Dear Sir:

Re: File(s) ZAC-15-017  
25T-201504

As a representative of Redeemer University College I wish to respond to the Notice of Public Meeting of the Planning Committee regarding the above files. Redeemer University College has some minor concerns regarding the proposed development which we believe can be quite simply alleviated. These concerns match those expressed in a previous letter for a development adjacent to Redeemer property with file numbers File(s) ZAC-12-062(R) & 25T-201205(R)

The two concerns regard the fencing surrounding the development and the possible future development of abutting Redeemer owned land.

For the sake of continuity Redeemer would like to see a prohibition of the installation of gates in the required fence along Redeemer property. Also Redeemer would like a warning clause in all purchase and sale or lease agreements regarding future development of Redeemer lands.

Please consider our requests to help alleviate future concerns as much as possible for both parties.

Yours truly,
