Subject: For Council April 26 for Mayor Eisenberger and Members of Council

LRT is a Win Win

LRT is a big win for Hamilton. We get: 3500 well-paid local tradesperson jobs. 1 billion provincial dollars. New infrastructure. Raised property values. Investment. Development. Winning cities around the world use LRT because it is THE MOST EFFICIENT mode of transport; LRT is segregated with signalized priority, emits no emissions and carries the greatest number of people in the fastest manner in the smallest space. This is the definition of efficiency! We cannot pass up this critical opportunity to build our great city and partake in Ontario's largest infrastructure investment, "The Big Move". Let's build Hamilton!

Thank you,

Matthew Nash, OCT
