Enhancing the Hamilton Street Tree Program by targeting neighbourhoods with identified poor air quality. Eventually this will lead to just maintaining the urban forest, rather than both planting and maintaining (this will increase efficiency). I'm currently working on a pilot project of what I just proposed above in the Keith neighbourhood and it's been very successful so far. Also, a proposal to incorporate bushes into the program, which contribute greatly in reducing air pollution. This addition will only be used for small properties which contain low income families.
