

Endorsement of Plain and Standardized Packaging

Plain and standardized packaging would prohibit all promotional features on all tobacco packaging, including the use of colours, images, logos, slogans, distinctive fonts, and finishes. Only the brand name would be allowed. Health warnings would remain on packages. The size and shape of the package would be standardized, thus prohibiting specialty package formats, such as slim and superslim cigarette packages that reduce warning size and overtly target women. The appearance of cigarettes would also be standardized, at a minimum prohibiting the use of branding, logos, colours and special finishes, and establishing standards for cigarette length and diameter.

Our organization endorses a requirement in Canada for plain and standardized packaging, as outlined above.
