**Subject:** Dundas Alley

Hi Lauri, I am a frequent walker in Dundas. I think that alley ways are great way for pedestrian's to take short cuts. When I am walking, the shortest route is an important factor in reaching my destination on time. If you once allow someone to purchase one alleyway then how many more will follow???? The owner purchasing the property should have looked more closely into what an alley way is and not purchased the property if he/she did not want this. For the health of people in Dundas and Hamilton we need to keep alleyways open to the Public. They provide alternative routes, please do not sell them off to folks with money. Thank you for reading this email. Rosemary Horsewood
