File # ZAR-13-015

SUBJECT PROPERTY 228 Seneca ave Glanbrook

We unfortunately cannot attend this meeting due to work commitments

We STRONGLY DO NOT WANT a second dwelling unit on the proposed address

It is not temporary as they have built this many years ago. We have lived across the street for 15 years and they have been working on this that long to make it a home.

It is not nor ever will be temporary, they have been living in it for years.. I sent a document a few years back stating I did not want this but apparently it was never sent forward. I only wish I still had that email address of whom I sent it to because I would have the original and I no longer have that email address that is was sent from myself. Really what compensation do we the neighbors get for the tenants of that home to do as they please with out regard to by laws..Been way to many years of nonsense that this has not been stopped..How many different ways are they going to try and live there, how many options are left, this is ridiculous how they can carry on and do whatever they like with no penalty..until this is resolved maybe they should live somewhere else..why live there tax free.. why add another dwelling to our neighborhood and increase our taxes. do we need to join others and take legal action to get them removed from this dwelling..Its not right and it needs to be stopped. This has gone on way to long and we are tired of it, how many more years, how many other ways are they going to try to get their way for their home.
