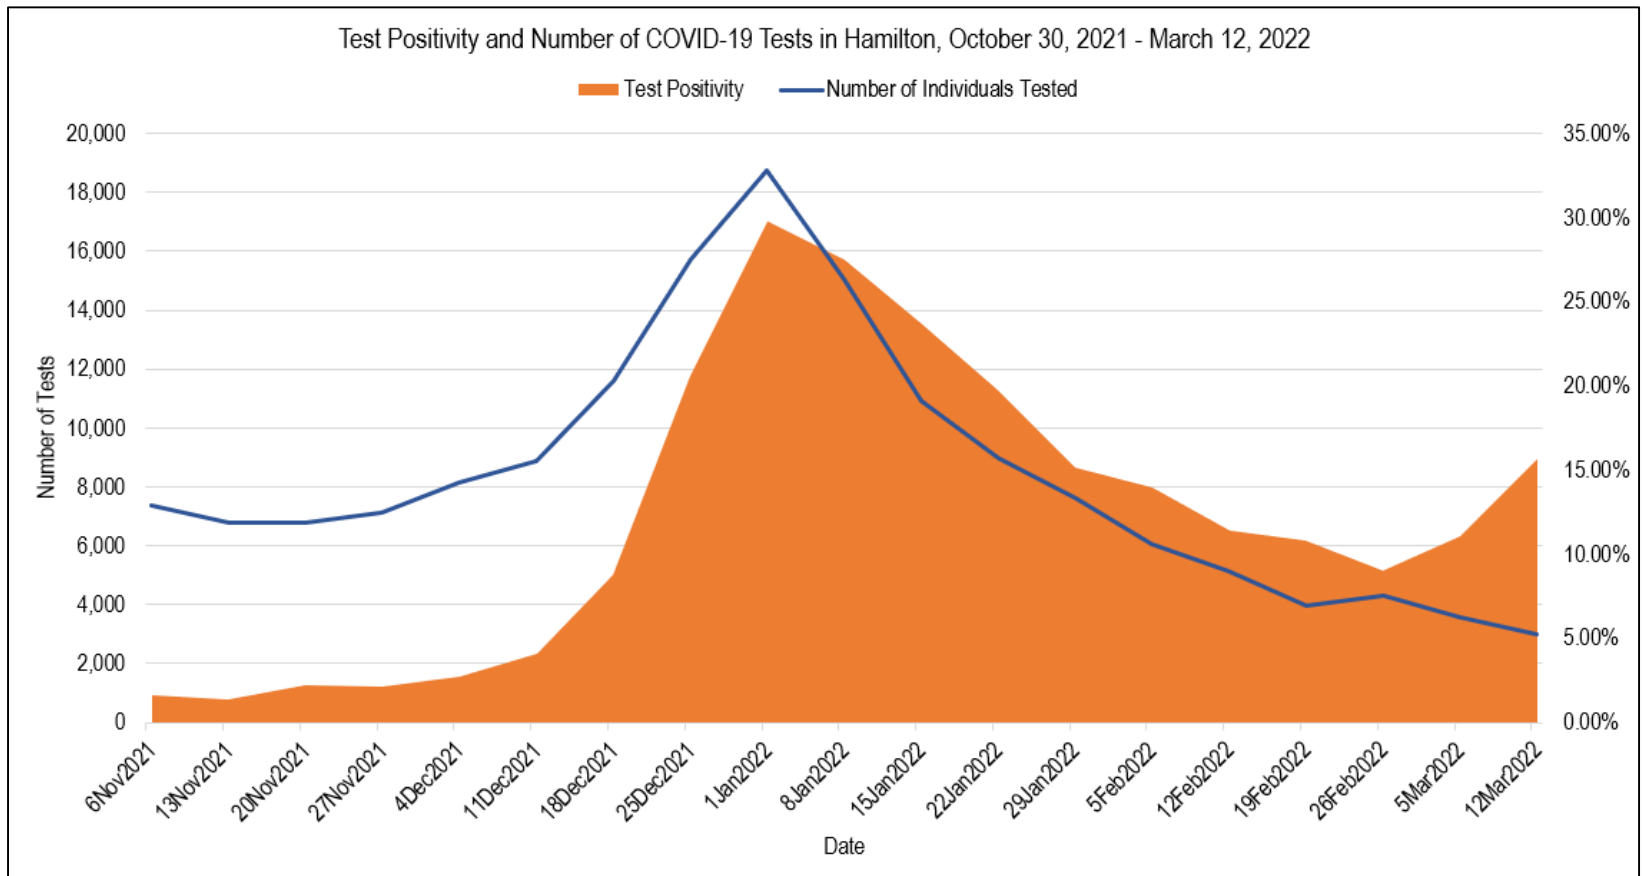

- COVID-19 intensive care unit admissions had been decreasing since the peak of the Omicron wave and have since levelled off
- As of March 18, 2022, there were **0** new COVID-19 hospitalizations per day reported to Hamilton Public Health. This 7-day average has been at or below **0.1** since February 22, 2022

## Key Messages

- COVID-19 Case data is known to be underestimated due to polymerase chain reaction test (PCR) eligibility, however it remains an important measure to determine the trends of COVID-19 transmission in our community
- As of March 18, 2022, the 7-day average of cases is **74**, which has increased since February 23, 2022 when the 7-day average was **56**

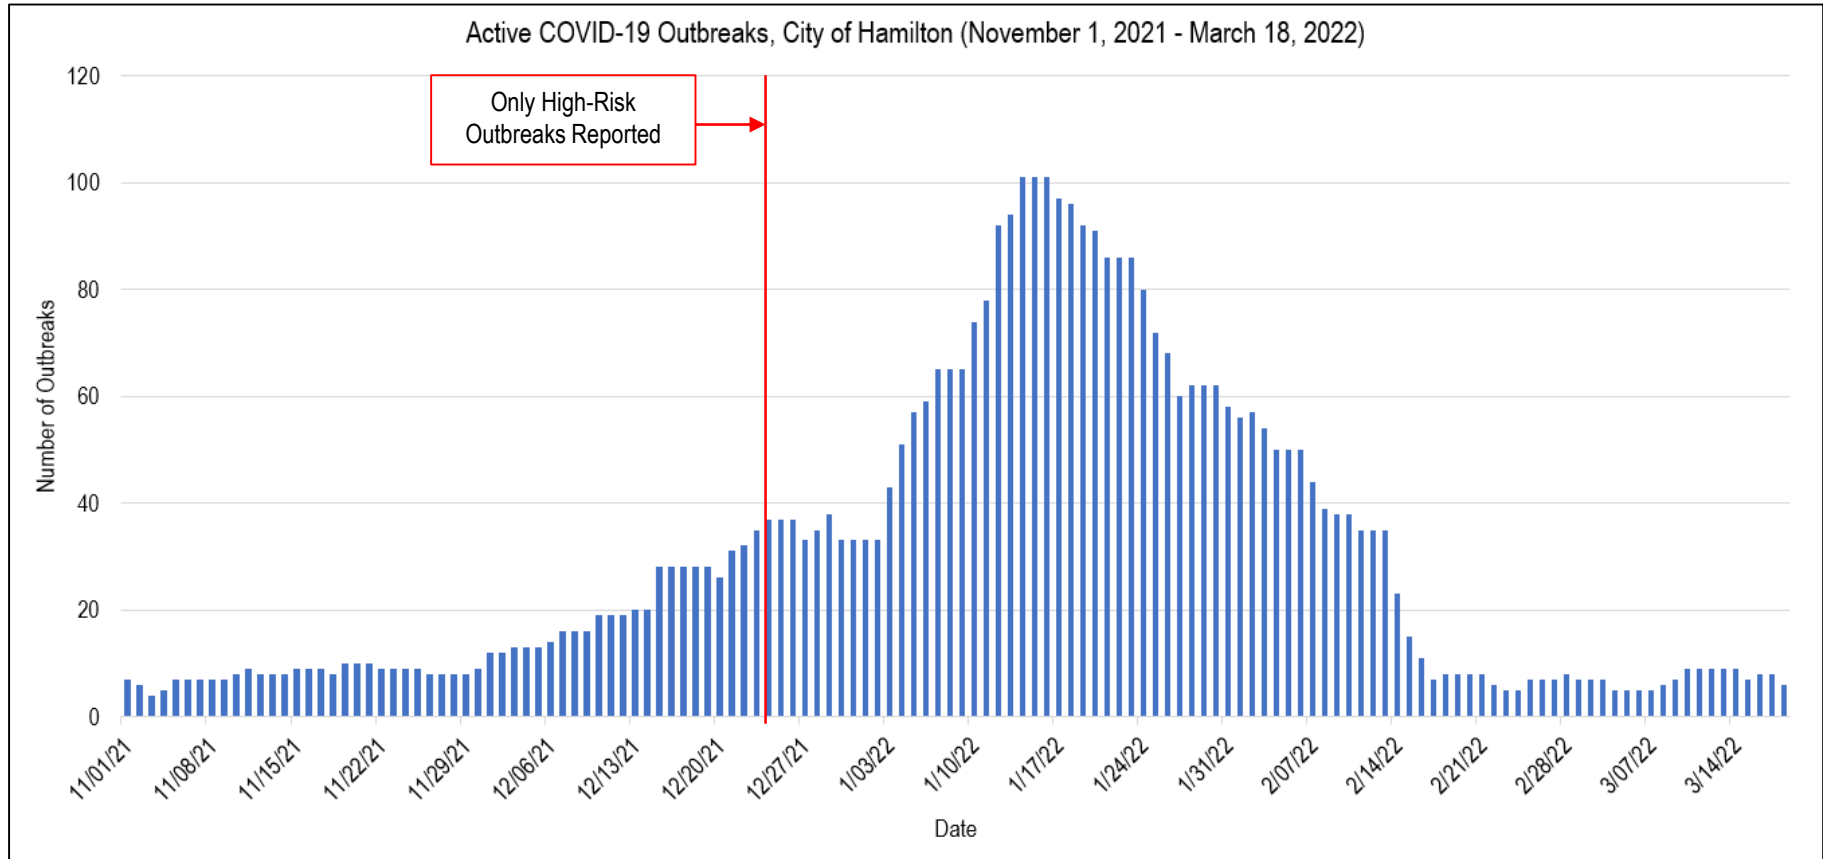

# Test Positivity

## Key Messages

- Number of polymerase chain reaction test and test positivity peaked during the Omicron wave in early January 2022 at over 18,000 and almost **30%**, respectively. Both have consistently decreased until the end of February 2022 at about 6,000 and just under **10%**, respectively
- Most recently, test positivity has shown signs of increasing, consistent with the increases seen in reported cases

# Active outbreaks

## Key Messages

- COVID-19 outbreak activity in the Omicron wave peaked in mid-January 2022
- The number of active COVID-19 outbreaks in recent weeks had been consistently decreasing and has since levelled off at below 10 since February 17, 2022

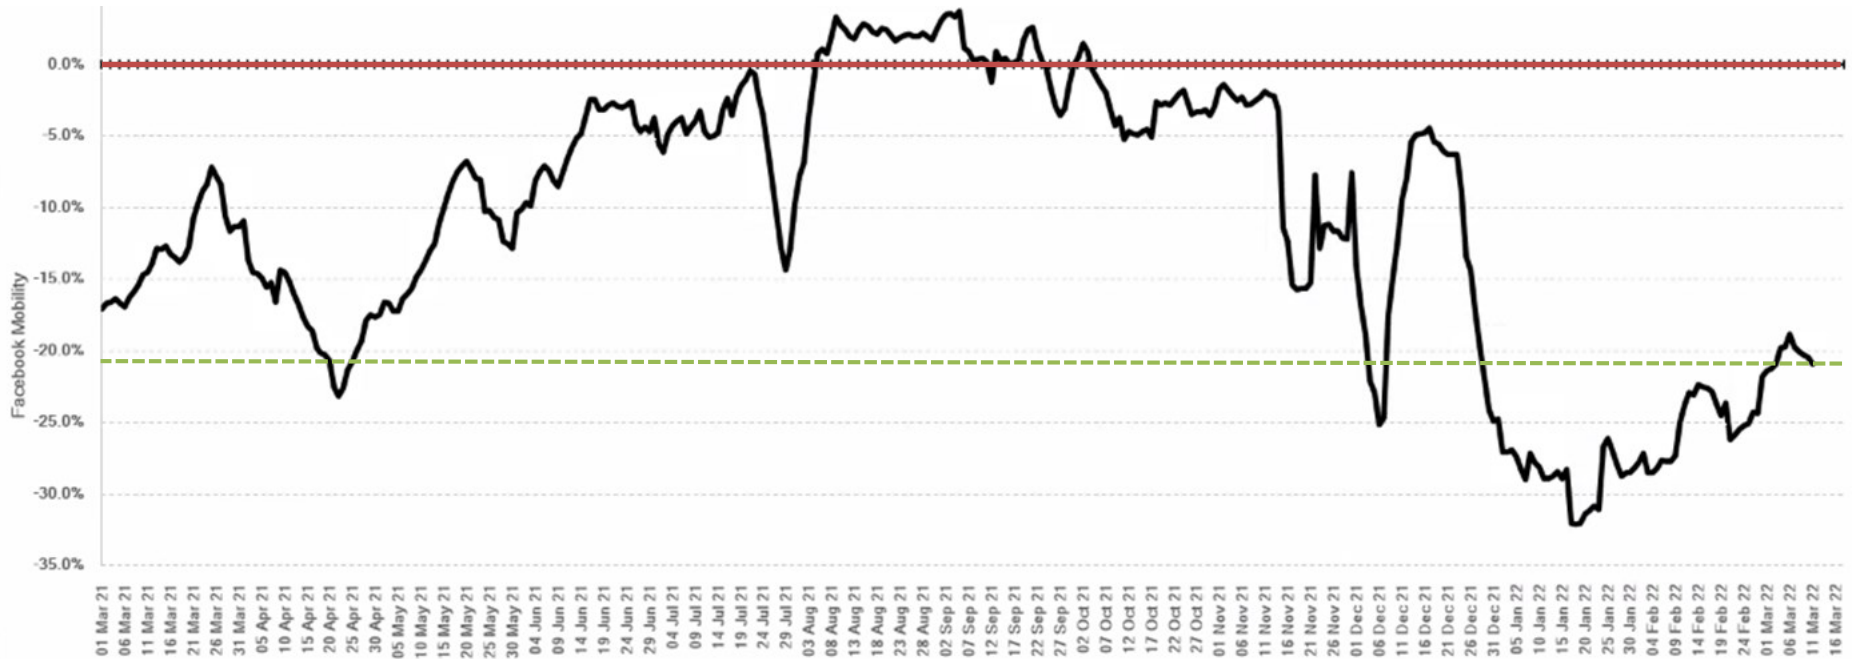

# SCARSIN FORECAST

Ruth Sanderson, Epidemiologist

# Scarsin Forecast Key Messages

- The forecast provides two scenarios:
  - A base scenario that lifts public health measures including masking, which results in increased transmission and a small resurgence
  - A second scenario that keeps transmission rates steady, lower than in the base scenario, that illustrates even in ideal circumstances with no resurgence, COVID-19 will continue to circulate
- The base forecast anticipates that as public health measures are removed and contact rates increase, infections may modestly increase in the short term
- Cases are likely to remain above pre-Omicron wave levels in the near term

# Overall Mobility, Hamilton

Data Source: Scarsin Decision Support System retrieved Mar 14, 2022

## Key Messages:

- Community mobility has increased slowly since mid-January 2022. It was at 21% below pre-pandemic levels as of March 11, 2022; lower than this time last year
- Assumed to reach 8% below pre-pandemic levels by April 1, 2022 and at 0% by May 1, 2022
- Reduced community mobility contributes to reduced transmission rates

# Workplace Mobility, Hamilton

Data Source: Scarsin Decision Support System retrieved Mar 14, 2022

## Key Messages:

- Workplace mobility continues to increase and was at 14% below pre-pandemic levels as of March 10, 2022; now similar to pre-Omicron wave level
- Assumed to reach 10% below pre-pandemic levels April 1, 2022 and 3% below pre-pandemic level by May 1, 2022
- Reduced workplace mobility contributes to reduced transmission rates

# Overview of Scenarios and Assumptions

**Scenario 1 – Resurgence**  
Elevated contact transmission  
with staged reopening

**Scenario 2 – No Resurgence**  
Transmission levels remain  
steady with staged reopening

## Scenario Assumes:

- Public health measures aligned with Ontario's reopening plan including lifting of mask mandates on March 21, 2022
- Omicron severity is approximately 36% severity of Delta
- Transmission rates were aligned with current hospital actuals
- Waning 2<sup>nd</sup> and 3<sup>rd</sup> dose immunity incorporated
- Vaccinations updated (included 4<sup>th</sup> doses) to align with Hamilton's actuals and planned doses out to June 2022; targets adjusting for decreasing trend in dose throughput

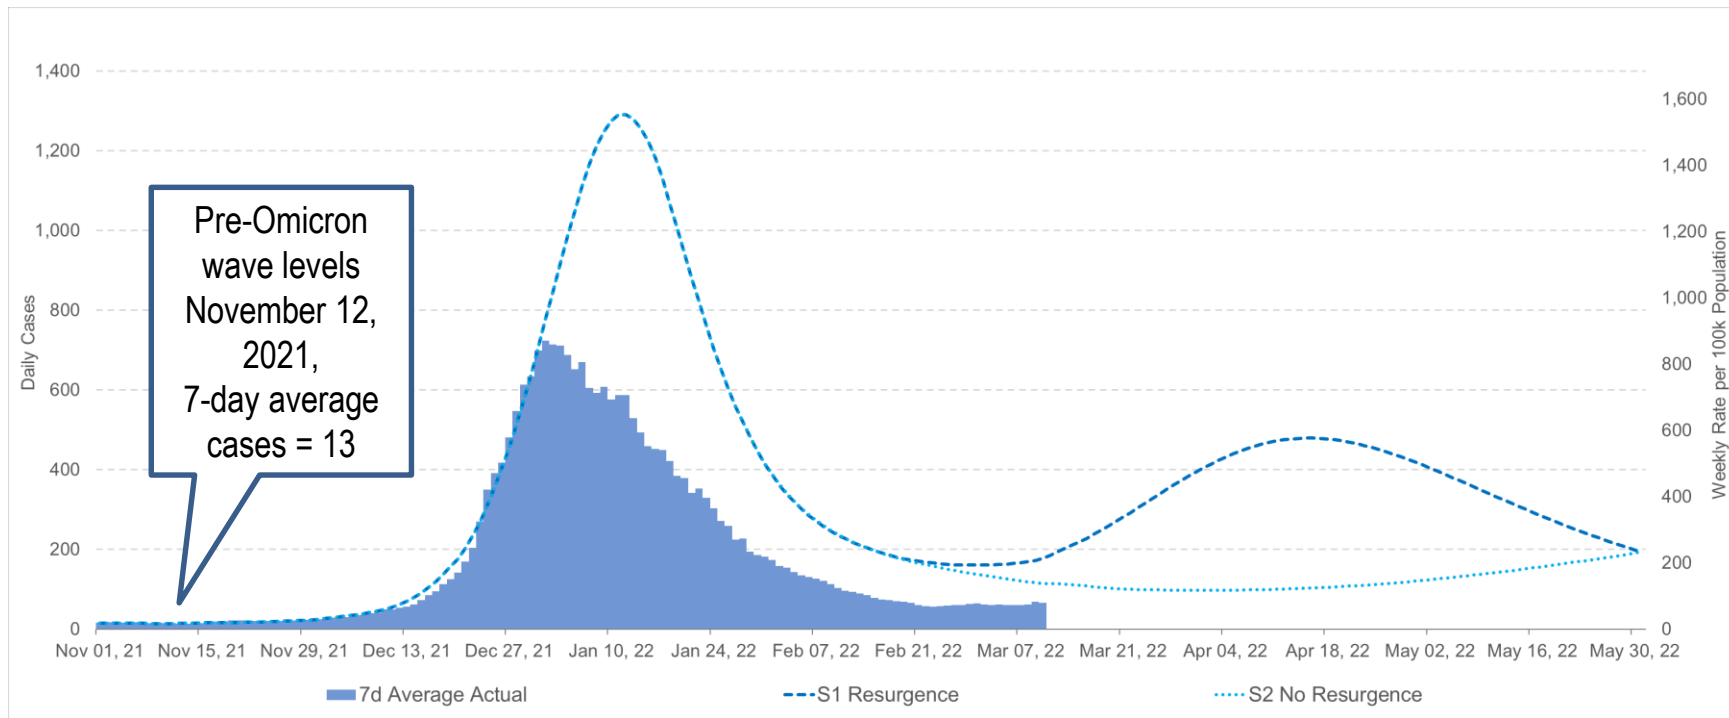

## Limitation:

- Challenging to model the spread of COVID-19 due to major changes in testing practices late December 2021, which led to increased undercounting through identified lab-confirmed cases

## Updated Data:

- Case/ hospital/ death data retrieved March 13, 2022
- Updated vaccination and mobility data

# Scarsin Forecast COVID-19 Cases Scenario Comparisons among Hamiltonians

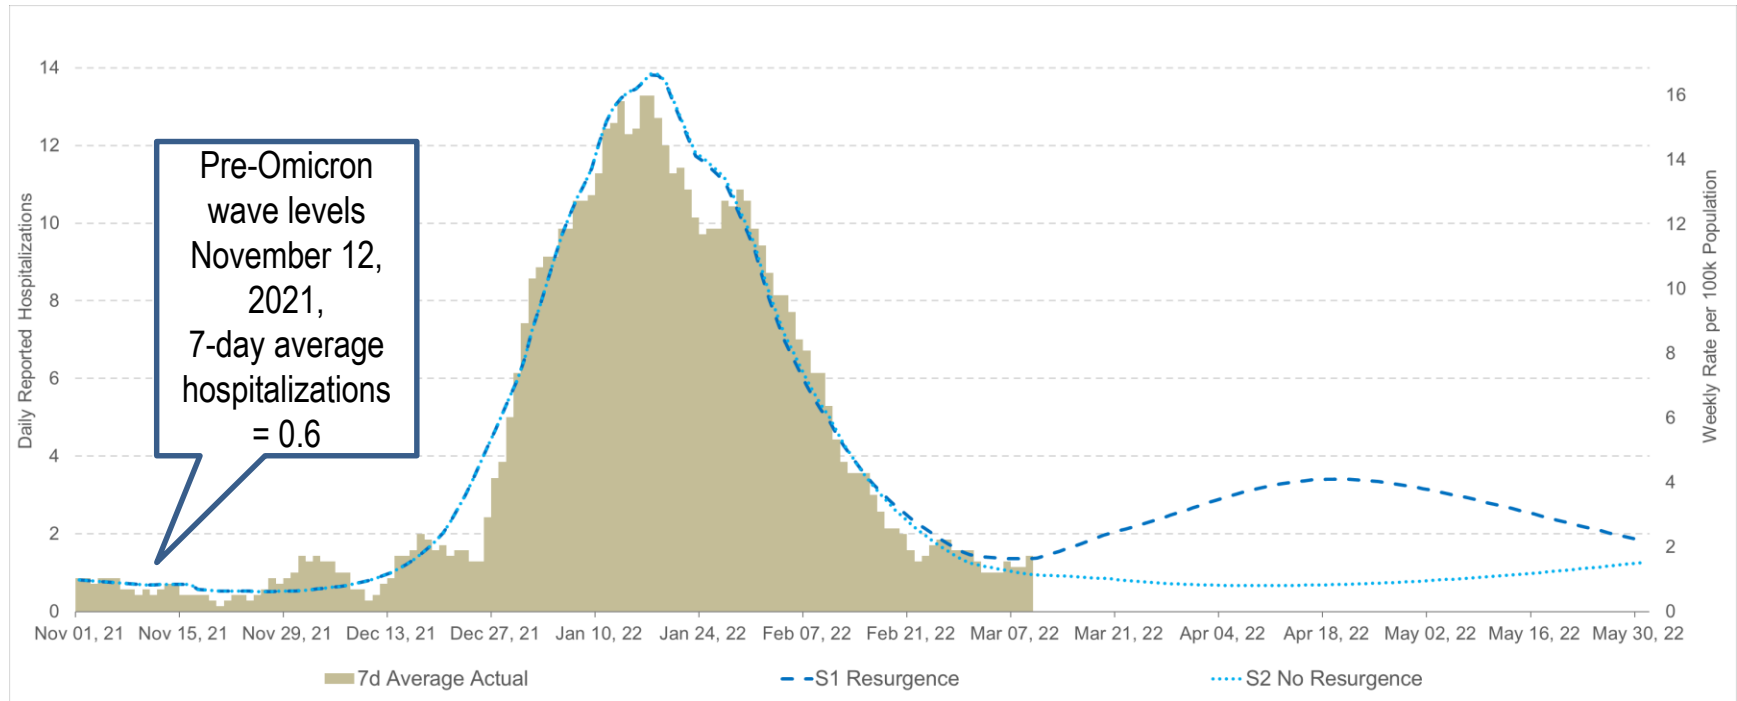

Data Source: Scarsin Decision Support System retrieved March 14, 2022

## Key Messages:

- **Scenario 1 – Resurgence** continues to indicate that Hamilton will likely experience an increase in cases with reopening which peaks in mid to late April 2022. In both scenarios, cases are not forecast to return to pre-Omicron wave levels in the near-term (e.g., case average November 12, 2021= 13)
- Potential for over 26,600 cases between March 21, 2022 to May 31, 2022; 17,500 could be prevented if no resurgence

# Scarsin Forecast COVID-19 Hospital Admissions Scenario Comparisons among Hamiltonians

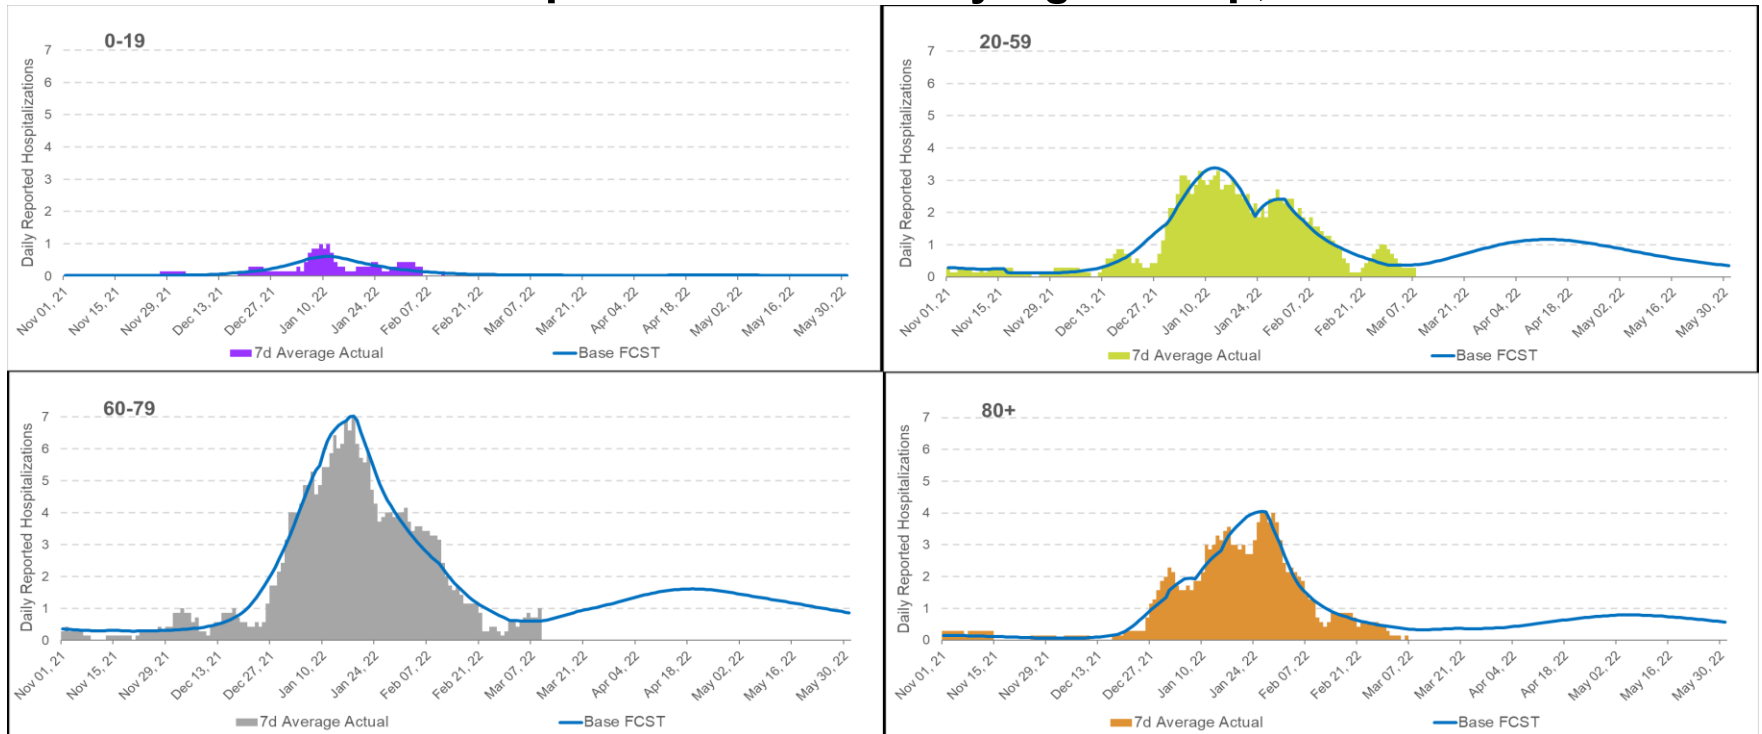

Data Source: Scarsin Decision Support System retrieved Mar 14, 2022

## Key Messages:

- **Scenario 1 – Resurgence** indicates that the recent decrease is likely to reverse, resulting in a small swell of hospitalizations with reopening (200 hospitalizations among Hamiltonians from March 21, 2022 to May 31, 2022); the swell is forecast to peak in mid to late April 2022 and remain below the previous peak level
- Avoiding a resurgence could prevent 140 new hospitalizations from March 21, 2022 to May 31, 2022

# Scarsin Hospitalizations Scenario 1-Resurgence

## COVID-19 Hospital Admissions by Age Group, Hamiltonians

Data Source: Scarsin Decision Support System retrieved Mar 14, 2022

### Key Messages:

- Trajectories differ by age group. Potential for those aged 20-59yrs to experience a higher level of hospitalizations than those 80yrs and older due to higher levels of protection with 3<sup>rd</sup> and 4<sup>th</sup> dose vaccinations in those 80+yrs
- Severe outcomes continue primarily among those 60+yrs; 15% of cases but 70% of admissions, 95% of deaths

# Scarsin Forecast COVID-19 Intensive Care Unit Admissions Scenario Comparisons among Hamiltonians

Data Source: Scarsin Decision Support System retrieved Mar 14, 2022

## Key Messages:

- The **Scenario 1 – Resurgence** scenario predicts approximately 30 new intensive care unit admissions among Hamiltonians from Mar 21, 2022 to May 31, 2022
- 21 intensive care unit admissions would be prevented if the resurgence was avoided

# Scarsin Forecast Deaths Due to COVID-19 Scenario Comparisons among Hamiltonians

Data Source: Scarsin Decision Support System retrieved Mar 14, 2022

## Key Messages:

- The **Scenario 1 – Resurgence** scenario predicts 13 deaths among Hamiltonians from Mar 21, 2022 to May 31, 2022; six deaths could be prevented if the resurgence was avoided
- Anticipate that approximately 95% of deaths will occur in those aged 60 years and older

# Scarsin Forecast Summary

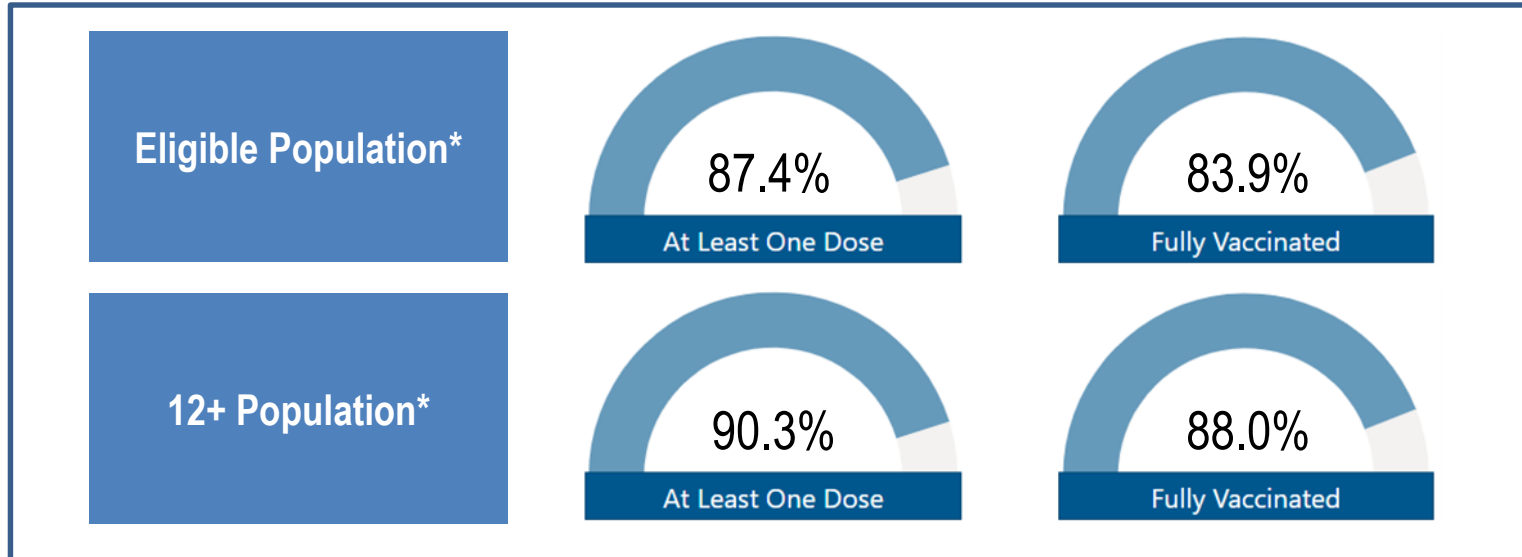

- The forecasts out to the end of May 2022, indicate that COVID-19 is expected to continue to circulate in Hamilton at a manageable level:
  - With an increase in transmission, a modest resurgence of cases and hospitalizations will occur, which will peak in mid-to-late April 2022
  - Even with no increase in transmission, cases will not likely return to pre-Omicron wave levels in the near-term
- Severe outcomes continue primarily among those 60 years old and older; 15% of cases but 70% of new hospital admissions and 95% of deaths
- Hamiltonians are encouraged to use public health measures including vaccination, masking and distancing as warranted by the situation to reduce serious health consequences from COVID-19 infections, particularly for those that are more vulnerable

# COVID VACCINE UPDATE

Melissa Biksa, Manager – COVID-19 Vaccine

# COVID-19 Vaccine – Overall Coverage

Estimated as of End Of Day March 17, 2022

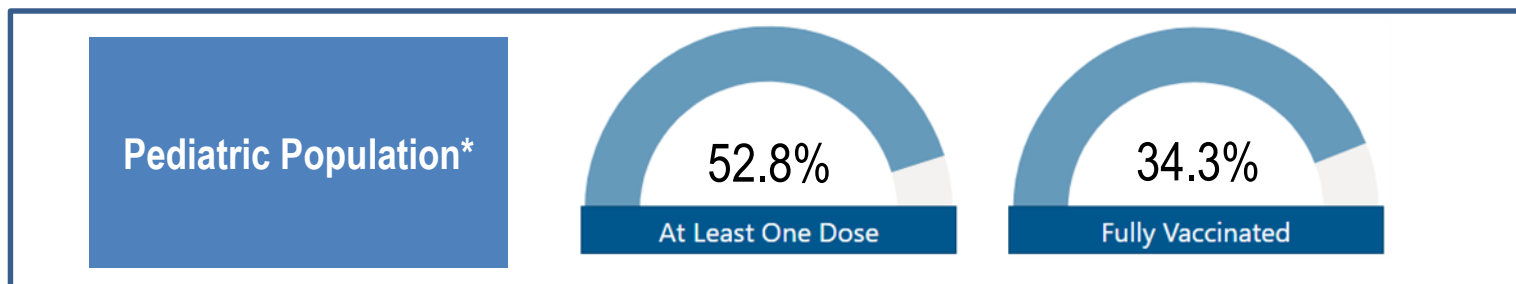

**3<sup>rd</sup> Doses in Hamilton**  
18+ Population: **56.7%**  
12+ Population: **53.4%**

**3<sup>rd</sup> Doses in Ontario**  
18+ Population: **58.5%**  
12+ Population: **55.0%**

Note: Includes Hamilton residents and individuals vaccinated in Hamilton who cannot be assigned to a health unit region.  
\*The eligible population includes individuals born in 2016 or earlier, 12+ population includes individuals born in 2009 or earlier, and 18+ population includes individuals born in 2003 or earlier.  
Sources: IntelliHealth (COVAXon Data Load); IntelliHealth (Population Projections, 2020).

# COVID-19 Vaccine – Pediatric Population

Estimated as of End Of Day March 17, 2022

A total of **3,234 doses** were administered at **159 school clinics** from January 28, 2022 to March 11, 2022

- Majority (**79%**) of doses administered were pediatric 1<sup>st</sup> and 2<sup>nd</sup> doses
- **51%** of all pediatric 1<sup>st</sup> doses and **20%** of all pediatric 2<sup>nd</sup> doses in Hamilton during this period

## Geographic variation in coverage

- Highest in Dundas, Glanbrook, Lower West
- Areas with lower coverage continue to have some of the greatest change, narrowing the gap

Note: Includes Hamilton residents and individuals vaccinated in Hamilton who cannot be assigned to a health unit region.

\*The pediatric population includes individuals born in 2010 to 2016.

Sources: IntelliHealth (COVAXon Data Load); IntelliHealth (Population Projections, 2020).

# COVID-19 Vaccine – Operational Update

- Limeridge Mall clinic transitioning to Grade 7/8 vaccines catch-up as of March 28, 2022
  - COVID-19 vaccines will still be available
- Mobile team scaling back operations
  - 1 clinic per day, 5 days per week starting March 28, 2022
- COVID-19 vaccines continue to be available through various community channels

# ORGANIZATIONAL UPDATE

Dr. Elizabeth Richardson, Medical Officer of Health

## Recovery likely to take 1 to 3 years to settle into new roles and address deficits of care

- 
- COVID-19 response/vaccination will require extra resources for 2022 at a minimum (e.g. vaccine clinic)
    - Scenario-based planning for potential future COVID-19 situations – **Completed**
  - Assess deficits of care and order of program restart – **Completed**
  - Adapt organization to be responsive to and supportive of the new realities – **In Progress**

Using a gradual, phased and priority-based approach

- Continue to adapt Public Health Services' organizational structure to reach a sustainable state and:
  - Continue COVID-19 disease control and vaccine programming as COVID-19 transitions
  - Continue reopening programs and resume full operations
  - Provide enhanced programming during recovery to address deficits of care and service backlog
  - Further updates at April 2022 Board of Health

- Significant movement and change for staff:
  - Disease activity, provincial direction on public health roles continue to impact staffing levels and work for COVID-19 disease control and vaccine programming
  - Significant reorientation and retraining required for staff deployed for up to 2 years and returning to pre COVID-19 work during reopening, recovery
- Staff mental health support and recovery initiatives in place and require time to do and transition
- Continue to refine program recovery initiatives and related budgets based on need and capacity

# Status of Public Health Services

## Programs currently operational

- Air quality & climate change
- Alcohol, drugs and gambling services\* – counselling & outreach
- Breastfeeding support\*
- Child & adolescent services
- Sexual health clinics\*, case management, phone line
- Dental Clinics & Bus\* – preventive and restorative services
- Dental – Healthy Smiles Ontario preventive clinics\*
- Epidemiology & evaluation\*
- Fixed premise & child care inspections (routine)\*
- Harm reduction\* – VAN, needles distribution, Wesley Clinic
- Heat/cold alerts
- High/moderate/low-risk food premises inspections
- Residential care facility inspections
- Indigenous health strategy
- Infectious disease (non COVID-19) case and contact management
- Infectious disease (non COVID-19) – community outbreak investigation, Infection Prevention and Control lapse
- Investigation of food-borne illness reports and other urgent health hazards
- Naloxone distribution
- Rabies investigations
- Recreational water facility inspections
- Residential care facility inspections
- School Program – targeted school service delivery, board planning
- Small drinking water inspections
- Special event inspections\*
- Tobacco enforcement
- Urgent health hazard complaint investigations
- Vaccine cold chain inspections\*
- Vaccine inventory support & management
- Vector Borne Disease Program
- Virtual and in-home visits for babies, children, and families\*
- West Nile Virus surveillance and prevention

\*Partially operational

# Status of Public Health Services 2022

## On hold

- Alcohol, drugs and gambling services – group sessions
- Chronic disease prevention
- Dental & vision school screenings
- Drug Strategy
- Harm reduction – remaining street health clinics
- Healthy growth & development – face to face home visiting, parenting groups
- Mental health & wellbeing promotion
- Personal service setting inspections
- Pest control inspections
- Sexual health – remaining clinics, health promotion
- School program – universal service delivery and supports
- Substance misuse prevention
- Tobacco cessation clinics
- Tobacco hotline
- Vaccine – remaining cold chain inspections
- Vaccine – grade 7 & 8 clinics, community catch-up clinics

# Order of Resuming Services

1. Recovery planning and transition support
2. Vaccine catch-up (routine immunizations, school screening, etc.)
3. Increase prenatal screening, assessment, referral, and case management for high risk individuals and families
4. Services for infants, toddlers and children in the early years at risk for poor social and emotional development
5. Resume pre-pandemic inspection levels for food safety, personal service settings, and tobacco enforcement
6. Increase number of schools/students receiving targeted and universal supports
7. Expand dental preventive services for adults and seniors
8. Dental school screening catch-up and resume pre-pandemic Healthy Smiles Ontario preventive services

QUESTIONS?
