Project Cost: \$143,336

5.0 CANCELLED PROJECTS

5.1 Frankie “Venom” Kerr themed Public Art – Ward 1

Location: Victoria Park

Status: Community consultation Spring 2014

Project Budget: \$200,000

At the request of the family of Frankie Kerr and as a result of consultation before a public meeting held on April 17 this project as it relates to theme of the musical legacy of Frankie Kerr has been cancelled. It is still to be determined if Ward 1 area rating funding is still available for public art with a new theme.

5.2 Binbrook Community Parkette Public Art – Ward 11

Location: Northeast corner of Highway 56 and Binbrook Road

Status: Final public consultation and adjudication in April 2013

Project Budget: \$225,000

Having reviewed all of the proposals, the competition themes, the Parkette design and the results of the public consultation, the members of the Binbrook Art Competition Jury concluded that none of the proposals adequately addressed current community priorities. As a result, the jury recommended that the project not proceed and the competition be closed as of May 2013. Tourism and Culture staff are in agreement with the Jury’s conclusions and recommend that the contract not be awarded. Funding provided to Public Art was returned to the Binbrook Parkette project budget.

The members of the jury share the disappointment of the artists and members of the community that contributed to and supported this project. They hope that it will not discourage their involvement in future public art projects.

6.0 CONSERVATION AND MAINTENANCE

The public art program maintains a regular conservation program for the works owned by the City. As mandated in the Public Art Master Plan, 10% of each public art commission is channeled into a reserve account for continued care and conservation. This must be kept in reserve, to ensure the longevity of the work in line with standard best practices.
