Subject: Alleyway - James Street North

Good Morning Mr. Newman,

Further to your telephone call this morning regarding our objection of the closing and sale of the alley off James Street North and my response of January 15th I wish to reiterate that the owners of the Right House, Hughson Centre, as well as 13-15 King Street East are opposed to this closure/sale.

The owners first noted the attempt by the City to fast track this process with the ridiculous time frame of one week!! There was absolutely **NO PUBLIC CONSULTATION** on this proposal. We have an attached overhang from our building to the former Sirloin Cellar building again with no information or response to my message of December 9th. Is this alley deemed "surplus" by the City and if so why was there no proper procedures undertaken? As stated in our January 15th response, access to our properties would be unacceptably restricted. If the owners of the adjacent parking lot decide to restrict access through or from their property vehicle and truck access to the rear of our buildings would be impossible. Lastly, Aragon would expect the same generous offer to buy the remaining alley that exits onto King William Street for the same price of \$ 2.00. We await your response and information. Thank you.
