Subject: Backyard Chickens

To know that there are people who are against backyard chickens is completely absurd waste of everyones time and money, We shouldnt be concering ourselvs with such mundane problems, all you're doing is getting people upset and getting involved in things that dont concern you, I dont have a chicken nor do i plan to own one but thats not the point, try doing something useful for one please, like for simple starters lets stop using salt and start using sand and destroying our roads perhaps? seems much more relevant then people with chickens... I am disgusted by the way things have been, Stop telling people how to live their lives, that's not why you are where you are.

like honestly chickens I cant beleve i sent the 5 mins typing this out I feel like this is a complete joke.
