Subject: Nikola Tesla Epressway

Planning Committee.
Judi Partridge (Chair)

Hello Committee

On Sept. 4 2014 at GIC meeting NETC presented a proposal to committee on NETC strategic partnership with City of Hamilton .

- 1) NTEC Priorities, (name a significant road , erect statue , awards/scholarships etc.)
- 2) Strategic Partnerships with HWDSB /McMaster
- 3)City of Hamilton will Benefit

This is only a summary of NETC proposal with no cost to Hamilton Taxpayers .

I submit a question to NETC , is naming a significant expressway if approved by planning committee the first step ? Is NETC committed to follow up on their strategic plan ?

There is no significant benefit to Hamilton with name recognition of Nikola Tesla Expressway if commitment by NETC on their proposal at GIC meeting Sept. 4 2014.

I would suggest to planning committee to ask NETC is their plan to promote Nikola Tesla with partnerships as they suggested , if not what's the point of name recognition.

Please consider these my written comments and questions to committee . I look forward to hearing from you.

Respectfully , John McGreal
