Hi Rose,

I'm aware of and supportive of Dr. Al-Kazely's application to have the zoning of the building at 260 Nebo Road changed from office to medical so that he can have family physicians and specialists in the building to provide medical services for Hamilton residents.

Could you please ensure that the Clerk of Record for Planning for file ZAR-11-035 receives this email so that they are aware of my support? Thank you.

Kind regards,

Jane
