

September 27, 2015 With respect to 25CDM-201516

Dear Sir or Madam at the City of Hamilton,

The notice of application which we received this past week is incredibly obtuse. There is no way of knowing what the copy of File: 25CDM-201516 is trying to communicate.

Yes we know that 35 town houses are being built near our properties. The site is alive with dust and construction noise from early morn to setting sun. We also know that five mature maple trees where destroyed along the boundary of the property, when construction began. Will other trees be planted to compensate?

Does the memo we received tell us that more space pristine wild land trees and scrubs will be destroyed to make space for roadways, and amenity areas? Please clarify.

I speak on behalf of a number of residents in the town house structure at 39 Raymond Road, Ancaster when I say that we (I) would like to be informed of any and all developments at 86 and 90 Raymond Road, Ancaster

Yes let me know when and where the public meeting will be held.

Thank you,

Ren Siebenga
