Request for a cul-de-sac on Glover Road

We live on Glover Road in Hannon, ON. We used to really enjoy our quiet, rural neighbourhood, but that has all now drastically changed and quickly our country life has vanished as it were. We used to take long leisurely walks, now we hardly even care to try!

A while back, our trees were ripped out and replaced with huge, unsightly hydro poles planted in our front yards. Today when we look down our road all we see are hydro poles and lines going every which way!

The traffic has increased a lot and cars speed by like crazy. It's made it difficult to back out of our driveway. We cannot safely walk down the road for fear of being run down. Our children need to walk along Glover Road to and from their school bus and need to be extra careful. We have to be always prepared in case we have to leap for the ditch as cars speed by! Even getting the mail out of the mailbox can be a challenge. It's ridiculous and downright dangerous!

Something needs to be done about this, and no.... narrowing the road, an island, and signs won't do... We can't have through traffic racing down our roads.

We want, in fact, **we need a cul-de-sac on Glover Road at Dickenson!**

In this way we can take back the neighbourhood, where we can live, walk, and raise our children safely.

Thank you,

John & Wilma Groenwold
