

The residents of Winona Road, between Highway 8 and the escarpment, request that the City of Hamilton take action to calm the traffic on this stretch of the road. This is a residential area with a high volume of children, seniors and pets and there is an increasing concern for the safety of the residents and users of the road due to the excessive levels of speed used by many drivers, as well as the high volume of drivers who unwittingly turn down the road believing there to be mountain access. We are requesting that the City of Hamilton take measures to address this danger as may be necessary, such as posting signage relating to the speed limit and lack of mountain access, imposing a community safety zone, increasing police presence and enforcement, and installing speed bumps.

The undersigned residents of the area support this initiative:
