

Hi! My name is Kim Lackie and, I have a son named Aaron Haire,

On October 23rd, 2014, Aaron was going to pick up his friend that was at the dentist at Lime Ridge Mall/Hamilton. Aaron was just that kind of friend thoughtless he would drop what he was doing to help anyone. So off he went left school went to pick up his girlfriend Kristine Williams to pick up his friend. Well they never made it to Lime Ridge. My son's car was in the slow lane and for some reason over corrected and crossed the grass median on The Lincoln Alexander Parkway and they were killed instantly.

Aaron has many friends and support as you can see here today. He is someone who has the ability to put a smile on a sad face, he always would say the right things to that someone at the right time and you couldn't help but laugh. He truly is someone that is kind and loving, He will be FOREVER 18.

The best of the best as his Nanna would say,

2 beautiful lives that were taken too soon, just look around at everyone who is here that will drive or be driving on The Linc, The Redhill and The 403.

The Barriers will save lives.

I live everyday thinking how my life and Aaron's brother, Family and Friends has changed forever and I have to keep going and have a voice and looking for change on these roads.

The pain of loss for my son Aaron never coming home again and just like the other 4 families here today, we all believe that this could have all been easily avoided if they hit a barrier and NOT, into oncoming traffic and getting t-boned. Aaron was only doing a good thing as always only him and his love of his life Kristine.

My point is that when they are crossing over to oncoming traffic this is when a death comes instead of just maybe injuries.

Thank You for taking the time to listen and looking forward to change within the next year.
