

June 29/12.

Co-Ordinator, Planning Committee;

This is in regards to the Zoning By-law for 135 & 137 King St. E  
& 42 Passmore St. Storey Creek.

Our concern is that when building, will this have an impact  
on our houses as far as structure (walls, windows ect.)  
when doing the footings and if so and any damage (cracks ect,  
happens) whose responsibility is it. Also will this affect  
our sewer system ect. I have no problem if the retirement  
home as long as it does not impact these concerns.  
Since we are going to be on holidays we cannot attend the  
meeting so am sending this letter..

Helen & Jack Rylo
