

## Summary of petition

1,146 Signatures supporting this petition

The petition aims to bring attention to the following community concerns:

- Residents do not want intensive development
- Development must respect the character of the community
- Residents value park land/green space
- Residents are concerned with the impacts from any development to their community and the property
- Residents are concerned with the credibility of the process and their voice.

## **Petition**

**By Shirley Fawcett and Andrew Knowles**

**Date of petition: Sunday, May 29 2011**

**To Hamilton City Council, the Ontario Municipal Board, and those applicable,**

The residents of the Brow lands Community express their disagreement with proposed plans of intensive development by both the Deanlee Management Inc. and the City of Hamilton. The Brow Lands Community believes that if any development should take place, it should be a designated park land to protect the beauty and historical significance of the Brow Lands Community and the Niagara Escarpment.

Our community believes that intense development does not fit the character of our neighbourhood. We as a Community believe that these proposals will worsen the already established traffic issues that we face and are concerned about damage to our basements and the geologic health of the Escarpment if underground blasting occurs for the proposed underground parking lots.

We have chosen to live in this Community because of the quiet single family homes character, beauty, green space and historical significance. As referenced by Green Belt Ontario, the United Nations has declared the Niagara Escarpment as a World's Biosphere and is protected for conservation purposes in accordance to the Niagara Escarpment Plan. The following is a quote from Green Belt Ontario:

**"On February 8, 1990, the Bureau of the United Nations Educational, Scientific and Cultural Organization (UNESCO) Man and Biosphere (MAB) program approved the designation of the Niagara Escarpment as a Biosphere Reserve." (Niagara Escarpment Plan, 2011).**

**"Canada's first, large scale environmental land use plan. It balances protection, conservation and sustainable development to ensure that the Escarpment will remain substantially as a natural environment for future generations." (Green Belt Ontario, 2011).**

We as a Community feel that any intensive development in our neighbourhood will end the unique character of our entire Community and violate the Niagara Escarpment plan. We as a Community are concerned with creditability of our voice at the upcoming OMB Hearing and this entire process which has given rise to this petition.

**Respectfully,**

**The Beautiful and Historic Brow Lands Community on the Niagara Escarpment**
