

Hi Lauri,

I have accepted a job offer with Federal Government and will be a federal officer with Census of Agriculture, Statistics Canada, starting this September.

As you may recall, I obtained my doctoral degree in Agricultural Studies from University of Waterloo and currently I am a research manager with FoodShare Toronto, a renowned non-profit organization.

It is a an honor and a privilege, as a Dundas resident and a agricultural policy researcher, to serve on the Hamilton Agriculture/Rural Affairs Committee. It is a pity that I did not contribute as much as I expected in this year because of my pregnancy and new born.

As I will move to Ottawa, I am sorry that I have to resign from this committee member position. I thank for your support and understanding. If there is any administrative procedure, please let me know.

Best Regards!

Angela
