VIA ELECTRONIC MAIL

The Honourable Doug Ford
Premier of Ontario
Legislative Building, Queen's Park
Toronto, ON M7A 1A1

Dear Recipient:

Re: Household Food Insecurity

At its meeting on January 18, 2024, the Board of Health carried the following resolution #06-24:

WHEREAS food security is a chronic and worsening health issue as documented by annual local data on food affordability and as recognized by multiple Association of Local Public Health Agencies (ALPHA) resolutions: [A05-18](#) (Adequate Nutrition for Ontario Works and Ontario Disability Support Program), [A18-02](#) (Minimum Wage that is a Living Wage), [A15-04](#) (Basic Income Guarantee), and [A23-05](#) (Monitoring Food Affordability in Ontario and the Inadequacy of Social Assistance Rates)

THEREFORE BE IT RESOLVED THAT the Board of Health for Public Health Sudbury & Districts call on the provincial government to incorporate local food affordability findings in determining adequacy of social assistance rates to reflect the current costs of living and to index Ontario Works rates to inflation going forward; and

THAT in the context of the Public Health Strengthening roles and responsibilities deliberations, the Board of Health urge all health system partners to remain committed to population health assessment and surveillance as it relates to monitoring food environments and, specifically, to monitoring food affordability; and share this motion broadly with local and provincial stakeholders.

Re: Household Food Insecurity
January 24, 2024

Household food insecurity is one of the strongest predictors of poor health, making it a serious public health issue (PROOF, 2023). Individuals who are food insecure are at higher risk of diet-related diseases like diabetes and are at higher risk for a wide range of chronic conditions such as depression and anxiety disorders, arthritis, and chronic pain. Household food insecurity leaves an indelible mark on children's health and well-being (PROOF, 2023). The experience of food insecurity in childhood is associated with mental health concerns throughout childhood and into early adulthood (PROOF, 2023). In Ontario, the healthcare costs of individuals who are the most food insecure can be more than double that of individuals who are food secure (PROOF, 2023, Tarasuk et al., 2015).

Thank you for your attention to this important issue – the solutions for which will not only help many Ontarians in need but also protect the sustainability of our critical health and social services resources.

Comments on the Discussion Paper Of the Children's and Community Department "Ontario Workforce Strategy; Canada-Wide Early Learning and Child Care Strategy Funding " to the Emergency and Community Committee, May 16 2024.

Hamilton Child Care Advocates, a group of board members of child- care agencies, working to support the goals of the Canada -Wide Early Learning and Child Care project, respectfully offer the following:

Child care is an essential service for Hamilton. Accessibility to quality child care services improves work force participation and earnings, reduces poverty, and benefits the child 's overall positive growth and development.

According to a the May 2024 paper of the Institute on Municipal Finance and Governance in "The Municipal Role in Child Care":

"In the next few years, child care is set to become one of the largest areas of municipal government expenditure in Ontario, rivalling roads, transit, wastewater, and policing. By 2026, funding to make child care more affordable and accessible – most of it managed and distributed by municipalities – will reach about \$5 billion annually in Ontario. The Financial Accountability Office of Ontario believes that an additional 227,000 child care spaces will be needed beyond what is planned for 2026, so \$5 billion is certainly not the final figure."

As long-term advocates for child care in Hamilton, we have appreciated how our Hamilton Children's Department has managed subsidies for children of low-income families, operational funding and wage enhancement grants, They have provided the funds to allow children with special needs to participate in children's programs, and made local plans in conjunction with school boards and other partners that reflect the special characteristics of our community. City Council has determined the development of child care that is attuned to local needs and preferences. We heartily support the local planning role that the Children's department has played and want to see it continue. We envisage a continued municipal role in child care planning, and Hamilton prioritizing child care as integral in its community planning in line with "Hamilton: the Best Place to Raise a Child".

However, the municipal role in child care, so valuable for local autonomy, does not appear to be supported by the present Ontario government. Municipal representation has not been included at the table when policy decisions are made, or their experience consulted for future child care development. Hamilton can no longer determine the number of child care subsidies available, in a community which has had high poverty levels, as the total number has been frozen provincially. Municipal discretion has been undermined in other ways, so that the City will not be able to use measures of quality to determine from which child care operators the City will purchase of child care services orders. A compulsory

5.2

value for money audit of Red Hill Child Care centre has been ordered, when the quality of care, concern for children with special needs, and the properly remunerated work force are models for what child care of the future should look like. Above all, funding to municipalities for the administration of child care is being reduced, for Hamilton by about \$2.5 million, at a time when their role in planning of the Canada-Wide Early Learning and Child Care (CWELCC) project is most needed. The downsizing of costs to municipalities is particularly concerning as

*property taxes will not rise as women's labour-force participation and GDP rise, but provincial and federal income taxes will. **Therefore, municipalities should not be expected to rely on the property tax base to share the costs of child care services with the provincial government ("The Municipal Role in Child Care").'***

Municipalities are being sidelined while the Ontario government has been doing a poor job of child care planning. It has not dealt with the work force crisis which impedes growth of child care services. Although there is some new enhanced funding for child care workers, mentioned in this City report, this will not be enough to attract and retain child care workers in the sector, as there is no wage grid, and pay continues around the level for secondary school graduates, rather than those with a two-year diploma. More provincial funding is required to meet demand for more child care. Capital funding is inadequate to build more non-profit and public spaces. Although equity is being used to prioritize child care expansion to low income, racialized, indigenous, francophone, new immigrant, and children with special needs, the needed extra funding for increased childcare subsidies and for children with special needs has not materialized.

The experience and knowledge of municipalities is vital if CWELCC is to be successful. Quebec has shown that it took 20 years to develop their child care system and access, so expansion, adequacy of funding and quality will continue to be issues. These are concerns with which municipalities are familiar. They need to continue to have decision making powers regarding the local allocation of child care funding and Ontario needs to accept the advice of municipalities, through an advisory committee.

In summary: we appreciate the past work of the Children's Department in the administration of local child-care, and we hope to see continued Hamilton Council support for local and integrated child care planning ; we believe the continued ability of municipalities to make local child- care decisions is important for higher quality in child-care provision; and we ask you to work with OMSSA to safeguard local municipal child care planning and to advocate for the establishment of a Municipal Advisory Committee to advise on child care matters to the provincial government ..

Respectfully submitted.

This is a followup to a delegation on Feb. 16, 2023, asking for the support of City Council in advocating

for an increase in Ontario's social assistance rates. Some of the promises were carried out, but the Director of Government Relations was unable to meet with the Minister of Children, Community & Social Services, who cancelled at the last minute. He did send his Associate Minister, but said that she was not willing to discuss social assistance rates. The most critical issue is that recipients of Ontario Works have not had a raise in 5 years, despite unusually high inflation over this time. We would like someone representing the city to advocate with the Minister for unfreezing the rates of Ontario Works, and for giving a much needed raise to recipients of ODSP.

COUNCIL DIRECTION N/A

INFORMATION

In June 2021, Council unanimously approved Hamilton's first Community Safety and Well-Being Plan (HSC19032(a)). Co-chaired by the City and Hamilton Police Services, the Community Safety and Well-Being Plan is led by a system leadership table comprised of partners from the health, social service, and public safety sectors. The Community Safety and Well-Being Plan is provincially legislated for municipalities and aims to ensure residents feel safe, have a sense of belonging and can meet their needs for education, healthcare, food, housing, income, and social and cultural expression. The purpose of this information report is to provide an annual update to Council as the community advances the goals and priorities of the plan.

Based on extensive community consultation, in Hamilton, priorities of the plan include hate incidents, violence, mental health and stigmatization, substance use, homelessness and access to affordable housing, and access to income. Many of these priorities align with the 2022-2026 Term of Council Priorities especially as they relate to investments in sustainable economic development and safe and thriving neighbourhoods. Embedded throughout the Community Safety and Well Being Plan is a

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

**SUBJECT: Community Safety and Well Being Annual Report 2024 (HSC24015)
(City Wide) - Page 2 of 7**

focus on the importance of ongoing public engagement and equity, diversity and inclusion to inform the plan.

Hamilton is facing a human service crisis that has prompted the City to declare emergencies in housing, gender-based and intimate partner violence and opioid overdoses. A recent report by the Office of the Auditor General of Canada highlights that many of the social challenges faced by communities are the by-product of unmet social needs and poses a substantial cost that all bear. More specifically, the average cost of crime is significant with a single incident of homicide estimated to cost between \$4.8 and \$5.9 million; costs associated with sexual assaults were estimated around \$136,000 to \$164,000 and robberies ranged from \$28,000 to \$92,000 per incident.¹

The Community Safety and Well-Being Plan provides a framework to address the social challenges faced by our community. It is an evidenced based model and a mechanism that can be leveraged to assist us in achieving improved safety and well-being for our community. Well-being is a key driver to economic prosperity, by providing people with opportunities for greater well-being and helping them realise those opportunities, policymakers are not only promoting well-being as an intrinsic good, they are also investing in people's potential as a key driver for long-term economic growth, societal resilience and stability.²

Work is currently underway within the plan to leverage existing resources, focus funding on targeted interventions, and enhance system coordination across human service sectors. Advancing key actions outlined in the plan has been made possible by substantial funding provided by a three-year grant from federal Public Safety Canada in place until March 2026. Beyond this, a sustainable funding model for the plan will be necessary to ensure there are resources to support the work moving forward.

Community Safety and Well-Being Highlights

Since the last update, the focus for the plan has been on strengthening governance, aligning City initiatives and implementing community-driven solutions supporting enhanced community safety and well-being. Hamilton has many assets in place and it is critical that we empower community members to continue this work through community driven solutions. This approach also provides an opportunity to utilize local knowledge and expertise and foster collaboration through co-created solutions designed to meet the needs of residents that can be sustained over time.

(City Wide) - Page 3 of 7**

More specifically, advancements to the Community Safety and Well-Being Plan include:

Strengthening Community Safety and Well Being Governance:

- System Leadership Table Membership – focus has been on strengthening relationships, increased committee representation and membership expansion at the of the Community Safety and Well-Being System Leadership Table (see Appendix A). The following partners recently joined the table:
 - Conseil Scolaire Viamonde
 - Hamilton Child and Family Supports (formerly Children’s Aid Society)
 - Hamilton Community Legal Clinic
 - Hamilton Roundtable for Poverty Reduction
 - Hamilton-Wentworth Catholic District School Board
 - United Way Halton & Hamilton
- Data Strategy – established partnership with Muflehun³ and community partners in December 2023. For the strategy, quantitative and qualitative data is used to better understand the risk and protective factors that contribute to overall community safety and well-being in Hamilton. This furthers our understanding of local challenges, identifies targets to focus our efforts and aligns resources for greatest impact in the community.

Implementing Community-Driven Solutions:

- Building Safer Communities Grant Program – through investments made by Public Safety Canada and in alignment with the Building Safer Communities Multi Year Plan, this grant program provides funding to community organizations that will launch new or expanded initiatives in response to youth gun and gang violence in Hamilton. Initiatives empower Indigenous, Black, Female, and Newcomer youth to consider alternatives to gun and gang involvement.

As part of the application process, joint submissions from multiple organizations were strongly encouraged to support greater collaboration and coordination across the system. A review panel of City staff and community representatives carefully evaluated applications using equity-based assessment criteria. Nine initiatives involving more than 15 organizations were selected for funding (see Appendix B) and will complete training in anti-racism, anti-oppression, and trauma-informed care to ensure culturally sensitive and responsive service

³ Muflehun is a resource centre that supports the development of data-driven program development. Funded Public Safety Canada, Muflehun is leading various data-driven projects across Canada to address various safety concerns.

delivery. The City will also provide evaluation resources to support organizations assess the impact of their initiatives. Funding is available until March 2026.

- Situation Table – bringing together over 20 partners from the health, social service, and public safety sectors, a Situation Table has been developed in response to identified community need and will launch as a 12-month pilot in 2024 (HSC24006). This Situation Table will focus on supporting youth ages 8 to 14 and their families experiencing acutely elevated risk in areas such as alcohol and substance use, emotional and physical violence, and mental health.
- Gender-Based Safety Audit – the YWCA, in collaboration with City staff and community partners, is leading the development of gender-based safety audit in Hamilton. The goal of the audit is to understand key safety concerns of women and gender-diverse individuals in public spaces to improve physical environments, policies, operations, and service delivery. The audit is underway and will acknowledge and account for the nuanced experiences, perceptions, and needs of Hamiltonian women and gender-diverse individuals across different identity backgrounds. Working with YWCA, staff will report back to Emergency and Communities Services Committee with key recommendations by January 2025.
- Gender-Based Violence and Intimate Partner Violence – working with Council, community partners, and City staff, a motion was developed to declare gender-based violence and intimate-partner violence an epidemic in Hamilton. The motion also allocated funding to support the Women Abuse Working Group in identifying strategies to address gender-based and intimate-partner violence in Hamilton. A focus of the plan is to improve advocacy for victims and implement recommendations that further address gender-based violence and intimate-partner violence. Community Safety and Well-Being staff have joined the Women Abuse Working Group to strengthen these connections.
- Hamilton for All and Anti-Hate Toolkit – partnered with community agencies to support and fund the Hamilton for All Campaign to raise awareness and encourage Hamiltonians to stand up against prejudice and discrimination, which included the launch of No Hate in the Hammer's Anti-Hate Toolkit. The Toolkit provides guidance and recommendations on addressing hate as well as the Belonging Pledge that individuals and organizations can sign to affirm their commitment to equality, freedom and anti-discrimination. The Anti-Hate Toolkit has been adapted by the early year sector to support educators and families with resources required to foster a culture of belonging amongst young children. These initiatives were organized by No Hate in the Hammer, Hamilton Immigration Partnership Council, Hamilton Community Legal Clinic, Hamilton Anti-Racism Resource Centre, and Hamilton Centre for Civic Inclusion. The City

supported these activities through funding, staff support and endorsement, and signing onto the Belonging pledge.

- Canadian Institute for Health Research Grant – partnering with McMaster University, Hamilton Anti-Racism Resource Centre, Empowerment Squared and Hamilton’s Youth Strategy, a research study to explore the effects of racism and discrimination on youth mental health is underway. The aim of this youth focused research project is to better understand and address the connection between hate related violence and youth mental health.

Aligning City Initiatives that support Community Safety and Well-Being:

- Hate Prevention and Mitigation – to address the challenges of hate, racism, and discrimination, plans are under way for the City’s Hate Prevention & Mitigation Plan to transition from from the Government Relations and Community Engagement Division to Community Safety and Well-Being. This transition aligns the plan with broader community safety goals and builds on partnerships with community initiatives such as the No Hate in the Hammer, Hamilton for All, and Hamilton Anti-Racism Resource Centre. The ongoing focus includes strengthening the City’s response to hate incidents, implementing proactive measures to reduce hate and discrimination, and creating inclusive community spaces that foster belonging and diverse interactions.
- Hamilton Roundtable for Poverty Reduction – a closer connection to this committee has formed through adding Roundtable representation at the system leadership table and aligning existing funding to advance shared priorities related to access to income through advocacy and local action.
- Pride Awareness Campaign – in partnership with the LGBTQ Advisory Committee and a local artist from the 2SLGBTQIA+ community, the first “Pride in Hamilton” campaign was designed and delivered on HSR buses from June to August 2023. This campaign celebrated the lives and contributions of 2SLGBTQIA+ Hamiltonians and aimed to raise awareness of the impact of homophobia and hate incidents within our city.

2024 Community Safety and Well-Being Implementation Plan

Guided by the System Leadership Table and building on community feedback, we will continue to prioritize the following key focus areas of implementation for 2024:

- Implement and evaluate a Situation Table pilot that will support youth ages 8 to 14 and their families experiencing acutely elevated risk;

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

**SUBJECT: Community Safety and Well Being Annual Report 2024 (HSC24015)
(City Wide) - Page 6 of 7**

- Further develop data strategy to better understand risk and protective factors and align resources accordingly;
- Continue to enhance community driven solutions to support community safety and well-being
- Advance the work on hate prevention and mitigation;
- Advocate for a living wage, basic income, and food security initiatives;
- Advance equity and community engagement as central tenets to addressing community safety and well-being.

Ongoing focus to enhance coordination across safety and well-being committees and sectors is paramount for greatest impact.

In April 2024, a new Community Safety and Well-Being Plan regulation under the Community Safety and Policing Act set out obligations for municipalities across Ontario to review, and where appropriate, revise plans within a four-year time period. Hamilton's plans must be revised by July 1, 2025. The System Leadership Table will provide leadership to support the next iteration of the Community Safety and Well-Being Plan in Hamilton and ensure community engagement informs the revision.

Resource Allocation and Sustainable Funding

The City recognizes and appreciates the many community partners that provide in-kind contributions through human resource support in advising and advancing the work of the plan. Council approved the funding of 1.0 FTE for Senior Project Manager (HSC19032(b)) to advance the work of Community Safety and Well Being, and additional temporary in-kind resources are provided through collaborative efforts within the City of Hamilton and community partners. As well, funding from Public Safety Canada until March 2026 will support key initiatives of the plan during this period. Dedicated resources to ensure progress on the plan are critical and sustainable funding has been a key conversation at the System Leadership Table. As demonstrated through receipt of the Public Safety Canada grant, partners are exploring potential funding sources to advance this work, including federal and provincial grants. Requests for municipal funding to support this work will be brought forward to future budget processes.

Next Steps

Community Safety and Well-Being provides an opportunity to identify, plan and respond collectively to the complex human service challenges facing our community. In 2024, Community Safety and Well-Being will continue to advance the priorities through ongoing collaboration with community and residents.

**SUBJECT: Community Safety and Well Being Annual Report 2024 (HSC24015)
(City Wide) - Page 7 of 7**

The accomplishments of the plan are a testament to a combination of collaborative partnerships and dedicated staffing resources providing backbone support to the plan. Investment in the local priorities to improve outcomes related to safety and well-being is beyond that of a single organization and is a shared responsibility between different levels of government, community partners and funding networks. The development of a sustainable funding model to support community development is required to address the priorities through upstream prevention and intervention and fully realize the goals of Community Safety and Well-Being. In turn, we will advance our city's vision to be the best place to raise a child and age successfully.

(i) Working Groups (10.1)

(P. Lesser/ C. Fernandes)

That the following updates be received:

(a) Housing Working Group

M. Toth indicated that both L. Maychak and herself have been working with three McMaster students through a City Lab partnership to develop an updated version of the 2015 guide, *Housing Options for Older Adults in Hamilton*. The students have completed the guide for the purposes of their school project, but review and approvals by some City leadership staff will be required to publish the guide. The goal is for the guide to be available in both print and digital formats, and to be available at the Seniors Kick off event on June 10, 2024.

(b) Communications Working Group

A. Huang indicated that the Communications Survey has been launched on the Engage Hamilton platform and print copies were made available at Sackville's Wellness Fair on March 27, 2024. A. Huang requested assistance from L. Maychak and other City staff to compile results of the survey with the goal of presenting the results at the Seniors Kick off event on June 10, 2024. Further discussion included questions about how the survey results will be communicated to City Council and staff to ensure communications with older adults is improved.

(c) Getting Around Working Group

S. Boblin indicated that the mandate of this working group is to promote getting around the city for older adults, and that they are currently reviewing what other organizations are doing related to getting around with the goal of future collaboration. Further discussion included collaboration with the Hamilton Council on Aging's Let's Take a Bus project, and support for DARTS Transit. B. Spinner suggested inviting a representative from DARTS to

present at an upcoming Seniors Advisory Committee meeting to learn about their current services.

(d) Elder Abuse Working Group

The Elder Abuse Working Group met February 15, 2024. A. Alshaikhahmed indicated that Janie Francoeur, a Public Health nurse, and co-lead for the Seniors at Risk Community Collaborative (SaRCC) attended the meeting to share results of a survey that was launched to learn of there is a need for an Elder Abuse network in Hamilton. Janie Francoeur indicated that results of the survey showed strong local support for creating an Elder Abuse network, and that she will be bringing interested organizations together to establish the network.

RECOMMENDATION

That the City of Hamilton accept the additional 100 percent provincial 2024 Canada-Wide Early Learning and Child Care and the Ontario's Child Care Workforce Strategy one time funding in the amount of \$5,584,149, and that the General Manager of Healthy and Safe Communities Department, or designate, be authorized and directed to execute, on behalf of the City, the funding agreement from the Ministry of Education, as well as, any ancillary agreements associated with this funding in a form satisfactory to the City Solicitor.

EXECUTIVE SUMMARY

The province is now in year three of implementing the Canada-Wide Early Learning and Child Care plan. The goal is to ensure more families across Ontario have access to safe, affordable, and high-quality child care. The Canada-Wide Early Learning and Child Care system will be phased in by March 2026, with the average cost of child care for eligible children 0 to 6 years reduced to \$12 per day.

On March 28, 2024, the Ministry of Education announced an incremental Canada-Wide Early Learning and Child Care allocation to support emerging issues faced by participating licensees and start up grants that support licensees approved to open the new 265 community-based child care spaces. The Ontario Child Care Workforce

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

SUBJECT: Ontario Child Care Workforce Strategy, Canada-Wide Early Learning and Child Care Funding (HSC24025) (City Wide) - Page 2 of 5

Strategy funding will increase the wages of eligible Registered Early Childhood Educators and includes professional learning opportunities. The total investment in Ontario's Workforce strategy is \$2,969,286. The Ministry requires staff to issue the workforce compensation on or before 30 calendar days of receiving the funding from them in June. Eligible positions will also receive a retroactive payment to January 1, 2024.

There are 223 licensed child care programs eligible to participate in the Canada-Wide Early Learning and Child Care system and 214 enrolled. Due to the critical shortage of Registered Early Childhood Educators, staff are prioritizing the workforce compensation and anticipate funding will begin to be issued to operators in June. Staff are also developing applications and implementation plans to distribute the professional learning, emerging issues and start up grant funding and anticipate funding being issued during the third quarter through the end of the year.

While this new funding is good news for Hamilton, the division is still waiting on an announcement around a new provincial funding model. In 2023, the ministry announced the development of a new funding model that aims to integrate the current approach for allocating child care funding with the Canada-Wide Early Learning and Child Care plan. Currently, the Children's and Community Services division is unsure of the broader impacts of the release and implementation of this new provincial funding model. Staff will report back to Council once the Ministry releases details on the new funding model which is expected in the next few months.

As a result of the allowable administrative funding threshold being reduced from 10 to 5 percent, municipalities are now required to cost share provincial childcare administrative funding at a rate of 50/50 provincial/municipal. The Ministry of Education announced in 2021 the reduction of the administration threshold, with the provision of one-time transitional grant funding to support municipalities to maintain a 10 percent maximum for administration costs until March 31, 2024. Staff will be able to mitigate administrative funding pressures in 2024 but are forecasting administrative funding pressures in 2025 and onward.

Alternatives for Consideration – Not Applicable

FINANCIAL – STAFFING – LEGAL IMPLICATIONS

Financial: The City of Hamilton will be receiving additional 100 percent provincial 2024 Canada-Wide Early Learning and Child Care and the Ontario's Child Care Workforce Strategy funding in 2024 in the amount of \$5,584,149.

SUBJECT: Ontario Child Care Workforce Strategy, Canada-Wide Early Learning and Child Care Funding (HSC24025) (City Wide) - Page 3 of 5

2024 Incremental Funding Allocations and Overview

Workforce Compensation	Professional Learning	Emerging Issues	Start-up Grants	Total
Increase the hourly wage for eligible staff by approximately \$3.00 retroactive to January 1.	Host a professional learning day to support the capacity of educators.	Increase funding to assist licensees in managing unavoidable cost pressures.	Increase the cost per new space created by \$2,000 for centre-based programs and \$1,200 for home based programs.	
\$ 2,245,328	\$ 723,958	\$ 865,363	\$ 1,749,500	\$ 5,584,149

Note that there is no new administration funding included as a part of this funding announcement. Staff are expecting the Ministry to release a new funding model for the system in the coming months. The Ministry of Education has also announced that the one-time transitional grant that supported municipalities to maintain a 10 percent maximum for administration costs ended on March 31, 2024, and going forward, the 5 percent maximum for administration costs announced in 2021 will be realized.

Staff have identified approximately \$2.5 million in annual administrative funding pressures in the multi-year budget however exact costs will not be known until the Ministry of Education releases the new funding model and framework in the coming months.

Staffing: There are no staffing implications associated with this report.

Legal: The revised 2024 Ontario Transfer Payment Agreement is still pending from the Ministry of Education. Once received, staff will review with Legal Services.

HISTORICAL BACKGROUND

On March 28, 2022, the Province of Ontario signed the Canada-Wide Early Learning and Child Care agreement with the federal government. The system is designed to support Ontario's children, families, and the child care sector to provide high-quality, affordable, accessible, and inclusive licensed child care programs. In 2022, the priorities focused on encouraging licensed child care programs to opt into the Canada-Wide Early Learning and Child Care system and reducing fees for families.

In addition to the Canada-Wide Early Learning and Child Care 100 percent base funding, the Ministry of Education has increased allocations to support a directed child care expansion approach, which includes the following:

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

SUBJECT: Ontario Child Care Workforce Strategy, Canada-Wide Early Learning and Child Care Funding (HSC24025) (City Wide) - Page 4 of 5

- Fee Reduction funding for directed growth to support new child care spaces
- Workforce compensation funding for Early Childhood Educators who work in the new licensed child care programs
- Start up grant funding to support the costs associated with opening new child care programs
- Administrative funding

The following chart outlines new child care space targets approved by the Ministry of Education for the City of Hamilton:

Year	2022	2023	2024	2025	2026	Total Spaces
School Based Spaces	49	107	49	49	-	254
Community Based spaces	146	381	265	339	302	1433
Total	195	488	314	388	302	1687

Staff are currently reviewing the Directed Growth applications for 2024 in the identified priority wards 6,11,5 and 2. The Ministry of Education has a goal of a 37 percent access rate for children aged 0 to 5 years of age once the Canada-Wide Early Learning and Child Care plan is fully implemented. By 2026, all wards will benefit from new child care spaces and the City of Hamilton. Access rates are currently 31 percent across the city and staff project Hamilton will exceed the 37 percent once all spaces are open and operational.

On November 16, 2023, the Ministry of Education announced the introduction of the Ontario Child Care Workforce Strategy to support the recruitment and the retention of qualified professionals, help achieve system growth, and ensure increased access to high quality licensed child care in the province. The Ontario Child Care Workforce Strategy continues the Ministry of Education's commitment to support Ontario's child care and early years professionals by implementing better wages and working conditions, supporting career laddering and entry to the profession, and building the profile of the profession by implementing new programs and building on existing initiatives.

For historical context on allowable administration costs and impact on the division's overall budget, on January 1, 2021, the Ministry of Education announced they would be adjusting the administration funding allocation and cost sharing arrangement, with municipalities now required to cost share provincial child care administrative funding at a rate of 50/50 provincial/municipal and a reduction to the allowable administrative funding threshold from 10 to 5 percent.

OUR Vision: To be the best place to raise a child and age successfully.

OUR Mission: To provide high quality cost conscious public services that contribute to a healthy, safe and prosperous community, in a sustainable manner.

OUR Culture: Collective Ownership, Steadfast Integrity, Courageous Change, Sensational Service, Engaged Empowered Employees.

SUBJECT: Ontario Child Care Workforce Strategy, Canada-Wide Early Learning and Child Care Funding (HSC24025) (City Wide) - Page 5 of 5

At the time of the 2021 announcement regarding the reduction to the allowable administrative funding threshold from 10 to 5 percent, the Ministry of Education also identified they would be undertaking Burden Reduction Efforts as part of the government-wide commitment to reduce administrative burden and red tape by 25 percent. This focuses on areas to streamline reporting, contract management and general burden reduction efforts. To date, the Children's and Community Service's Division has not felt this administrative burden lessen. In contrast, the division has felt escalated administrative burdens because of increased funding accountabilities and implementation of new funding strategies, including: the Canada-Wide Early Learning and Child Care implementation, executing workforce compensation, developing new business processes, executing start up grants, and managing directed growth applications.

POLICY IMPLICATIONS AND LEGISLATED REQUIREMENTS

The City of Hamilton is the Service System Manager for the Early Years System as required by the Child Care and Early Years Act, 2014.

RELEVANT CONSULTATION

The investment of the additional Canada-Wide Early Learning and Child Care funding aligns with the City of Hamilton's Access and Inclusion Framework and the Early Years Human Resources Workforce Strategy Committee and is reflective of extensive ongoing consultation with the Child Care and Early Years sector and the priorities of the Early Years Community Plan.

Internal consultation within the Division and finance staff was completed.

ANALYSIS AND RATIONALE FOR RECOMMENDATION

The additional 2024 Canada-Wide Early Learning and Child Care funding will be allocated based on the Ministry of Education's *Ontario Canada-Wide Early Learning and Child Care Guideline* that was released on November 30, 2023.

WHEREAS, Sonic Unyon’s programming direction is diverse and encompasses a variety of artistic practices and genres, incorporating a strong locally derived program of artists and musicians, one unprecedented in comparison to other events in this region;

WHEREAS, Sonic Unyon is a locally owned, operating in the arts and entertainment space for over twenty-five (25) years in the City of Hamilton;

WHEREAS, Sonic Unyon was granted funding from the Canadian Cultural Spaces Fund providing investment capital into Bridgeworks and subsequently received a 10 year extension on the operating agreement, expiring on the 31st day of May, 2032;

WHEREAS, in the Terms of Reference of the operating agreement it states that the City reserves the right to book some or all the space for City business uses subject to availability and payment of the standard fees;

WHEREAS, the Operating Agreement speaks to the responsibilities of the operator, which includes actively and proactively maximizing the benefit of the Community Hub to the community by maximizing the usage of the Facility;

WHEREAS, both City Staff and the Central Neighbourhood Association are in need of free or low-cost access to space in Ward 2;

WHEREAS, Sonic Unyon is willing to accommodate free access for City Staff and the Central Neighbourhood Association with certain conditions;

WHEREAS, Availability of the space in the facility will work around Sonic Unyon's confirmed schedule to ensure it doesn't interfere with other programming;

WHEREAS, Requested dates should be planned in advance and preferably avoiding weekends;

WHEREAS, Only the fee for use of the space will be waived. Use of tech equipment will come at an additional cost and will be outlined in the amended agreement;

WHEREAS, Sonic Unyon will be incurring staffing costs to be at the facility so any free use of the space will need to be respectful of the start and end times of the booking, with additional fees being charged for unanticipated extra use in order to cover staffing costs;

THEREFORE, BE IT RESOLVED:

- (a) That City of Hamilton Recreation staff be directed to work with Sonic Unyon to amend the operating agreement for City Staff and the Central Neighbourhood Association to have free access to the space under specified conditions, and;
- (b) That the City's General Manager of Community Services be directed to execute said agreement in a form satisfactory with the City's Solicitor.
