Subject: Speak - Planning Committee July 7,2015

Good morning, Ida

Hope this finds you well.

Further to my phone message of this morning, please consider this my written request to speak to the Planning Committee regarding the Rural and Agricultural Zoning Bylaw Report on the agenda for tomorrow July 7, 2015. It is my understanding that delegations are heard at the beginning of the agenda.

Please confirm that I will be added to the agenda for possible approval of my request to speak.

I am just beginning the study of the report. Based on a recent newspaper article, it appears that planning decisions are being made regarding properties in our area that may have a negative impact on our property. Since we do not have the same level of resources available to developers in our area, I find it necessary to use the only resource open to me as a taxpayer which is speak to Committee.

Please let me know that you received this and/or my phone call.

Looking forward to your response.

Georgina Beattie
