Brenda

I hate to be kicking a dead horse again but in the Spec. our \$1 BILLION LRT is to provide quicker service from 4-6 min. compared to present slower system of 7 1/2 min , less stops all for 1 billion \$. Some areas of king st . down to 1 lane . There are thousands of people that must go from one end of the city to the other , what are your planners thinking . I could list many more but this is ridiculous , this is a liberal purposal & this goes along with all the other items that have caused countless debt . Tell to give it where it is needed & for a start to the Autism children's program .

thanks gord
