Hamilton Paramedic Service

Chief Sanderson

Dear Sir:

I was hoping to follow up on our conversation at the St John Ambulance annual general meeting when we discussed the possibility of a donation for Hamilton EMS of 1 x ERV and 1 x Type III ambulance to bring our fleet up to a full complement to allow us maximum coverage for our community at events.

The outstanding support we have received from your service; our closest community partner we have in this city has been exemplary. This letter is to formally request the following donation after talking with Commander Ian Wright at our community services meeting.

1 x PRU for our Medical First Response Unit (we would like to have the lighting equipment and PA system left in to save costs to putting them back in we would absorb the cost of converting to green light IAW the Hwy traffic act 2005.

The current unit we have would be moved to a community support unit for the branch which would allow all our other programs to use as well as our branch staff, as this would not require emergency lighting.

1 x Type III ambulance (Mobile First Aid Post) with a 35A Ferno stretcher if you have any to spare after the Stryker conversion is complete again assist us in saving costs. We would be willing to take them off your service as soon as possible once your requirement for them is complete

Thank you in advance for your support.

Sincerely,

Brent Schriener OSTJ, CD, PCP, KStG
Chief
Hamilton Medical First Response Unit
