**RE: Zoning By-law Amendment Application ZAR17-047**

To the Planning Committee:

We submit this letter on behalf of the Beasley Neighbourhood Association (BNA). Briefly, we wish to express our concern with this proposed development, especially the increased height on the King William frontage. We wonder if this proposal would meet the proposed Tall Building Guidelines were they in force today.

We sincerely hope that the Planning Committee will take this issue into consideration and please know our Planning Coordinator, Rob Fiedler, will be present tomorrow to speak on behalf of the association.

Sincerely,
