Good Day Daniel

I am responding in opposition to the proposed amend zoning for lands at 224 John Street North, Hamilton ON.

My understanding is that the proposition is to establish two dwelling units within 1 half of an existing semi-detached building.

My reasons for opposition are the following:

- this will further devalue the area by creating two separate 'economical' dwellings within the area which is already heavily slated with low income housing and low socio-economic occupants.
- the area in question has been documented to house occupants who produce and deal illegal drugs filtering into this community
- it is my taxpaying interest and right to vote against for hopes of prevention of community adversities while thriving to raise a family of three young children within this area.

Regards
Giovanna Giornofelice
