

Speaking Notes of Taras Kulyk, respecting 0 Parkside Drive Lot

How was Greenbelt Boundary established?

As a land owner for over 30 yrs in Waterdown he has paid his property taxes based on the value of his land which devalued by 60% once the Greenbelt Policy was introduced. Being surrounded by residential and commercial institutions and buildings it would only make sense to be included in the future development area. He mentioned in his home country, people would come and take the land with riffles and violence and here the premier only had to sign a piece of paper without his knowledge to devalue his property.
