> I have been informed that the Ainslie Wood Westdale Community Association of Resident Home Owners (AWWCARHO) supports this project. I question this group's legitimacy to make any decisions on behalf of the people of Ainslie Wood, as the AWWCARHO does not have a single board member from Ainslie Wood. They are a Westdale group in all but name. A review of the email newsletters sent by the AWWCARHO demonstrates that this group is almost exclusively concerned about Westdale -- except when it comes to approving student mega-buildings in Ainslie Wood. Please do not give their approval any weight, as they have no real connection to or understanding of the issues faced by the people of Ainslie Wood.
