4.21

Good Day,

I hope to convey to this council that I am not anti-LRT just anti-this one.

Delivered this way with too many unanswered and vital questions.

When the LRT was presented to the city, and lets not forget THEY CAME TO US!

It sounded fantastic!

Let's go for it!

Metrolinx gave us \$4 mil. to research the possibility.

We were all optimistic.

The more we know going in
the better the result.

The yrs of study have shown
me that this is not the
right route for this Ant
LRT projects

Remember They Came to US!

Maybe we should get people to
our downtown before we worry
about how to move them back &
forth once they get there.

We have the HSR for that now.

Can we even trust Metrolinx?

Metrolinx failed @ The Union to Pearson
Express.

Have not delivered on time in Kitchener.

And when they just announced they
did not realize they need to
tunnell under the Railway at
Gage Ave, that was enough for me.

Wrong group, wrong route.

The deal has changed.

lets not refuse LRT.

lets just refuse this deal
and this route.
