(c) URBAN DESIGN BRIEF 282 MACNAB STREET NORTH, HAMILTON

The Policy and Design Working Group received the McCullum Sather Urban Design Brief for 282 Macnab Street North, Hamilton. The working group expressed concern about the height specified for the new building as it is not in keeping with the character of the neighbourhood and the typical height of the buildings in proximity to the proposed building. The working group also expressed concern for the Church next door to the proposed building, as it is set back from the street, the massing and height of the new building would likely overshadow the Church.

The documentation and salvage report Glen Brae Middle School was accepted as submitted.

Carol Priamo presented the Heritage Education Package project that she has been working on for the Beasley Neighbourhood Association.
