Subject: Development at Frances and Drakes Dr.

Hello,

I live at 9 Drakes Dr. just a few hundred feet away from the proposed development at the corner of Drakes and Frances. I understand that this empty property needs to be developed. I supported the initial townhouse proposal put forth a couple of years ago. I also supported the initial condo building that proposed at four stories, as it would fit in with the surrounding low rise neighbourhood. I find it to be outrageous, however, that it could be increased to six stories arbitrarily it seems without input and against the wishes of the established community. I moved here 15 years ago precisely because the area was single detached houses, not high rise condos. This development will be an eyesore.
