Subject: LRT Why?

What % of people living in Hamilton will use it?

What will be the time saved minuets that will determine its advantage over other options?

How many years will it take to return a profit?

And for who?

Why do we need Metro links is H.S.R. not involved?

Is it well worth all the alteration to its area for the better?

Why would anyone in Stoney Creek / Winona Ancaster Dundas Binbrook Flamborough or outside two city blocks of the route use it?

Why would anyone do two to three transfers to get to it?

From Winona, a cab to old city hall, a bus to Eastgate, a bus to the circle (never have never will 20 minutes and I am down town)

Not being a smart ass but I guarantee there will be a route to the new Costco at 50 rd.

Have I wasted my time on this

Or will a common science person take note

Robin Botting
