Subject: Strathcona Plan

I find myself writing another letter expressing my opposition to the Strathcona Plan and it's position on rezoning for high rise buildings. I thought the residents of our neighbourhood have made it very clear that they were NOT in favor of demolishing 39 homes (without homeowner approval) in order to put up high rises. This plan would greatly altar our community and I don't think it would be positive.

I don't understand why the city would want to tear down established homes, homes of great families that help make our community what it is. Why would the city even consider going ahead with this without it's citizens' approval??
