2016

3 Schools participated in bike-train to City Hall and **10** schools biked to their own school

2017

5 schools participated in bike-train to City Hall and **44** schools biked to their own school

ASST Certification

The ASST certification initiative, developed by Public Works and Public Health staff, adapted the Canadian School Travel Plan model to help schools earn recognition for ASST efforts.

School Travel Planning (STP) is a community-based approach that aims to increase the number of children and adults choosing active transportation to and from school, thereby addressing environmental, health, and safety issues.

STP Process

Step 3

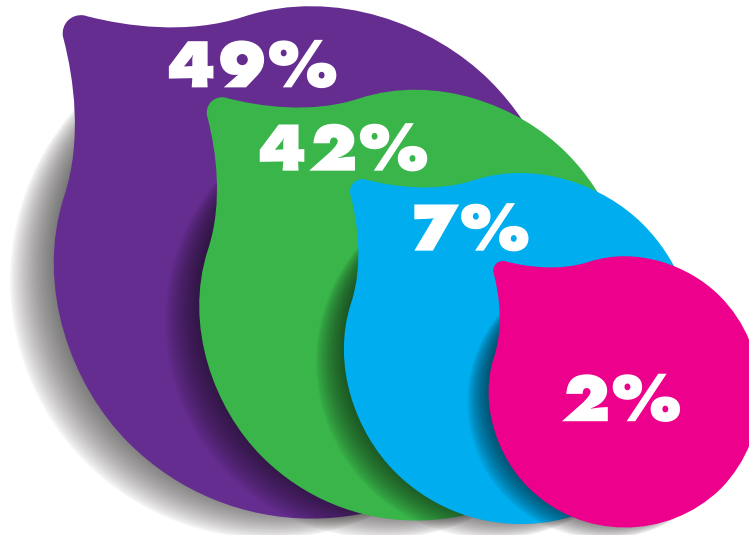

Number of Actions from STP Action Plans = **911** (2010 - 2017)

Step 4

State of Completeness

Type of Actions

- Supportive Environment
- Education & Awareness
- Policy & Advocacy
- Capacity Building

Organization Responsible for Completing Action

- City of Hamilton
- School/School Board
- Community/NGO
