**SCHEDULE "A" TO BUILDING BY-LAW NO. 15-058  
RESPECTING CLASSES OF PERMITS AND FEES**

**CALCULATION OF PERMIT FEES**

1. Permit fees shall be calculated based on the formula given below, unless otherwise specified in this schedule:

$$\text{Permit Fee} = \text{SI} \times \text{A}$$

Where SI = Service Index for the applicable Classification under Section 3 below of the work proposed, and A = floor area in m<sup>2</sup> of work involved.

**PERMIT FEES**

2. (a) Permit fees shall be rounded off to the nearest full dollar.  
(b) Where the permit fee is in excess of \$50,000 an applicant may elect to pay 55% of the full permit fee at the time of building permit application and the balance at the time of permit issuance.

**CLASSES OF PERMITS AND FEES**

3. Permit fees shall be calculated using the following table:

4. Where no new floor area is created, or where materials, systems or equipment regulated by the Building Code render it impossible to determine the permit fee on the basis of the classifications noted in this Schedule, the permit fee payable shall be 1% of the prescribed value as determined by the Chief Building Official under Subsection 6.1 of this By-law, subject to a minimum fee as per Section 3 of this Schedule.
5. The total fees under this Schedule and Schedule "C" shall be paid prior to the issuance of a permit.

#### 6. **INTERPRETATION**

In addition to referring to the Act and the Building Code in determining the fees under this By-law, the Chief Building Official may have regard to the following explanatory notes as may be needed in the calculation of permit fees:

- (a) Floor area of the proposed work is to be measured to the outer face of exterior walls and to the centre line of party walls or demising walls (but excluding residential garages);
- (b) In the case of interior alterations or renovations, area of proposed work is the actual space receiving the work (e.g. tenant space);
- (c) Mechanical penthouses and floors, mezzanines, lofts, habitable attics and interior balconies are to be included in all floor area calculations;
- (d) Except for interconnected floor spaces, no deduction is made for openings within the floor area (e.g. stairs, elevators, escalators, shafts, ducts, and similar openings);
- (e) Unfinished basements for single family dwellings, semis, duplexes and townhouses are not included in the floor area;
- (f) Attached garages and fireplaces are included in the permit fee for individual dwelling units;
- (g) Where interior alterations and renovations require relocation of sprinkler heads or fire alarm components, no additional charge is applicable;

- (h) Corridors, lobbies, washrooms, lounges, and similar areas are to be included and classified according to the major classification for the floor area on which they are located;
- (i) The occupancy categories in the Schedule correspond with the major occupancy classifications in the Building Code. For mixed occupancy floor areas, the Service Index for each of the applicable occupancy categories shall be used and the floor area associated with the major occupancy;
- (j) For Rack Storage use apply the square footage charge for industrial for the building;
- (k) A temporary building is considered to be a building that will be erected for not more than one year; and,
- (l) Where a change of use permit is subject to a fee based on floor area, "floor area" shall mean the total floor space of all storeys subject to the change of use.
