Please move forward in this project, that projects Hamilton into the 21st century. Yes, there will be surprises in terms of costs, and that always has been, with any large project.
To deny the citizens of this transport opportunity, and make Hamilton and area a "go to city", be brave and move forward.
I am an older resident, living in Mount Hope , who probably will not ever use the system, and for councillors to use their constituents as a voice, is not useful.
Council has all the evidence and facts . If we want to be a great cityDo it. This is our time .
