**Subject:** Interest in File ZAC-16-074 and Related Applications

Hello Michael !

As you may recall, I contacted you a couple weeks ago, and we spoke for quite some time on the phone about File ZAC-16-074 - the zoning and/or parking lot changes to the area around Upper Wentworth St. and Rymal Rd E in Hamilton.

Thanks very much for your time and information with that phone chat!

Just to notify you in writing, I am very interested in all aspects of this application, and any subsequent applications that might affect the physical area related to the development or further extension of the retirement residence on that corner of Upper Wentworth and Rymal. I would like to participate in any discussions that may be had, and in any Public Meetings throughout the process.

I would greatly appreciate any information around this subject area that you could possibly provide me with. As well, I'm very interested in any electronic info you many have on zoning restructure/consolidation that you and your department are planning (or have recently completed) in that area.

I will try to drop in to your office downtown in the New Year, but thought perhaps you could provide me with a "little light reading" (!!) first for over the Holidays!

Thanks so much!  
Merry Christmas and Happy Holidays!
